HLA-A*66:01:01:01 Genomic Plasmid Vector	PHLAG8258027	Plasmid vector containing HLA-A*66:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:01 protein under different cellular conditions.	Inquiry

HLA-A*66:01:01:02 Genomic Plasmid Vector	PHLAG8258028	Plasmid vector containing HLA-A*66:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:02 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:03 Genomic Plasmid Vector	PHLAG8258029	Plasmid vector containing HLA-A*66:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:03 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:04 Genomic Plasmid Vector	PHLAG8258030	Plasmid vector containing HLA-A*66:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:04 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:05 Genomic Plasmid Vector	PHLAG8258031	Plasmid vector containing HLA-A*66:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:05 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:06 Genomic Plasmid Vector	PHLAG8258032	Plasmid vector containing HLA-A*66:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:06 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:07 Genomic Plasmid Vector	PHLAG8258033	Plasmid vector containing HLA-A*66:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:07 protein under different cellular conditions.	Inquiry
HLA-A*66:01:01:08 Genomic Plasmid Vector	PHLAG8258034	Plasmid vector containing HLA-A*66:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:01:08 protein under different cellular conditions.	Inquiry
HLA-A*66:01:02 Genomic Plasmid Vector	PHLAG8258035	Plasmid vector containing HLA-A*66:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:02 protein under different cellular conditions.	Inquiry
HLA-A*66:01:03 Genomic Plasmid Vector	PHLAG8258036	Plasmid vector containing HLA-A*66:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:03 protein under different cellular conditions.	Inquiry

HLA-A*66:01:04 Genomic Plasmid Vector	PHLAG8258037	Plasmid vector containing HLA-A*66:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:04 protein under different cellular conditions.	Inquiry
HLA-A*66:01:05 Genomic Plasmid Vector	PHLAG8258038	Plasmid vector containing HLA-A*66:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:05 protein under different cellular conditions.	Inquiry
HLA-A*66:01:06 Genomic Plasmid Vector	PHLAG8258039	Plasmid vector containing HLA-A*66:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:06 protein under different cellular conditions.	Inquiry
HLA-A*66:01:07 Genomic Plasmid Vector	PHLAG8258040	Plasmid vector containing HLA-A*66:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:07 protein under different cellular conditions.	Inquiry
HLA-A*66:01:08 Genomic Plasmid Vector	PHLAG8258041	Plasmid vector containing HLA-A*66:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:01:08 protein under different cellular conditions.	Inquiry
HLA-A*66:02:01:01 Genomic Plasmid Vector	PHLAG8258042	Plasmid vector containing HLA-A*66:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:02:01:01 protein under different cellular conditions.	Inquiry
HLA-A*66:02:01:02 Genomic Plasmid Vector	PHLAG8258043	Plasmid vector containing HLA-A*66:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:02:01:02 protein under different cellular conditions.	Inquiry
HLA-A*66:02:01:03 Genomic Plasmid Vector	PHLAG8258044	Plasmid vector containing HLA-A*66:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:02:01:03 protein under different cellular conditions.	Inquiry
HLA-A*66:03:01:01 Genomic Plasmid Vector	PHLAG8258045	Plasmid vector containing HLA-A*66:03:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:03:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:03:01:01 protein under different cellular conditions.	Inquiry

HLA-A*66:03:01:02 Genomic Plasmid Vector	PHLAG8258046	Plasmid vector containing HLA-A*66:03:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:03:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:03:01:02 protein under different cellular conditions.	Inquiry
HLA-A*66:03:01:03 Genomic Plasmid Vector	PHLAG8258047	Plasmid vector containing HLA-A*66:03:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:03:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:03:01:03 protein under different cellular conditions.	Inquiry
HLA-A*66:04 Genomic Plasmid Vector	PHLAG8258048	Plasmid vector containing HLA-A*66:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:04 protein under different cellular conditions.	Inquiry
HLA-A*66:05 Genomic Plasmid Vector	PHLAG8258049	Plasmid vector containing HLA-A*66:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:05 protein under different cellular conditions.	Inquiry
HLA-A*66:06 Genomic Plasmid Vector	PHLAG8258050	Plasmid vector containing HLA-A*66:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:06 protein under different cellular conditions.	Inquiry
HLA-A*66:07 Genomic Plasmid Vector	PHLAG8258051	Plasmid vector containing HLA-A*66:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:07 protein under different cellular conditions.	Inquiry
HLA-A*66:08 Genomic Plasmid Vector	PHLAG8258052	Plasmid vector containing HLA-A*66:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:08 protein under different cellular conditions.	Inquiry
HLA-A*66:09 Genomic Plasmid Vector	PHLAG8258053	Plasmid vector containing HLA-A*66:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:09 protein under different cellular conditions.	Inquiry
HLA-A*66:10 Genomic Plasmid Vector	PHLAG8258054	Plasmid vector containing HLA-A*66:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:10 protein under different cellular conditions.	Inquiry

HLA-A*66:11 Genomic Plasmid Vector	PHLAG8258055	Plasmid vector containing HLA-A*66:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:11 protein under different cellular conditions.	Inquiry
HLA-A*66:12 Genomic Plasmid Vector	PHLAG8258056	Plasmid vector containing HLA-A*66:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:12 protein under different cellular conditions.	Inquiry
HLA-A*66:13 Genomic Plasmid Vector	PHLAG8258057	Plasmid vector containing HLA-A*66:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:13 protein under different cellular conditions.	Inquiry
HLA-A*66:14 Genomic Plasmid Vector	PHLAG8258058	Plasmid vector containing HLA-A*66:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:14 protein under different cellular conditions.	Inquiry
HLA-A*66:15 Genomic Plasmid Vector	PHLAG8258059	Plasmid vector containing HLA-A*66:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:15 protein under different cellular conditions.	Inquiry
HLA-A*66:16 Genomic Plasmid Vector	PHLAG8258060	Plasmid vector containing HLA-A*66:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:16 protein under different cellular conditions.	Inquiry
HLA-A*66:17 Genomic Plasmid Vector	PHLAG8258061	Plasmid vector containing HLA-A*66:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:17 protein under different cellular conditions.	Inquiry
HLA-A*66:18 Genomic Plasmid Vector	PHLAG8258062	Plasmid vector containing HLA-A*66:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:18 protein under different cellular conditions.	Inquiry
HLA-A*66:19 Genomic Plasmid Vector	PHLAG8258063	Plasmid vector containing HLA-A*66:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:19 protein under different cellular conditions.	Inquiry

HLA-A*66:20 Genomic Plasmid Vector	PHLAG8258064	Plasmid vector containing HLA-A*66:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:20 protein under different cellular conditions.	Inquiry
HLA-A*66:21 Genomic Plasmid Vector	PHLAG8258065	Plasmid vector containing HLA-A*66:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:21 protein under different cellular conditions.	Inquiry
HLA-A*66:22 Genomic Plasmid Vector	PHLAG8258066	Plasmid vector containing HLA-A*66:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:22 protein under different cellular conditions.	Inquiry
HLA-A*66:23 Genomic Plasmid Vector	PHLAG8258067	Plasmid vector containing HLA-A*66:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:23 protein under different cellular conditions.	Inquiry
HLA-A*66:24 Genomic Plasmid Vector	PHLAG8258068	Plasmid vector containing HLA-A*66:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:24 protein under different cellular conditions.	Inquiry
HLA-A*66:25 Genomic Plasmid Vector	PHLAG8258069	Plasmid vector containing HLA-A*66:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:25 protein under different cellular conditions.	Inquiry
HLA-A*66:26Q Genomic Plasmid Vector	PHLAG8258070	Plasmid vector containing HLA-A*66:26Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:26Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:26Q protein under different cellular conditions.	Inquiry
HLA-A*66:27N Genomic Plasmid Vector	PHLAG8258071	Plasmid vector containing HLA-A*66:27N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:27N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:27N protein under different cellular conditions.	Inquiry
HLA-A*66:28N Genomic Plasmid Vector	PHLAG8258072	Plasmid vector containing HLA-A*66:28N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:28N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:28N protein under different cellular conditions.	Inquiry

HLA-A*66:29 Genomic Plasmid Vector	PHLAG8258073	Plasmid vector containing HLA-A*66:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:29 protein under different cellular conditions.	Inquiry
HLA-A*66:30 Genomic Plasmid Vector	PHLAG8258074	Plasmid vector containing HLA-A*66:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:30 protein under different cellular conditions.	Inquiry
HLA-A*66:31 Genomic Plasmid Vector	PHLAG8258075	Plasmid vector containing HLA-A*66:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:31 protein under different cellular conditions.	Inquiry
HLA-A*66:32 Genomic Plasmid Vector	PHLAG8258076	Plasmid vector containing HLA-A*66:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:32 protein under different cellular conditions.	Inquiry
HLA-A*66:33 Genomic Plasmid Vector	PHLAG8258077	Plasmid vector containing HLA-A*66:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:33 protein under different cellular conditions.	Inquiry
HLA-A*66:34 Genomic Plasmid Vector	PHLAG8258078	Plasmid vector containing HLA-A*66:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:34 protein under different cellular conditions.	Inquiry
HLA-A*66:35 Genomic Plasmid Vector	PHLAG8258079	Plasmid vector containing HLA-A*66:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:35 protein under different cellular conditions.	Inquiry
HLA-A*66:36 Genomic Plasmid Vector	PHLAG8258080	Plasmid vector containing HLA-A*66:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:36 protein under different cellular conditions.	Inquiry
HLA-A*66:37 Genomic Plasmid Vector	PHLAG8258081	Plasmid vector containing HLA-A*66:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:37 protein under different cellular conditions.	Inquiry

HLA-A*66:38 Genomic Plasmid Vector	PHLAG8258082	Plasmid vector containing HLA-A*66:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:38 protein under different cellular conditions.	Inquiry
HLA-A*66:39N Genomic Plasmid Vector	PHLAG8258083	Plasmid vector containing HLA-A*66:39N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:39N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:39N protein under different cellular conditions.	Inquiry
HLA-A*66:40 Genomic Plasmid Vector	PHLAG8258084	Plasmid vector containing HLA-A*66:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:40 protein under different cellular conditions.	Inquiry
HLA-A*66:41 Genomic Plasmid Vector	PHLAG8258085	Plasmid vector containing HLA-A*66:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:41 protein under different cellular conditions.	Inquiry
HLA-A*66:42 Genomic Plasmid Vector	PHLAG8258086	Plasmid vector containing HLA-A*66:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:42 protein under different cellular conditions.	Inquiry
HLA-A*66:43 Genomic Plasmid Vector	PHLAG8258087	Plasmid vector containing HLA-A*66:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:43 protein under different cellular conditions.	Inquiry
HLA-A*66:44 Genomic Plasmid Vector	PHLAG8258088	Plasmid vector containing HLA-A*66:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:44 protein under different cellular conditions.	Inquiry
HLA-A*66:45 Genomic Plasmid Vector	PHLAG8258089	Plasmid vector containing HLA-A*66:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:45 protein under different cellular conditions.	Inquiry
HLA-A*66:46 Genomic Plasmid Vector	PHLAG8258090	Plasmid vector containing HLA-A*66:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:46 protein under different cellular conditions.	Inquiry

HLA-A*66:47 Genomic Plasmid Vector	PHLAG8258091	Plasmid vector containing HLA-A*66:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:47 protein under different cellular conditions.	Inquiry
HLA-A*66:48 Genomic Plasmid Vector	PHLAG8258092	Plasmid vector containing HLA-A*66:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:48 protein under different cellular conditions.	Inquiry
HLA-A*66:49 Genomic Plasmid Vector	PHLAG8258093	Plasmid vector containing HLA-A*66:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*66:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*66:49 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:01 Genomic Plasmid Vector	PHLAG8258094	Plasmid vector containing HLA-A*68:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:01 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:02 Genomic Plasmid Vector	PHLAG8258095	Plasmid vector containing HLA-A*68:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:02 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:03 Genomic Plasmid Vector	PHLAG8258096	Plasmid vector containing HLA-A*68:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:03 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:04 Genomic Plasmid Vector	PHLAG8258097	Plasmid vector containing HLA-A*68:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:04 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:05 Genomic Plasmid Vector	PHLAG8258098	Plasmid vector containing HLA-A*68:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:05 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:06 Genomic Plasmid Vector	PHLAG8258099	Plasmid vector containing HLA-A*68:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:06 protein under different cellular conditions.	Inquiry

HLA-A*68:01:01:07 Genomic Plasmid Vector	PHLAG8258100	Plasmid vector containing HLA-A*68:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:07 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:08 Genomic Plasmid Vector	PHLAG8258101	Plasmid vector containing HLA-A*68:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:08 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:09 Genomic Plasmid Vector	PHLAG8258102	Plasmid vector containing HLA-A*68:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:09 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:10 Genomic Plasmid Vector	PHLAG8258103	Plasmid vector containing HLA-A*68:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:10 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:11 Genomic Plasmid Vector	PHLAG8258104	Plasmid vector containing HLA-A*68:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:11 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:12 Genomic Plasmid Vector	PHLAG8258105	Plasmid vector containing HLA-A*68:01:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:12 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:13 Genomic Plasmid Vector	PHLAG8258106	Plasmid vector containing HLA-A*68:01:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:13 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:14 Genomic Plasmid Vector	PHLAG8258107	Plasmid vector containing HLA-A*68:01:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:14 protein under different cellular conditions.	Inquiry
HLA-A*68:01:01:15 Genomic Plasmid Vector	PHLAG8258108	Plasmid vector containing HLA-A*68:01:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:01:15 protein under different cellular conditions.	Inquiry

HLA-A*68:01:02:01 Genomic Plasmid Vector	PHLAG8258109	Plasmid vector containing HLA-A*68:01:02:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:01 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:02 Genomic Plasmid Vector	PHLAG8258110	Plasmid vector containing HLA-A*68:01:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:02 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:03 Genomic Plasmid Vector	PHLAG8258111	Plasmid vector containing HLA-A*68:01:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:03 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:04 Genomic Plasmid Vector	PHLAG8258112	Plasmid vector containing HLA-A*68:01:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:04 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:05 Genomic Plasmid Vector	PHLAG8258113	Plasmid vector containing HLA-A*68:01:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:05 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:06 Genomic Plasmid Vector	PHLAG8258114	Plasmid vector containing HLA-A*68:01:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:06 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:07 Genomic Plasmid Vector	PHLAG8258115	Plasmid vector containing HLA-A*68:01:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:07 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:08 Genomic Plasmid Vector	PHLAG8258116	Plasmid vector containing HLA-A*68:01:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:08 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:09 Genomic Plasmid Vector	PHLAG8258117	Plasmid vector containing HLA-A*68:01:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:09 protein under different cellular conditions.	Inquiry

HLA-A*68:01:02:10 Genomic Plasmid Vector	PHLAG8258118	Plasmid vector containing HLA-A*68:01:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:10 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:11 Genomic Plasmid Vector	PHLAG8258119	Plasmid vector containing HLA-A*68:01:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:11 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:12 Genomic Plasmid Vector	PHLAG8258120	Plasmid vector containing HLA-A*68:01:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:12 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:13 Genomic Plasmid Vector	PHLAG8258121	Plasmid vector containing HLA-A*68:01:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:13 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:14 Genomic Plasmid Vector	PHLAG8258122	Plasmid vector containing HLA-A*68:01:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:14 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:15 Genomic Plasmid Vector	PHLAG8258123	Plasmid vector containing HLA-A*68:01:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:15 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:16 Genomic Plasmid Vector	PHLAG8258124	Plasmid vector containing HLA-A*68:01:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:16 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:17 Genomic Plasmid Vector	PHLAG8258125	Plasmid vector containing HLA-A*68:01:02:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:17 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:18 Genomic Plasmid Vector	PHLAG8258126	Plasmid vector containing HLA-A*68:01:02:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:18 protein under different cellular conditions.	Inquiry

HLA-A*68:01:02:19 Genomic Plasmid Vector	PHLAG8258127	Plasmid vector containing HLA-A*68:01:02:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:19 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:20 Genomic Plasmid Vector	PHLAG8258128	Plasmid vector containing HLA-A*68:01:02:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:20 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:21 Genomic Plasmid Vector	PHLAG8258129	Plasmid vector containing HLA-A*68:01:02:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:21 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:22 Genomic Plasmid Vector	PHLAG8258130	Plasmid vector containing HLA-A*68:01:02:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:22 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:23 Genomic Plasmid Vector	PHLAG8258131	Plasmid vector containing HLA-A*68:01:02:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:23 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:24 Genomic Plasmid Vector	PHLAG8258132	Plasmid vector containing HLA-A*68:01:02:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:24 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:25 Genomic Plasmid Vector	PHLAG8258133	Plasmid vector containing HLA-A*68:01:02:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:25 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:26 Genomic Plasmid Vector	PHLAG8258134	Plasmid vector containing HLA-A*68:01:02:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:26 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:27 Genomic Plasmid Vector	PHLAG8258135	Plasmid vector containing HLA-A*68:01:02:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:27 protein under different cellular conditions.	Inquiry

HLA-A*68:01:02:28 Genomic Plasmid Vector	PHLAG8258136	Plasmid vector containing HLA-A*68:01:02:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:28 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:29 Genomic Plasmid Vector	PHLAG8258137	Plasmid vector containing HLA-A*68:01:02:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:29 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:30 Genomic Plasmid Vector	PHLAG8258138	Plasmid vector containing HLA-A*68:01:02:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:30 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:31 Genomic Plasmid Vector	PHLAG8258139	Plasmid vector containing HLA-A*68:01:02:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:31 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:32 Genomic Plasmid Vector	PHLAG8258140	Plasmid vector containing HLA-A*68:01:02:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:32 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:33 Genomic Plasmid Vector	PHLAG8258141	Plasmid vector containing HLA-A*68:01:02:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:33 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:34 Genomic Plasmid Vector	PHLAG8258142	Plasmid vector containing HLA-A*68:01:02:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:34 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:35 Genomic Plasmid Vector	PHLAG8258143	Plasmid vector containing HLA-A*68:01:02:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:35 protein under different cellular conditions.	Inquiry
HLA-A*68:01:02:36 Genomic Plasmid Vector	PHLAG8258144	Plasmid vector containing HLA-A*68:01:02:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:36 protein under different cellular conditions.	Inquiry

HLA-A*68:01:02:37 Genomic Plasmid Vector	PHLAG8258145	Plasmid vector containing HLA-A*68:01:02:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:02:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:02:37 protein under different cellular conditions.	Inquiry
HLA-A*68:01:03 Genomic Plasmid Vector	PHLAG8258146	Plasmid vector containing HLA-A*68:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:03 protein under different cellular conditions.	Inquiry
HLA-A*68:01:04 Genomic Plasmid Vector	PHLAG8258147	Plasmid vector containing HLA-A*68:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:04 protein under different cellular conditions.	Inquiry
HLA-A*68:01:05 Genomic Plasmid Vector	PHLAG8258148	Plasmid vector containing HLA-A*68:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:05 protein under different cellular conditions.	Inquiry
HLA-A*68:01:06 Genomic Plasmid Vector	PHLAG8258149	Plasmid vector containing HLA-A*68:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:06 protein under different cellular conditions.	Inquiry
HLA-A*68:01:07 Genomic Plasmid Vector	PHLAG8258150	Plasmid vector containing HLA-A*68:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:07 protein under different cellular conditions.	Inquiry
HLA-A*68:01:08 Genomic Plasmid Vector	PHLAG8258151	Plasmid vector containing HLA-A*68:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:08 protein under different cellular conditions.	Inquiry
HLA-A*68:01:09 Genomic Plasmid Vector	PHLAG8258152	Plasmid vector containing HLA-A*68:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:09 protein under different cellular conditions.	Inquiry
HLA-A*68:01:10 Genomic Plasmid Vector	PHLAG8258153	Plasmid vector containing HLA-A*68:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:10 protein under different cellular conditions.	Inquiry

HLA-A*68:01:11 Genomic Plasmid Vector	PHLAG8258154	Plasmid vector containing HLA-A*68:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:11 protein under different cellular conditions.	Inquiry
HLA-A*68:01:12 Genomic Plasmid Vector	PHLAG8258155	Plasmid vector containing HLA-A*68:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:12 protein under different cellular conditions.	Inquiry
HLA-A*68:01:13 Genomic Plasmid Vector	PHLAG8258156	Plasmid vector containing HLA-A*68:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:13 protein under different cellular conditions.	Inquiry
HLA-A*68:01:14 Genomic Plasmid Vector	PHLAG8258157	Plasmid vector containing HLA-A*68:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:14 protein under different cellular conditions.	Inquiry
HLA-A*68:01:15 Genomic Plasmid Vector	PHLAG8258158	Plasmid vector containing HLA-A*68:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:15 protein under different cellular conditions.	Inquiry
HLA-A*68:01:16 Genomic Plasmid Vector	PHLAG8258159	Plasmid vector containing HLA-A*68:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:16 protein under different cellular conditions.	Inquiry
HLA-A*68:01:17 Genomic Plasmid Vector	PHLAG8258160	Plasmid vector containing HLA-A*68:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:17 protein under different cellular conditions.	Inquiry
HLA-A*68:01:18 Genomic Plasmid Vector	PHLAG8258161	Plasmid vector containing HLA-A*68:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:18 protein under different cellular conditions.	Inquiry
HLA-A*68:01:19 Genomic Plasmid Vector	PHLAG8258162	Plasmid vector containing HLA-A*68:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:19 protein under different cellular conditions.	Inquiry

HLA-A*68:01:20 Genomic Plasmid Vector	PHLAG8258163	Plasmid vector containing HLA-A*68:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:20 protein under different cellular conditions.	Inquiry
HLA-A*68:01:21 Genomic Plasmid Vector	PHLAG8258164	Plasmid vector containing HLA-A*68:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:21 protein under different cellular conditions.	Inquiry
HLA-A*68:01:22 Genomic Plasmid Vector	PHLAG8258165	Plasmid vector containing HLA-A*68:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:22 protein under different cellular conditions.	Inquiry
HLA-A*68:01:23 Genomic Plasmid Vector	PHLAG8258166	Plasmid vector containing HLA-A*68:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:23 protein under different cellular conditions.	Inquiry
HLA-A*68:01:24 Genomic Plasmid Vector	PHLAG8258167	Plasmid vector containing HLA-A*68:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:24 protein under different cellular conditions.	Inquiry
HLA-A*68:01:25 Genomic Plasmid Vector	PHLAG8258168	Plasmid vector containing HLA-A*68:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:25 protein under different cellular conditions.	Inquiry
HLA-A*68:01:26 Genomic Plasmid Vector	PHLAG8258169	Plasmid vector containing HLA-A*68:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:26 protein under different cellular conditions.	Inquiry
HLA-A*68:01:27 Genomic Plasmid Vector	PHLAG8258170	Plasmid vector containing HLA-A*68:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:27 protein under different cellular conditions.	Inquiry
HLA-A*68:01:28 Genomic Plasmid Vector	PHLAG8258171	Plasmid vector containing HLA-A*68:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:28 protein under different cellular conditions.	Inquiry

HLA-A*68:01:29 Genomic Plasmid Vector	PHLAG8258172	Plasmid vector containing HLA-A*68:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:29 protein under different cellular conditions.	Inquiry
HLA-A*68:01:30 Genomic Plasmid Vector	PHLAG8258173	Plasmid vector containing HLA-A*68:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:30 protein under different cellular conditions.	Inquiry
HLA-A*68:01:31 Genomic Plasmid Vector	PHLAG8258174	Plasmid vector containing HLA-A*68:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:31 protein under different cellular conditions.	Inquiry
HLA-A*68:01:32 Genomic Plasmid Vector	PHLAG8258175	Plasmid vector containing HLA-A*68:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:32 protein under different cellular conditions.	Inquiry
HLA-A*68:01:33 Genomic Plasmid Vector	PHLAG8258176	Plasmid vector containing HLA-A*68:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:33 protein under different cellular conditions.	Inquiry
HLA-A*68:01:34 Genomic Plasmid Vector	PHLAG8258177	Plasmid vector containing HLA-A*68:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:34 protein under different cellular conditions.	Inquiry
HLA-A*68:01:35 Genomic Plasmid Vector	PHLAG8258178	Plasmid vector containing HLA-A*68:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:35 protein under different cellular conditions.	Inquiry
HLA-A*68:01:36 Genomic Plasmid Vector	PHLAG8258179	Plasmid vector containing HLA-A*68:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:36 protein under different cellular conditions.	Inquiry
HLA-A*68:01:37 Genomic Plasmid Vector	PHLAG8258180	Plasmid vector containing HLA-A*68:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:37 protein under different cellular conditions.	Inquiry

HLA-A*68:01:38 Genomic Plasmid Vector	PHLAG8258181	Plasmid vector containing HLA-A*68:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:38 protein under different cellular conditions.	Inquiry
HLA-A*68:01:39 Genomic Plasmid Vector	PHLAG8258182	Plasmid vector containing HLA-A*68:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:39 protein under different cellular conditions.	Inquiry
HLA-A*68:01:40 Genomic Plasmid Vector	PHLAG8258183	Plasmid vector containing HLA-A*68:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:40 protein under different cellular conditions.	Inquiry
HLA-A*68:01:41 Genomic Plasmid Vector	PHLAG8258184	Plasmid vector containing HLA-A*68:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:41 protein under different cellular conditions.	Inquiry
HLA-A*68:01:42 Genomic Plasmid Vector	PHLAG8258185	Plasmid vector containing HLA-A*68:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:42 protein under different cellular conditions.	Inquiry
HLA-A*68:01:43 Genomic Plasmid Vector	PHLAG8258186	Plasmid vector containing HLA-A*68:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:43 protein under different cellular conditions.	Inquiry
HLA-A*68:01:44 Genomic Plasmid Vector	PHLAG8258187	Plasmid vector containing HLA-A*68:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:44 protein under different cellular conditions.	Inquiry
HLA-A*68:01:45 Genomic Plasmid Vector	PHLAG8258188	Plasmid vector containing HLA-A*68:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:45 protein under different cellular conditions.	Inquiry
HLA-A*68:01:46 Genomic Plasmid Vector	PHLAG8258189	Plasmid vector containing HLA-A*68:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:46 protein under different cellular conditions.	Inquiry

HLA-A*68:01:47 Genomic Plasmid Vector	PHLAG8258190	Plasmid vector containing HLA-A*68:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:47 protein under different cellular conditions.	Inquiry
HLA-A*68:01:48 Genomic Plasmid Vector	PHLAG8258191	Plasmid vector containing HLA-A*68:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:48 protein under different cellular conditions.	Inquiry
HLA-A*68:01:49 Genomic Plasmid Vector	PHLAG8258192	Plasmid vector containing HLA-A*68:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:49 protein under different cellular conditions.	Inquiry
HLA-A*68:01:50 Genomic Plasmid Vector	PHLAG8258193	Plasmid vector containing HLA-A*68:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:50 protein under different cellular conditions.	Inquiry
HLA-A*68:01:51 Genomic Plasmid Vector	PHLAG8258194	Plasmid vector containing HLA-A*68:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:51 protein under different cellular conditions.	Inquiry
HLA-A*68:01:52 Genomic Plasmid Vector	PHLAG8258195	Plasmid vector containing HLA-A*68:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:52 protein under different cellular conditions.	Inquiry
HLA-A*68:01:53 Genomic Plasmid Vector	PHLAG8258196	Plasmid vector containing HLA-A*68:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:53 protein under different cellular conditions.	Inquiry
HLA-A*68:01:54 Genomic Plasmid Vector	PHLAG8258197	Plasmid vector containing HLA-A*68:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:54 protein under different cellular conditions.	Inquiry
HLA-A*68:01:55 Genomic Plasmid Vector	PHLAG8258198	Plasmid vector containing HLA-A*68:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:55 protein under different cellular conditions.	Inquiry

HLA-A*68:01:56 Genomic Plasmid Vector	PHLAG8258199	Plasmid vector containing HLA-A*68:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:56 protein under different cellular conditions.	Inquiry
HLA-A*68:01:57 Genomic Plasmid Vector	PHLAG8258200	Plasmid vector containing HLA-A*68:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:57 protein under different cellular conditions.	Inquiry
HLA-A*68:01:58 Genomic Plasmid Vector	PHLAG8258201	Plasmid vector containing HLA-A*68:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:58 protein under different cellular conditions.	Inquiry
HLA-A*68:01:59Q Genomic Plasmid Vector	PHLAG8258202	Plasmid vector containing HLA-A*68:01:59Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:59Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:59Q protein under different cellular conditions.	Inquiry
HLA-A*68:01:60 Genomic Plasmid Vector	PHLAG8258203	Plasmid vector containing HLA-A*68:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:60 protein under different cellular conditions.	Inquiry
HLA-A*68:01:61 Genomic Plasmid Vector	PHLAG8258204	Plasmid vector containing HLA-A*68:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:61 protein under different cellular conditions.	Inquiry
HLA-A*68:01:62 Genomic Plasmid Vector	PHLAG8258205	Plasmid vector containing HLA-A*68:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:62 protein under different cellular conditions.	Inquiry
HLA-A*68:01:63 Genomic Plasmid Vector	PHLAG8258206	Plasmid vector containing HLA-A*68:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:63 protein under different cellular conditions.	Inquiry
HLA-A*68:01:64 Genomic Plasmid Vector	PHLAG8258207	Plasmid vector containing HLA-A*68:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:64 protein under different cellular conditions.	Inquiry

HLA-A*68:01:65 Genomic Plasmid Vector	PHLAG8258208	Plasmid vector containing HLA-A*68:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:65 protein under different cellular conditions.	Inquiry
HLA-A*68:01:66 Genomic Plasmid Vector	PHLAG8258209	Plasmid vector containing HLA-A*68:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:66 protein under different cellular conditions.	Inquiry
HLA-A*68:01:67 Genomic Plasmid Vector	PHLAG8258210	Plasmid vector containing HLA-A*68:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:67 protein under different cellular conditions.	Inquiry
HLA-A*68:01:68 Genomic Plasmid Vector	PHLAG8258211	Plasmid vector containing HLA-A*68:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:68 protein under different cellular conditions.	Inquiry
HLA-A*68:01:69 Genomic Plasmid Vector	PHLAG8258212	Plasmid vector containing HLA-A*68:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:01:69 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:01 Genomic Plasmid Vector	PHLAG8258213	Plasmid vector containing HLA-A*68:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:01 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:02 Genomic Plasmid Vector	PHLAG8258214	Plasmid vector containing HLA-A*68:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:02 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:03 Genomic Plasmid Vector	PHLAG8258215	Plasmid vector containing HLA-A*68:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:03 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:04 Genomic Plasmid Vector	PHLAG8258216	Plasmid vector containing HLA-A*68:02:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:04 protein under different cellular conditions.	Inquiry

HLA-A*68:02:01:05 Genomic Plasmid Vector	PHLAG8258217	Plasmid vector containing HLA-A*68:02:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:05 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:06 Genomic Plasmid Vector	PHLAG8258218	Plasmid vector containing HLA-A*68:02:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:06 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:07 Genomic Plasmid Vector	PHLAG8258219	Plasmid vector containing HLA-A*68:02:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:07 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:08 Genomic Plasmid Vector	PHLAG8258220	Plasmid vector containing HLA-A*68:02:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:08 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:09 Genomic Plasmid Vector	PHLAG8258221	Plasmid vector containing HLA-A*68:02:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:09 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:10 Genomic Plasmid Vector	PHLAG8258222	Plasmid vector containing HLA-A*68:02:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:10 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:11 Genomic Plasmid Vector	PHLAG8258223	Plasmid vector containing HLA-A*68:02:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:11 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:12 Genomic Plasmid Vector	PHLAG8258224	Plasmid vector containing HLA-A*68:02:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:12 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:13 Genomic Plasmid Vector	PHLAG8258225	Plasmid vector containing HLA-A*68:02:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:13 protein under different cellular conditions.	Inquiry

HLA-A*68:02:01:14 Genomic Plasmid Vector	PHLAG8258226	Plasmid vector containing HLA-A*68:02:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:14 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:15 Genomic Plasmid Vector	PHLAG8258227	Plasmid vector containing HLA-A*68:02:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:15 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:16 Genomic Plasmid Vector	PHLAG8258228	Plasmid vector containing HLA-A*68:02:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:16 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:17 Genomic Plasmid Vector	PHLAG8258229	Plasmid vector containing HLA-A*68:02:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:17 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:18 Genomic Plasmid Vector	PHLAG8258230	Plasmid vector containing HLA-A*68:02:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:18 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:19 Genomic Plasmid Vector	PHLAG8258231	Plasmid vector containing HLA-A*68:02:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:19 protein under different cellular conditions.	Inquiry
HLA-A*68:02:01:20 Genomic Plasmid Vector	PHLAG8258232	Plasmid vector containing HLA-A*68:02:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:01:20 protein under different cellular conditions.	Inquiry
HLA-A*68:02:02 Genomic Plasmid Vector	PHLAG8258233	Plasmid vector containing HLA-A*68:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:02 protein under different cellular conditions.	Inquiry
HLA-A*68:02:03 Genomic Plasmid Vector	PHLAG8258234	Plasmid vector containing HLA-A*68:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:03 protein under different cellular conditions.	Inquiry

HLA-A*68:02:04 Genomic Plasmid Vector	PHLAG8258235	Plasmid vector containing HLA-A*68:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:04 protein under different cellular conditions.	Inquiry
HLA-A*68:02:05 Genomic Plasmid Vector	PHLAG8258236	Plasmid vector containing HLA-A*68:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:05 protein under different cellular conditions.	Inquiry
HLA-A*68:02:06 Genomic Plasmid Vector	PHLAG8258237	Plasmid vector containing HLA-A*68:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:06 protein under different cellular conditions.	Inquiry
HLA-A*68:02:07 Genomic Plasmid Vector	PHLAG8258238	Plasmid vector containing HLA-A*68:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:07 protein under different cellular conditions.	Inquiry
HLA-A*68:02:08 Genomic Plasmid Vector	PHLAG8258239	Plasmid vector containing HLA-A*68:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:08 protein under different cellular conditions.	Inquiry
HLA-A*68:02:09 Genomic Plasmid Vector	PHLAG8258240	Plasmid vector containing HLA-A*68:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:09 protein under different cellular conditions.	Inquiry
HLA-A*68:02:10 Genomic Plasmid Vector	PHLAG8258241	Plasmid vector containing HLA-A*68:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:10 protein under different cellular conditions.	Inquiry
HLA-A*68:02:11 Genomic Plasmid Vector	PHLAG8258242	Plasmid vector containing HLA-A*68:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:11 protein under different cellular conditions.	Inquiry
HLA-A*68:02:12 Genomic Plasmid Vector	PHLAG8258243	Plasmid vector containing HLA-A*68:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:12 protein under different cellular conditions.	Inquiry

HLA-A*68:02:13 Genomic Plasmid Vector	PHLAG8258244	Plasmid vector containing HLA-A*68:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:13 protein under different cellular conditions.	Inquiry
HLA-A*68:02:14 Genomic Plasmid Vector	PHLAG8258245	Plasmid vector containing HLA-A*68:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:14 protein under different cellular conditions.	Inquiry
HLA-A*68:02:15 Genomic Plasmid Vector	PHLAG8258246	Plasmid vector containing HLA-A*68:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:15 protein under different cellular conditions.	Inquiry
HLA-A*68:02:16 Genomic Plasmid Vector	PHLAG8258247	Plasmid vector containing HLA-A*68:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:16 protein under different cellular conditions.	Inquiry
HLA-A*68:02:17 Genomic Plasmid Vector	PHLAG8258248	Plasmid vector containing HLA-A*68:02:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:17 protein under different cellular conditions.	Inquiry
HLA-A*68:02:18 Genomic Plasmid Vector	PHLAG8258249	Plasmid vector containing HLA-A*68:02:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:18 protein under different cellular conditions.	Inquiry
HLA-A*68:02:19 Genomic Plasmid Vector	PHLAG8258250	Plasmid vector containing HLA-A*68:02:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:19 protein under different cellular conditions.	Inquiry
HLA-A*68:02:20 Genomic Plasmid Vector	PHLAG8258251	Plasmid vector containing HLA-A*68:02:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:20 protein under different cellular conditions.	Inquiry
HLA-A*68:02:21 Genomic Plasmid Vector	PHLAG8258252	Plasmid vector containing HLA-A*68:02:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:21 protein under different cellular conditions.	Inquiry

HLA-A*68:02:22 Genomic Plasmid Vector	PHLAG8258253	Plasmid vector containing HLA-A*68:02:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:22 protein under different cellular conditions.	Inquiry
HLA-A*68:02:23 Genomic Plasmid Vector	PHLAG8258254	Plasmid vector containing HLA-A*68:02:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:23 protein under different cellular conditions.	Inquiry
HLA-A*68:02:24 Genomic Plasmid Vector	PHLAG8258255	Plasmid vector containing HLA-A*68:02:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:24 protein under different cellular conditions.	Inquiry
HLA-A*68:02:25 Genomic Plasmid Vector	PHLAG8258256	Plasmid vector containing HLA-A*68:02:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:25 protein under different cellular conditions.	Inquiry
HLA-A*68:02:26 Genomic Plasmid Vector	PHLAG8258257	Plasmid vector containing HLA-A*68:02:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:26 protein under different cellular conditions.	Inquiry
HLA-A*68:02:27 Genomic Plasmid Vector	PHLAG8258258	Plasmid vector containing HLA-A*68:02:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:27 protein under different cellular conditions.	Inquiry
HLA-A*68:02:28 Genomic Plasmid Vector	PHLAG8258259	Plasmid vector containing HLA-A*68:02:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:02:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:02:28 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:01 Genomic Plasmid Vector	PHLAG8258260	Plasmid vector containing HLA-A*68:03:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:01 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:02 Genomic Plasmid Vector	PHLAG8258261	Plasmid vector containing HLA-A*68:03:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:02 protein under different cellular conditions.	Inquiry

HLA-A*68:03:01:03 Genomic Plasmid Vector	PHLAG8258262	Plasmid vector containing HLA-A*68:03:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:03 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:04 Genomic Plasmid Vector	PHLAG8258263	Plasmid vector containing HLA-A*68:03:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:04 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:05 Genomic Plasmid Vector	PHLAG8258264	Plasmid vector containing HLA-A*68:03:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:05 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:06 Genomic Plasmid Vector	PHLAG8258265	Plasmid vector containing HLA-A*68:03:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:06 protein under different cellular conditions.	Inquiry
HLA-A*68:03:01:07 Genomic Plasmid Vector	PHLAG8258266	Plasmid vector containing HLA-A*68:03:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:01:07 protein under different cellular conditions.	Inquiry
HLA-A*68:03:02 Genomic Plasmid Vector	PHLAG8258267	Plasmid vector containing HLA-A*68:03:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:02 protein under different cellular conditions.	Inquiry
HLA-A*68:03:03 Genomic Plasmid Vector	PHLAG8258268	Plasmid vector containing HLA-A*68:03:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:03 protein under different cellular conditions.	Inquiry
HLA-A*68:03:04 Genomic Plasmid Vector	PHLAG8258269	Plasmid vector containing HLA-A*68:03:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:03:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:03:04 protein under different cellular conditions.	Inquiry
HLA-A*68:04:01 Genomic Plasmid Vector	PHLAG8258270	Plasmid vector containing HLA-A*68:04:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:04:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:04:01 protein under different cellular conditions.	Inquiry

HLA-A*68:04:02 Genomic Plasmid Vector	PHLAG8258271	Plasmid vector containing HLA-A*68:04:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:04:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:04:02 protein under different cellular conditions.	Inquiry
HLA-A*68:05 Genomic Plasmid Vector	PHLAG8258272	Plasmid vector containing HLA-A*68:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:05 protein under different cellular conditions.	Inquiry
HLA-A*68:06 Genomic Plasmid Vector	PHLAG8258273	Plasmid vector containing HLA-A*68:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:06 protein under different cellular conditions.	Inquiry
HLA-A*68:07 Genomic Plasmid Vector	PHLAG8258274	Plasmid vector containing HLA-A*68:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:07 protein under different cellular conditions.	Inquiry
HLA-A*68:08:01:01 Genomic Plasmid Vector	PHLAG8258275	Plasmid vector containing HLA-A*68:08:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:08:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:08:01:01 protein under different cellular conditions.	Inquiry
HLA-A*68:08:01:02 Genomic Plasmid Vector	PHLAG8258276	Plasmid vector containing HLA-A*68:08:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:08:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:08:01:02 protein under different cellular conditions.	Inquiry
HLA-A*68:08:02 Genomic Plasmid Vector	PHLAG8258277	Plasmid vector containing HLA-A*68:08:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:08:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:08:02 protein under different cellular conditions.	Inquiry
HLA-A*68:09 Genomic Plasmid Vector	PHLAG8258278	Plasmid vector containing HLA-A*68:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:09 protein under different cellular conditions.	Inquiry
HLA-A*68:10 Genomic Plasmid Vector	PHLAG8258279	Plasmid vector containing HLA-A*68:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:10 protein under different cellular conditions.	Inquiry

HLA-A*68:100 Genomic Plasmid Vector	PHLAG8258280	Plasmid vector containing HLA-A*68:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:100 protein under different cellular conditions.	Inquiry
HLA-A*68:101:01 Genomic Plasmid Vector	PHLAG8258281	Plasmid vector containing HLA-A*68:101:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:101:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:101:01 protein under different cellular conditions.	Inquiry
HLA-A*68:101:02 Genomic Plasmid Vector	PHLAG8258282	Plasmid vector containing HLA-A*68:101:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:101:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:101:02 protein under different cellular conditions.	Inquiry
HLA-A*68:102 Genomic Plasmid Vector	PHLAG8258283	Plasmid vector containing HLA-A*68:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:102 protein under different cellular conditions.	Inquiry
HLA-A*68:103:01 Genomic Plasmid Vector	PHLAG8258284	Plasmid vector containing HLA-A*68:103:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:103:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:103:01 protein under different cellular conditions.	Inquiry
HLA-A*68:103:02 Genomic Plasmid Vector	PHLAG8258285	Plasmid vector containing HLA-A*68:103:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:103:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:103:02 protein under different cellular conditions.	Inquiry
HLA-A*68:104:01 Genomic Plasmid Vector	PHLAG8258286	Plasmid vector containing HLA-A*68:104:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:104:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:104:01 protein under different cellular conditions.	Inquiry
HLA-A*68:104:02 Genomic Plasmid Vector	PHLAG8258287	Plasmid vector containing HLA-A*68:104:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:104:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:104:02 protein under different cellular conditions.	Inquiry
HLA-A*68:105:01:01 Genomic Plasmid Vector	PHLAG8258288	Plasmid vector containing HLA-A*68:105:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:105:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:105:01:01 protein under different cellular conditions.	Inquiry

HLA-A*68:105:01:02 Genomic Plasmid Vector	PHLAG8258289	Plasmid vector containing HLA-A*68:105:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:105:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:105:01:02 protein under different cellular conditions.	Inquiry
HLA-A*68:106 Genomic Plasmid Vector	PHLAG8258290	Plasmid vector containing HLA-A*68:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:106 protein under different cellular conditions.	Inquiry
HLA-A*68:107 Genomic Plasmid Vector	PHLAG8258291	Plasmid vector containing HLA-A*68:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:107 protein under different cellular conditions.	Inquiry
HLA-A*68:108 Genomic Plasmid Vector	PHLAG8258292	Plasmid vector containing HLA-A*68:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:108 protein under different cellular conditions.	Inquiry
HLA-A*68:109 Genomic Plasmid Vector	PHLAG8258293	Plasmid vector containing HLA-A*68:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:109 protein under different cellular conditions.	Inquiry
HLA-A*68:110 Genomic Plasmid Vector	PHLAG8258294	Plasmid vector containing HLA-A*68:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:110 protein under different cellular conditions.	Inquiry
HLA-A*68:111 Genomic Plasmid Vector	PHLAG8258295	Plasmid vector containing HLA-A*68:111 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:111 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:111 protein under different cellular conditions.	Inquiry
HLA-A*68:112:01 Genomic Plasmid Vector	PHLAG8258296	Plasmid vector containing HLA-A*68:112:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:112:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:112:01 protein under different cellular conditions.	Inquiry
HLA-A*68:112:02 Genomic Plasmid Vector	PHLAG8258297	Plasmid vector containing HLA-A*68:112:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:112:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:112:02 protein under different cellular conditions.	Inquiry

HLA-A*68:113:01 Genomic Plasmid Vector	PHLAG8258298	Plasmid vector containing HLA-A*68:113:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:113:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:113:01 protein under different cellular conditions.	Inquiry
HLA-A*68:113:02 Genomic Plasmid Vector	PHLAG8258299	Plasmid vector containing HLA-A*68:113:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:113:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:113:02 protein under different cellular conditions.	Inquiry
HLA-A*68:114:01 Genomic Plasmid Vector	PHLAG8258300	Plasmid vector containing HLA-A*68:114:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:114:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:114:01 protein under different cellular conditions.	Inquiry
HLA-A*68:114:02 Genomic Plasmid Vector	PHLAG8258301	Plasmid vector containing HLA-A*68:114:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:114:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:114:02 protein under different cellular conditions.	Inquiry
HLA-A*68:115 Genomic Plasmid Vector	PHLAG8258302	Plasmid vector containing HLA-A*68:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:115 protein under different cellular conditions.	Inquiry
HLA-A*68:116 Genomic Plasmid Vector	PHLAG8258303	Plasmid vector containing HLA-A*68:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:116 protein under different cellular conditions.	Inquiry
HLA-A*68:117 Genomic Plasmid Vector	PHLAG8258304	Plasmid vector containing HLA-A*68:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:117 protein under different cellular conditions.	Inquiry
HLA-A*68:118 Genomic Plasmid Vector	PHLAG8258305	Plasmid vector containing HLA-A*68:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:118 protein under different cellular conditions.	Inquiry
HLA-A*68:119:01 Genomic Plasmid Vector	PHLAG8258306	Plasmid vector containing HLA-A*68:119:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:119:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:119:01 protein under different cellular conditions.	Inquiry

HLA-A*68:119:02 Genomic Plasmid Vector	PHLAG8258307	Plasmid vector containing HLA-A*68:119:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:119:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:119:02 protein under different cellular conditions.	Inquiry
HLA-A*68:11N Genomic Plasmid Vector	PHLAG8258308	Plasmid vector containing HLA-A*68:11N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:11N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:11N protein under different cellular conditions.	Inquiry
HLA-A*68:12:01 Genomic Plasmid Vector	PHLAG8258309	Plasmid vector containing HLA-A*68:12:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:12:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:12:01 protein under different cellular conditions.	Inquiry
HLA-A*68:12:02 Genomic Plasmid Vector	PHLAG8258310	Plasmid vector containing HLA-A*68:12:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:12:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:12:02 protein under different cellular conditions.	Inquiry
HLA-A*68:120N Genomic Plasmid Vector	PHLAG8258311	Plasmid vector containing HLA-A*68:120N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:120N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:120N protein under different cellular conditions.	Inquiry
HLA-A*68:121:01 Genomic Plasmid Vector	PHLAG8258312	Plasmid vector containing HLA-A*68:121:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:121:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:121:01 protein under different cellular conditions.	Inquiry
HLA-A*68:121:02 Genomic Plasmid Vector	PHLAG8258313	Plasmid vector containing HLA-A*68:121:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:121:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:121:02 protein under different cellular conditions.	Inquiry
HLA-A*68:122 Genomic Plasmid Vector	PHLAG8258314	Plasmid vector containing HLA-A*68:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:122 protein under different cellular conditions.	Inquiry
HLA-A*68:123 Genomic Plasmid Vector	PHLAG8258315	Plasmid vector containing HLA-A*68:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:123 protein under different cellular conditions.	Inquiry

HLA-A*68:124 Genomic Plasmid Vector	PHLAG8258316	Plasmid vector containing HLA-A*68:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:124 protein under different cellular conditions.	Inquiry
HLA-A*68:125 Genomic Plasmid Vector	PHLAG8258317	Plasmid vector containing HLA-A*68:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:125 protein under different cellular conditions.	Inquiry
HLA-A*68:126 Genomic Plasmid Vector	PHLAG8258318	Plasmid vector containing HLA-A*68:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:126 protein under different cellular conditions.	Inquiry
HLA-A*68:127 Genomic Plasmid Vector	PHLAG8258319	Plasmid vector containing HLA-A*68:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:127 protein under different cellular conditions.	Inquiry
HLA-A*68:128 Genomic Plasmid Vector	PHLAG8258320	Plasmid vector containing HLA-A*68:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:128 protein under different cellular conditions.	Inquiry
HLA-A*68:129 Genomic Plasmid Vector	PHLAG8258321	Plasmid vector containing HLA-A*68:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:129 protein under different cellular conditions.	Inquiry
HLA-A*68:13:01 Genomic Plasmid Vector	PHLAG8258322	Plasmid vector containing HLA-A*68:13:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:13:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:13:01 protein under different cellular conditions.	Inquiry
HLA-A*68:13:02 Genomic Plasmid Vector	PHLAG8258323	Plasmid vector containing HLA-A*68:13:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:13:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:13:02 protein under different cellular conditions.	Inquiry
HLA-A*68:130:01 Genomic Plasmid Vector	PHLAG8258324	Plasmid vector containing HLA-A*68:130:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:130:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:130:01 protein under different cellular conditions.	Inquiry

HLA-A*68:130:02 Genomic Plasmid Vector	PHLAG8258325	Plasmid vector containing HLA-A*68:130:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:130:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:130:02 protein under different cellular conditions.	Inquiry
HLA-A*68:131 Genomic Plasmid Vector	PHLAG8258326	Plasmid vector containing HLA-A*68:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:131 protein under different cellular conditions.	Inquiry
HLA-A*68:132 Genomic Plasmid Vector	PHLAG8258327	Plasmid vector containing HLA-A*68:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:132 protein under different cellular conditions.	Inquiry
HLA-A*68:133 Genomic Plasmid Vector	PHLAG8258328	Plasmid vector containing HLA-A*68:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:133 protein under different cellular conditions.	Inquiry
HLA-A*68:134 Genomic Plasmid Vector	PHLAG8258329	Plasmid vector containing HLA-A*68:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:134 protein under different cellular conditions.	Inquiry
HLA-A*68:135 Genomic Plasmid Vector	PHLAG8258330	Plasmid vector containing HLA-A*68:135 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:135 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:135 protein under different cellular conditions.	Inquiry
HLA-A*68:136 Genomic Plasmid Vector	PHLAG8258331	Plasmid vector containing HLA-A*68:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:136 protein under different cellular conditions.	Inquiry
HLA-A*68:137 Genomic Plasmid Vector	PHLAG8258332	Plasmid vector containing HLA-A*68:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:137 protein under different cellular conditions.	Inquiry
HLA-A*68:138 Genomic Plasmid Vector	PHLAG8258333	Plasmid vector containing HLA-A*68:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:138 protein under different cellular conditions.	Inquiry

HLA-A*68:139 Genomic Plasmid Vector	PHLAG8258334	Plasmid vector containing HLA-A*68:139 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:139 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:139 protein under different cellular conditions.	Inquiry
HLA-A*68:14 Genomic Plasmid Vector	PHLAG8258335	Plasmid vector containing HLA-A*68:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:14 protein under different cellular conditions.	Inquiry
HLA-A*68:140 Genomic Plasmid Vector	PHLAG8258336	Plasmid vector containing HLA-A*68:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:140 protein under different cellular conditions.	Inquiry
HLA-A*68:141 Genomic Plasmid Vector	PHLAG8258337	Plasmid vector containing HLA-A*68:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:141 protein under different cellular conditions.	Inquiry
HLA-A*68:142N Genomic Plasmid Vector	PHLAG8258338	Plasmid vector containing HLA-A*68:142N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:142N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:142N protein under different cellular conditions.	Inquiry
HLA-A*68:143 Genomic Plasmid Vector	PHLAG8258339	Plasmid vector containing HLA-A*68:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:143 protein under different cellular conditions.	Inquiry
HLA-A*68:144 Genomic Plasmid Vector	PHLAG8258340	Plasmid vector containing HLA-A*68:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:144 protein under different cellular conditions.	Inquiry
HLA-A*68:145 Genomic Plasmid Vector	PHLAG8258341	Plasmid vector containing HLA-A*68:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:145 protein under different cellular conditions.	Inquiry
HLA-A*68:146 Genomic Plasmid Vector	PHLAG8258342	Plasmid vector containing HLA-A*68:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:146 protein under different cellular conditions.	Inquiry

HLA-A*68:147 Genomic Plasmid Vector	PHLAG8258343	Plasmid vector containing HLA-A*68:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:147 protein under different cellular conditions.	Inquiry
HLA-A*68:148Q Genomic Plasmid Vector	PHLAG8258344	Plasmid vector containing HLA-A*68:148Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:148Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:148Q protein under different cellular conditions.	Inquiry
HLA-A*68:149 Genomic Plasmid Vector	PHLAG8258345	Plasmid vector containing HLA-A*68:149 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:149 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:149 protein under different cellular conditions.	Inquiry
HLA-A*68:15 Genomic Plasmid Vector	PHLAG8258346	Plasmid vector containing HLA-A*68:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:15 protein under different cellular conditions.	Inquiry
HLA-A*68:150 Genomic Plasmid Vector	PHLAG8258347	Plasmid vector containing HLA-A*68:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:150 protein under different cellular conditions.	Inquiry
HLA-A*68:151 Genomic Plasmid Vector	PHLAG8258348	Plasmid vector containing HLA-A*68:151 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:151 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:151 protein under different cellular conditions.	Inquiry
HLA-A*68:152 Genomic Plasmid Vector	PHLAG8258349	Plasmid vector containing HLA-A*68:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:152 protein under different cellular conditions.	Inquiry
HLA-A*68:153 Genomic Plasmid Vector	PHLAG8258350	Plasmid vector containing HLA-A*68:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:153 protein under different cellular conditions.	Inquiry
HLA-A*68:154 Genomic Plasmid Vector	PHLAG8258351	Plasmid vector containing HLA-A*68:154 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:154 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:154 protein under different cellular conditions.	Inquiry

HLA-A*68:155 Genomic Plasmid Vector	PHLAG8258352	Plasmid vector containing HLA-A*68:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:155 protein under different cellular conditions.	Inquiry
HLA-A*68:156 Genomic Plasmid Vector	PHLAG8258353	Plasmid vector containing HLA-A*68:156 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:156 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:156 protein under different cellular conditions.	Inquiry
HLA-A*68:157 Genomic Plasmid Vector	PHLAG8258354	Plasmid vector containing HLA-A*68:157 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:157 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:157 protein under different cellular conditions.	Inquiry
HLA-A*68:158 Genomic Plasmid Vector	PHLAG8258355	Plasmid vector containing HLA-A*68:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:158 protein under different cellular conditions.	Inquiry
HLA-A*68:159Q Genomic Plasmid Vector	PHLAG8258356	Plasmid vector containing HLA-A*68:159Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:159Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:159Q protein under different cellular conditions.	Inquiry
HLA-A*68:16 Genomic Plasmid Vector	PHLAG8258357	Plasmid vector containing HLA-A*68:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:16 protein under different cellular conditions.	Inquiry
HLA-A*68:160 Genomic Plasmid Vector	PHLAG8258358	Plasmid vector containing HLA-A*68:160 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:160 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:160 protein under different cellular conditions.	Inquiry
HLA-A*68:161 Genomic Plasmid Vector	PHLAG8258359	Plasmid vector containing HLA-A*68:161 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:161 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:161 protein under different cellular conditions.	Inquiry
HLA-A*68:162 Genomic Plasmid Vector	PHLAG8258360	Plasmid vector containing HLA-A*68:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:162 protein under different cellular conditions.	Inquiry

HLA-A*68:163 Genomic Plasmid Vector	PHLAG8258361	Plasmid vector containing HLA-A*68:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:163 protein under different cellular conditions.	Inquiry
HLA-A*68:164:01 Genomic Plasmid Vector	PHLAG8258362	Plasmid vector containing HLA-A*68:164:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:164:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:164:01 protein under different cellular conditions.	Inquiry
HLA-A*68:164:02 Genomic Plasmid Vector	PHLAG8258363	Plasmid vector containing HLA-A*68:164:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:164:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:164:02 protein under different cellular conditions.	Inquiry
HLA-A*68:165 Genomic Plasmid Vector	PHLAG8258364	Plasmid vector containing HLA-A*68:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:165 protein under different cellular conditions.	Inquiry
HLA-A*68:166 Genomic Plasmid Vector	PHLAG8258365	Plasmid vector containing HLA-A*68:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:166 protein under different cellular conditions.	Inquiry
HLA-A*68:167 Genomic Plasmid Vector	PHLAG8258366	Plasmid vector containing HLA-A*68:167 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:167 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:167 protein under different cellular conditions.	Inquiry
HLA-A*68:168 Genomic Plasmid Vector	PHLAG8258367	Plasmid vector containing HLA-A*68:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:168 protein under different cellular conditions.	Inquiry
HLA-A*68:169 Genomic Plasmid Vector	PHLAG8258368	Plasmid vector containing HLA-A*68:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:169 protein under different cellular conditions.	Inquiry
HLA-A*68:17:01 Genomic Plasmid Vector	PHLAG8258369	Plasmid vector containing HLA-A*68:17:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:17:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:17:01 protein under different cellular conditions.	Inquiry

HLA-A*68:17:02 Genomic Plasmid Vector	PHLAG8258370	Plasmid vector containing HLA-A*68:17:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:17:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:17:02 protein under different cellular conditions.	Inquiry
HLA-A*68:170 Genomic Plasmid Vector	PHLAG8258371	Plasmid vector containing HLA-A*68:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:170 protein under different cellular conditions.	Inquiry
HLA-A*68:171:01N Genomic Plasmid Vector	PHLAG8258372	Plasmid vector containing HLA-A*68:171:01N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:171:01N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:171:01N protein under different cellular conditions.	Inquiry
HLA-A*68:171:02N Genomic Plasmid Vector	PHLAG8258373	Plasmid vector containing HLA-A*68:171:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:171:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:171:02N protein under different cellular conditions.	Inquiry
HLA-A*68:172 Genomic Plasmid Vector	PHLAG8258374	Plasmid vector containing HLA-A*68:172 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:172 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:172 protein under different cellular conditions.	Inquiry
HLA-A*68:173 Genomic Plasmid Vector	PHLAG8258375	Plasmid vector containing HLA-A*68:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:173 protein under different cellular conditions.	Inquiry
HLA-A*68:174 Genomic Plasmid Vector	PHLAG8258376	Plasmid vector containing HLA-A*68:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:174 protein under different cellular conditions.	Inquiry
HLA-A*68:175:01 Genomic Plasmid Vector	PHLAG8258377	Plasmid vector containing HLA-A*68:175:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:175:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:175:01 protein under different cellular conditions.	Inquiry
HLA-A*68:175:02 Genomic Plasmid Vector	PHLAG8258378	Plasmid vector containing HLA-A*68:175:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:175:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:175:02 protein under different cellular conditions.	Inquiry

HLA-A*68:176:01 Genomic Plasmid Vector	PHLAG8258379	Plasmid vector containing HLA-A*68:176:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:176:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:176:01 protein under different cellular conditions.	Inquiry
HLA-A*68:176:02 Genomic Plasmid Vector	PHLAG8258380	Plasmid vector containing HLA-A*68:176:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:176:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:176:02 protein under different cellular conditions.	Inquiry
HLA-A*68:177 Genomic Plasmid Vector	PHLAG8258381	Plasmid vector containing HLA-A*68:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:177 protein under different cellular conditions.	Inquiry
HLA-A*68:178 Genomic Plasmid Vector	PHLAG8258382	Plasmid vector containing HLA-A*68:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:178 protein under different cellular conditions.	Inquiry
HLA-A*68:179 Genomic Plasmid Vector	PHLAG8258383	Plasmid vector containing HLA-A*68:179 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:179 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:179 protein under different cellular conditions.	Inquiry
HLA-A*68:180 Genomic Plasmid Vector	PHLAG8258384	Plasmid vector containing HLA-A*68:180 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:180 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:180 protein under different cellular conditions.	Inquiry
HLA-A*68:181N Genomic Plasmid Vector	PHLAG8258385	Plasmid vector containing HLA-A*68:181N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:181N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:181N protein under different cellular conditions.	Inquiry
HLA-A*68:182N Genomic Plasmid Vector	PHLAG8258386	Plasmid vector containing HLA-A*68:182N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:182N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:182N protein under different cellular conditions.	Inquiry
HLA-A*68:183 Genomic Plasmid Vector	PHLAG8258387	Plasmid vector containing HLA-A*68:183 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:183 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:183 protein under different cellular conditions.	Inquiry

HLA-A*68:184 Genomic Plasmid Vector	PHLAG8258388	Plasmid vector containing HLA-A*68:184 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:184 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:184 protein under different cellular conditions.	Inquiry
HLA-A*68:185 Genomic Plasmid Vector	PHLAG8258389	Plasmid vector containing HLA-A*68:185 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:185 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:185 protein under different cellular conditions.	Inquiry
HLA-A*68:186 Genomic Plasmid Vector	PHLAG8258390	Plasmid vector containing HLA-A*68:186 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:186 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:186 protein under different cellular conditions.	Inquiry
HLA-A*68:187 Genomic Plasmid Vector	PHLAG8258391	Plasmid vector containing HLA-A*68:187 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:187 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:187 protein under different cellular conditions.	Inquiry
HLA-A*68:188 Genomic Plasmid Vector	PHLAG8258392	Plasmid vector containing HLA-A*68:188 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:188 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:188 protein under different cellular conditions.	Inquiry
HLA-A*68:189 Genomic Plasmid Vector	PHLAG8258393	Plasmid vector containing HLA-A*68:189 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:189 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:189 protein under different cellular conditions.	Inquiry
HLA-A*68:18N Genomic Plasmid Vector	PHLAG8258394	Plasmid vector containing HLA-A*68:18N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:18N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:18N protein under different cellular conditions.	Inquiry
HLA-A*68:19 Genomic Plasmid Vector	PHLAG8258395	Plasmid vector containing HLA-A*68:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:19 protein under different cellular conditions.	Inquiry
HLA-A*68:190:01 Genomic Plasmid Vector	PHLAG8258396	Plasmid vector containing HLA-A*68:190:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:190:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:190:01 protein under different cellular conditions.	Inquiry

HLA-A*68:190:02 Genomic Plasmid Vector	PHLAG8258397	Plasmid vector containing HLA-A*68:190:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:190:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:190:02 protein under different cellular conditions.	Inquiry
HLA-A*68:191 Genomic Plasmid Vector	PHLAG8258398	Plasmid vector containing HLA-A*68:191 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:191 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:191 protein under different cellular conditions.	Inquiry
HLA-A*68:192 Genomic Plasmid Vector	PHLAG8258399	Plasmid vector containing HLA-A*68:192 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:192 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:192 protein under different cellular conditions.	Inquiry
HLA-A*68:193 Genomic Plasmid Vector	PHLAG8258400	Plasmid vector containing HLA-A*68:193 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:193 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:193 protein under different cellular conditions.	Inquiry
HLA-A*68:194 Genomic Plasmid Vector	PHLAG8258401	Plasmid vector containing HLA-A*68:194 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:194 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:194 protein under different cellular conditions.	Inquiry
HLA-A*68:195 Genomic Plasmid Vector	PHLAG8258402	Plasmid vector containing HLA-A*68:195 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:195 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:195 protein under different cellular conditions.	Inquiry
HLA-A*68:196 Genomic Plasmid Vector	PHLAG8258403	Plasmid vector containing HLA-A*68:196 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:196 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:196 protein under different cellular conditions.	Inquiry
HLA-A*68:197 Genomic Plasmid Vector	PHLAG8258404	Plasmid vector containing HLA-A*68:197 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:197 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:197 protein under different cellular conditions.	Inquiry
HLA-A*68:198 Genomic Plasmid Vector	PHLAG8258405	Plasmid vector containing HLA-A*68:198 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:198 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:198 protein under different cellular conditions.	Inquiry

HLA-A*68:199N Genomic Plasmid Vector	PHLAG8258406	Plasmid vector containing HLA-A*68:199N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:199N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:199N protein under different cellular conditions.	Inquiry
HLA-A*68:20 Genomic Plasmid Vector	PHLAG8258407	Plasmid vector containing HLA-A*68:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:20 protein under different cellular conditions.	Inquiry
HLA-A*68:200 Genomic Plasmid Vector	PHLAG8258408	Plasmid vector containing HLA-A*68:200 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:200 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:200 protein under different cellular conditions.	Inquiry
HLA-A*68:201 Genomic Plasmid Vector	PHLAG8258409	Plasmid vector containing HLA-A*68:201 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:201 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:201 protein under different cellular conditions.	Inquiry
HLA-A*68:202 Genomic Plasmid Vector	PHLAG8258410	Plasmid vector containing HLA-A*68:202 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:202 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:202 protein under different cellular conditions.	Inquiry
HLA-A*68:203N Genomic Plasmid Vector	PHLAG8258411	Plasmid vector containing HLA-A*68:203N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:203N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:203N protein under different cellular conditions.	Inquiry
HLA-A*68:204 Genomic Plasmid Vector	PHLAG8258412	Plasmid vector containing HLA-A*68:204 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:204 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:204 protein under different cellular conditions.	Inquiry
HLA-A*68:205N Genomic Plasmid Vector	PHLAG8258413	Plasmid vector containing HLA-A*68:205N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:205N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:205N protein under different cellular conditions.	Inquiry
HLA-A*68:206 Genomic Plasmid Vector	PHLAG8258414	Plasmid vector containing HLA-A*68:206 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:206 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:206 protein under different cellular conditions.	Inquiry

HLA-A*68:207 Genomic Plasmid Vector	PHLAG8258415	Plasmid vector containing HLA-A*68:207 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:207 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:207 protein under different cellular conditions.	Inquiry
HLA-A*68:208 Genomic Plasmid Vector	PHLAG8258416	Plasmid vector containing HLA-A*68:208 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:208 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:208 protein under different cellular conditions.	Inquiry
HLA-A*68:209 Genomic Plasmid Vector	PHLAG8258417	Plasmid vector containing HLA-A*68:209 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:209 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:209 protein under different cellular conditions.	Inquiry
HLA-A*68:21:01 Genomic Plasmid Vector	PHLAG8258418	Plasmid vector containing HLA-A*68:21:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:21:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:21:01 protein under different cellular conditions.	Inquiry
HLA-A*68:21:02 Genomic Plasmid Vector	PHLAG8258419	Plasmid vector containing HLA-A*68:21:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:21:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:21:02 protein under different cellular conditions.	Inquiry
HLA-A*68:21:03 Genomic Plasmid Vector	PHLAG8258420	Plasmid vector containing HLA-A*68:21:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:21:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:21:03 protein under different cellular conditions.	Inquiry
HLA-A*68:210N Genomic Plasmid Vector	PHLAG8258421	Plasmid vector containing HLA-A*68:210N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:210N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:210N protein under different cellular conditions.	Inquiry
HLA-A*68:211 Genomic Plasmid Vector	PHLAG8258422	Plasmid vector containing HLA-A*68:211 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:211 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:211 protein under different cellular conditions.	Inquiry
HLA-A*68:212 Genomic Plasmid Vector	PHLAG8258423	Plasmid vector containing HLA-A*68:212 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:212 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:212 protein under different cellular conditions.	Inquiry

HLA-A*68:213N Genomic Plasmid Vector	PHLAG8258424	Plasmid vector containing HLA-A*68:213N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:213N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:213N protein under different cellular conditions.	Inquiry
HLA-A*68:214 Genomic Plasmid Vector	PHLAG8258425	Plasmid vector containing HLA-A*68:214 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:214 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:214 protein under different cellular conditions.	Inquiry
HLA-A*68:215 Genomic Plasmid Vector	PHLAG8258426	Plasmid vector containing HLA-A*68:215 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:215 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:215 protein under different cellular conditions.	Inquiry
HLA-A*68:216N Genomic Plasmid Vector	PHLAG8258427	Plasmid vector containing HLA-A*68:216N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:216N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:216N protein under different cellular conditions.	Inquiry
HLA-A*68:217 Genomic Plasmid Vector	PHLAG8258428	Plasmid vector containing HLA-A*68:217 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:217 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:217 protein under different cellular conditions.	Inquiry
HLA-A*68:218 Genomic Plasmid Vector	PHLAG8258429	Plasmid vector containing HLA-A*68:218 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:218 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:218 protein under different cellular conditions.	Inquiry
HLA-A*68:219 Genomic Plasmid Vector	PHLAG8258430	Plasmid vector containing HLA-A*68:219 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:219 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:219 protein under different cellular conditions.	Inquiry
HLA-A*68:22 Genomic Plasmid Vector	PHLAG8258431	Plasmid vector containing HLA-A*68:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:22 protein under different cellular conditions.	Inquiry
HLA-A*68:220 Genomic Plasmid Vector	PHLAG8258432	Plasmid vector containing HLA-A*68:220 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:220 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:220 protein under different cellular conditions.	Inquiry

HLA-A*68:221 Genomic Plasmid Vector	PHLAG8258433	Plasmid vector containing HLA-A*68:221 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:221 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:221 protein under different cellular conditions.	Inquiry
HLA-A*68:222 Genomic Plasmid Vector	PHLAG8258434	Plasmid vector containing HLA-A*68:222 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:222 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:222 protein under different cellular conditions.	Inquiry
HLA-A*68:223 Genomic Plasmid Vector	PHLAG8258435	Plasmid vector containing HLA-A*68:223 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:223 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:223 protein under different cellular conditions.	Inquiry
HLA-A*68:224 Genomic Plasmid Vector	PHLAG8258436	Plasmid vector containing HLA-A*68:224 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:224 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:224 protein under different cellular conditions.	Inquiry
HLA-A*68:225 Genomic Plasmid Vector	PHLAG8258437	Plasmid vector containing HLA-A*68:225 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:225 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:225 protein under different cellular conditions.	Inquiry
HLA-A*68:226 Genomic Plasmid Vector	PHLAG8258438	Plasmid vector containing HLA-A*68:226 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:226 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:226 protein under different cellular conditions.	Inquiry
HLA-A*68:227 Genomic Plasmid Vector	PHLAG8258439	Plasmid vector containing HLA-A*68:227 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:227 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:227 protein under different cellular conditions.	Inquiry
HLA-A*68:228 Genomic Plasmid Vector	PHLAG8258440	Plasmid vector containing HLA-A*68:228 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:228 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:228 protein under different cellular conditions.	Inquiry
HLA-A*68:229 Genomic Plasmid Vector	PHLAG8258441	Plasmid vector containing HLA-A*68:229 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:229 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:229 protein under different cellular conditions.	Inquiry

HLA-A*68:23:01 Genomic Plasmid Vector	PHLAG8258442	Plasmid vector containing HLA-A*68:23:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:23:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:23:01 protein under different cellular conditions.	Inquiry
HLA-A*68:23:02 Genomic Plasmid Vector	PHLAG8258443	Plasmid vector containing HLA-A*68:23:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:23:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:23:02 protein under different cellular conditions.	Inquiry
HLA-A*68:230 Genomic Plasmid Vector	PHLAG8258444	Plasmid vector containing HLA-A*68:230 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:230 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:230 protein under different cellular conditions.	Inquiry
HLA-A*68:231 Genomic Plasmid Vector	PHLAG8258445	Plasmid vector containing HLA-A*68:231 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:231 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:231 protein under different cellular conditions.	Inquiry
HLA-A*68:232 Genomic Plasmid Vector	PHLAG8258446	Plasmid vector containing HLA-A*68:232 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:232 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:232 protein under different cellular conditions.	Inquiry
HLA-A*68:233 Genomic Plasmid Vector	PHLAG8258447	Plasmid vector containing HLA-A*68:233 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:233 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:233 protein under different cellular conditions.	Inquiry
HLA-A*68:234 Genomic Plasmid Vector	PHLAG8258448	Plasmid vector containing HLA-A*68:234 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:234 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:234 protein under different cellular conditions.	Inquiry
HLA-A*68:235 Genomic Plasmid Vector	PHLAG8258449	Plasmid vector containing HLA-A*68:235 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:235 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:235 protein under different cellular conditions.	Inquiry
HLA-A*68:236N Genomic Plasmid Vector	PHLAG8258450	Plasmid vector containing HLA-A*68:236N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:236N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:236N protein under different cellular conditions.	Inquiry

HLA-A*68:237 Genomic Plasmid Vector	PHLAG8258451	Plasmid vector containing HLA-A*68:237 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:237 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:237 protein under different cellular conditions.	Inquiry
HLA-A*68:238 Genomic Plasmid Vector	PHLAG8258452	Plasmid vector containing HLA-A*68:238 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:238 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:238 protein under different cellular conditions.	Inquiry
HLA-A*68:239 Genomic Plasmid Vector	PHLAG8258453	Plasmid vector containing HLA-A*68:239 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:239 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:239 protein under different cellular conditions.	Inquiry
HLA-A*68:24 Genomic Plasmid Vector	PHLAG8258454	Plasmid vector containing HLA-A*68:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:24 protein under different cellular conditions.	Inquiry
HLA-A*68:240 Genomic Plasmid Vector	PHLAG8258455	Plasmid vector containing HLA-A*68:240 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:240 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:240 protein under different cellular conditions.	Inquiry
HLA-A*68:241 Genomic Plasmid Vector	PHLAG8258456	Plasmid vector containing HLA-A*68:241 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:241 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:241 protein under different cellular conditions.	Inquiry
HLA-A*68:242 Genomic Plasmid Vector	PHLAG8258457	Plasmid vector containing HLA-A*68:242 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:242 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:242 protein under different cellular conditions.	Inquiry
HLA-A*68:243 Genomic Plasmid Vector	PHLAG8258458	Plasmid vector containing HLA-A*68:243 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:243 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:243 protein under different cellular conditions.	Inquiry
HLA-A*68:244:01 Genomic Plasmid Vector	PHLAG8258459	Plasmid vector containing HLA-A*68:244:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:244:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:244:01 protein under different cellular conditions.	Inquiry

HLA-A*68:244:02 Genomic Plasmid Vector	PHLAG8258460	Plasmid vector containing HLA-A*68:244:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:244:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:244:02 protein under different cellular conditions.	Inquiry
HLA-A*68:245N Genomic Plasmid Vector	PHLAG8258461	Plasmid vector containing HLA-A*68:245N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:245N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:245N protein under different cellular conditions.	Inquiry
HLA-A*68:246 Genomic Plasmid Vector	PHLAG8258462	Plasmid vector containing HLA-A*68:246 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:246 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:246 protein under different cellular conditions.	Inquiry
HLA-A*68:247 Genomic Plasmid Vector	PHLAG8258463	Plasmid vector containing HLA-A*68:247 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:247 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:247 protein under different cellular conditions.	Inquiry
HLA-A*68:248 Genomic Plasmid Vector	PHLAG8258464	Plasmid vector containing HLA-A*68:248 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:248 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:248 protein under different cellular conditions.	Inquiry
HLA-A*68:249 Genomic Plasmid Vector	PHLAG8258465	Plasmid vector containing HLA-A*68:249 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:249 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:249 protein under different cellular conditions.	Inquiry
HLA-A*68:25 Genomic Plasmid Vector	PHLAG8258466	Plasmid vector containing HLA-A*68:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:25 protein under different cellular conditions.	Inquiry
HLA-A*68:250 Genomic Plasmid Vector	PHLAG8258467	Plasmid vector containing HLA-A*68:250 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:250 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:250 protein under different cellular conditions.	Inquiry
HLA-A*68:251N Genomic Plasmid Vector	PHLAG8258468	Plasmid vector containing HLA-A*68:251N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:251N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:251N protein under different cellular conditions.	Inquiry

HLA-A*68:252 Genomic Plasmid Vector	PHLAG8258469	Plasmid vector containing HLA-A*68:252 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:252 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:252 protein under different cellular conditions.	Inquiry
HLA-A*68:253 Genomic Plasmid Vector	PHLAG8258470	Plasmid vector containing HLA-A*68:253 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:253 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:253 protein under different cellular conditions.	Inquiry
HLA-A*68:254 Genomic Plasmid Vector	PHLAG8258471	Plasmid vector containing HLA-A*68:254 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:254 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:254 protein under different cellular conditions.	Inquiry
HLA-A*68:255 Genomic Plasmid Vector	PHLAG8258472	Plasmid vector containing HLA-A*68:255 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:255 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:255 protein under different cellular conditions.	Inquiry
HLA-A*68:256 Genomic Plasmid Vector	PHLAG8258473	Plasmid vector containing HLA-A*68:256 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:256 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:256 protein under different cellular conditions.	Inquiry
HLA-A*68:257 Genomic Plasmid Vector	PHLAG8258474	Plasmid vector containing HLA-A*68:257 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:257 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:257 protein under different cellular conditions.	Inquiry
HLA-A*68:258 Genomic Plasmid Vector	PHLAG8258475	Plasmid vector containing HLA-A*68:258 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:258 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:258 protein under different cellular conditions.	Inquiry
HLA-A*68:259 Genomic Plasmid Vector	PHLAG8258476	Plasmid vector containing HLA-A*68:259 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:259 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:259 protein under different cellular conditions.	Inquiry
HLA-A*68:26 Genomic Plasmid Vector	PHLAG8258477	Plasmid vector containing HLA-A*68:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:26 protein under different cellular conditions.	Inquiry

HLA-A*68:260 Genomic Plasmid Vector	PHLAG8258478	Plasmid vector containing HLA-A*68:260 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:260 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:260 protein under different cellular conditions.	Inquiry
HLA-A*68:261 Genomic Plasmid Vector	PHLAG8258479	Plasmid vector containing HLA-A*68:261 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:261 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:261 protein under different cellular conditions.	Inquiry
HLA-A*68:262 Genomic Plasmid Vector	PHLAG8258480	Plasmid vector containing HLA-A*68:262 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:262 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:262 protein under different cellular conditions.	Inquiry
HLA-A*68:263Q Genomic Plasmid Vector	PHLAG8258481	Plasmid vector containing HLA-A*68:263Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:263Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:263Q protein under different cellular conditions.	Inquiry
HLA-A*68:264 Genomic Plasmid Vector	PHLAG8258482	Plasmid vector containing HLA-A*68:264 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:264 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:264 protein under different cellular conditions.	Inquiry
HLA-A*68:265 Genomic Plasmid Vector	PHLAG8258483	Plasmid vector containing HLA-A*68:265 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:265 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:265 protein under different cellular conditions.	Inquiry
HLA-A*68:266N Genomic Plasmid Vector	PHLAG8258484	Plasmid vector containing HLA-A*68:266N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:266N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:266N protein under different cellular conditions.	Inquiry
HLA-A*68:267N Genomic Plasmid Vector	PHLAG8258485	Plasmid vector containing HLA-A*68:267N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:267N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:267N protein under different cellular conditions.	Inquiry
HLA-A*68:268 Genomic Plasmid Vector	PHLAG8258486	Plasmid vector containing HLA-A*68:268 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:268 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:268 protein under different cellular conditions.	Inquiry

HLA-A*68:269N Genomic Plasmid Vector	PHLAG8258487	Plasmid vector containing HLA-A*68:269N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:269N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:269N protein under different cellular conditions.	Inquiry
HLA-A*68:27:01 Genomic Plasmid Vector	PHLAG8258488	Plasmid vector containing HLA-A*68:27:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:27:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:27:01 protein under different cellular conditions.	Inquiry
HLA-A*68:27:02 Genomic Plasmid Vector	PHLAG8258489	Plasmid vector containing HLA-A*68:27:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:27:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:27:02 protein under different cellular conditions.	Inquiry
HLA-A*68:270 Genomic Plasmid Vector	PHLAG8258490	Plasmid vector containing HLA-A*68:270 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:270 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:270 protein under different cellular conditions.	Inquiry
HLA-A*68:271 Genomic Plasmid Vector	PHLAG8258491	Plasmid vector containing HLA-A*68:271 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:271 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:271 protein under different cellular conditions.	Inquiry
HLA-A*68:272 Genomic Plasmid Vector	PHLAG8258492	Plasmid vector containing HLA-A*68:272 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:272 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:272 protein under different cellular conditions.	Inquiry
HLA-A*68:273 Genomic Plasmid Vector	PHLAG8258493	Plasmid vector containing HLA-A*68:273 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:273 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:273 protein under different cellular conditions.	Inquiry
HLA-A*68:274 Genomic Plasmid Vector	PHLAG8258494	Plasmid vector containing HLA-A*68:274 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:274 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:274 protein under different cellular conditions.	Inquiry
HLA-A*68:275 Genomic Plasmid Vector	PHLAG8258495	Plasmid vector containing HLA-A*68:275 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:275 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:275 protein under different cellular conditions.	Inquiry

HLA-A*68:276Q Genomic Plasmid Vector	PHLAG8258496	Plasmid vector containing HLA-A*68:276Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:276Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:276Q protein under different cellular conditions.	Inquiry
HLA-A*68:277 Genomic Plasmid Vector	PHLAG8258497	Plasmid vector containing HLA-A*68:277 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:277 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:277 protein under different cellular conditions.	Inquiry
HLA-A*68:278 Genomic Plasmid Vector	PHLAG8258498	Plasmid vector containing HLA-A*68:278 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:278 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:278 protein under different cellular conditions.	Inquiry
HLA-A*68:279 Genomic Plasmid Vector	PHLAG8258499	Plasmid vector containing HLA-A*68:279 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:279 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:279 protein under different cellular conditions.	Inquiry
HLA-A*68:28 Genomic Plasmid Vector	PHLAG8258500	Plasmid vector containing HLA-A*68:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:28 protein under different cellular conditions.	Inquiry
HLA-A*68:280 Genomic Plasmid Vector	PHLAG8258501	Plasmid vector containing HLA-A*68:280 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:280 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:280 protein under different cellular conditions.	Inquiry
HLA-A*68:281N Genomic Plasmid Vector	PHLAG8258502	Plasmid vector containing HLA-A*68:281N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:281N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:281N protein under different cellular conditions.	Inquiry
HLA-A*68:282 Genomic Plasmid Vector	PHLAG8258503	Plasmid vector containing HLA-A*68:282 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:282 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:282 protein under different cellular conditions.	Inquiry
HLA-A*68:283 Genomic Plasmid Vector	PHLAG8258504	Plasmid vector containing HLA-A*68:283 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:283 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:283 protein under different cellular conditions.	Inquiry

HLA-A*68:284 Genomic Plasmid Vector	PHLAG8258505	Plasmid vector containing HLA-A*68:284 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:284 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:284 protein under different cellular conditions.	Inquiry
HLA-A*68:285 Genomic Plasmid Vector	PHLAG8258506	Plasmid vector containing HLA-A*68:285 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:285 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:285 protein under different cellular conditions.	Inquiry
HLA-A*68:286 Genomic Plasmid Vector	PHLAG8258507	Plasmid vector containing HLA-A*68:286 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:286 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:286 protein under different cellular conditions.	Inquiry
HLA-A*68:287 Genomic Plasmid Vector	PHLAG8258508	Plasmid vector containing HLA-A*68:287 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:287 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:287 protein under different cellular conditions.	Inquiry
HLA-A*68:288 Genomic Plasmid Vector	PHLAG8258509	Plasmid vector containing HLA-A*68:288 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:288 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:288 protein under different cellular conditions.	Inquiry
HLA-A*68:289 Genomic Plasmid Vector	PHLAG8258510	Plasmid vector containing HLA-A*68:289 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:289 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:289 protein under different cellular conditions.	Inquiry
HLA-A*68:29 Genomic Plasmid Vector	PHLAG8258511	Plasmid vector containing HLA-A*68:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:29 protein under different cellular conditions.	Inquiry
HLA-A*68:290 Genomic Plasmid Vector	PHLAG8258512	Plasmid vector containing HLA-A*68:290 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:290 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:290 protein under different cellular conditions.	Inquiry
HLA-A*68:291 Genomic Plasmid Vector	PHLAG8258513	Plasmid vector containing HLA-A*68:291 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:291 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:291 protein under different cellular conditions.	Inquiry

HLA-A*68:292N Genomic Plasmid Vector	PHLAG8258514	Plasmid vector containing HLA-A*68:292N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:292N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:292N protein under different cellular conditions.	Inquiry
HLA-A*68:293Q Genomic Plasmid Vector	PHLAG8258515	Plasmid vector containing HLA-A*68:293Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:293Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:293Q protein under different cellular conditions.	Inquiry
HLA-A*68:294 Genomic Plasmid Vector	PHLAG8258516	Plasmid vector containing HLA-A*68:294 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:294 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:294 protein under different cellular conditions.	Inquiry
HLA-A*68:295 Genomic Plasmid Vector	PHLAG8258517	Plasmid vector containing HLA-A*68:295 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:295 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:295 protein under different cellular conditions.	Inquiry
HLA-A*68:296 Genomic Plasmid Vector	PHLAG8258518	Plasmid vector containing HLA-A*68:296 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:296 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:296 protein under different cellular conditions.	Inquiry
HLA-A*68:297 Genomic Plasmid Vector	PHLAG8258519	Plasmid vector containing HLA-A*68:297 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:297 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:297 protein under different cellular conditions.	Inquiry
HLA-A*68:298 Genomic Plasmid Vector	PHLAG8258520	Plasmid vector containing HLA-A*68:298 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:298 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:298 protein under different cellular conditions.	Inquiry
HLA-A*68:299 Genomic Plasmid Vector	PHLAG8258521	Plasmid vector containing HLA-A*68:299 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:299 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:299 protein under different cellular conditions.	Inquiry
HLA-A*68:30 Genomic Plasmid Vector	PHLAG8258522	Plasmid vector containing HLA-A*68:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:30 protein under different cellular conditions.	Inquiry

HLA-A*68:300 Genomic Plasmid Vector	PHLAG8258523	Plasmid vector containing HLA-A*68:300 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:300 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:300 protein under different cellular conditions.	Inquiry
HLA-A*68:301 Genomic Plasmid Vector	PHLAG8258524	Plasmid vector containing HLA-A*68:301 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:301 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:301 protein under different cellular conditions.	Inquiry
HLA-A*68:302 Genomic Plasmid Vector	PHLAG8258525	Plasmid vector containing HLA-A*68:302 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:302 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:302 protein under different cellular conditions.	Inquiry
HLA-A*68:303 Genomic Plasmid Vector	PHLAG8258526	Plasmid vector containing HLA-A*68:303 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:303 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:303 protein under different cellular conditions.	Inquiry
HLA-A*68:304 Genomic Plasmid Vector	PHLAG8258527	Plasmid vector containing HLA-A*68:304 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:304 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:304 protein under different cellular conditions.	Inquiry
HLA-A*68:305 Genomic Plasmid Vector	PHLAG8258528	Plasmid vector containing HLA-A*68:305 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:305 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:305 protein under different cellular conditions.	Inquiry
HLA-A*68:306 Genomic Plasmid Vector	PHLAG8258529	Plasmid vector containing HLA-A*68:306 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:306 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:306 protein under different cellular conditions.	Inquiry
HLA-A*68:307 Genomic Plasmid Vector	PHLAG8258530	Plasmid vector containing HLA-A*68:307 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:307 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:307 protein under different cellular conditions.	Inquiry
HLA-A*68:308 Genomic Plasmid Vector	PHLAG8258531	Plasmid vector containing HLA-A*68:308 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:308 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:308 protein under different cellular conditions.	Inquiry

HLA-A*68:309 Genomic Plasmid Vector	PHLAG8258532	Plasmid vector containing HLA-A*68:309 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:309 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:309 protein under different cellular conditions.	Inquiry
HLA-A*68:31 Genomic Plasmid Vector	PHLAG8258533	Plasmid vector containing HLA-A*68:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:31 protein under different cellular conditions.	Inquiry
HLA-A*68:310 Genomic Plasmid Vector	PHLAG8258534	Plasmid vector containing HLA-A*68:310 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:310 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:310 protein under different cellular conditions.	Inquiry
HLA-A*68:311 Genomic Plasmid Vector	PHLAG8258535	Plasmid vector containing HLA-A*68:311 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:311 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:311 protein under different cellular conditions.	Inquiry
HLA-A*68:312 Genomic Plasmid Vector	PHLAG8258536	Plasmid vector containing HLA-A*68:312 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:312 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:312 protein under different cellular conditions.	Inquiry
HLA-A*68:313 Genomic Plasmid Vector	PHLAG8258537	Plasmid vector containing HLA-A*68:313 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:313 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:313 protein under different cellular conditions.	Inquiry
HLA-A*68:314 Genomic Plasmid Vector	PHLAG8258538	Plasmid vector containing HLA-A*68:314 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:314 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:314 protein under different cellular conditions.	Inquiry
HLA-A*68:315 Genomic Plasmid Vector	PHLAG8258539	Plasmid vector containing HLA-A*68:315 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:315 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:315 protein under different cellular conditions.	Inquiry
HLA-A*68:316 Genomic Plasmid Vector	PHLAG8258540	Plasmid vector containing HLA-A*68:316 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:316 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:316 protein under different cellular conditions.	Inquiry

HLA-A*68:317 Genomic Plasmid Vector	PHLAG8258541	Plasmid vector containing HLA-A*68:317 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:317 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:317 protein under different cellular conditions.	Inquiry
HLA-A*68:318 Genomic Plasmid Vector	PHLAG8258542	Plasmid vector containing HLA-A*68:318 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:318 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:318 protein under different cellular conditions.	Inquiry
HLA-A*68:319 Genomic Plasmid Vector	PHLAG8258543	Plasmid vector containing HLA-A*68:319 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:319 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:319 protein under different cellular conditions.	Inquiry
HLA-A*68:32 Genomic Plasmid Vector	PHLAG8258544	Plasmid vector containing HLA-A*68:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:32 protein under different cellular conditions.	Inquiry
HLA-A*68:320 Genomic Plasmid Vector	PHLAG8258545	Plasmid vector containing HLA-A*68:320 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:320 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:320 protein under different cellular conditions.	Inquiry
HLA-A*68:321 Genomic Plasmid Vector	PHLAG8258546	Plasmid vector containing HLA-A*68:321 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:321 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:321 protein under different cellular conditions.	Inquiry
HLA-A*68:322 Genomic Plasmid Vector	PHLAG8258547	Plasmid vector containing HLA-A*68:322 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:322 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:322 protein under different cellular conditions.	Inquiry
HLA-A*68:323 Genomic Plasmid Vector	PHLAG8258548	Plasmid vector containing HLA-A*68:323 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:323 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:323 protein under different cellular conditions.	Inquiry
HLA-A*68:324 Genomic Plasmid Vector	PHLAG8258549	Plasmid vector containing HLA-A*68:324 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:324 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:324 protein under different cellular conditions.	Inquiry

HLA-A*68:325 Genomic Plasmid Vector	PHLAG8258550	Plasmid vector containing HLA-A*68:325 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:325 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:325 protein under different cellular conditions.	Inquiry
HLA-A*68:326 Genomic Plasmid Vector	PHLAG8258551	Plasmid vector containing HLA-A*68:326 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:326 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:326 protein under different cellular conditions.	Inquiry
HLA-A*68:327 Genomic Plasmid Vector	PHLAG8258552	Plasmid vector containing HLA-A*68:327 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:327 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:327 protein under different cellular conditions.	Inquiry
HLA-A*68:328 Genomic Plasmid Vector	PHLAG8258553	Plasmid vector containing HLA-A*68:328 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:328 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:328 protein under different cellular conditions.	Inquiry
HLA-A*68:329 Genomic Plasmid Vector	PHLAG8258554	Plasmid vector containing HLA-A*68:329 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:329 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:329 protein under different cellular conditions.	Inquiry
HLA-A*68:33 Genomic Plasmid Vector	PHLAG8258555	Plasmid vector containing HLA-A*68:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:33 protein under different cellular conditions.	Inquiry
HLA-A*68:330 Genomic Plasmid Vector	PHLAG8258556	Plasmid vector containing HLA-A*68:330 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:330 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:330 protein under different cellular conditions.	Inquiry
HLA-A*68:331 Genomic Plasmid Vector	PHLAG8258557	Plasmid vector containing HLA-A*68:331 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:331 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:331 protein under different cellular conditions.	Inquiry
HLA-A*68:332 Genomic Plasmid Vector	PHLAG8258558	Plasmid vector containing HLA-A*68:332 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:332 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:332 protein under different cellular conditions.	Inquiry

HLA-A*68:333 Genomic Plasmid Vector	PHLAG8258559	Plasmid vector containing HLA-A*68:333 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:333 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:333 protein under different cellular conditions.	Inquiry
HLA-A*68:334 Genomic Plasmid Vector	PHLAG8258560	Plasmid vector containing HLA-A*68:334 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:334 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:334 protein under different cellular conditions.	Inquiry
HLA-A*68:34 Genomic Plasmid Vector	PHLAG8258561	Plasmid vector containing HLA-A*68:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:34 protein under different cellular conditions.	Inquiry
HLA-A*68:35:01:01 Genomic Plasmid Vector	PHLAG8258562	Plasmid vector containing HLA-A*68:35:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:35:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:35:01:01 protein under different cellular conditions.	Inquiry
HLA-A*68:35:01:02 Genomic Plasmid Vector	PHLAG8258563	Plasmid vector containing HLA-A*68:35:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:35:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:35:01:02 protein under different cellular conditions.	Inquiry
HLA-A*68:36 Genomic Plasmid Vector	PHLAG8258564	Plasmid vector containing HLA-A*68:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:36 protein under different cellular conditions.	Inquiry
HLA-A*68:37 Genomic Plasmid Vector	PHLAG8258565	Plasmid vector containing HLA-A*68:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:37 protein under different cellular conditions.	Inquiry
HLA-A*68:38 Genomic Plasmid Vector	PHLAG8258566	Plasmid vector containing HLA-A*68:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:38 protein under different cellular conditions.	Inquiry
HLA-A*68:39 Genomic Plasmid Vector	PHLAG8258567	Plasmid vector containing HLA-A*68:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:39 protein under different cellular conditions.	Inquiry

HLA-A*68:40 Genomic Plasmid Vector	PHLAG8258568	Plasmid vector containing HLA-A*68:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:40 protein under different cellular conditions.	Inquiry
HLA-A*68:41 Genomic Plasmid Vector	PHLAG8258569	Plasmid vector containing HLA-A*68:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:41 protein under different cellular conditions.	Inquiry
HLA-A*68:42 Genomic Plasmid Vector	PHLAG8258570	Plasmid vector containing HLA-A*68:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:42 protein under different cellular conditions.	Inquiry
HLA-A*68:43:01 Genomic Plasmid Vector	PHLAG8258571	Plasmid vector containing HLA-A*68:43:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:43:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:43:01 protein under different cellular conditions.	Inquiry
HLA-A*68:43:02 Genomic Plasmid Vector	PHLAG8258572	Plasmid vector containing HLA-A*68:43:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:43:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:43:02 protein under different cellular conditions.	Inquiry
HLA-A*68:44 Genomic Plasmid Vector	PHLAG8258573	Plasmid vector containing HLA-A*68:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:44 protein under different cellular conditions.	Inquiry
HLA-A*68:45 Genomic Plasmid Vector	PHLAG8258574	Plasmid vector containing HLA-A*68:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:45 protein under different cellular conditions.	Inquiry
HLA-A*68:46 Genomic Plasmid Vector	PHLAG8258575	Plasmid vector containing HLA-A*68:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:46 protein under different cellular conditions.	Inquiry
HLA-A*68:47 Genomic Plasmid Vector	PHLAG8258576	Plasmid vector containing HLA-A*68:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:47 protein under different cellular conditions.	Inquiry

HLA-A*68:48 Genomic Plasmid Vector	PHLAG8258577	Plasmid vector containing HLA-A*68:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:48 protein under different cellular conditions.	Inquiry
HLA-A*68:49N Genomic Plasmid Vector	PHLAG8258578	Plasmid vector containing HLA-A*68:49N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:49N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:49N protein under different cellular conditions.	Inquiry
HLA-A*68:50:01 Genomic Plasmid Vector	PHLAG8258579	Plasmid vector containing HLA-A*68:50:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:50:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:50:01 protein under different cellular conditions.	Inquiry
HLA-A*68:50:02 Genomic Plasmid Vector	PHLAG8258580	Plasmid vector containing HLA-A*68:50:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:50:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:50:02 protein under different cellular conditions.	Inquiry
HLA-A*68:51 Genomic Plasmid Vector	PHLAG8258581	Plasmid vector containing HLA-A*68:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:51 protein under different cellular conditions.	Inquiry
HLA-A*68:52 Genomic Plasmid Vector	PHLAG8258582	Plasmid vector containing HLA-A*68:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:52 protein under different cellular conditions.	Inquiry
HLA-A*68:53 Genomic Plasmid Vector	PHLAG8258583	Plasmid vector containing HLA-A*68:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:53 protein under different cellular conditions.	Inquiry
HLA-A*68:54 Genomic Plasmid Vector	PHLAG8258584	Plasmid vector containing HLA-A*68:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:54 protein under different cellular conditions.	Inquiry
HLA-A*68:55:01 Genomic Plasmid Vector	PHLAG8258585	Plasmid vector containing HLA-A*68:55:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:55:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:55:01 protein under different cellular conditions.	Inquiry

HLA-A*68:55:02 Genomic Plasmid Vector	PHLAG8258586	Plasmid vector containing HLA-A*68:55:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:55:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:55:02 protein under different cellular conditions.	Inquiry
HLA-A*68:56:01 Genomic Plasmid Vector	PHLAG8258587	Plasmid vector containing HLA-A*68:56:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:56:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:56:01 protein under different cellular conditions.	Inquiry
HLA-A*68:56:02 Genomic Plasmid Vector	PHLAG8258588	Plasmid vector containing HLA-A*68:56:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:56:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:56:02 protein under different cellular conditions.	Inquiry
HLA-A*68:57 Genomic Plasmid Vector	PHLAG8258589	Plasmid vector containing HLA-A*68:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:57 protein under different cellular conditions.	Inquiry
HLA-A*68:58:01 Genomic Plasmid Vector	PHLAG8258590	Plasmid vector containing HLA-A*68:58:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:58:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:58:01 protein under different cellular conditions.	Inquiry
HLA-A*68:58:02 Genomic Plasmid Vector	PHLAG8258591	Plasmid vector containing HLA-A*68:58:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:58:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:58:02 protein under different cellular conditions.	Inquiry
HLA-A*68:59N Genomic Plasmid Vector	PHLAG8258592	Plasmid vector containing HLA-A*68:59N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:59N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:59N protein under different cellular conditions.	Inquiry
HLA-A*68:60 Genomic Plasmid Vector	PHLAG8258593	Plasmid vector containing HLA-A*68:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:60 protein under different cellular conditions.	Inquiry
HLA-A*68:61 Genomic Plasmid Vector	PHLAG8258594	Plasmid vector containing HLA-A*68:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:61 protein under different cellular conditions.	Inquiry

HLA-A*68:62 Genomic Plasmid Vector	PHLAG8258595	Plasmid vector containing HLA-A*68:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:62 protein under different cellular conditions.	Inquiry
HLA-A*68:63 Genomic Plasmid Vector	PHLAG8258596	Plasmid vector containing HLA-A*68:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:63 protein under different cellular conditions.	Inquiry
HLA-A*68:64 Genomic Plasmid Vector	PHLAG8258597	Plasmid vector containing HLA-A*68:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:64 protein under different cellular conditions.	Inquiry
HLA-A*68:65 Genomic Plasmid Vector	PHLAG8258598	Plasmid vector containing HLA-A*68:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:65 protein under different cellular conditions.	Inquiry
HLA-A*68:66:01 Genomic Plasmid Vector	PHLAG8258599	Plasmid vector containing HLA-A*68:66:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:66:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:66:01 protein under different cellular conditions.	Inquiry
HLA-A*68:66:02 Genomic Plasmid Vector	PHLAG8258600	Plasmid vector containing HLA-A*68:66:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:66:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:66:02 protein under different cellular conditions.	Inquiry
HLA-A*68:67 Genomic Plasmid Vector	PHLAG8258601	Plasmid vector containing HLA-A*68:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:67 protein under different cellular conditions.	Inquiry
HLA-A*68:68 Genomic Plasmid Vector	PHLAG8258602	Plasmid vector containing HLA-A*68:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:68 protein under different cellular conditions.	Inquiry
HLA-A*68:69 Genomic Plasmid Vector	PHLAG8258603	Plasmid vector containing HLA-A*68:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:69 protein under different cellular conditions.	Inquiry

HLA-A*68:70 Genomic Plasmid Vector	PHLAG8258604	Plasmid vector containing HLA-A*68:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:70 protein under different cellular conditions.	Inquiry
HLA-A*68:71 Genomic Plasmid Vector	PHLAG8258605	Plasmid vector containing HLA-A*68:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:71 protein under different cellular conditions.	Inquiry
HLA-A*68:72 Genomic Plasmid Vector	PHLAG8258606	Plasmid vector containing HLA-A*68:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:72 protein under different cellular conditions.	Inquiry
HLA-A*68:73 Genomic Plasmid Vector	PHLAG8258607	Plasmid vector containing HLA-A*68:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:73 protein under different cellular conditions.	Inquiry
HLA-A*68:74 Genomic Plasmid Vector	PHLAG8258608	Plasmid vector containing HLA-A*68:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:74 protein under different cellular conditions.	Inquiry
HLA-A*68:75:01 Genomic Plasmid Vector	PHLAG8258609	Plasmid vector containing HLA-A*68:75:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:75:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:75:01 protein under different cellular conditions.	Inquiry
HLA-A*68:75:02 Genomic Plasmid Vector	PHLAG8258610	Plasmid vector containing HLA-A*68:75:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:75:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:75:02 protein under different cellular conditions.	Inquiry
HLA-A*68:76:01 Genomic Plasmid Vector	PHLAG8258611	Plasmid vector containing HLA-A*68:76:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:76:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:76:01 protein under different cellular conditions.	Inquiry
HLA-A*68:76:02 Genomic Plasmid Vector	PHLAG8258612	Plasmid vector containing HLA-A*68:76:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:76:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:76:02 protein under different cellular conditions.	Inquiry

HLA-A*68:77 Genomic Plasmid Vector	PHLAG8258613	Plasmid vector containing HLA-A*68:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:77 protein under different cellular conditions.	Inquiry
HLA-A*68:78 Genomic Plasmid Vector	PHLAG8258614	Plasmid vector containing HLA-A*68:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:78 protein under different cellular conditions.	Inquiry
HLA-A*68:79 Genomic Plasmid Vector	PHLAG8258615	Plasmid vector containing HLA-A*68:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:79 protein under different cellular conditions.	Inquiry
HLA-A*68:80 Genomic Plasmid Vector	PHLAG8258616	Plasmid vector containing HLA-A*68:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:80 protein under different cellular conditions.	Inquiry
HLA-A*68:81 Genomic Plasmid Vector	PHLAG8258617	Plasmid vector containing HLA-A*68:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:81 protein under different cellular conditions.	Inquiry
HLA-A*68:82 Genomic Plasmid Vector	PHLAG8258618	Plasmid vector containing HLA-A*68:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:82 protein under different cellular conditions.	Inquiry
HLA-A*68:83 Genomic Plasmid Vector	PHLAG8258619	Plasmid vector containing HLA-A*68:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:83 protein under different cellular conditions.	Inquiry
HLA-A*68:84 Genomic Plasmid Vector	PHLAG8258620	Plasmid vector containing HLA-A*68:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:84 protein under different cellular conditions.	Inquiry
HLA-A*68:85 Genomic Plasmid Vector	PHLAG8258621	Plasmid vector containing HLA-A*68:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:85 protein under different cellular conditions.	Inquiry

HLA-A*68:86 Genomic Plasmid Vector	PHLAG8258622	Plasmid vector containing HLA-A*68:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:86 protein under different cellular conditions.	Inquiry
HLA-A*68:87 Genomic Plasmid Vector	PHLAG8258623	Plasmid vector containing HLA-A*68:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:87 protein under different cellular conditions.	Inquiry
HLA-A*68:88 Genomic Plasmid Vector	PHLAG8258624	Plasmid vector containing HLA-A*68:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:88 protein under different cellular conditions.	Inquiry
HLA-A*68:89 Genomic Plasmid Vector	PHLAG8258625	Plasmid vector containing HLA-A*68:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:89 protein under different cellular conditions.	Inquiry
HLA-A*68:90 Genomic Plasmid Vector	PHLAG8258626	Plasmid vector containing HLA-A*68:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:90 protein under different cellular conditions.	Inquiry
HLA-A*68:91:01 Genomic Plasmid Vector	PHLAG8258627	Plasmid vector containing HLA-A*68:91:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:91:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:91:01 protein under different cellular conditions.	Inquiry
HLA-A*68:91:02 Genomic Plasmid Vector	PHLAG8258628	Plasmid vector containing HLA-A*68:91:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:91:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:91:02 protein under different cellular conditions.	Inquiry
HLA-A*68:92 Genomic Plasmid Vector	PHLAG8258629	Plasmid vector containing HLA-A*68:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:92 protein under different cellular conditions.	Inquiry
HLA-A*68:93 Genomic Plasmid Vector	PHLAG8258630	Plasmid vector containing HLA-A*68:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:93 protein under different cellular conditions.	Inquiry

HLA-A*68:94N Genomic Plasmid Vector	PHLAG8258631	Plasmid vector containing HLA-A*68:94N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:94N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:94N protein under different cellular conditions.	Inquiry
HLA-A*68:95 Genomic Plasmid Vector	PHLAG8258632	Plasmid vector containing HLA-A*68:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:95 protein under different cellular conditions.	Inquiry
HLA-A*68:96 Genomic Plasmid Vector	PHLAG8258633	Plasmid vector containing HLA-A*68:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:96 protein under different cellular conditions.	Inquiry
HLA-A*68:97 Genomic Plasmid Vector	PHLAG8258634	Plasmid vector containing HLA-A*68:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:97 protein under different cellular conditions.	Inquiry
HLA-A*68:98 Genomic Plasmid Vector	PHLAG8258635	Plasmid vector containing HLA-A*68:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:98 protein under different cellular conditions.	Inquiry
HLA-A*68:99:01 Genomic Plasmid Vector	PHLAG8258636	Plasmid vector containing HLA-A*68:99:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:99:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:99:01 protein under different cellular conditions.	Inquiry
HLA-A*68:99:02 Genomic Plasmid Vector	PHLAG8258637	Plasmid vector containing HLA-A*68:99:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*68:99:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*68:99:02 protein under different cellular conditions.	Inquiry
HLA-A*69:01:01:01 Genomic Plasmid Vector	PHLAG8258638	Plasmid vector containing HLA-A*69:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:01:01 protein under different cellular conditions.	Inquiry
HLA-A*69:01:01:02 Genomic Plasmid Vector	PHLAG8258639	Plasmid vector containing HLA-A*69:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:01:02 protein under different cellular conditions.	Inquiry

HLA-A*69:01:01:03 Genomic Plasmid Vector	PHLAG8258640	Plasmid vector containing HLA-A*69:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:01:03 protein under different cellular conditions.	Inquiry
HLA-A*69:01:02 Genomic Plasmid Vector	PHLAG8258641	Plasmid vector containing HLA-A*69:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:02 protein under different cellular conditions.	Inquiry
HLA-A*69:01:03 Genomic Plasmid Vector	PHLAG8258642	Plasmid vector containing HLA-A*69:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:03 protein under different cellular conditions.	Inquiry
HLA-A*69:01:04 Genomic Plasmid Vector	PHLAG8258643	Plasmid vector containing HLA-A*69:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:04 protein under different cellular conditions.	Inquiry
HLA-A*69:01:05 Genomic Plasmid Vector	PHLAG8258644	Plasmid vector containing HLA-A*69:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:05 protein under different cellular conditions.	Inquiry
HLA-A*69:01:06 Genomic Plasmid Vector	PHLAG8258645	Plasmid vector containing HLA-A*69:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:01:06 protein under different cellular conditions.	Inquiry
HLA-A*69:02 Genomic Plasmid Vector	PHLAG8258646	Plasmid vector containing HLA-A*69:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:02 protein under different cellular conditions.	Inquiry
HLA-A*69:03 Genomic Plasmid Vector	PHLAG8258647	Plasmid vector containing HLA-A*69:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:03 protein under different cellular conditions.	Inquiry
HLA-A*69:04 Genomic Plasmid Vector	PHLAG8258648	Plasmid vector containing HLA-A*69:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:04 protein under different cellular conditions.	Inquiry

HLA-A*69:05 Genomic Plasmid Vector	PHLAG8258649	Plasmid vector containing HLA-A*69:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:05 protein under different cellular conditions.	Inquiry
HLA-A*69:06 Genomic Plasmid Vector	PHLAG8258650	Plasmid vector containing HLA-A*69:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:06 protein under different cellular conditions.	Inquiry
HLA-A*69:07 Genomic Plasmid Vector	PHLAG8258651	Plasmid vector containing HLA-A*69:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:07 protein under different cellular conditions.	Inquiry
HLA-A*69:08 Genomic Plasmid Vector	PHLAG8258652	Plasmid vector containing HLA-A*69:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:08 protein under different cellular conditions.	Inquiry
HLA-A*69:09 Genomic Plasmid Vector	PHLAG8258653	Plasmid vector containing HLA-A*69:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*69:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*69:09 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:01 Genomic Plasmid Vector	PHLAG8258654	Plasmid vector containing HLA-A*74:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:01 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:02 Genomic Plasmid Vector	PHLAG8258655	Plasmid vector containing HLA-A*74:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:02 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:03 Genomic Plasmid Vector	PHLAG8258656	Plasmid vector containing HLA-A*74:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:03 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:04 Genomic Plasmid Vector	PHLAG8258657	Plasmid vector containing HLA-A*74:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:04 protein under different cellular conditions.	Inquiry

HLA-A*74:01:01:05 Genomic Plasmid Vector	PHLAG8258658	Plasmid vector containing HLA-A*74:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:05 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:06 Genomic Plasmid Vector	PHLAG8258659	Plasmid vector containing HLA-A*74:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:06 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:07 Genomic Plasmid Vector	PHLAG8258660	Plasmid vector containing HLA-A*74:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:07 protein under different cellular conditions.	Inquiry
HLA-A*74:01:01:08 Genomic Plasmid Vector	PHLAG8258661	Plasmid vector containing HLA-A*74:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:01:08 protein under different cellular conditions.	Inquiry
HLA-A*74:01:02 Genomic Plasmid Vector	PHLAG8258662	Plasmid vector containing HLA-A*74:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:02 protein under different cellular conditions.	Inquiry
HLA-A*74:01:03 Genomic Plasmid Vector	PHLAG8258663	Plasmid vector containing HLA-A*74:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:03 protein under different cellular conditions.	Inquiry
HLA-A*74:01:04 Genomic Plasmid Vector	PHLAG8258664	Plasmid vector containing HLA-A*74:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:04 protein under different cellular conditions.	Inquiry
HLA-A*74:01:05 Genomic Plasmid Vector	PHLAG8258665	Plasmid vector containing HLA-A*74:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:05 protein under different cellular conditions.	Inquiry
HLA-A*74:01:06 Genomic Plasmid Vector	PHLAG8258666	Plasmid vector containing HLA-A*74:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:06 protein under different cellular conditions.	Inquiry

HLA-A*74:01:07 Genomic Plasmid Vector	PHLAG8258667	Plasmid vector containing HLA-A*74:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:07 protein under different cellular conditions.	Inquiry
HLA-A*74:01:08 Genomic Plasmid Vector	PHLAG8258668	Plasmid vector containing HLA-A*74:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:08 protein under different cellular conditions.	Inquiry
HLA-A*74:01:09 Genomic Plasmid Vector	PHLAG8258669	Plasmid vector containing HLA-A*74:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:09 protein under different cellular conditions.	Inquiry
HLA-A*74:01:10 Genomic Plasmid Vector	PHLAG8258670	Plasmid vector containing HLA-A*74:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:10 protein under different cellular conditions.	Inquiry
HLA-A*74:01:11 Genomic Plasmid Vector	PHLAG8258671	Plasmid vector containing HLA-A*74:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:11 protein under different cellular conditions.	Inquiry
HLA-A*74:01:12 Genomic Plasmid Vector	PHLAG8258672	Plasmid vector containing HLA-A*74:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:01:12 protein under different cellular conditions.	Inquiry
HLA-A*74:02:01:01 Genomic Plasmid Vector	PHLAG8258673	Plasmid vector containing HLA-A*74:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:02:01:01 protein under different cellular conditions.	Inquiry
HLA-A*74:02:01:02 Genomic Plasmid Vector	PHLAG8258674	Plasmid vector containing HLA-A*74:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:02:01:02 protein under different cellular conditions.	Inquiry
HLA-A*74:02:01:03 Genomic Plasmid Vector	PHLAG8258675	Plasmid vector containing HLA-A*74:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:02:01:03 protein under different cellular conditions.	Inquiry

HLA-A*74:03:01:01 Genomic Plasmid Vector	PHLAG8258676	Plasmid vector containing HLA-A*74:03:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:03:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:03:01:01 protein under different cellular conditions.	Inquiry
HLA-A*74:03:01:02 Genomic Plasmid Vector	PHLAG8258677	Plasmid vector containing HLA-A*74:03:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:03:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:03:01:02 protein under different cellular conditions.	Inquiry
HLA-A*74:03:01:03 Genomic Plasmid Vector	PHLAG8258678	Plasmid vector containing HLA-A*74:03:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:03:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:03:01:03 protein under different cellular conditions.	Inquiry
HLA-A*74:03:02 Genomic Plasmid Vector	PHLAG8258679	Plasmid vector containing HLA-A*74:03:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:03:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:03:02 protein under different cellular conditions.	Inquiry
HLA-A*74:03:03 Genomic Plasmid Vector	PHLAG8258680	Plasmid vector containing HLA-A*74:03:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:03:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:03:03 protein under different cellular conditions.	Inquiry
HLA-A*74:04 Genomic Plasmid Vector	PHLAG8258681	Plasmid vector containing HLA-A*74:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:04 protein under different cellular conditions.	Inquiry
HLA-A*74:05 Genomic Plasmid Vector	PHLAG8258682	Plasmid vector containing HLA-A*74:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:05 protein under different cellular conditions.	Inquiry
HLA-A*74:06 Genomic Plasmid Vector	PHLAG8258683	Plasmid vector containing HLA-A*74:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:06 protein under different cellular conditions.	Inquiry
HLA-A*74:07 Genomic Plasmid Vector	PHLAG8258684	Plasmid vector containing HLA-A*74:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:07 protein under different cellular conditions.	Inquiry

HLA-A*74:08 Genomic Plasmid Vector	PHLAG8258685	Plasmid vector containing HLA-A*74:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:08 protein under different cellular conditions.	Inquiry
HLA-A*74:09 Genomic Plasmid Vector	PHLAG8258686	Plasmid vector containing HLA-A*74:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:09 protein under different cellular conditions.	Inquiry
HLA-A*74:10 Genomic Plasmid Vector	PHLAG8258687	Plasmid vector containing HLA-A*74:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:10 protein under different cellular conditions.	Inquiry
HLA-A*74:11 Genomic Plasmid Vector	PHLAG8258688	Plasmid vector containing HLA-A*74:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:11 protein under different cellular conditions.	Inquiry
HLA-A*74:12N Genomic Plasmid Vector	PHLAG8258689	Plasmid vector containing HLA-A*74:12N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:12N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:12N protein under different cellular conditions.	Inquiry
HLA-A*74:13 Genomic Plasmid Vector	PHLAG8258690	Plasmid vector containing HLA-A*74:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:13 protein under different cellular conditions.	Inquiry
HLA-A*74:14N Genomic Plasmid Vector	PHLAG8258691	Plasmid vector containing HLA-A*74:14N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:14N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:14N protein under different cellular conditions.	Inquiry
HLA-A*74:15 Genomic Plasmid Vector	PHLAG8258692	Plasmid vector containing HLA-A*74:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:15 protein under different cellular conditions.	Inquiry
HLA-A*74:16:01 Genomic Plasmid Vector	PHLAG8258693	Plasmid vector containing HLA-A*74:16:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:16:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:16:01 protein under different cellular conditions.	Inquiry

HLA-A*74:16:02 Genomic Plasmid Vector	PHLAG8258694	Plasmid vector containing HLA-A*74:16:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:16:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:16:02 protein under different cellular conditions.	Inquiry
HLA-A*74:17 Genomic Plasmid Vector	PHLAG8258695	Plasmid vector containing HLA-A*74:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:17 protein under different cellular conditions.	Inquiry
HLA-A*74:18 Genomic Plasmid Vector	PHLAG8258696	Plasmid vector containing HLA-A*74:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:18 protein under different cellular conditions.	Inquiry
HLA-A*74:19 Genomic Plasmid Vector	PHLAG8258697	Plasmid vector containing HLA-A*74:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:19 protein under different cellular conditions.	Inquiry
HLA-A*74:20 Genomic Plasmid Vector	PHLAG8258698	Plasmid vector containing HLA-A*74:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:20 protein under different cellular conditions.	Inquiry
HLA-A*74:21 Genomic Plasmid Vector	PHLAG8258699	Plasmid vector containing HLA-A*74:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:21 protein under different cellular conditions.	Inquiry
HLA-A*74:22 Genomic Plasmid Vector	PHLAG8258700	Plasmid vector containing HLA-A*74:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:22 protein under different cellular conditions.	Inquiry
HLA-A*74:23 Genomic Plasmid Vector	PHLAG8258701	Plasmid vector containing HLA-A*74:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:23 protein under different cellular conditions.	Inquiry
HLA-A*74:24 Genomic Plasmid Vector	PHLAG8258702	Plasmid vector containing HLA-A*74:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:24 protein under different cellular conditions.	Inquiry

HLA-A*74:25 Genomic Plasmid Vector	PHLAG8258703	Plasmid vector containing HLA-A*74:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:25 protein under different cellular conditions.	Inquiry
HLA-A*74:26 Genomic Plasmid Vector	PHLAG8258704	Plasmid vector containing HLA-A*74:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:26 protein under different cellular conditions.	Inquiry
HLA-A*74:27 Genomic Plasmid Vector	PHLAG8258705	Plasmid vector containing HLA-A*74:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:27 protein under different cellular conditions.	Inquiry
HLA-A*74:28 Genomic Plasmid Vector	PHLAG8258706	Plasmid vector containing HLA-A*74:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:28 protein under different cellular conditions.	Inquiry
HLA-A*74:29 Genomic Plasmid Vector	PHLAG8258707	Plasmid vector containing HLA-A*74:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:29 protein under different cellular conditions.	Inquiry
HLA-A*74:30 Genomic Plasmid Vector	PHLAG8258708	Plasmid vector containing HLA-A*74:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:30 protein under different cellular conditions.	Inquiry
HLA-A*74:31 Genomic Plasmid Vector	PHLAG8258709	Plasmid vector containing HLA-A*74:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:31 protein under different cellular conditions.	Inquiry
HLA-A*74:32N Genomic Plasmid Vector	PHLAG8258710	Plasmid vector containing HLA-A*74:32N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:32N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:32N protein under different cellular conditions.	Inquiry
HLA-A*74:33 Genomic Plasmid Vector	PHLAG8258711	Plasmid vector containing HLA-A*74:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:33 protein under different cellular conditions.	Inquiry

HLA-A*74:34 Genomic Plasmid Vector	PHLAG8258712	Plasmid vector containing HLA-A*74:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:34 protein under different cellular conditions.	Inquiry
HLA-A*74:35 Genomic Plasmid Vector	PHLAG8258713	Plasmid vector containing HLA-A*74:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:35 protein under different cellular conditions.	Inquiry
HLA-A*74:36 Genomic Plasmid Vector	PHLAG8258714	Plasmid vector containing HLA-A*74:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:36 protein under different cellular conditions.	Inquiry
HLA-A*74:37 Genomic Plasmid Vector	PHLAG8258715	Plasmid vector containing HLA-A*74:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:37 protein under different cellular conditions.	Inquiry
HLA-A*74:38 Genomic Plasmid Vector	PHLAG8258716	Plasmid vector containing HLA-A*74:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:38 protein under different cellular conditions.	Inquiry
HLA-A*74:39 Genomic Plasmid Vector	PHLAG8258717	Plasmid vector containing HLA-A*74:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:39 protein under different cellular conditions.	Inquiry
HLA-A*74:40 Genomic Plasmid Vector	PHLAG8258718	Plasmid vector containing HLA-A*74:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:40 protein under different cellular conditions.	Inquiry
HLA-A*74:41 Genomic Plasmid Vector	PHLAG8258719	Plasmid vector containing HLA-A*74:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:41 protein under different cellular conditions.	Inquiry
HLA-A*74:42 Genomic Plasmid Vector	PHLAG8258720	Plasmid vector containing HLA-A*74:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:42 protein under different cellular conditions.	Inquiry

HLA-A*74:43 Genomic Plasmid Vector	PHLAG8258721	Plasmid vector containing HLA-A*74:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:43 protein under different cellular conditions.	Inquiry
HLA-A*74:44 Genomic Plasmid Vector	PHLAG8258722	Plasmid vector containing HLA-A*74:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:44 protein under different cellular conditions.	Inquiry
HLA-A*74:45 Genomic Plasmid Vector	PHLAG8258723	Plasmid vector containing HLA-A*74:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:45 protein under different cellular conditions.	Inquiry
HLA-A*74:46 Genomic Plasmid Vector	PHLAG8258724	Plasmid vector containing HLA-A*74:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:46 protein under different cellular conditions.	Inquiry
HLA-A*74:47N Genomic Plasmid Vector	PHLAG8258725	Plasmid vector containing HLA-A*74:47N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:47N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:47N protein under different cellular conditions.	Inquiry
HLA-A*74:48 Genomic Plasmid Vector	PHLAG8258726	Plasmid vector containing HLA-A*74:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:48 protein under different cellular conditions.	Inquiry
HLA-A*74:49 Genomic Plasmid Vector	PHLAG8258727	Plasmid vector containing HLA-A*74:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:49 protein under different cellular conditions.	Inquiry
HLA-A*74:50 Genomic Plasmid Vector	PHLAG8258728	Plasmid vector containing HLA-A*74:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:50 protein under different cellular conditions.	Inquiry
HLA-A*74:51 Genomic Plasmid Vector	PHLAG8258729	Plasmid vector containing HLA-A*74:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:51 protein under different cellular conditions.	Inquiry

HLA-A*74:52 Genomic Plasmid Vector	PHLAG8258730	Plasmid vector containing HLA-A*74:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:52 protein under different cellular conditions.	Inquiry
HLA-A*74:53 Genomic Plasmid Vector	PHLAG8258731	Plasmid vector containing HLA-A*74:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*74:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*74:53 protein under different cellular conditions.	Inquiry
HLA-A*80:01:01:01 Genomic Plasmid Vector	PHLAG8258732	Plasmid vector containing HLA-A*80:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:01:01:01 protein under different cellular conditions.	Inquiry
HLA-A*80:01:01:02 Genomic Plasmid Vector	PHLAG8258733	Plasmid vector containing HLA-A*80:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:01:01:02 protein under different cellular conditions.	Inquiry
HLA-A*80:01:01:03 Genomic Plasmid Vector	PHLAG8258734	Plasmid vector containing HLA-A*80:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:01:01:03 protein under different cellular conditions.	Inquiry
HLA-A*80:01:02 Genomic Plasmid Vector	PHLAG8258735	Plasmid vector containing HLA-A*80:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:01:02 protein under different cellular conditions.	Inquiry
HLA-A*80:02 Genomic Plasmid Vector	PHLAG8258736	Plasmid vector containing HLA-A*80:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:02 protein under different cellular conditions.	Inquiry
HLA-A*80:03 Genomic Plasmid Vector	PHLAG8258737	Plasmid vector containing HLA-A*80:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:03 protein under different cellular conditions.	Inquiry
HLA-A*80:04 Genomic Plasmid Vector	PHLAG8258738	Plasmid vector containing HLA-A*80:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:04 protein under different cellular conditions.	Inquiry

HLA-A*80:05 Genomic Plasmid Vector	PHLAG8258739	Plasmid vector containing HLA-A*80:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:05 protein under different cellular conditions.	Inquiry
HLA-A*80:06 Genomic Plasmid Vector	PHLAG8258740	Plasmid vector containing HLA-A*80:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:06 protein under different cellular conditions.	Inquiry
HLA-A*80:07 Genomic Plasmid Vector	PHLAG8258741	Plasmid vector containing HLA-A*80:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:07 protein under different cellular conditions.	Inquiry
HLA-A*80:08N Genomic Plasmid Vector	PHLAG8258742	Plasmid vector containing HLA-A*80:08N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:08N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:08N protein under different cellular conditions.	Inquiry
HLA-A*80:09N Genomic Plasmid Vector	PHLAG8258743	Plasmid vector containing HLA-A*80:09N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:09N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:09N protein under different cellular conditions.	Inquiry
HLA-A*80:10 Genomic Plasmid Vector	PHLAG8258744	Plasmid vector containing HLA-A*80:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-A*80:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-A*80:10 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:01 Genomic Plasmid Vector	PHLAG8258745	Plasmid vector containing HLA-B*07:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:02 Genomic Plasmid Vector	PHLAG8258746	Plasmid vector containing HLA-B*07:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:03 Genomic Plasmid Vector	PHLAG8258747	Plasmid vector containing HLA-B*07:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:03 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:04 Genomic Plasmid Vector	PHLAG8258748	Plasmid vector containing HLA-B*07:02:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:04 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:05 Genomic Plasmid Vector	PHLAG8258749	Plasmid vector containing HLA-B*07:02:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:05 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:06 Genomic Plasmid Vector	PHLAG8258750	Plasmid vector containing HLA-B*07:02:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:06 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:07 Genomic Plasmid Vector	PHLAG8258751	Plasmid vector containing HLA-B*07:02:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:07 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:08 Genomic Plasmid Vector	PHLAG8258752	Plasmid vector containing HLA-B*07:02:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:08 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:09 Genomic Plasmid Vector	PHLAG8258753	Plasmid vector containing HLA-B*07:02:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:09 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:10 Genomic Plasmid Vector	PHLAG8258754	Plasmid vector containing HLA-B*07:02:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:10 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:100 Genomic Plasmid Vector	PHLAG8258755	Plasmid vector containing HLA-B*07:02:01:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:100 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:101 Genomic Plasmid Vector	PHLAG8258756	Plasmid vector containing HLA-B*07:02:01:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:101 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:102 Genomic Plasmid Vector	PHLAG8258757	Plasmid vector containing HLA-B*07:02:01:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:102 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:103 Genomic Plasmid Vector	PHLAG8258758	Plasmid vector containing HLA-B*07:02:01:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:103 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:104 Genomic Plasmid Vector	PHLAG8258759	Plasmid vector containing HLA-B*07:02:01:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:104 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:105 Genomic Plasmid Vector	PHLAG8258760	Plasmid vector containing HLA-B*07:02:01:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:105 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:106 Genomic Plasmid Vector	PHLAG8258761	Plasmid vector containing HLA-B*07:02:01:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:106 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:107 Genomic Plasmid Vector	PHLAG8258762	Plasmid vector containing HLA-B*07:02:01:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:107 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:108 Genomic Plasmid Vector	PHLAG8258763	Plasmid vector containing HLA-B*07:02:01:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:108 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:109 Genomic Plasmid Vector	PHLAG8258764	Plasmid vector containing HLA-B*07:02:01:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:109 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:11 Genomic Plasmid Vector	PHLAG8258765	Plasmid vector containing HLA-B*07:02:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:11 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:110 Genomic Plasmid Vector	PHLAG8258766	Plasmid vector containing HLA-B*07:02:01:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:110 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:111 Genomic Plasmid Vector	PHLAG8258767	Plasmid vector containing HLA-B*07:02:01:111 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:111 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:111 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:112 Genomic Plasmid Vector	PHLAG8258768	Plasmid vector containing HLA-B*07:02:01:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:112 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:113 Genomic Plasmid Vector	PHLAG8258769	Plasmid vector containing HLA-B*07:02:01:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:113 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:113 Genomic Plasmid Vector	PHLAG8258770	Plasmid vector containing HLA-B*07:02:01:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:113 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:114 Genomic Plasmid Vector	PHLAG8258771	Plasmid vector containing HLA-B*07:02:01:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:114 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:115 Genomic Plasmid Vector	PHLAG8258772	Plasmid vector containing HLA-B*07:02:01:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:115 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:116 Genomic Plasmid Vector	PHLAG8258773	Plasmid vector containing HLA-B*07:02:01:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:116 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:117 Genomic Plasmid Vector	PHLAG8258774	Plasmid vector containing HLA-B*07:02:01:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:117 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:118 Genomic Plasmid Vector	PHLAG8258775	Plasmid vector containing HLA-B*07:02:01:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:118 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:119 Genomic Plasmid Vector	PHLAG8258776	Plasmid vector containing HLA-B*07:02:01:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:119 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:12 Genomic Plasmid Vector	PHLAG8258777	Plasmid vector containing HLA-B*07:02:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:12 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:120 Genomic Plasmid Vector	PHLAG8258778	Plasmid vector containing HLA-B*07:02:01:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:120 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:121 Genomic Plasmid Vector	PHLAG8258779	Plasmid vector containing HLA-B*07:02:01:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:121 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:122 Genomic Plasmid Vector	PHLAG8258780	Plasmid vector containing HLA-B*07:02:01:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:122 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:123 Genomic Plasmid Vector	PHLAG8258781	Plasmid vector containing HLA-B*07:02:01:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:123 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:124 Genomic Plasmid Vector	PHLAG8258782	Plasmid vector containing HLA-B*07:02:01:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:124 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:125 Genomic Plasmid Vector	PHLAG8258783	Plasmid vector containing HLA-B*07:02:01:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:125 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:126N Genomic Plasmid Vector	PHLAG8258784	Plasmid vector containing HLA-B*07:02:01:126N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:126N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:126N protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:127 Genomic Plasmid Vector	PHLAG8258785	Plasmid vector containing HLA-B*07:02:01:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:127 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:128 Genomic Plasmid Vector	PHLAG8258786	Plasmid vector containing HLA-B*07:02:01:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:128 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:129 Genomic Plasmid Vector	PHLAG8258787	Plasmid vector containing HLA-B*07:02:01:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:129 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:13 Genomic Plasmid Vector	PHLAG8258788	Plasmid vector containing HLA-B*07:02:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:13 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:130Q Genomic Plasmid Vector	PHLAG8258789	Plasmid vector containing HLA-B*07:02:01:130Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:130Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:130Q protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:131 Genomic Plasmid Vector	PHLAG8258790	Plasmid vector containing HLA-B*07:02:01:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:131 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:132 Genomic Plasmid Vector	PHLAG8258791	Plasmid vector containing HLA-B*07:02:01:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:132 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:14 Genomic Plasmid Vector	PHLAG8258792	Plasmid vector containing HLA-B*07:02:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:14 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:15 Genomic Plasmid Vector	PHLAG8258793	Plasmid vector containing HLA-B*07:02:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:15 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:16 Genomic Plasmid Vector	PHLAG8258794	Plasmid vector containing HLA-B*07:02:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:16 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:17 Genomic Plasmid Vector	PHLAG8258795	Plasmid vector containing HLA-B*07:02:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:17 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:18 Genomic Plasmid Vector	PHLAG8258796	Plasmid vector containing HLA-B*07:02:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:18 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:19 Genomic Plasmid Vector	PHLAG8258797	Plasmid vector containing HLA-B*07:02:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:19 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:20 Genomic Plasmid Vector	PHLAG8258798	Plasmid vector containing HLA-B*07:02:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:20 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:21 Genomic Plasmid Vector	PHLAG8258799	Plasmid vector containing HLA-B*07:02:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:21 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:22 Genomic Plasmid Vector	PHLAG8258800	Plasmid vector containing HLA-B*07:02:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:22 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:23 Genomic Plasmid Vector	PHLAG8258801	Plasmid vector containing HLA-B*07:02:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:23 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:24 Genomic Plasmid Vector	PHLAG8258802	Plasmid vector containing HLA-B*07:02:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:24 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:25 Genomic Plasmid Vector	PHLAG8258803	Plasmid vector containing HLA-B*07:02:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:25 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:26 Genomic Plasmid Vector	PHLAG8258804	Plasmid vector containing HLA-B*07:02:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:26 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:27 Genomic Plasmid Vector	PHLAG8258805	Plasmid vector containing HLA-B*07:02:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:27 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:28 Genomic Plasmid Vector	PHLAG8258806	Plasmid vector containing HLA-B*07:02:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:28 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:29 Genomic Plasmid Vector	PHLAG8258807	Plasmid vector containing HLA-B*07:02:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:29 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:30 Genomic Plasmid Vector	PHLAG8258808	Plasmid vector containing HLA-B*07:02:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:30 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:31 Genomic Plasmid Vector	PHLAG8258809	Plasmid vector containing HLA-B*07:02:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:31 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:32 Genomic Plasmid Vector	PHLAG8258810	Plasmid vector containing HLA-B*07:02:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:32 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:33 Genomic Plasmid Vector	PHLAG8258811	Plasmid vector containing HLA-B*07:02:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:33 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:34 Genomic Plasmid Vector	PHLAG8258812	Plasmid vector containing HLA-B*07:02:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:34 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:35 Genomic Plasmid Vector	PHLAG8258813	Plasmid vector containing HLA-B*07:02:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:35 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:36 Genomic Plasmid Vector	PHLAG8258814	Plasmid vector containing HLA-B*07:02:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:36 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:37 Genomic Plasmid Vector	PHLAG8258815	Plasmid vector containing HLA-B*07:02:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:37 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:38 Genomic Plasmid Vector	PHLAG8258816	Plasmid vector containing HLA-B*07:02:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:38 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:39 Genomic Plasmid Vector	PHLAG8258817	Plasmid vector containing HLA-B*07:02:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:39 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:40 Genomic Plasmid Vector	PHLAG8258818	Plasmid vector containing HLA-B*07:02:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:40 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:41 Genomic Plasmid Vector	PHLAG8258819	Plasmid vector containing HLA-B*07:02:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:41 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:42 Genomic Plasmid Vector	PHLAG8258820	Plasmid vector containing HLA-B*07:02:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:42 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:43 Genomic Plasmid Vector	PHLAG8258821	Plasmid vector containing HLA-B*07:02:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:43 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:44 Genomic Plasmid Vector	PHLAG8258822	Plasmid vector containing HLA-B*07:02:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:44 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:45 Genomic Plasmid Vector	PHLAG8258823	Plasmid vector containing HLA-B*07:02:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:45 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:46 Genomic Plasmid Vector	PHLAG8258824	Plasmid vector containing HLA-B*07:02:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:46 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:47 Genomic Plasmid Vector	PHLAG8258825	Plasmid vector containing HLA-B*07:02:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:47 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:48 Genomic Plasmid Vector	PHLAG8258826	Plasmid vector containing HLA-B*07:02:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:48 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:49 Genomic Plasmid Vector	PHLAG8258827	Plasmid vector containing HLA-B*07:02:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:49 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:50 Genomic Plasmid Vector	PHLAG8258828	Plasmid vector containing HLA-B*07:02:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:50 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:51 Genomic Plasmid Vector	PHLAG8258829	Plasmid vector containing HLA-B*07:02:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:51 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:52 Genomic Plasmid Vector	PHLAG8258830	Plasmid vector containing HLA-B*07:02:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:52 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:53 Genomic Plasmid Vector	PHLAG8258831	Plasmid vector containing HLA-B*07:02:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:53 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:54 Genomic Plasmid Vector	PHLAG8258832	Plasmid vector containing HLA-B*07:02:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:54 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:55 Genomic Plasmid Vector	PHLAG8258833	Plasmid vector containing HLA-B*07:02:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:55 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:56 Genomic Plasmid Vector	PHLAG8258834	Plasmid vector containing HLA-B*07:02:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:56 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:57 Genomic Plasmid Vector	PHLAG8258835	Plasmid vector containing HLA-B*07:02:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:57 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:58 Genomic Plasmid Vector	PHLAG8258836	Plasmid vector containing HLA-B*07:02:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:58 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:59 Genomic Plasmid Vector	PHLAG8258837	Plasmid vector containing HLA-B*07:02:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:59 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:60 Genomic Plasmid Vector	PHLAG8258838	Plasmid vector containing HLA-B*07:02:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:60 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:61 Genomic Plasmid Vector	PHLAG8258839	Plasmid vector containing HLA-B*07:02:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:61 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:62 Genomic Plasmid Vector	PHLAG8258840	Plasmid vector containing HLA-B*07:02:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:62 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:63 Genomic Plasmid Vector	PHLAG8258841	Plasmid vector containing HLA-B*07:02:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:63 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:64 Genomic Plasmid Vector	PHLAG8258842	Plasmid vector containing HLA-B*07:02:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:64 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:65 Genomic Plasmid Vector	PHLAG8258843	Plasmid vector containing HLA-B*07:02:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:65 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:66 Genomic Plasmid Vector	PHLAG8258844	Plasmid vector containing HLA-B*07:02:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:66 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:67 Genomic Plasmid Vector	PHLAG8258845	Plasmid vector containing HLA-B*07:02:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:67 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:68 Genomic Plasmid Vector	PHLAG8258846	Plasmid vector containing HLA-B*07:02:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:68 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:69 Genomic Plasmid Vector	PHLAG8258847	Plasmid vector containing HLA-B*07:02:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:69 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:70 Genomic Plasmid Vector	PHLAG8258848	Plasmid vector containing HLA-B*07:02:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:70 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:71 Genomic Plasmid Vector	PHLAG8258849	Plasmid vector containing HLA-B*07:02:01:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:71 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:72 Genomic Plasmid Vector	PHLAG8258850	Plasmid vector containing HLA-B*07:02:01:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:72 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:73 Genomic Plasmid Vector	PHLAG8258851	Plasmid vector containing HLA-B*07:02:01:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:73 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:74 Genomic Plasmid Vector	PHLAG8258852	Plasmid vector containing HLA-B*07:02:01:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:74 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:75 Genomic Plasmid Vector	PHLAG8258853	Plasmid vector containing HLA-B*07:02:01:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:75 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:76 Genomic Plasmid Vector	PHLAG8258854	Plasmid vector containing HLA-B*07:02:01:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:76 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:77 Genomic Plasmid Vector	PHLAG8258855	Plasmid vector containing HLA-B*07:02:01:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:77 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:78 Genomic Plasmid Vector	PHLAG8258856	Plasmid vector containing HLA-B*07:02:01:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:78 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:79 Genomic Plasmid Vector	PHLAG8258857	Plasmid vector containing HLA-B*07:02:01:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:79 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:80 Genomic Plasmid Vector	PHLAG8258858	Plasmid vector containing HLA-B*07:02:01:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:80 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:81 Genomic Plasmid Vector	PHLAG8258859	Plasmid vector containing HLA-B*07:02:01:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:81 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:82 Genomic Plasmid Vector	PHLAG8258860	Plasmid vector containing HLA-B*07:02:01:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:82 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:83 Genomic Plasmid Vector	PHLAG8258861	Plasmid vector containing HLA-B*07:02:01:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:83 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:84 Genomic Plasmid Vector	PHLAG8258862	Plasmid vector containing HLA-B*07:02:01:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:84 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:85 Genomic Plasmid Vector	PHLAG8258863	Plasmid vector containing HLA-B*07:02:01:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:85 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:86 Genomic Plasmid Vector	PHLAG8258864	Plasmid vector containing HLA-B*07:02:01:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:86 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:87 Genomic Plasmid Vector	PHLAG8258865	Plasmid vector containing HLA-B*07:02:01:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:87 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:88 Genomic Plasmid Vector	PHLAG8258866	Plasmid vector containing HLA-B*07:02:01:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:88 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:89 Genomic Plasmid Vector	PHLAG8258867	Plasmid vector containing HLA-B*07:02:01:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:89 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:90 Genomic Plasmid Vector	PHLAG8258868	Plasmid vector containing HLA-B*07:02:01:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:90 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:91 Genomic Plasmid Vector	PHLAG8258869	Plasmid vector containing HLA-B*07:02:01:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:91 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:92 Genomic Plasmid Vector	PHLAG8258870	Plasmid vector containing HLA-B*07:02:01:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:92 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:93 Genomic Plasmid Vector	PHLAG8258871	Plasmid vector containing HLA-B*07:02:01:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:93 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:94 Genomic Plasmid Vector	PHLAG8258872	Plasmid vector containing HLA-B*07:02:01:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:94 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:95 Genomic Plasmid Vector	PHLAG8258873	Plasmid vector containing HLA-B*07:02:01:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:95 protein under different cellular conditions.	Inquiry

HLA-B*07:02:01:96 Genomic Plasmid Vector	PHLAG8258874	Plasmid vector containing HLA-B*07:02:01:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:96 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:97 Genomic Plasmid Vector	PHLAG8258875	Plasmid vector containing HLA-B*07:02:01:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:97 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:98 Genomic Plasmid Vector	PHLAG8258876	Plasmid vector containing HLA-B*07:02:01:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:98 protein under different cellular conditions.	Inquiry
HLA-B*07:02:01:99 Genomic Plasmid Vector	PHLAG8258877	Plasmid vector containing HLA-B*07:02:01:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:01:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:01:99 protein under different cellular conditions.	Inquiry
HLA-B*07:02:02 Genomic Plasmid Vector	PHLAG8258878	Plasmid vector containing HLA-B*07:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:02 protein under different cellular conditions.	Inquiry
HLA-B*07:02:03 Genomic Plasmid Vector	PHLAG8258879	Plasmid vector containing HLA-B*07:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:03 protein under different cellular conditions.	Inquiry
HLA-B*07:02:04 Genomic Plasmid Vector	PHLAG8258880	Plasmid vector containing HLA-B*07:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:04 protein under different cellular conditions.	Inquiry
HLA-B*07:02:05 Genomic Plasmid Vector	PHLAG8258881	Plasmid vector containing HLA-B*07:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:05 protein under different cellular conditions.	Inquiry
HLA-B*07:02:06 Genomic Plasmid Vector	PHLAG8258882	Plasmid vector containing HLA-B*07:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:06 protein under different cellular conditions.	Inquiry

HLA-B*07:02:07 Genomic Plasmid Vector	PHLAG8258883	Plasmid vector containing HLA-B*07:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:07 protein under different cellular conditions.	Inquiry
HLA-B*07:02:08 Genomic Plasmid Vector	PHLAG8258884	Plasmid vector containing HLA-B*07:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:08 protein under different cellular conditions.	Inquiry
HLA-B*07:02:09 Genomic Plasmid Vector	PHLAG8258885	Plasmid vector containing HLA-B*07:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:09 protein under different cellular conditions.	Inquiry
HLA-B*07:02:10 Genomic Plasmid Vector	PHLAG8258886	Plasmid vector containing HLA-B*07:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:10 protein under different cellular conditions.	Inquiry
HLA-B*07:02:100 Genomic Plasmid Vector	PHLAG8258887	Plasmid vector containing HLA-B*07:02:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:100 protein under different cellular conditions.	Inquiry
HLA-B*07:02:101 Genomic Plasmid Vector	PHLAG8258888	Plasmid vector containing HLA-B*07:02:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:101 protein under different cellular conditions.	Inquiry
HLA-B*07:02:102 Genomic Plasmid Vector	PHLAG8258889	Plasmid vector containing HLA-B*07:02:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:102 protein under different cellular conditions.	Inquiry
HLA-B*07:02:103 Genomic Plasmid Vector	PHLAG8258890	Plasmid vector containing HLA-B*07:02:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:103 protein under different cellular conditions.	Inquiry
HLA-B*07:02:104 Genomic Plasmid Vector	PHLAG8258891	Plasmid vector containing HLA-B*07:02:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:104 protein under different cellular conditions.	Inquiry

HLA-B*07:02:105 Genomic Plasmid Vector	PHLAG8258892	Plasmid vector containing HLA-B*07:02:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:105 protein under different cellular conditions.	Inquiry
HLA-B*07:02:106 Genomic Plasmid Vector	PHLAG8258893	Plasmid vector containing HLA-B*07:02:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:106 protein under different cellular conditions.	Inquiry
HLA-B*07:02:107 Genomic Plasmid Vector	PHLAG8258894	Plasmid vector containing HLA-B*07:02:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:107 protein under different cellular conditions.	Inquiry
HLA-B*07:02:108 Genomic Plasmid Vector	PHLAG8258895	Plasmid vector containing HLA-B*07:02:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:108 protein under different cellular conditions.	Inquiry
HLA-B*07:02:109 Genomic Plasmid Vector	PHLAG8258896	Plasmid vector containing HLA-B*07:02:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:109 protein under different cellular conditions.	Inquiry
HLA-B*07:02:11 Genomic Plasmid Vector	PHLAG8258897	Plasmid vector containing HLA-B*07:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:11 protein under different cellular conditions.	Inquiry
HLA-B*07:02:110 Genomic Plasmid Vector	PHLAG8258898	Plasmid vector containing HLA-B*07:02:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:110 protein under different cellular conditions.	Inquiry
HLA-B*07:02:12 Genomic Plasmid Vector	PHLAG8258899	Plasmid vector containing HLA-B*07:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:12 protein under different cellular conditions.	Inquiry
HLA-B*07:02:13 Genomic Plasmid Vector	PHLAG8258900	Plasmid vector containing HLA-B*07:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:13 protein under different cellular conditions.	Inquiry

HLA-B*07:02:14 Genomic Plasmid Vector	PHLAG8258901	Plasmid vector containing HLA-B*07:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:14 protein under different cellular conditions.	Inquiry
HLA-B*07:02:15 Genomic Plasmid Vector	PHLAG8258902	Plasmid vector containing HLA-B*07:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:15 protein under different cellular conditions.	Inquiry
HLA-B*07:02:16 Genomic Plasmid Vector	PHLAG8258903	Plasmid vector containing HLA-B*07:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:16 protein under different cellular conditions.	Inquiry
HLA-B*07:02:17 Genomic Plasmid Vector	PHLAG8258904	Plasmid vector containing HLA-B*07:02:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:17 protein under different cellular conditions.	Inquiry
HLA-B*07:02:18 Genomic Plasmid Vector	PHLAG8258905	Plasmid vector containing HLA-B*07:02:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:18 protein under different cellular conditions.	Inquiry
HLA-B*07:02:19 Genomic Plasmid Vector	PHLAG8258906	Plasmid vector containing HLA-B*07:02:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:19 protein under different cellular conditions.	Inquiry
HLA-B*07:02:20 Genomic Plasmid Vector	PHLAG8258907	Plasmid vector containing HLA-B*07:02:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:20 protein under different cellular conditions.	Inquiry
HLA-B*07:02:21 Genomic Plasmid Vector	PHLAG8258908	Plasmid vector containing HLA-B*07:02:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:21 protein under different cellular conditions.	Inquiry
HLA-B*07:02:22 Genomic Plasmid Vector	PHLAG8258909	Plasmid vector containing HLA-B*07:02:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:22 protein under different cellular conditions.	Inquiry

HLA-B*07:02:23 Genomic Plasmid Vector	PHLAG8258910	Plasmid vector containing HLA-B*07:02:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:23 protein under different cellular conditions.	Inquiry
HLA-B*07:02:24 Genomic Plasmid Vector	PHLAG8258911	Plasmid vector containing HLA-B*07:02:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:24 protein under different cellular conditions.	Inquiry
HLA-B*07:02:25 Genomic Plasmid Vector	PHLAG8258912	Plasmid vector containing HLA-B*07:02:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:25 protein under different cellular conditions.	Inquiry
HLA-B*07:02:26 Genomic Plasmid Vector	PHLAG8258913	Plasmid vector containing HLA-B*07:02:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:26 protein under different cellular conditions.	Inquiry
HLA-B*07:02:27 Genomic Plasmid Vector	PHLAG8258914	Plasmid vector containing HLA-B*07:02:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:27 protein under different cellular conditions.	Inquiry
HLA-B*07:02:28 Genomic Plasmid Vector	PHLAG8258915	Plasmid vector containing HLA-B*07:02:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:28 protein under different cellular conditions.	Inquiry
HLA-B*07:02:29 Genomic Plasmid Vector	PHLAG8258916	Plasmid vector containing HLA-B*07:02:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:29 protein under different cellular conditions.	Inquiry
HLA-B*07:02:30 Genomic Plasmid Vector	PHLAG8258917	Plasmid vector containing HLA-B*07:02:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:30 protein under different cellular conditions.	Inquiry
HLA-B*07:02:31 Genomic Plasmid Vector	PHLAG8258918	Plasmid vector containing HLA-B*07:02:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:31 protein under different cellular conditions.	Inquiry

HLA-B*07:02:32 Genomic Plasmid Vector	PHLAG8258919	Plasmid vector containing HLA-B*07:02:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:32 protein under different cellular conditions.	Inquiry
HLA-B*07:02:33 Genomic Plasmid Vector	PHLAG8258920	Plasmid vector containing HLA-B*07:02:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:33 protein under different cellular conditions.	Inquiry
HLA-B*07:02:34 Genomic Plasmid Vector	PHLAG8258921	Plasmid vector containing HLA-B*07:02:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:34 protein under different cellular conditions.	Inquiry
HLA-B*07:02:35 Genomic Plasmid Vector	PHLAG8258922	Plasmid vector containing HLA-B*07:02:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:35 protein under different cellular conditions.	Inquiry
HLA-B*07:02:36 Genomic Plasmid Vector	PHLAG8258923	Plasmid vector containing HLA-B*07:02:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:36 protein under different cellular conditions.	Inquiry
HLA-B*07:02:37 Genomic Plasmid Vector	PHLAG8258924	Plasmid vector containing HLA-B*07:02:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:37 protein under different cellular conditions.	Inquiry
HLA-B*07:02:38 Genomic Plasmid Vector	PHLAG8258925	Plasmid vector containing HLA-B*07:02:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:38 protein under different cellular conditions.	Inquiry
HLA-B*07:02:39 Genomic Plasmid Vector	PHLAG8258926	Plasmid vector containing HLA-B*07:02:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:39 protein under different cellular conditions.	Inquiry
HLA-B*07:02:40 Genomic Plasmid Vector	PHLAG8258927	Plasmid vector containing HLA-B*07:02:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:40 protein under different cellular conditions.	Inquiry

HLA-B*07:02:41 Genomic Plasmid Vector	PHLAG8258928	Plasmid vector containing HLA-B*07:02:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:41 protein under different cellular conditions.	Inquiry
HLA-B*07:02:42 Genomic Plasmid Vector	PHLAG8258929	Plasmid vector containing HLA-B*07:02:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:42 protein under different cellular conditions.	Inquiry
HLA-B*07:02:43 Genomic Plasmid Vector	PHLAG8258930	Plasmid vector containing HLA-B*07:02:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:43 protein under different cellular conditions.	Inquiry
HLA-B*07:02:44 Genomic Plasmid Vector	PHLAG8258931	Plasmid vector containing HLA-B*07:02:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:44 protein under different cellular conditions.	Inquiry
HLA-B*07:02:45 Genomic Plasmid Vector	PHLAG8258932	Plasmid vector containing HLA-B*07:02:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:45 protein under different cellular conditions.	Inquiry
HLA-B*07:02:46 Genomic Plasmid Vector	PHLAG8258933	Plasmid vector containing HLA-B*07:02:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:46 protein under different cellular conditions.	Inquiry
HLA-B*07:02:47 Genomic Plasmid Vector	PHLAG8258934	Plasmid vector containing HLA-B*07:02:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:47 protein under different cellular conditions.	Inquiry
HLA-B*07:02:48 Genomic Plasmid Vector	PHLAG8258935	Plasmid vector containing HLA-B*07:02:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:48 protein under different cellular conditions.	Inquiry
HLA-B*07:02:49 Genomic Plasmid Vector	PHLAG8258936	Plasmid vector containing HLA-B*07:02:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:49 protein under different cellular conditions.	Inquiry

HLA-B*07:02:50 Genomic Plasmid Vector	PHLAG8258937	Plasmid vector containing HLA-B*07:02:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:50 protein under different cellular conditions.	Inquiry
HLA-B*07:02:51 Genomic Plasmid Vector	PHLAG8258938	Plasmid vector containing HLA-B*07:02:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:51 protein under different cellular conditions.	Inquiry
HLA-B*07:02:52 Genomic Plasmid Vector	PHLAG8258939	Plasmid vector containing HLA-B*07:02:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:52 protein under different cellular conditions.	Inquiry
HLA-B*07:02:53 Genomic Plasmid Vector	PHLAG8258940	Plasmid vector containing HLA-B*07:02:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:53 protein under different cellular conditions.	Inquiry
HLA-B*07:02:54 Genomic Plasmid Vector	PHLAG8258941	Plasmid vector containing HLA-B*07:02:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:54 protein under different cellular conditions.	Inquiry
HLA-B*07:02:55 Genomic Plasmid Vector	PHLAG8258942	Plasmid vector containing HLA-B*07:02:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:55 protein under different cellular conditions.	Inquiry
HLA-B*07:02:56 Genomic Plasmid Vector	PHLAG8258943	Plasmid vector containing HLA-B*07:02:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:56 protein under different cellular conditions.	Inquiry
HLA-B*07:02:57 Genomic Plasmid Vector	PHLAG8258944	Plasmid vector containing HLA-B*07:02:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:57 protein under different cellular conditions.	Inquiry
HLA-B*07:02:58 Genomic Plasmid Vector	PHLAG8258945	Plasmid vector containing HLA-B*07:02:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:58 protein under different cellular conditions.	Inquiry

HLA-B*07:02:59 Genomic Plasmid Vector	PHLAG8258946	Plasmid vector containing HLA-B*07:02:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:59 protein under different cellular conditions.	Inquiry
HLA-B*07:02:60 Genomic Plasmid Vector	PHLAG8258947	Plasmid vector containing HLA-B*07:02:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:60 protein under different cellular conditions.	Inquiry
HLA-B*07:02:61 Genomic Plasmid Vector	PHLAG8258948	Plasmid vector containing HLA-B*07:02:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:61 protein under different cellular conditions.	Inquiry
HLA-B*07:02:62 Genomic Plasmid Vector	PHLAG8258949	Plasmid vector containing HLA-B*07:02:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:62 protein under different cellular conditions.	Inquiry
HLA-B*07:02:63 Genomic Plasmid Vector	PHLAG8258950	Plasmid vector containing HLA-B*07:02:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:63 protein under different cellular conditions.	Inquiry
HLA-B*07:02:64 Genomic Plasmid Vector	PHLAG8258951	Plasmid vector containing HLA-B*07:02:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:64 protein under different cellular conditions.	Inquiry
HLA-B*07:02:65 Genomic Plasmid Vector	PHLAG8258952	Plasmid vector containing HLA-B*07:02:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:65 protein under different cellular conditions.	Inquiry
HLA-B*07:02:66 Genomic Plasmid Vector	PHLAG8258953	Plasmid vector containing HLA-B*07:02:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:66 protein under different cellular conditions.	Inquiry
HLA-B*07:02:67 Genomic Plasmid Vector	PHLAG8258954	Plasmid vector containing HLA-B*07:02:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:67 protein under different cellular conditions.	Inquiry

HLA-B*07:02:68 Genomic Plasmid Vector	PHLAG8258955	Plasmid vector containing HLA-B*07:02:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:68 protein under different cellular conditions.	Inquiry
HLA-B*07:02:69 Genomic Plasmid Vector	PHLAG8258956	Plasmid vector containing HLA-B*07:02:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:69 protein under different cellular conditions.	Inquiry
HLA-B*07:02:70 Genomic Plasmid Vector	PHLAG8258957	Plasmid vector containing HLA-B*07:02:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:70 protein under different cellular conditions.	Inquiry
HLA-B*07:02:71 Genomic Plasmid Vector	PHLAG8258958	Plasmid vector containing HLA-B*07:02:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:71 protein under different cellular conditions.	Inquiry
HLA-B*07:02:72 Genomic Plasmid Vector	PHLAG8258959	Plasmid vector containing HLA-B*07:02:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:72 protein under different cellular conditions.	Inquiry
HLA-B*07:02:73 Genomic Plasmid Vector	PHLAG8258960	Plasmid vector containing HLA-B*07:02:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:73 protein under different cellular conditions.	Inquiry
HLA-B*07:02:74 Genomic Plasmid Vector	PHLAG8258961	Plasmid vector containing HLA-B*07:02:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:74 protein under different cellular conditions.	Inquiry
HLA-B*07:02:75:01 Genomic Plasmid Vector	PHLAG8258962	Plasmid vector containing HLA-B*07:02:75:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:75:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:75:01 protein under different cellular conditions.	Inquiry
HLA-B*07:02:75:02 Genomic Plasmid Vector	PHLAG8258963	Plasmid vector containing HLA-B*07:02:75:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:75:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:75:02 protein under different cellular conditions.	Inquiry

HLA-B*07:02:76 Genomic Plasmid Vector	PHLAG8258964	Plasmid vector containing HLA-B*07:02:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:76 protein under different cellular conditions.	Inquiry
HLA-B*07:02:77 Genomic Plasmid Vector	PHLAG8258965	Plasmid vector containing HLA-B*07:02:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:77 protein under different cellular conditions.	Inquiry
HLA-B*07:02:78 Genomic Plasmid Vector	PHLAG8258966	Plasmid vector containing HLA-B*07:02:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:78 protein under different cellular conditions.	Inquiry
HLA-B*07:02:79 Genomic Plasmid Vector	PHLAG8258967	Plasmid vector containing HLA-B*07:02:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:79 protein under different cellular conditions.	Inquiry
HLA-B*07:02:80 Genomic Plasmid Vector	PHLAG8258968	Plasmid vector containing HLA-B*07:02:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:80 protein under different cellular conditions.	Inquiry
HLA-B*07:02:81 Genomic Plasmid Vector	PHLAG8258969	Plasmid vector containing HLA-B*07:02:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:81 protein under different cellular conditions.	Inquiry
HLA-B*07:02:82 Genomic Plasmid Vector	PHLAG8258970	Plasmid vector containing HLA-B*07:02:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:82 protein under different cellular conditions.	Inquiry
HLA-B*07:02:83 Genomic Plasmid Vector	PHLAG8258971	Plasmid vector containing HLA-B*07:02:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:83 protein under different cellular conditions.	Inquiry
HLA-B*07:02:84 Genomic Plasmid Vector	PHLAG8258972	Plasmid vector containing HLA-B*07:02:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:84 protein under different cellular conditions.	Inquiry

HLA-B*07:02:85 Genomic Plasmid Vector	PHLAG8258973	Plasmid vector containing HLA-B*07:02:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:85 protein under different cellular conditions.	Inquiry
HLA-B*07:02:86 Genomic Plasmid Vector	PHLAG8258974	Plasmid vector containing HLA-B*07:02:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:86 protein under different cellular conditions.	Inquiry
HLA-B*07:02:87 Genomic Plasmid Vector	PHLAG8258975	Plasmid vector containing HLA-B*07:02:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:87 protein under different cellular conditions.	Inquiry
HLA-B*07:02:88 Genomic Plasmid Vector	PHLAG8258976	Plasmid vector containing HLA-B*07:02:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:88 protein under different cellular conditions.	Inquiry
HLA-B*07:02:89 Genomic Plasmid Vector	PHLAG8258977	Plasmid vector containing HLA-B*07:02:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:89 protein under different cellular conditions.	Inquiry
HLA-B*07:02:90 Genomic Plasmid Vector	PHLAG8258978	Plasmid vector containing HLA-B*07:02:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:90 protein under different cellular conditions.	Inquiry
HLA-B*07:02:91 Genomic Plasmid Vector	PHLAG8258979	Plasmid vector containing HLA-B*07:02:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:91 protein under different cellular conditions.	Inquiry
HLA-B*07:02:92 Genomic Plasmid Vector	PHLAG8258980	Plasmid vector containing HLA-B*07:02:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:92 protein under different cellular conditions.	Inquiry
HLA-B*07:02:93 Genomic Plasmid Vector	PHLAG8258981	Plasmid vector containing HLA-B*07:02:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:93 protein under different cellular conditions.	Inquiry

HLA-B*07:02:94 Genomic Plasmid Vector	PHLAG8258982	Plasmid vector containing HLA-B*07:02:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:94 protein under different cellular conditions.	Inquiry
HLA-B*07:02:95 Genomic Plasmid Vector	PHLAG8258983	Plasmid vector containing HLA-B*07:02:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:95 protein under different cellular conditions.	Inquiry
HLA-B*07:02:96 Genomic Plasmid Vector	PHLAG8258984	Plasmid vector containing HLA-B*07:02:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:96 protein under different cellular conditions.	Inquiry
HLA-B*07:02:97 Genomic Plasmid Vector	PHLAG8258985	Plasmid vector containing HLA-B*07:02:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:97 protein under different cellular conditions.	Inquiry
HLA-B*07:02:98 Genomic Plasmid Vector	PHLAG8258986	Plasmid vector containing HLA-B*07:02:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:98 protein under different cellular conditions.	Inquiry
HLA-B*07:02:99 Genomic Plasmid Vector	PHLAG8258987	Plasmid vector containing HLA-B*07:02:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:02:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:02:99 protein under different cellular conditions.	Inquiry
HLA-B*07:03 Genomic Plasmid Vector	PHLAG8258988	Plasmid vector containing HLA-B*07:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:03 protein under different cellular conditions.	Inquiry
HLA-B*07:04:01 Genomic Plasmid Vector	PHLAG8258989	Plasmid vector containing HLA-B*07:04:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:04:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:04:01 protein under different cellular conditions.	Inquiry
HLA-B*07:04:02 Genomic Plasmid Vector	PHLAG8258990	Plasmid vector containing HLA-B*07:04:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:04:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:04:02 protein under different cellular conditions.	Inquiry

HLA-B*07:05:01:01 Genomic Plasmid Vector	PHLAG8258991	Plasmid vector containing HLA-B*07:05:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:02 Genomic Plasmid Vector	PHLAG8258992	Plasmid vector containing HLA-B*07:05:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:03 Genomic Plasmid Vector	PHLAG8258993	Plasmid vector containing HLA-B*07:05:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:03 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:04 Genomic Plasmid Vector	PHLAG8258994	Plasmid vector containing HLA-B*07:05:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:04 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:05 Genomic Plasmid Vector	PHLAG8258995	Plasmid vector containing HLA-B*07:05:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:05 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:06 Genomic Plasmid Vector	PHLAG8258996	Plasmid vector containing HLA-B*07:05:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:06 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:07 Genomic Plasmid Vector	PHLAG8258997	Plasmid vector containing HLA-B*07:05:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:07 protein under different cellular conditions.	Inquiry
HLA-B*07:05:01:08 Genomic Plasmid Vector	PHLAG8258998	Plasmid vector containing HLA-B*07:05:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:01:08 protein under different cellular conditions.	Inquiry
HLA-B*07:05:02 Genomic Plasmid Vector	PHLAG8258999	Plasmid vector containing HLA-B*07:05:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:02 protein under different cellular conditions.	Inquiry

HLA-B*07:05:03 Genomic Plasmid Vector	PHLAG8259000	Plasmid vector containing HLA-B*07:05:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:03 protein under different cellular conditions.	Inquiry
HLA-B*07:05:04 Genomic Plasmid Vector	PHLAG8259001	Plasmid vector containing HLA-B*07:05:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:04 protein under different cellular conditions.	Inquiry
HLA-B*07:05:05 Genomic Plasmid Vector	PHLAG8259002	Plasmid vector containing HLA-B*07:05:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:05 protein under different cellular conditions.	Inquiry
HLA-B*07:05:06 Genomic Plasmid Vector	PHLAG8259003	Plasmid vector containing HLA-B*07:05:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:06 protein under different cellular conditions.	Inquiry
HLA-B*07:05:07 Genomic Plasmid Vector	PHLAG8259004	Plasmid vector containing HLA-B*07:05:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:07 protein under different cellular conditions.	Inquiry
HLA-B*07:05:08 Genomic Plasmid Vector	PHLAG8259005	Plasmid vector containing HLA-B*07:05:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:08 protein under different cellular conditions.	Inquiry
HLA-B*07:05:09 Genomic Plasmid Vector	PHLAG8259006	Plasmid vector containing HLA-B*07:05:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:09 protein under different cellular conditions.	Inquiry
HLA-B*07:05:10 Genomic Plasmid Vector	PHLAG8259007	Plasmid vector containing HLA-B*07:05:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:10 protein under different cellular conditions.	Inquiry
HLA-B*07:05:11 Genomic Plasmid Vector	PHLAG8259008	Plasmid vector containing HLA-B*07:05:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:11 protein under different cellular conditions.	Inquiry

HLA-B*07:05:12 Genomic Plasmid Vector	PHLAG8259009	Plasmid vector containing HLA-B*07:05:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:12 protein under different cellular conditions.	Inquiry
HLA-B*07:05:13 Genomic Plasmid Vector	PHLAG8259010	Plasmid vector containing HLA-B*07:05:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:05:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:05:13 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:01 Genomic Plasmid Vector	PHLAG8259011	Plasmid vector containing HLA-B*07:06:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:02 Genomic Plasmid Vector	PHLAG8259012	Plasmid vector containing HLA-B*07:06:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:03 Genomic Plasmid Vector	PHLAG8259013	Plasmid vector containing HLA-B*07:06:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:03 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:04 Genomic Plasmid Vector	PHLAG8259014	Plasmid vector containing HLA-B*07:06:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:04 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:05 Genomic Plasmid Vector	PHLAG8259015	Plasmid vector containing HLA-B*07:06:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:05 protein under different cellular conditions.	Inquiry
HLA-B*07:06:01:06 Genomic Plasmid Vector	PHLAG8259016	Plasmid vector containing HLA-B*07:06:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:01:06 protein under different cellular conditions.	Inquiry
HLA-B*07:06:02 Genomic Plasmid Vector	PHLAG8259017	Plasmid vector containing HLA-B*07:06:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:02 protein under different cellular conditions.	Inquiry

HLA-B*07:06:03 Genomic Plasmid Vector	PHLAG8259018	Plasmid vector containing HLA-B*07:06:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:03 protein under different cellular conditions.	Inquiry
HLA-B*07:06:04 Genomic Plasmid Vector	PHLAG8259019	Plasmid vector containing HLA-B*07:06:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:04 protein under different cellular conditions.	Inquiry
HLA-B*07:06:05 Genomic Plasmid Vector	PHLAG8259020	Plasmid vector containing HLA-B*07:06:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:05 protein under different cellular conditions.	Inquiry
HLA-B*07:06:06 Genomic Plasmid Vector	PHLAG8259021	Plasmid vector containing HLA-B*07:06:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:06:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:06:06 protein under different cellular conditions.	Inquiry
HLA-B*07:07:01:01 Genomic Plasmid Vector	PHLAG8259022	Plasmid vector containing HLA-B*07:07:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:07:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:07:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:07:01:02 Genomic Plasmid Vector	PHLAG8259023	Plasmid vector containing HLA-B*07:07:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:07:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:07:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:07:02 Genomic Plasmid Vector	PHLAG8259024	Plasmid vector containing HLA-B*07:07:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:07:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:07:02 protein under different cellular conditions.	Inquiry
HLA-B*07:07:03 Genomic Plasmid Vector	PHLAG8259025	Plasmid vector containing HLA-B*07:07:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:07:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:07:03 protein under different cellular conditions.	Inquiry
HLA-B*07:08:01 Genomic Plasmid Vector	PHLAG8259026	Plasmid vector containing HLA-B*07:08:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:08:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:08:01 protein under different cellular conditions.	Inquiry

HLA-B*07:08:02 Genomic Plasmid Vector	PHLAG8259027	Plasmid vector containing HLA-B*07:08:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:08:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:08:02 protein under different cellular conditions.	Inquiry
HLA-B*07:09:01 Genomic Plasmid Vector	PHLAG8259028	Plasmid vector containing HLA-B*07:09:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:09:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:09:01 protein under different cellular conditions.	Inquiry
HLA-B*07:09:02 Genomic Plasmid Vector	PHLAG8259029	Plasmid vector containing HLA-B*07:09:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:09:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:09:02 protein under different cellular conditions.	Inquiry
HLA-B*07:10:01 Genomic Plasmid Vector	PHLAG8259030	Plasmid vector containing HLA-B*07:10:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:10:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:10:01 protein under different cellular conditions.	Inquiry
HLA-B*07:10:02 Genomic Plasmid Vector	PHLAG8259031	Plasmid vector containing HLA-B*07:10:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:10:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:10:02 protein under different cellular conditions.	Inquiry
HLA-B*07:100 Genomic Plasmid Vector	PHLAG8259032	Plasmid vector containing HLA-B*07:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:100 protein under different cellular conditions.	Inquiry
HLA-B*07:101 Genomic Plasmid Vector	PHLAG8259033	Plasmid vector containing HLA-B*07:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:101 protein under different cellular conditions.	Inquiry
HLA-B*07:102 Genomic Plasmid Vector	PHLAG8259034	Plasmid vector containing HLA-B*07:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:102 protein under different cellular conditions.	Inquiry
HLA-B*07:103 Genomic Plasmid Vector	PHLAG8259035	Plasmid vector containing HLA-B*07:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:103 protein under different cellular conditions.	Inquiry

HLA-B*07:104 Genomic Plasmid Vector	PHLAG8259036	Plasmid vector containing HLA-B*07:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:104 protein under different cellular conditions.	Inquiry
HLA-B*07:105 Genomic Plasmid Vector	PHLAG8259037	Plasmid vector containing HLA-B*07:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:105 protein under different cellular conditions.	Inquiry
HLA-B*07:106 Genomic Plasmid Vector	PHLAG8259038	Plasmid vector containing HLA-B*07:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:106 protein under different cellular conditions.	Inquiry
HLA-B*07:107 Genomic Plasmid Vector	PHLAG8259039	Plasmid vector containing HLA-B*07:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:107 protein under different cellular conditions.	Inquiry
HLA-B*07:108 Genomic Plasmid Vector	PHLAG8259040	Plasmid vector containing HLA-B*07:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:108 protein under different cellular conditions.	Inquiry
HLA-B*07:109 Genomic Plasmid Vector	PHLAG8259041	Plasmid vector containing HLA-B*07:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:109 protein under different cellular conditions.	Inquiry
HLA-B*07:11 Genomic Plasmid Vector	PHLAG8259042	Plasmid vector containing HLA-B*07:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:11 protein under different cellular conditions.	Inquiry
HLA-B*07:110 Genomic Plasmid Vector	PHLAG8259043	Plasmid vector containing HLA-B*07:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:110 protein under different cellular conditions.	Inquiry
HLA-B*07:111N Genomic Plasmid Vector	PHLAG8259044	Plasmid vector containing HLA-B*07:111N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:111N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:111N protein under different cellular conditions.	Inquiry

HLA-B*07:112 Genomic Plasmid Vector	PHLAG8259045	Plasmid vector containing HLA-B*07:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:112 protein under different cellular conditions.	Inquiry
HLA-B*07:113 Genomic Plasmid Vector	PHLAG8259046	Plasmid vector containing HLA-B*07:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:113 protein under different cellular conditions.	Inquiry
HLA-B*07:114 Genomic Plasmid Vector	PHLAG8259047	Plasmid vector containing HLA-B*07:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:114 protein under different cellular conditions.	Inquiry
HLA-B*07:115 Genomic Plasmid Vector	PHLAG8259048	Plasmid vector containing HLA-B*07:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:115 protein under different cellular conditions.	Inquiry
HLA-B*07:116 Genomic Plasmid Vector	PHLAG8259049	Plasmid vector containing HLA-B*07:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:116 protein under different cellular conditions.	Inquiry
HLA-B*07:117 Genomic Plasmid Vector	PHLAG8259050	Plasmid vector containing HLA-B*07:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:117 protein under different cellular conditions.	Inquiry
HLA-B*07:118 Genomic Plasmid Vector	PHLAG8259051	Plasmid vector containing HLA-B*07:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:118 protein under different cellular conditions.	Inquiry
HLA-B*07:119 Genomic Plasmid Vector	PHLAG8259052	Plasmid vector containing HLA-B*07:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:119 protein under different cellular conditions.	Inquiry
HLA-B*07:12 Genomic Plasmid Vector	PHLAG8259053	Plasmid vector containing HLA-B*07:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:12 protein under different cellular conditions.	Inquiry

HLA-B*07:120 Genomic Plasmid Vector	PHLAG8259054	Plasmid vector containing HLA-B*07:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:120 protein under different cellular conditions.	Inquiry
HLA-B*07:121 Genomic Plasmid Vector	PHLAG8259055	Plasmid vector containing HLA-B*07:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:121 protein under different cellular conditions.	Inquiry
HLA-B*07:122 Genomic Plasmid Vector	PHLAG8259056	Plasmid vector containing HLA-B*07:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:122 protein under different cellular conditions.	Inquiry
HLA-B*07:123 Genomic Plasmid Vector	PHLAG8259057	Plasmid vector containing HLA-B*07:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:123 protein under different cellular conditions.	Inquiry
HLA-B*07:124 Genomic Plasmid Vector	PHLAG8259058	Plasmid vector containing HLA-B*07:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:124 protein under different cellular conditions.	Inquiry
HLA-B*07:125 Genomic Plasmid Vector	PHLAG8259059	Plasmid vector containing HLA-B*07:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:125 protein under different cellular conditions.	Inquiry
HLA-B*07:126 Genomic Plasmid Vector	PHLAG8259060	Plasmid vector containing HLA-B*07:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:126 protein under different cellular conditions.	Inquiry
HLA-B*07:127 Genomic Plasmid Vector	PHLAG8259061	Plasmid vector containing HLA-B*07:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:127 protein under different cellular conditions.	Inquiry
HLA-B*07:128 Genomic Plasmid Vector	PHLAG8259062	Plasmid vector containing HLA-B*07:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:128 protein under different cellular conditions.	Inquiry

HLA-B*07:129 Genomic Plasmid Vector	PHLAG8259063	Plasmid vector containing HLA-B*07:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:129 protein under different cellular conditions.	Inquiry
HLA-B*07:13 Genomic Plasmid Vector	PHLAG8259064	Plasmid vector containing HLA-B*07:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:13 protein under different cellular conditions.	Inquiry
HLA-B*07:130 Genomic Plasmid Vector	PHLAG8259065	Plasmid vector containing HLA-B*07:130 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:130 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:130 protein under different cellular conditions.	Inquiry
HLA-B*07:131 Genomic Plasmid Vector	PHLAG8259066	Plasmid vector containing HLA-B*07:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:131 protein under different cellular conditions.	Inquiry
HLA-B*07:132 Genomic Plasmid Vector	PHLAG8259067	Plasmid vector containing HLA-B*07:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:132 protein under different cellular conditions.	Inquiry
HLA-B*07:133 Genomic Plasmid Vector	PHLAG8259068	Plasmid vector containing HLA-B*07:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:133 protein under different cellular conditions.	Inquiry
HLA-B*07:134 Genomic Plasmid Vector	PHLAG8259069	Plasmid vector containing HLA-B*07:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:134 protein under different cellular conditions.	Inquiry
HLA-B*07:135N Genomic Plasmid Vector	PHLAG8259070	Plasmid vector containing HLA-B*07:135N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:135N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:135N protein under different cellular conditions.	Inquiry
HLA-B*07:136:01 Genomic Plasmid Vector	PHLAG8259071	Plasmid vector containing HLA-B*07:136:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:136:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:136:01 protein under different cellular conditions.	Inquiry

HLA-B*07:136:02 Genomic Plasmid Vector	PHLAG8259072	Plasmid vector containing HLA-B*07:136:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:136:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:136:02 protein under different cellular conditions.	Inquiry
HLA-B*07:137 Genomic Plasmid Vector	PHLAG8259073	Plasmid vector containing HLA-B*07:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:137 protein under different cellular conditions.	Inquiry
HLA-B*07:138 Genomic Plasmid Vector	PHLAG8259074	Plasmid vector containing HLA-B*07:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:138 protein under different cellular conditions.	Inquiry
HLA-B*07:138 Genomic Plasmid Vector	PHLAG8259075	Plasmid vector containing HLA-B*07:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:138 protein under different cellular conditions.	Inquiry
HLA-B*07:139:01 Genomic Plasmid Vector	PHLAG8259076	Plasmid vector containing HLA-B*07:139:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:139:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:139:01 protein under different cellular conditions.	Inquiry
HLA-B*07:139:02 Genomic Plasmid Vector	PHLAG8259077	Plasmid vector containing HLA-B*07:139:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:139:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:139:02 protein under different cellular conditions.	Inquiry
HLA-B*07:14:01 Genomic Plasmid Vector	PHLAG8259078	Plasmid vector containing HLA-B*07:14:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:14:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:14:01 protein under different cellular conditions.	Inquiry
HLA-B*07:14:02 Genomic Plasmid Vector	PHLAG8259079	Plasmid vector containing HLA-B*07:14:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:14:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:14:02 protein under different cellular conditions.	Inquiry
HLA-B*07:140 Genomic Plasmid Vector	PHLAG8259080	Plasmid vector containing HLA-B*07:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:140 protein under different cellular conditions.	Inquiry

HLA-B*07:141 Genomic Plasmid Vector	PHLAG8259081	Plasmid vector containing HLA-B*07:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:141 protein under different cellular conditions.	Inquiry
HLA-B*07:142 Genomic Plasmid Vector	PHLAG8259082	Plasmid vector containing HLA-B*07:142 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:142 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:142 protein under different cellular conditions.	Inquiry
HLA-B*07:143 Genomic Plasmid Vector	PHLAG8259083	Plasmid vector containing HLA-B*07:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:143 protein under different cellular conditions.	Inquiry
HLA-B*07:144 Genomic Plasmid Vector	PHLAG8259084	Plasmid vector containing HLA-B*07:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:144 protein under different cellular conditions.	Inquiry
HLA-B*07:145 Genomic Plasmid Vector	PHLAG8259085	Plasmid vector containing HLA-B*07:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:145 protein under different cellular conditions.	Inquiry
HLA-B*07:146 Genomic Plasmid Vector	PHLAG8259086	Plasmid vector containing HLA-B*07:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:146 protein under different cellular conditions.	Inquiry
HLA-B*07:147 Genomic Plasmid Vector	PHLAG8259087	Plasmid vector containing HLA-B*07:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:147 protein under different cellular conditions.	Inquiry
HLA-B*07:148 Genomic Plasmid Vector	PHLAG8259088	Plasmid vector containing HLA-B*07:148 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:148 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:148 protein under different cellular conditions.	Inquiry
HLA-B*07:149 Genomic Plasmid Vector	PHLAG8259089	Plasmid vector containing HLA-B*07:149 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:149 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:149 protein under different cellular conditions.	Inquiry

HLA-B*07:15 Genomic Plasmid Vector	PHLAG8259090	Plasmid vector containing HLA-B*07:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:15 protein under different cellular conditions.	Inquiry
HLA-B*07:150 Genomic Plasmid Vector	PHLAG8259091	Plasmid vector containing HLA-B*07:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:150 protein under different cellular conditions.	Inquiry
HLA-B*07:151:01 Genomic Plasmid Vector	PHLAG8259092	Plasmid vector containing HLA-B*07:151:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:151:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:151:01 protein under different cellular conditions.	Inquiry
HLA-B*07:151:02 Genomic Plasmid Vector	PHLAG8259093	Plasmid vector containing HLA-B*07:151:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:151:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:151:02 protein under different cellular conditions.	Inquiry
HLA-B*07:152 Genomic Plasmid Vector	PHLAG8259094	Plasmid vector containing HLA-B*07:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:152 protein under different cellular conditions.	Inquiry
HLA-B*07:153 Genomic Plasmid Vector	PHLAG8259095	Plasmid vector containing HLA-B*07:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:153 protein under different cellular conditions.	Inquiry
HLA-B*07:154 Genomic Plasmid Vector	PHLAG8259096	Plasmid vector containing HLA-B*07:154 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:154 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:154 protein under different cellular conditions.	Inquiry
HLA-B*07:155 Genomic Plasmid Vector	PHLAG8259097	Plasmid vector containing HLA-B*07:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:155 protein under different cellular conditions.	Inquiry
HLA-B*07:156 Genomic Plasmid Vector	PHLAG8259098	Plasmid vector containing HLA-B*07:156 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:156 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:156 protein under different cellular conditions.	Inquiry

HLA-B*07:157 Genomic Plasmid Vector	PHLAG8259099	Plasmid vector containing HLA-B*07:157 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:157 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:157 protein under different cellular conditions.	Inquiry
HLA-B*07:158 Genomic Plasmid Vector	PHLAG8259100	Plasmid vector containing HLA-B*07:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:158 protein under different cellular conditions.	Inquiry
HLA-B*07:159 Genomic Plasmid Vector	PHLAG8259101	Plasmid vector containing HLA-B*07:159 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:159 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:159 protein under different cellular conditions.	Inquiry
HLA-B*07:16 Genomic Plasmid Vector	PHLAG8259102	Plasmid vector containing HLA-B*07:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:16 protein under different cellular conditions.	Inquiry
HLA-B*07:160 Genomic Plasmid Vector	PHLAG8259103	Plasmid vector containing HLA-B*07:160 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:160 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:160 protein under different cellular conditions.	Inquiry
HLA-B*07:161N Genomic Plasmid Vector	PHLAG8259104	Plasmid vector containing HLA-B*07:161N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:161N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:161N protein under different cellular conditions.	Inquiry
HLA-B*07:162 Genomic Plasmid Vector	PHLAG8259105	Plasmid vector containing HLA-B*07:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:162 protein under different cellular conditions.	Inquiry
HLA-B*07:163 Genomic Plasmid Vector	PHLAG8259106	Plasmid vector containing HLA-B*07:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:163 protein under different cellular conditions.	Inquiry
HLA-B*07:164 Genomic Plasmid Vector	PHLAG8259107	Plasmid vector containing HLA-B*07:164 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:164 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:164 protein under different cellular conditions.	Inquiry

HLA-B*07:165 Genomic Plasmid Vector	PHLAG8259108	Plasmid vector containing HLA-B*07:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:165 protein under different cellular conditions.	Inquiry
HLA-B*07:166 Genomic Plasmid Vector	PHLAG8259109	Plasmid vector containing HLA-B*07:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:166 protein under different cellular conditions.	Inquiry
HLA-B*07:167N Genomic Plasmid Vector	PHLAG8259110	Plasmid vector containing HLA-B*07:167N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:167N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:167N protein under different cellular conditions.	Inquiry
HLA-B*07:168 Genomic Plasmid Vector	PHLAG8259111	Plasmid vector containing HLA-B*07:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:168 protein under different cellular conditions.	Inquiry
HLA-B*07:169 Genomic Plasmid Vector	PHLAG8259112	Plasmid vector containing HLA-B*07:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:169 protein under different cellular conditions.	Inquiry
HLA-B*07:17 Genomic Plasmid Vector	PHLAG8259113	Plasmid vector containing HLA-B*07:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:17 protein under different cellular conditions.	Inquiry
HLA-B*07:170 Genomic Plasmid Vector	PHLAG8259114	Plasmid vector containing HLA-B*07:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:170 protein under different cellular conditions.	Inquiry
HLA-B*07:171 Genomic Plasmid Vector	PHLAG8259115	Plasmid vector containing HLA-B*07:171 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:171 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:171 protein under different cellular conditions.	Inquiry
HLA-B*07:172:01 Genomic Plasmid Vector	PHLAG8259116	Plasmid vector containing HLA-B*07:172:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:172:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:172:01 protein under different cellular conditions.	Inquiry

HLA-B*07:172:02 Genomic Plasmid Vector	PHLAG8259117	Plasmid vector containing HLA-B*07:172:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:172:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:172:02 protein under different cellular conditions.	Inquiry
HLA-B*07:173 Genomic Plasmid Vector	PHLAG8259118	Plasmid vector containing HLA-B*07:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:173 protein under different cellular conditions.	Inquiry
HLA-B*07:174 Genomic Plasmid Vector	PHLAG8259119	Plasmid vector containing HLA-B*07:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:174 protein under different cellular conditions.	Inquiry
HLA-B*07:175 Genomic Plasmid Vector	PHLAG8259120	Plasmid vector containing HLA-B*07:175 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:175 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:175 protein under different cellular conditions.	Inquiry
HLA-B*07:176 Genomic Plasmid Vector	PHLAG8259121	Plasmid vector containing HLA-B*07:176 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:176 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:176 protein under different cellular conditions.	Inquiry
HLA-B*07:177 Genomic Plasmid Vector	PHLAG8259122	Plasmid vector containing HLA-B*07:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:177 protein under different cellular conditions.	Inquiry
HLA-B*07:178 Genomic Plasmid Vector	PHLAG8259123	Plasmid vector containing HLA-B*07:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:178 protein under different cellular conditions.	Inquiry
HLA-B*07:179 Genomic Plasmid Vector	PHLAG8259124	Plasmid vector containing HLA-B*07:179 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:179 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:179 protein under different cellular conditions.	Inquiry
HLA-B*07:18:01 Genomic Plasmid Vector	PHLAG8259125	Plasmid vector containing HLA-B*07:18:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:18:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:18:01 protein under different cellular conditions.	Inquiry

HLA-B*07:18:02 Genomic Plasmid Vector	PHLAG8259126	Plasmid vector containing HLA-B*07:18:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:18:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:18:02 protein under different cellular conditions.	Inquiry
HLA-B*07:180 Genomic Plasmid Vector	PHLAG8259127	Plasmid vector containing HLA-B*07:180 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:180 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:180 protein under different cellular conditions.	Inquiry
HLA-B*07:181N Genomic Plasmid Vector	PHLAG8259128	Plasmid vector containing HLA-B*07:181N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:181N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:181N protein under different cellular conditions.	Inquiry
HLA-B*07:182N Genomic Plasmid Vector	PHLAG8259129	Plasmid vector containing HLA-B*07:182N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:182N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:182N protein under different cellular conditions.	Inquiry
HLA-B*07:183 Genomic Plasmid Vector	PHLAG8259130	Plasmid vector containing HLA-B*07:183 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:183 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:183 protein under different cellular conditions.	Inquiry
HLA-B*07:184 Genomic Plasmid Vector	PHLAG8259131	Plasmid vector containing HLA-B*07:184 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:184 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:184 protein under different cellular conditions.	Inquiry
HLA-B*07:185 Genomic Plasmid Vector	PHLAG8259132	Plasmid vector containing HLA-B*07:185 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:185 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:185 protein under different cellular conditions.	Inquiry
HLA-B*07:186 Genomic Plasmid Vector	PHLAG8259133	Plasmid vector containing HLA-B*07:186 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:186 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:186 protein under different cellular conditions.	Inquiry
HLA-B*07:187 Genomic Plasmid Vector	PHLAG8259134	Plasmid vector containing HLA-B*07:187 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:187 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:187 protein under different cellular conditions.	Inquiry

HLA-B*07:188 Genomic Plasmid Vector	PHLAG8259135	Plasmid vector containing HLA-B*07:188 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:188 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:188 protein under different cellular conditions.	Inquiry
HLA-B*07:189 Genomic Plasmid Vector	PHLAG8259136	Plasmid vector containing HLA-B*07:189 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:189 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:189 protein under different cellular conditions.	Inquiry
HLA-B*07:19 Genomic Plasmid Vector	PHLAG8259137	Plasmid vector containing HLA-B*07:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:19 protein under different cellular conditions.	Inquiry
HLA-B*07:190 Genomic Plasmid Vector	PHLAG8259138	Plasmid vector containing HLA-B*07:190 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:190 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:190 protein under different cellular conditions.	Inquiry
HLA-B*07:191 Genomic Plasmid Vector	PHLAG8259139	Plasmid vector containing HLA-B*07:191 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:191 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:191 protein under different cellular conditions.	Inquiry
HLA-B*07:192 Genomic Plasmid Vector	PHLAG8259140	Plasmid vector containing HLA-B*07:192 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:192 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:192 protein under different cellular conditions.	Inquiry
HLA-B*07:193 Genomic Plasmid Vector	PHLAG8259141	Plasmid vector containing HLA-B*07:193 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:193 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:193 protein under different cellular conditions.	Inquiry
HLA-B*07:194 Genomic Plasmid Vector	PHLAG8259142	Plasmid vector containing HLA-B*07:194 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:194 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:194 protein under different cellular conditions.	Inquiry
HLA-B*07:195 Genomic Plasmid Vector	PHLAG8259143	Plasmid vector containing HLA-B*07:195 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:195 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:195 protein under different cellular conditions.	Inquiry

HLA-B*07:196 Genomic Plasmid Vector	PHLAG8259144	Plasmid vector containing HLA-B*07:196 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:196 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:196 protein under different cellular conditions.	Inquiry
HLA-B*07:197 Genomic Plasmid Vector	PHLAG8259145	Plasmid vector containing HLA-B*07:197 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:197 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:197 protein under different cellular conditions.	Inquiry
HLA-B*07:198 Genomic Plasmid Vector	PHLAG8259146	Plasmid vector containing HLA-B*07:198 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:198 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:198 protein under different cellular conditions.	Inquiry
HLA-B*07:199 Genomic Plasmid Vector	PHLAG8259147	Plasmid vector containing HLA-B*07:199 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:199 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:199 protein under different cellular conditions.	Inquiry
HLA-B*07:20 Genomic Plasmid Vector	PHLAG8259148	Plasmid vector containing HLA-B*07:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:20 protein under different cellular conditions.	Inquiry
HLA-B*07:200 Genomic Plasmid Vector	PHLAG8259149	Plasmid vector containing HLA-B*07:200 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:200 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:200 protein under different cellular conditions.	Inquiry
HLA-B*07:201N Genomic Plasmid Vector	PHLAG8259150	Plasmid vector containing HLA-B*07:201N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:201N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:201N protein under different cellular conditions.	Inquiry
HLA-B*07:202 Genomic Plasmid Vector	PHLAG8259151	Plasmid vector containing HLA-B*07:202 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:202 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:202 protein under different cellular conditions.	Inquiry
HLA-B*07:203 Genomic Plasmid Vector	PHLAG8259152	Plasmid vector containing HLA-B*07:203 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:203 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:203 protein under different cellular conditions.	Inquiry

HLA-B*07:204 Genomic Plasmid Vector	PHLAG8259153	Plasmid vector containing HLA-B*07:204 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:204 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:204 protein under different cellular conditions.	Inquiry
HLA-B*07:205 Genomic Plasmid Vector	PHLAG8259154	Plasmid vector containing HLA-B*07:205 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:205 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:205 protein under different cellular conditions.	Inquiry
HLA-B*07:206:01 Genomic Plasmid Vector	PHLAG8259155	Plasmid vector containing HLA-B*07:206:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:206:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:206:01 protein under different cellular conditions.	Inquiry
HLA-B*07:206:02 Genomic Plasmid Vector	PHLAG8259156	Plasmid vector containing HLA-B*07:206:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:206:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:206:02 protein under different cellular conditions.	Inquiry
HLA-B*07:207 Genomic Plasmid Vector	PHLAG8259157	Plasmid vector containing HLA-B*07:207 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:207 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:207 protein under different cellular conditions.	Inquiry
HLA-B*07:208 Genomic Plasmid Vector	PHLAG8259158	Plasmid vector containing HLA-B*07:208 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:208 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:208 protein under different cellular conditions.	Inquiry
HLA-B*07:209 Genomic Plasmid Vector	PHLAG8259159	Plasmid vector containing HLA-B*07:209 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:209 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:209 protein under different cellular conditions.	Inquiry
HLA-B*07:21 Genomic Plasmid Vector	PHLAG8259160	Plasmid vector containing HLA-B*07:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:21 protein under different cellular conditions.	Inquiry
HLA-B*07:210 Genomic Plasmid Vector	PHLAG8259161	Plasmid vector containing HLA-B*07:210 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:210 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:210 protein under different cellular conditions.	Inquiry

HLA-B*07:211 Genomic Plasmid Vector	PHLAG8259162	Plasmid vector containing HLA-B*07:211 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:211 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:211 protein under different cellular conditions.	Inquiry
HLA-B*07:212 Genomic Plasmid Vector	PHLAG8259163	Plasmid vector containing HLA-B*07:212 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:212 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:212 protein under different cellular conditions.	Inquiry
HLA-B*07:213 Genomic Plasmid Vector	PHLAG8259164	Plasmid vector containing HLA-B*07:213 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:213 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:213 protein under different cellular conditions.	Inquiry
HLA-B*07:214 Genomic Plasmid Vector	PHLAG8259165	Plasmid vector containing HLA-B*07:214 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:214 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:214 protein under different cellular conditions.	Inquiry
HLA-B*07:215 Genomic Plasmid Vector	PHLAG8259166	Plasmid vector containing HLA-B*07:215 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:215 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:215 protein under different cellular conditions.	Inquiry
HLA-B*07:216 Genomic Plasmid Vector	PHLAG8259167	Plasmid vector containing HLA-B*07:216 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:216 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:216 protein under different cellular conditions.	Inquiry
HLA-B*07:217 Genomic Plasmid Vector	PHLAG8259168	Plasmid vector containing HLA-B*07:217 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:217 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:217 protein under different cellular conditions.	Inquiry
HLA-B*07:218 Genomic Plasmid Vector	PHLAG8259169	Plasmid vector containing HLA-B*07:218 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:218 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:218 protein under different cellular conditions.	Inquiry
HLA-B*07:219 Genomic Plasmid Vector	PHLAG8259170	Plasmid vector containing HLA-B*07:219 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:219 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:219 protein under different cellular conditions.	Inquiry

HLA-B*07:22:01 Genomic Plasmid Vector	PHLAG8259171	Plasmid vector containing HLA-B*07:22:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:22:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:22:01 protein under different cellular conditions.	Inquiry
HLA-B*07:22:02 Genomic Plasmid Vector	PHLAG8259172	Plasmid vector containing HLA-B*07:22:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:22:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:22:02 protein under different cellular conditions.	Inquiry
HLA-B*07:220 Genomic Plasmid Vector	PHLAG8259173	Plasmid vector containing HLA-B*07:220 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:220 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:220 protein under different cellular conditions.	Inquiry
HLA-B*07:221 Genomic Plasmid Vector	PHLAG8259174	Plasmid vector containing HLA-B*07:221 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:221 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:221 protein under different cellular conditions.	Inquiry
HLA-B*07:222 Genomic Plasmid Vector	PHLAG8259175	Plasmid vector containing HLA-B*07:222 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:222 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:222 protein under different cellular conditions.	Inquiry
HLA-B*07:223 Genomic Plasmid Vector	PHLAG8259176	Plasmid vector containing HLA-B*07:223 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:223 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:223 protein under different cellular conditions.	Inquiry
HLA-B*07:224 Genomic Plasmid Vector	PHLAG8259177	Plasmid vector containing HLA-B*07:224 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:224 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:224 protein under different cellular conditions.	Inquiry
HLA-B*07:225 Genomic Plasmid Vector	PHLAG8259178	Plasmid vector containing HLA-B*07:225 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:225 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:225 protein under different cellular conditions.	Inquiry
HLA-B*07:226 Genomic Plasmid Vector	PHLAG8259179	Plasmid vector containing HLA-B*07:226 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:226 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:226 protein under different cellular conditions.	Inquiry

HLA-B*07:227 Genomic Plasmid Vector	PHLAG8259180	Plasmid vector containing HLA-B*07:227 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:227 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:227 protein under different cellular conditions.	Inquiry
HLA-B*07:228:01 Genomic Plasmid Vector	PHLAG8259181	Plasmid vector containing HLA-B*07:228:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:228:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:228:01 protein under different cellular conditions.	Inquiry
HLA-B*07:228:02 Genomic Plasmid Vector	PHLAG8259182	Plasmid vector containing HLA-B*07:228:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:228:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:228:02 protein under different cellular conditions.	Inquiry
HLA-B*07:229:01 Genomic Plasmid Vector	PHLAG8259183	Plasmid vector containing HLA-B*07:229:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:229:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:229:01 protein under different cellular conditions.	Inquiry
HLA-B*07:229:02 Genomic Plasmid Vector	PHLAG8259184	Plasmid vector containing HLA-B*07:229:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:229:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:229:02 protein under different cellular conditions.	Inquiry
HLA-B*07:23 Genomic Plasmid Vector	PHLAG8259185	Plasmid vector containing HLA-B*07:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:23 protein under different cellular conditions.	Inquiry
HLA-B*07:230 Genomic Plasmid Vector	PHLAG8259186	Plasmid vector containing HLA-B*07:230 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:230 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:230 protein under different cellular conditions.	Inquiry
HLA-B*07:231N Genomic Plasmid Vector	PHLAG8259187	Plasmid vector containing HLA-B*07:231N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:231N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:231N protein under different cellular conditions.	Inquiry
HLA-B*07:232 Genomic Plasmid Vector	PHLAG8259188	Plasmid vector containing HLA-B*07:232 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:232 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:232 protein under different cellular conditions.	Inquiry

HLA-B*07:233 Genomic Plasmid Vector	PHLAG8259189	Plasmid vector containing HLA-B*07:233 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:233 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:233 protein under different cellular conditions.	Inquiry
HLA-B*07:234 Genomic Plasmid Vector	PHLAG8259190	Plasmid vector containing HLA-B*07:234 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:234 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:234 protein under different cellular conditions.	Inquiry
HLA-B*07:235 Genomic Plasmid Vector	PHLAG8259191	Plasmid vector containing HLA-B*07:235 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:235 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:235 protein under different cellular conditions.	Inquiry
HLA-B*07:236 Genomic Plasmid Vector	PHLAG8259192	Plasmid vector containing HLA-B*07:236 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:236 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:236 protein under different cellular conditions.	Inquiry
HLA-B*07:237 Genomic Plasmid Vector	PHLAG8259193	Plasmid vector containing HLA-B*07:237 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:237 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:237 protein under different cellular conditions.	Inquiry
HLA-B*07:238 Genomic Plasmid Vector	PHLAG8259194	Plasmid vector containing HLA-B*07:238 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:238 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:238 protein under different cellular conditions.	Inquiry
HLA-B*07:239 Genomic Plasmid Vector	PHLAG8259195	Plasmid vector containing HLA-B*07:239 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:239 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:239 protein under different cellular conditions.	Inquiry
HLA-B*07:24 Genomic Plasmid Vector	PHLAG8259196	Plasmid vector containing HLA-B*07:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:24 protein under different cellular conditions.	Inquiry
HLA-B*07:240 Genomic Plasmid Vector	PHLAG8259197	Plasmid vector containing HLA-B*07:240 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:240 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:240 protein under different cellular conditions.	Inquiry

HLA-B*07:241 Genomic Plasmid Vector	PHLAG8259198	Plasmid vector containing HLA-B*07:241 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:241 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:241 protein under different cellular conditions.	Inquiry
HLA-B*07:242 Genomic Plasmid Vector	PHLAG8259199	Plasmid vector containing HLA-B*07:242 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:242 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:242 protein under different cellular conditions.	Inquiry
HLA-B*07:243 Genomic Plasmid Vector	PHLAG8259200	Plasmid vector containing HLA-B*07:243 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:243 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:243 protein under different cellular conditions.	Inquiry
HLA-B*07:244 Genomic Plasmid Vector	PHLAG8259201	Plasmid vector containing HLA-B*07:244 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:244 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:244 protein under different cellular conditions.	Inquiry
HLA-B*07:245 Genomic Plasmid Vector	PHLAG8259202	Plasmid vector containing HLA-B*07:245 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:245 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:245 protein under different cellular conditions.	Inquiry
HLA-B*07:246 Genomic Plasmid Vector	PHLAG8259203	Plasmid vector containing HLA-B*07:246 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:246 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:246 protein under different cellular conditions.	Inquiry
HLA-B*07:247 Genomic Plasmid Vector	PHLAG8259204	Plasmid vector containing HLA-B*07:247 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:247 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:247 protein under different cellular conditions.	Inquiry
HLA-B*07:248 Genomic Plasmid Vector	PHLAG8259205	Plasmid vector containing HLA-B*07:248 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:248 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:248 protein under different cellular conditions.	Inquiry
HLA-B*07:249 Genomic Plasmid Vector	PHLAG8259206	Plasmid vector containing HLA-B*07:249 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:249 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:249 protein under different cellular conditions.	Inquiry

HLA-B*07:25 Genomic Plasmid Vector	PHLAG8259207	Plasmid vector containing HLA-B*07:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:25 protein under different cellular conditions.	Inquiry
HLA-B*07:250 Genomic Plasmid Vector	PHLAG8259208	Plasmid vector containing HLA-B*07:250 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:250 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:250 protein under different cellular conditions.	Inquiry
HLA-B*07:251N Genomic Plasmid Vector	PHLAG8259209	Plasmid vector containing HLA-B*07:251N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:251N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:251N protein under different cellular conditions.	Inquiry
HLA-B*07:252 Genomic Plasmid Vector	PHLAG8259210	Plasmid vector containing HLA-B*07:252 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:252 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:252 protein under different cellular conditions.	Inquiry
HLA-B*07:253 Genomic Plasmid Vector	PHLAG8259211	Plasmid vector containing HLA-B*07:253 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:253 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:253 protein under different cellular conditions.	Inquiry
HLA-B*07:254 Genomic Plasmid Vector	PHLAG8259212	Plasmid vector containing HLA-B*07:254 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:254 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:254 protein under different cellular conditions.	Inquiry
HLA-B*07:255 Genomic Plasmid Vector	PHLAG8259213	Plasmid vector containing HLA-B*07:255 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:255 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:255 protein under different cellular conditions.	Inquiry
HLA-B*07:256 Genomic Plasmid Vector	PHLAG8259214	Plasmid vector containing HLA-B*07:256 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:256 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:256 protein under different cellular conditions.	Inquiry
HLA-B*07:257 Genomic Plasmid Vector	PHLAG8259215	Plasmid vector containing HLA-B*07:257 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:257 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:257 protein under different cellular conditions.	Inquiry

HLA-B*07:258 Genomic Plasmid Vector	PHLAG8259216	Plasmid vector containing HLA-B*07:258 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:258 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:258 protein under different cellular conditions.	Inquiry
HLA-B*07:259 Genomic Plasmid Vector	PHLAG8259217	Plasmid vector containing HLA-B*07:259 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:259 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:259 protein under different cellular conditions.	Inquiry
HLA-B*07:26 Genomic Plasmid Vector	PHLAG8259218	Plasmid vector containing HLA-B*07:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:26 protein under different cellular conditions.	Inquiry
HLA-B*07:260 Genomic Plasmid Vector	PHLAG8259219	Plasmid vector containing HLA-B*07:260 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:260 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:260 protein under different cellular conditions.	Inquiry
HLA-B*07:261 Genomic Plasmid Vector	PHLAG8259220	Plasmid vector containing HLA-B*07:261 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:261 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:261 protein under different cellular conditions.	Inquiry
HLA-B*07:262:01 Genomic Plasmid Vector	PHLAG8259221	Plasmid vector containing HLA-B*07:262:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:262:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:262:01 protein under different cellular conditions.	Inquiry
HLA-B*07:262:02 Genomic Plasmid Vector	PHLAG8259222	Plasmid vector containing HLA-B*07:262:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:262:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:262:02 protein under different cellular conditions.	Inquiry
HLA-B*07:263 Genomic Plasmid Vector	PHLAG8259223	Plasmid vector containing HLA-B*07:263 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:263 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:263 protein under different cellular conditions.	Inquiry
HLA-B*07:264 Genomic Plasmid Vector	PHLAG8259224	Plasmid vector containing HLA-B*07:264 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:264 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:264 protein under different cellular conditions.	Inquiry

HLA-B*07:265 Genomic Plasmid Vector	PHLAG8259225	Plasmid vector containing HLA-B*07:265 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:265 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:265 protein under different cellular conditions.	Inquiry
HLA-B*07:266 Genomic Plasmid Vector	PHLAG8259226	Plasmid vector containing HLA-B*07:266 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:266 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:266 protein under different cellular conditions.	Inquiry
HLA-B*07:267 Genomic Plasmid Vector	PHLAG8259227	Plasmid vector containing HLA-B*07:267 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:267 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:267 protein under different cellular conditions.	Inquiry
HLA-B*07:268 Genomic Plasmid Vector	PHLAG8259228	Plasmid vector containing HLA-B*07:268 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:268 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:268 protein under different cellular conditions.	Inquiry
HLA-B*07:269 Genomic Plasmid Vector	PHLAG8259229	Plasmid vector containing HLA-B*07:269 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:269 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:269 protein under different cellular conditions.	Inquiry
HLA-B*07:27 Genomic Plasmid Vector	PHLAG8259230	Plasmid vector containing HLA-B*07:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:27 protein under different cellular conditions.	Inquiry
HLA-B*07:270 Genomic Plasmid Vector	PHLAG8259231	Plasmid vector containing HLA-B*07:270 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:270 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:270 protein under different cellular conditions.	Inquiry
HLA-B*07:271 Genomic Plasmid Vector	PHLAG8259232	Plasmid vector containing HLA-B*07:271 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:271 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:271 protein under different cellular conditions.	Inquiry
HLA-B*07:272N Genomic Plasmid Vector	PHLAG8259233	Plasmid vector containing HLA-B*07:272N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:272N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:272N protein under different cellular conditions.	Inquiry

HLA-B*07:273 Genomic Plasmid Vector	PHLAG8259234	Plasmid vector containing HLA-B*07:273 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:273 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:273 protein under different cellular conditions.	Inquiry
HLA-B*07:274 Genomic Plasmid Vector	PHLAG8259235	Plasmid vector containing HLA-B*07:274 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:274 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:274 protein under different cellular conditions.	Inquiry
HLA-B*07:275 Genomic Plasmid Vector	PHLAG8259236	Plasmid vector containing HLA-B*07:275 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:275 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:275 protein under different cellular conditions.	Inquiry
HLA-B*07:276:01 Genomic Plasmid Vector	PHLAG8259237	Plasmid vector containing HLA-B*07:276:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:276:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:276:01 protein under different cellular conditions.	Inquiry
HLA-B*07:276:02 Genomic Plasmid Vector	PHLAG8259238	Plasmid vector containing HLA-B*07:276:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:276:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:276:02 protein under different cellular conditions.	Inquiry
HLA-B*07:277 Genomic Plasmid Vector	PHLAG8259239	Plasmid vector containing HLA-B*07:277 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:277 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:277 protein under different cellular conditions.	Inquiry
HLA-B*07:278 Genomic Plasmid Vector	PHLAG8259240	Plasmid vector containing HLA-B*07:278 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:278 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:278 protein under different cellular conditions.	Inquiry
HLA-B*07:279 Genomic Plasmid Vector	PHLAG8259241	Plasmid vector containing HLA-B*07:279 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:279 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:279 protein under different cellular conditions.	Inquiry
HLA-B*07:28 Genomic Plasmid Vector	PHLAG8259242	Plasmid vector containing HLA-B*07:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:28 protein under different cellular conditions.	Inquiry

HLA-B*07:280 Genomic Plasmid Vector	PHLAG8259243	Plasmid vector containing HLA-B*07:280 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:280 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:280 protein under different cellular conditions.	Inquiry
HLA-B*07:281 Genomic Plasmid Vector	PHLAG8259244	Plasmid vector containing HLA-B*07:281 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:281 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:281 protein under different cellular conditions.	Inquiry
HLA-B*07:282 Genomic Plasmid Vector	PHLAG8259245	Plasmid vector containing HLA-B*07:282 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:282 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:282 protein under different cellular conditions.	Inquiry
HLA-B*07:283 Genomic Plasmid Vector	PHLAG8259246	Plasmid vector containing HLA-B*07:283 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:283 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:283 protein under different cellular conditions.	Inquiry
HLA-B*07:284 Genomic Plasmid Vector	PHLAG8259247	Plasmid vector containing HLA-B*07:284 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:284 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:284 protein under different cellular conditions.	Inquiry
HLA-B*07:285N Genomic Plasmid Vector	PHLAG8259248	Plasmid vector containing HLA-B*07:285N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:285N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:285N protein under different cellular conditions.	Inquiry
HLA-B*07:286 Genomic Plasmid Vector	PHLAG8259249	Plasmid vector containing HLA-B*07:286 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:286 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:286 protein under different cellular conditions.	Inquiry
HLA-B*07:287 Genomic Plasmid Vector	PHLAG8259250	Plasmid vector containing HLA-B*07:287 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:287 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:287 protein under different cellular conditions.	Inquiry
HLA-B*07:288 Genomic Plasmid Vector	PHLAG8259251	Plasmid vector containing HLA-B*07:288 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:288 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:288 protein under different cellular conditions.	Inquiry

HLA-B*07:289 Genomic Plasmid Vector	PHLAG8259252	Plasmid vector containing HLA-B*07:289 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:289 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:289 protein under different cellular conditions.	Inquiry
HLA-B*07:29 Genomic Plasmid Vector	PHLAG8259253	Plasmid vector containing HLA-B*07:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:29 protein under different cellular conditions.	Inquiry
HLA-B*07:290 Genomic Plasmid Vector	PHLAG8259254	Plasmid vector containing HLA-B*07:290 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:290 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:290 protein under different cellular conditions.	Inquiry
HLA-B*07:291 Genomic Plasmid Vector	PHLAG8259255	Plasmid vector containing HLA-B*07:291 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:291 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:291 protein under different cellular conditions.	Inquiry
HLA-B*07:292 Genomic Plasmid Vector	PHLAG8259256	Plasmid vector containing HLA-B*07:292 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:292 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:292 protein under different cellular conditions.	Inquiry
HLA-B*07:293 Genomic Plasmid Vector	PHLAG8259257	Plasmid vector containing HLA-B*07:293 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:293 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:293 protein under different cellular conditions.	Inquiry
HLA-B*07:294 Genomic Plasmid Vector	PHLAG8259258	Plasmid vector containing HLA-B*07:294 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:294 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:294 protein under different cellular conditions.	Inquiry
HLA-B*07:295 Genomic Plasmid Vector	PHLAG8259259	Plasmid vector containing HLA-B*07:295 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:295 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:295 protein under different cellular conditions.	Inquiry
HLA-B*07:296 Genomic Plasmid Vector	PHLAG8259260	Plasmid vector containing HLA-B*07:296 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:296 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:296 protein under different cellular conditions.	Inquiry

HLA-B*07:297 Genomic Plasmid Vector	PHLAG8259261	Plasmid vector containing HLA-B*07:297 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:297 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:297 protein under different cellular conditions.	Inquiry
HLA-B*07:298 Genomic Plasmid Vector	PHLAG8259262	Plasmid vector containing HLA-B*07:298 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:298 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:298 protein under different cellular conditions.	Inquiry
HLA-B*07:299 Genomic Plasmid Vector	PHLAG8259263	Plasmid vector containing HLA-B*07:299 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:299 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:299 protein under different cellular conditions.	Inquiry
HLA-B*07:30 Genomic Plasmid Vector	PHLAG8259264	Plasmid vector containing HLA-B*07:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:30 protein under different cellular conditions.	Inquiry
HLA-B*07:300 Genomic Plasmid Vector	PHLAG8259265	Plasmid vector containing HLA-B*07:300 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:300 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:300 protein under different cellular conditions.	Inquiry
HLA-B*07:301 Genomic Plasmid Vector	PHLAG8259266	Plasmid vector containing HLA-B*07:301 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:301 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:301 protein under different cellular conditions.	Inquiry
HLA-B*07:302 Genomic Plasmid Vector	PHLAG8259267	Plasmid vector containing HLA-B*07:302 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:302 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:302 protein under different cellular conditions.	Inquiry
HLA-B*07:303:01 Genomic Plasmid Vector	PHLAG8259268	Plasmid vector containing HLA-B*07:303:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:303:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:303:01 protein under different cellular conditions.	Inquiry
HLA-B*07:303:02 Genomic Plasmid Vector	PHLAG8259269	Plasmid vector containing HLA-B*07:303:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:303:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:303:02 protein under different cellular conditions.	Inquiry

HLA-B*07:304 Genomic Plasmid Vector	PHLAG8259270	Plasmid vector containing HLA-B*07:304 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:304 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:304 protein under different cellular conditions.	Inquiry
HLA-B*07:305 Genomic Plasmid Vector	PHLAG8259271	Plasmid vector containing HLA-B*07:305 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:305 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:305 protein under different cellular conditions.	Inquiry
HLA-B*07:306 Genomic Plasmid Vector	PHLAG8259272	Plasmid vector containing HLA-B*07:306 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:306 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:306 protein under different cellular conditions.	Inquiry
HLA-B*07:307 Genomic Plasmid Vector	PHLAG8259273	Plasmid vector containing HLA-B*07:307 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:307 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:307 protein under different cellular conditions.	Inquiry
HLA-B*07:308 Genomic Plasmid Vector	PHLAG8259274	Plasmid vector containing HLA-B*07:308 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:308 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:308 protein under different cellular conditions.	Inquiry
HLA-B*07:309 Genomic Plasmid Vector	PHLAG8259275	Plasmid vector containing HLA-B*07:309 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:309 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:309 protein under different cellular conditions.	Inquiry
HLA-B*07:31:01 Genomic Plasmid Vector	PHLAG8259276	Plasmid vector containing HLA-B*07:31:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:31:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:31:01 protein under different cellular conditions.	Inquiry
HLA-B*07:31:02 Genomic Plasmid Vector	PHLAG8259277	Plasmid vector containing HLA-B*07:31:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:31:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:31:02 protein under different cellular conditions.	Inquiry
HLA-B*07:310 Genomic Plasmid Vector	PHLAG8259278	Plasmid vector containing HLA-B*07:310 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:310 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:310 protein under different cellular conditions.	Inquiry

HLA-B*07:311 Genomic Plasmid Vector	PHLAG8259279	Plasmid vector containing HLA-B*07:311 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:311 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:311 protein under different cellular conditions.	Inquiry
HLA-B*07:312 Genomic Plasmid Vector	PHLAG8259280	Plasmid vector containing HLA-B*07:312 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:312 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:312 protein under different cellular conditions.	Inquiry
HLA-B*07:313 Genomic Plasmid Vector	PHLAG8259281	Plasmid vector containing HLA-B*07:313 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:313 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:313 protein under different cellular conditions.	Inquiry
HLA-B*07:314 Genomic Plasmid Vector	PHLAG8259282	Plasmid vector containing HLA-B*07:314 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:314 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:314 protein under different cellular conditions.	Inquiry
HLA-B*07:315N Genomic Plasmid Vector	PHLAG8259283	Plasmid vector containing HLA-B*07:315N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:315N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:315N protein under different cellular conditions.	Inquiry
HLA-B*07:316N Genomic Plasmid Vector	PHLAG8259284	Plasmid vector containing HLA-B*07:316N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:316N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:316N protein under different cellular conditions.	Inquiry
HLA-B*07:317 Genomic Plasmid Vector	PHLAG8259285	Plasmid vector containing HLA-B*07:317 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:317 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:317 protein under different cellular conditions.	Inquiry
HLA-B*07:318N Genomic Plasmid Vector	PHLAG8259286	Plasmid vector containing HLA-B*07:318N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:318N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:318N protein under different cellular conditions.	Inquiry
HLA-B*07:319 Genomic Plasmid Vector	PHLAG8259287	Plasmid vector containing HLA-B*07:319 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:319 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:319 protein under different cellular conditions.	Inquiry

HLA-B*07:32 Genomic Plasmid Vector	PHLAG8259288	Plasmid vector containing HLA-B*07:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:32 protein under different cellular conditions.	Inquiry
HLA-B*07:320 Genomic Plasmid Vector	PHLAG8259289	Plasmid vector containing HLA-B*07:320 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:320 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:320 protein under different cellular conditions.	Inquiry
HLA-B*07:321 Genomic Plasmid Vector	PHLAG8259290	Plasmid vector containing HLA-B*07:321 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:321 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:321 protein under different cellular conditions.	Inquiry
HLA-B*07:322 Genomic Plasmid Vector	PHLAG8259291	Plasmid vector containing HLA-B*07:322 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:322 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:322 protein under different cellular conditions.	Inquiry
HLA-B*07:323 Genomic Plasmid Vector	PHLAG8259292	Plasmid vector containing HLA-B*07:323 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:323 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:323 protein under different cellular conditions.	Inquiry
HLA-B*07:324 Genomic Plasmid Vector	PHLAG8259293	Plasmid vector containing HLA-B*07:324 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:324 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:324 protein under different cellular conditions.	Inquiry
HLA-B*07:325N Genomic Plasmid Vector	PHLAG8259294	Plasmid vector containing HLA-B*07:325N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:325N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:325N protein under different cellular conditions.	Inquiry
HLA-B*07:326 Genomic Plasmid Vector	PHLAG8259295	Plasmid vector containing HLA-B*07:326 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:326 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:326 protein under different cellular conditions.	Inquiry
HLA-B*07:327 Genomic Plasmid Vector	PHLAG8259296	Plasmid vector containing HLA-B*07:327 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:327 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:327 protein under different cellular conditions.	Inquiry

HLA-B*07:328 Genomic Plasmid Vector	PHLAG8259297	Plasmid vector containing HLA-B*07:328 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:328 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:328 protein under different cellular conditions.	Inquiry
HLA-B*07:329 Genomic Plasmid Vector	PHLAG8259298	Plasmid vector containing HLA-B*07:329 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:329 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:329 protein under different cellular conditions.	Inquiry
HLA-B*07:33:01 Genomic Plasmid Vector	PHLAG8259299	Plasmid vector containing HLA-B*07:33:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:33:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:33:01 protein under different cellular conditions.	Inquiry
HLA-B*07:33:02 Genomic Plasmid Vector	PHLAG8259300	Plasmid vector containing HLA-B*07:33:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:33:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:33:02 protein under different cellular conditions.	Inquiry
HLA-B*07:33:03 Genomic Plasmid Vector	PHLAG8259301	Plasmid vector containing HLA-B*07:33:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:33:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:33:03 protein under different cellular conditions.	Inquiry
HLA-B*07:330N Genomic Plasmid Vector	PHLAG8259302	Plasmid vector containing HLA-B*07:330N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:330N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:330N protein under different cellular conditions.	Inquiry
HLA-B*07:331 Genomic Plasmid Vector	PHLAG8259303	Plasmid vector containing HLA-B*07:331 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:331 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:331 protein under different cellular conditions.	Inquiry
HLA-B*07:332 Genomic Plasmid Vector	PHLAG8259304	Plasmid vector containing HLA-B*07:332 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:332 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:332 protein under different cellular conditions.	Inquiry
HLA-B*07:333 Genomic Plasmid Vector	PHLAG8259305	Plasmid vector containing HLA-B*07:333 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:333 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:333 protein under different cellular conditions.	Inquiry

HLA-B*07:334 Genomic Plasmid Vector	PHLAG8259306	Plasmid vector containing HLA-B*07:334 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:334 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:334 protein under different cellular conditions.	Inquiry
HLA-B*07:335 Genomic Plasmid Vector	PHLAG8259307	Plasmid vector containing HLA-B*07:335 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:335 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:335 protein under different cellular conditions.	Inquiry
HLA-B*07:336 Genomic Plasmid Vector	PHLAG8259308	Plasmid vector containing HLA-B*07:336 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:336 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:336 protein under different cellular conditions.	Inquiry
HLA-B*07:337 Genomic Plasmid Vector	PHLAG8259309	Plasmid vector containing HLA-B*07:337 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:337 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:337 protein under different cellular conditions.	Inquiry
HLA-B*07:338 Genomic Plasmid Vector	PHLAG8259310	Plasmid vector containing HLA-B*07:338 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:338 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:338 protein under different cellular conditions.	Inquiry
HLA-B*07:339 Genomic Plasmid Vector	PHLAG8259311	Plasmid vector containing HLA-B*07:339 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:339 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:339 protein under different cellular conditions.	Inquiry
HLA-B*07:34 Genomic Plasmid Vector	PHLAG8259312	Plasmid vector containing HLA-B*07:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:34 protein under different cellular conditions.	Inquiry
HLA-B*07:340 Genomic Plasmid Vector	PHLAG8259313	Plasmid vector containing HLA-B*07:340 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:340 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:340 protein under different cellular conditions.	Inquiry
HLA-B*07:341 Genomic Plasmid Vector	PHLAG8259314	Plasmid vector containing HLA-B*07:341 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:341 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:341 protein under different cellular conditions.	Inquiry

HLA-B*07:342 Genomic Plasmid Vector	PHLAG8259315	Plasmid vector containing HLA-B*07:342 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:342 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:342 protein under different cellular conditions.	Inquiry
HLA-B*07:343N Genomic Plasmid Vector	PHLAG8259316	Plasmid vector containing HLA-B*07:343N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:343N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:343N protein under different cellular conditions.	Inquiry
HLA-B*07:344 Genomic Plasmid Vector	PHLAG8259317	Plasmid vector containing HLA-B*07:344 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:344 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:344 protein under different cellular conditions.	Inquiry
HLA-B*07:345 Genomic Plasmid Vector	PHLAG8259318	Plasmid vector containing HLA-B*07:345 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:345 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:345 protein under different cellular conditions.	Inquiry
HLA-B*07:346 Genomic Plasmid Vector	PHLAG8259319	Plasmid vector containing HLA-B*07:346 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:346 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:346 protein under different cellular conditions.	Inquiry
HLA-B*07:347 Genomic Plasmid Vector	PHLAG8259320	Plasmid vector containing HLA-B*07:347 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:347 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:347 protein under different cellular conditions.	Inquiry
HLA-B*07:348 Genomic Plasmid Vector	PHLAG8259321	Plasmid vector containing HLA-B*07:348 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:348 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:348 protein under different cellular conditions.	Inquiry
HLA-B*07:349 Genomic Plasmid Vector	PHLAG8259322	Plasmid vector containing HLA-B*07:349 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:349 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:349 protein under different cellular conditions.	Inquiry
HLA-B*07:35 Genomic Plasmid Vector	PHLAG8259323	Plasmid vector containing HLA-B*07:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:35 protein under different cellular conditions.	Inquiry

HLA-B*07:350 Genomic Plasmid Vector	PHLAG8259324	Plasmid vector containing HLA-B*07:350 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:350 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:350 protein under different cellular conditions.	Inquiry
HLA-B*07:351N Genomic Plasmid Vector	PHLAG8259325	Plasmid vector containing HLA-B*07:351N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:351N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:351N protein under different cellular conditions.	Inquiry
HLA-B*07:352 Genomic Plasmid Vector	PHLAG8259326	Plasmid vector containing HLA-B*07:352 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:352 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:352 protein under different cellular conditions.	Inquiry
HLA-B*07:353 Genomic Plasmid Vector	PHLAG8259327	Plasmid vector containing HLA-B*07:353 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:353 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:353 protein under different cellular conditions.	Inquiry
HLA-B*07:354 Genomic Plasmid Vector	PHLAG8259328	Plasmid vector containing HLA-B*07:354 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:354 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:354 protein under different cellular conditions.	Inquiry
HLA-B*07:355 Genomic Plasmid Vector	PHLAG8259329	Plasmid vector containing HLA-B*07:355 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:355 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:355 protein under different cellular conditions.	Inquiry
HLA-B*07:356 Genomic Plasmid Vector	PHLAG8259330	Plasmid vector containing HLA-B*07:356 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:356 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:356 protein under different cellular conditions.	Inquiry
HLA-B*07:357 Genomic Plasmid Vector	PHLAG8259331	Plasmid vector containing HLA-B*07:357 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:357 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:357 protein under different cellular conditions.	Inquiry
HLA-B*07:358 Genomic Plasmid Vector	PHLAG8259332	Plasmid vector containing HLA-B*07:358 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:358 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:358 protein under different cellular conditions.	Inquiry

HLA-B*07:359 Genomic Plasmid Vector	PHLAG8259333	Plasmid vector containing HLA-B*07:359 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:359 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:359 protein under different cellular conditions.	Inquiry
HLA-B*07:36 Genomic Plasmid Vector	PHLAG8259334	Plasmid vector containing HLA-B*07:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:36 protein under different cellular conditions.	Inquiry
HLA-B*07:360Q Genomic Plasmid Vector	PHLAG8259335	Plasmid vector containing HLA-B*07:360Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:360Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:360Q protein under different cellular conditions.	Inquiry
HLA-B*07:361 Genomic Plasmid Vector	PHLAG8259336	Plasmid vector containing HLA-B*07:361 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:361 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:361 protein under different cellular conditions.	Inquiry
HLA-B*07:362 Genomic Plasmid Vector	PHLAG8259337	Plasmid vector containing HLA-B*07:362 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:362 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:362 protein under different cellular conditions.	Inquiry
HLA-B*07:363 Genomic Plasmid Vector	PHLAG8259338	Plasmid vector containing HLA-B*07:363 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:363 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:363 protein under different cellular conditions.	Inquiry
HLA-B*07:364 Genomic Plasmid Vector	PHLAG8259339	Plasmid vector containing HLA-B*07:364 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:364 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:364 protein under different cellular conditions.	Inquiry
HLA-B*07:365 Genomic Plasmid Vector	PHLAG8259340	Plasmid vector containing HLA-B*07:365 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:365 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:365 protein under different cellular conditions.	Inquiry
HLA-B*07:366 Genomic Plasmid Vector	PHLAG8259341	Plasmid vector containing HLA-B*07:366 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:366 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:366 protein under different cellular conditions.	Inquiry

HLA-B*07:367 Genomic Plasmid Vector	PHLAG8259342	Plasmid vector containing HLA-B*07:367 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:367 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:367 protein under different cellular conditions.	Inquiry
HLA-B*07:368 Genomic Plasmid Vector	PHLAG8259343	Plasmid vector containing HLA-B*07:368 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:368 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:368 protein under different cellular conditions.	Inquiry
HLA-B*07:369 Genomic Plasmid Vector	PHLAG8259344	Plasmid vector containing HLA-B*07:369 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:369 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:369 protein under different cellular conditions.	Inquiry
HLA-B*07:37:01 Genomic Plasmid Vector	PHLAG8259345	Plasmid vector containing HLA-B*07:37:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:37:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:37:01 protein under different cellular conditions.	Inquiry
HLA-B*07:37:02 Genomic Plasmid Vector	PHLAG8259346	Plasmid vector containing HLA-B*07:37:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:37:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:37:02 protein under different cellular conditions.	Inquiry
HLA-B*07:370 Genomic Plasmid Vector	PHLAG8259347	Plasmid vector containing HLA-B*07:370 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:370 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:370 protein under different cellular conditions.	Inquiry
HLA-B*07:371 Genomic Plasmid Vector	PHLAG8259348	Plasmid vector containing HLA-B*07:371 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:371 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:371 protein under different cellular conditions.	Inquiry
HLA-B*07:372 Genomic Plasmid Vector	PHLAG8259349	Plasmid vector containing HLA-B*07:372 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:372 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:372 protein under different cellular conditions.	Inquiry
HLA-B*07:373N Genomic Plasmid Vector	PHLAG8259350	Plasmid vector containing HLA-B*07:373N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:373N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:373N protein under different cellular conditions.	Inquiry

HLA-B*07:374N Genomic Plasmid Vector	PHLAG8259351	Plasmid vector containing HLA-B*07:374N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:374N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:374N protein under different cellular conditions.	Inquiry
HLA-B*07:375 Genomic Plasmid Vector	PHLAG8259352	Plasmid vector containing HLA-B*07:375 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:375 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:375 protein under different cellular conditions.	Inquiry
HLA-B*07:376 Genomic Plasmid Vector	PHLAG8259353	Plasmid vector containing HLA-B*07:376 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:376 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:376 protein under different cellular conditions.	Inquiry
HLA-B*07:377 Genomic Plasmid Vector	PHLAG8259354	Plasmid vector containing HLA-B*07:377 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:377 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:377 protein under different cellular conditions.	Inquiry
HLA-B*07:378 Genomic Plasmid Vector	PHLAG8259355	Plasmid vector containing HLA-B*07:378 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:378 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:378 protein under different cellular conditions.	Inquiry
HLA-B*07:379 Genomic Plasmid Vector	PHLAG8259356	Plasmid vector containing HLA-B*07:379 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:379 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:379 protein under different cellular conditions.	Inquiry
HLA-B*07:38 Genomic Plasmid Vector	PHLAG8259357	Plasmid vector containing HLA-B*07:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:38 protein under different cellular conditions.	Inquiry
HLA-B*07:380 Genomic Plasmid Vector	PHLAG8259358	Plasmid vector containing HLA-B*07:380 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:380 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:380 protein under different cellular conditions.	Inquiry
HLA-B*07:381 Genomic Plasmid Vector	PHLAG8259359	Plasmid vector containing HLA-B*07:381 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:381 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:381 protein under different cellular conditions.	Inquiry

HLA-B*07:382 Genomic Plasmid Vector	PHLAG8259360	Plasmid vector containing HLA-B*07:382 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:382 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:382 protein under different cellular conditions.	Inquiry
HLA-B*07:383 Genomic Plasmid Vector	PHLAG8259361	Plasmid vector containing HLA-B*07:383 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:383 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:383 protein under different cellular conditions.	Inquiry
HLA-B*07:384 Genomic Plasmid Vector	PHLAG8259362	Plasmid vector containing HLA-B*07:384 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:384 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:384 protein under different cellular conditions.	Inquiry
HLA-B*07:385 Genomic Plasmid Vector	PHLAG8259363	Plasmid vector containing HLA-B*07:385 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:385 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:385 protein under different cellular conditions.	Inquiry
HLA-B*07:386N Genomic Plasmid Vector	PHLAG8259364	Plasmid vector containing HLA-B*07:386N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:386N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:386N protein under different cellular conditions.	Inquiry
HLA-B*07:387 Genomic Plasmid Vector	PHLAG8259365	Plasmid vector containing HLA-B*07:387 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:387 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:387 protein under different cellular conditions.	Inquiry
HLA-B*07:388 Genomic Plasmid Vector	PHLAG8259366	Plasmid vector containing HLA-B*07:388 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:388 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:388 protein under different cellular conditions.	Inquiry
HLA-B*07:389 Genomic Plasmid Vector	PHLAG8259367	Plasmid vector containing HLA-B*07:389 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:389 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:389 protein under different cellular conditions.	Inquiry
HLA-B*07:39 Genomic Plasmid Vector	PHLAG8259368	Plasmid vector containing HLA-B*07:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:39 protein under different cellular conditions.	Inquiry

HLA-B*07:390 Genomic Plasmid Vector	PHLAG8259369	Plasmid vector containing HLA-B*07:390 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:390 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:390 protein under different cellular conditions.	Inquiry
HLA-B*07:391 Genomic Plasmid Vector	PHLAG8259370	Plasmid vector containing HLA-B*07:391 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:391 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:391 protein under different cellular conditions.	Inquiry
HLA-B*07:392 Genomic Plasmid Vector	PHLAG8259371	Plasmid vector containing HLA-B*07:392 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:392 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:392 protein under different cellular conditions.	Inquiry
HLA-B*07:393 Genomic Plasmid Vector	PHLAG8259372	Plasmid vector containing HLA-B*07:393 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:393 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:393 protein under different cellular conditions.	Inquiry
HLA-B*07:394 Genomic Plasmid Vector	PHLAG8259373	Plasmid vector containing HLA-B*07:394 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:394 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:394 protein under different cellular conditions.	Inquiry
HLA-B*07:395 Genomic Plasmid Vector	PHLAG8259374	Plasmid vector containing HLA-B*07:395 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:395 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:395 protein under different cellular conditions.	Inquiry
HLA-B*07:396 Genomic Plasmid Vector	PHLAG8259375	Plasmid vector containing HLA-B*07:396 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:396 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:396 protein under different cellular conditions.	Inquiry
HLA-B*07:397 Genomic Plasmid Vector	PHLAG8259376	Plasmid vector containing HLA-B*07:397 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:397 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:397 protein under different cellular conditions.	Inquiry
HLA-B*07:398 Genomic Plasmid Vector	PHLAG8259377	Plasmid vector containing HLA-B*07:398 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:398 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:398 protein under different cellular conditions.	Inquiry

HLA-B*07:399 Genomic Plasmid Vector	PHLAG8259378	Plasmid vector containing HLA-B*07:399 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:399 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:399 protein under different cellular conditions.	Inquiry
HLA-B*07:40 Genomic Plasmid Vector	PHLAG8259379	Plasmid vector containing HLA-B*07:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:40 protein under different cellular conditions.	Inquiry
HLA-B*07:400 Genomic Plasmid Vector	PHLAG8259380	Plasmid vector containing HLA-B*07:400 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:400 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:400 protein under different cellular conditions.	Inquiry
HLA-B*07:401 Genomic Plasmid Vector	PHLAG8259381	Plasmid vector containing HLA-B*07:401 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:401 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:401 protein under different cellular conditions.	Inquiry
HLA-B*07:402 Genomic Plasmid Vector	PHLAG8259382	Plasmid vector containing HLA-B*07:402 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:402 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:402 protein under different cellular conditions.	Inquiry
HLA-B*07:403 Genomic Plasmid Vector	PHLAG8259383	Plasmid vector containing HLA-B*07:403 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:403 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:403 protein under different cellular conditions.	Inquiry
HLA-B*07:404 Genomic Plasmid Vector	PHLAG8259384	Plasmid vector containing HLA-B*07:404 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:404 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:404 protein under different cellular conditions.	Inquiry
HLA-B*07:405 Genomic Plasmid Vector	PHLAG8259385	Plasmid vector containing HLA-B*07:405 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:405 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:405 protein under different cellular conditions.	Inquiry
HLA-B*07:406 Genomic Plasmid Vector	PHLAG8259386	Plasmid vector containing HLA-B*07:406 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:406 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:406 protein under different cellular conditions.	Inquiry

HLA-B*07:407 Genomic Plasmid Vector	PHLAG8259387	Plasmid vector containing HLA-B*07:407 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:407 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:407 protein under different cellular conditions.	Inquiry
HLA-B*07:408 Genomic Plasmid Vector	PHLAG8259388	Plasmid vector containing HLA-B*07:408 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:408 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:408 protein under different cellular conditions.	Inquiry
HLA-B*07:409 Genomic Plasmid Vector	PHLAG8259389	Plasmid vector containing HLA-B*07:409 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:409 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:409 protein under different cellular conditions.	Inquiry
HLA-B*07:41 Genomic Plasmid Vector	PHLAG8259390	Plasmid vector containing HLA-B*07:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:41 protein under different cellular conditions.	Inquiry
HLA-B*07:410 Genomic Plasmid Vector	PHLAG8259391	Plasmid vector containing HLA-B*07:410 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:410 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:410 protein under different cellular conditions.	Inquiry
HLA-B*07:411 Genomic Plasmid Vector	PHLAG8259392	Plasmid vector containing HLA-B*07:411 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:411 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:411 protein under different cellular conditions.	Inquiry
HLA-B*07:412 Genomic Plasmid Vector	PHLAG8259393	Plasmid vector containing HLA-B*07:412 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:412 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:412 protein under different cellular conditions.	Inquiry
HLA-B*07:413 Genomic Plasmid Vector	PHLAG8259394	Plasmid vector containing HLA-B*07:413 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:413 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:413 protein under different cellular conditions.	Inquiry
HLA-B*07:414 Genomic Plasmid Vector	PHLAG8259395	Plasmid vector containing HLA-B*07:414 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:414 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:414 protein under different cellular conditions.	Inquiry

HLA-B*07:415N Genomic Plasmid Vector	PHLAG8259396	Plasmid vector containing HLA-B*07:415N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:415N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:415N protein under different cellular conditions.	Inquiry
HLA-B*07:416 Genomic Plasmid Vector	PHLAG8259397	Plasmid vector containing HLA-B*07:416 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:416 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:416 protein under different cellular conditions.	Inquiry
HLA-B*07:417 Genomic Plasmid Vector	PHLAG8259398	Plasmid vector containing HLA-B*07:417 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:417 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:417 protein under different cellular conditions.	Inquiry
HLA-B*07:418 Genomic Plasmid Vector	PHLAG8259399	Plasmid vector containing HLA-B*07:418 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:418 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:418 protein under different cellular conditions.	Inquiry
HLA-B*07:419 Genomic Plasmid Vector	PHLAG8259400	Plasmid vector containing HLA-B*07:419 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:419 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:419 protein under different cellular conditions.	Inquiry
HLA-B*07:42 Genomic Plasmid Vector	PHLAG8259401	Plasmid vector containing HLA-B*07:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:42 protein under different cellular conditions.	Inquiry
HLA-B*07:420 Genomic Plasmid Vector	PHLAG8259402	Plasmid vector containing HLA-B*07:420 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:420 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:420 protein under different cellular conditions.	Inquiry
HLA-B*07:421 Genomic Plasmid Vector	PHLAG8259403	Plasmid vector containing HLA-B*07:421 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:421 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:421 protein under different cellular conditions.	Inquiry
HLA-B*07:422 Genomic Plasmid Vector	PHLAG8259404	Plasmid vector containing HLA-B*07:422 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:422 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:422 protein under different cellular conditions.	Inquiry

HLA-B*07:423 Genomic Plasmid Vector	PHLAG8259405	Plasmid vector containing HLA-B*07:423 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:423 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:423 protein under different cellular conditions.	Inquiry
HLA-B*07:424 Genomic Plasmid Vector	PHLAG8259406	Plasmid vector containing HLA-B*07:424 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:424 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:424 protein under different cellular conditions.	Inquiry
HLA-B*07:425N Genomic Plasmid Vector	PHLAG8259407	Plasmid vector containing HLA-B*07:425N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:425N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:425N protein under different cellular conditions.	Inquiry
HLA-B*07:426Q Genomic Plasmid Vector	PHLAG8259408	Plasmid vector containing HLA-B*07:426Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:426Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:426Q protein under different cellular conditions.	Inquiry
HLA-B*07:427 Genomic Plasmid Vector	PHLAG8259409	Plasmid vector containing HLA-B*07:427 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:427 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:427 protein under different cellular conditions.	Inquiry
HLA-B*07:428 Genomic Plasmid Vector	PHLAG8259410	Plasmid vector containing HLA-B*07:428 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:428 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:428 protein under different cellular conditions.	Inquiry
HLA-B*07:429 Genomic Plasmid Vector	PHLAG8259411	Plasmid vector containing HLA-B*07:429 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:429 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:429 protein under different cellular conditions.	Inquiry
HLA-B*07:43 Genomic Plasmid Vector	PHLAG8259412	Plasmid vector containing HLA-B*07:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:43 protein under different cellular conditions.	Inquiry
HLA-B*07:430 Genomic Plasmid Vector	PHLAG8259413	Plasmid vector containing HLA-B*07:430 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:430 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:430 protein under different cellular conditions.	Inquiry

HLA-B*07:431 Genomic Plasmid Vector	PHLAG8259414	Plasmid vector containing HLA-B*07:431 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:431 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:431 protein under different cellular conditions.	Inquiry
HLA-B*07:432 Genomic Plasmid Vector	PHLAG8259415	Plasmid vector containing HLA-B*07:432 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:432 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:432 protein under different cellular conditions.	Inquiry
HLA-B*07:433 Genomic Plasmid Vector	PHLAG8259416	Plasmid vector containing HLA-B*07:433 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:433 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:433 protein under different cellular conditions.	Inquiry
HLA-B*07:434 Genomic Plasmid Vector	PHLAG8259417	Plasmid vector containing HLA-B*07:434 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:434 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:434 protein under different cellular conditions.	Inquiry
HLA-B*07:435N Genomic Plasmid Vector	PHLAG8259418	Plasmid vector containing HLA-B*07:435N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:435N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:435N protein under different cellular conditions.	Inquiry
HLA-B*07:436 Genomic Plasmid Vector	PHLAG8259419	Plasmid vector containing HLA-B*07:436 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:436 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:436 protein under different cellular conditions.	Inquiry
HLA-B*07:437 Genomic Plasmid Vector	PHLAG8259420	Plasmid vector containing HLA-B*07:437 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:437 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:437 protein under different cellular conditions.	Inquiry
HLA-B*07:438 Genomic Plasmid Vector	PHLAG8259421	Plasmid vector containing HLA-B*07:438 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:438 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:438 protein under different cellular conditions.	Inquiry
HLA-B*07:439 Genomic Plasmid Vector	PHLAG8259422	Plasmid vector containing HLA-B*07:439 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:439 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:439 protein under different cellular conditions.	Inquiry

HLA-B*07:440 Genomic Plasmid Vector	PHLAG8259423	Plasmid vector containing HLA-B*07:440 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:440 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:440 protein under different cellular conditions.	Inquiry
HLA-B*07:441 Genomic Plasmid Vector	PHLAG8259424	Plasmid vector containing HLA-B*07:441 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:441 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:441 protein under different cellular conditions.	Inquiry
HLA-B*07:442 Genomic Plasmid Vector	PHLAG8259425	Plasmid vector containing HLA-B*07:442 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:442 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:442 protein under different cellular conditions.	Inquiry
HLA-B*07:443 Genomic Plasmid Vector	PHLAG8259426	Plasmid vector containing HLA-B*07:443 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:443 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:443 protein under different cellular conditions.	Inquiry
HLA-B*07:444 Genomic Plasmid Vector	PHLAG8259427	Plasmid vector containing HLA-B*07:444 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:444 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:444 protein under different cellular conditions.	Inquiry
HLA-B*07:445 Genomic Plasmid Vector	PHLAG8259428	Plasmid vector containing HLA-B*07:445 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:445 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:445 protein under different cellular conditions.	Inquiry
HLA-B*07:446N Genomic Plasmid Vector	PHLAG8259429	Plasmid vector containing HLA-B*07:446N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:446N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:446N protein under different cellular conditions.	Inquiry
HLA-B*07:447 Genomic Plasmid Vector	PHLAG8259430	Plasmid vector containing HLA-B*07:447 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:447 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:447 protein under different cellular conditions.	Inquiry
HLA-B*07:448 Genomic Plasmid Vector	PHLAG8259431	Plasmid vector containing HLA-B*07:448 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:448 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:448 protein under different cellular conditions.	Inquiry

HLA-B*07:449 Genomic Plasmid Vector	PHLAG8259432	Plasmid vector containing HLA-B*07:449 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:449 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:449 protein under different cellular conditions.	Inquiry
HLA-B*07:44N Genomic Plasmid Vector	PHLAG8259433	Plasmid vector containing HLA-B*07:44N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:44N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:44N protein under different cellular conditions.	Inquiry
HLA-B*07:45 Genomic Plasmid Vector	PHLAG8259434	Plasmid vector containing HLA-B*07:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:45 protein under different cellular conditions.	Inquiry
HLA-B*07:450 Genomic Plasmid Vector	PHLAG8259435	Plasmid vector containing HLA-B*07:450 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:450 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:450 protein under different cellular conditions.	Inquiry
HLA-B*07:451 Genomic Plasmid Vector	PHLAG8259436	Plasmid vector containing HLA-B*07:451 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:451 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:451 protein under different cellular conditions.	Inquiry
HLA-B*07:452 Genomic Plasmid Vector	PHLAG8259437	Plasmid vector containing HLA-B*07:452 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:452 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:452 protein under different cellular conditions.	Inquiry
HLA-B*07:453 Genomic Plasmid Vector	PHLAG8259438	Plasmid vector containing HLA-B*07:453 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:453 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:453 protein under different cellular conditions.	Inquiry
HLA-B*07:454 Genomic Plasmid Vector	PHLAG8259439	Plasmid vector containing HLA-B*07:454 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:454 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:454 protein under different cellular conditions.	Inquiry
HLA-B*07:455 Genomic Plasmid Vector	PHLAG8259440	Plasmid vector containing HLA-B*07:455 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:455 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:455 protein under different cellular conditions.	Inquiry

HLA-B*07:456 Genomic Plasmid Vector	PHLAG8259441	Plasmid vector containing HLA-B*07:456 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:456 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:456 protein under different cellular conditions.	Inquiry
HLA-B*07:457 Genomic Plasmid Vector	PHLAG8259442	Plasmid vector containing HLA-B*07:457 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:457 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:457 protein under different cellular conditions.	Inquiry
HLA-B*07:458 Genomic Plasmid Vector	PHLAG8259443	Plasmid vector containing HLA-B*07:458 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:458 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:458 protein under different cellular conditions.	Inquiry
HLA-B*07:459 Genomic Plasmid Vector	PHLAG8259444	Plasmid vector containing HLA-B*07:459 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:459 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:459 protein under different cellular conditions.	Inquiry
HLA-B*07:46 Genomic Plasmid Vector	PHLAG8259445	Plasmid vector containing HLA-B*07:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:46 protein under different cellular conditions.	Inquiry
HLA-B*07:460N Genomic Plasmid Vector	PHLAG8259446	Plasmid vector containing HLA-B*07:460N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:460N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:460N protein under different cellular conditions.	Inquiry
HLA-B*07:461 Genomic Plasmid Vector	PHLAG8259447	Plasmid vector containing HLA-B*07:461 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:461 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:461 protein under different cellular conditions.	Inquiry
HLA-B*07:462 Genomic Plasmid Vector	PHLAG8259448	Plasmid vector containing HLA-B*07:462 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:462 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:462 protein under different cellular conditions.	Inquiry
HLA-B*07:463 Genomic Plasmid Vector	PHLAG8259449	Plasmid vector containing HLA-B*07:463 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:463 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:463 protein under different cellular conditions.	Inquiry

HLA-B*07:464 Genomic Plasmid Vector	PHLAG8259450	Plasmid vector containing HLA-B*07:464 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:464 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:464 protein under different cellular conditions.	Inquiry
HLA-B*07:465 Genomic Plasmid Vector	PHLAG8259451	Plasmid vector containing HLA-B*07:465 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:465 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:465 protein under different cellular conditions.	Inquiry
HLA-B*07:466 Genomic Plasmid Vector	PHLAG8259452	Plasmid vector containing HLA-B*07:466 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:466 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:466 protein under different cellular conditions.	Inquiry
HLA-B*07:467Q Genomic Plasmid Vector	PHLAG8259453	Plasmid vector containing HLA-B*07:467Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:467Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:467Q protein under different cellular conditions.	Inquiry
HLA-B*07:468N Genomic Plasmid Vector	PHLAG8259454	Plasmid vector containing HLA-B*07:468N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:468N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:468N protein under different cellular conditions.	Inquiry
HLA-B*07:469N Genomic Plasmid Vector	PHLAG8259455	Plasmid vector containing HLA-B*07:469N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:469N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:469N protein under different cellular conditions.	Inquiry
HLA-B*07:47 Genomic Plasmid Vector	PHLAG8259456	Plasmid vector containing HLA-B*07:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:47 protein under different cellular conditions.	Inquiry
HLA-B*07:470 Genomic Plasmid Vector	PHLAG8259457	Plasmid vector containing HLA-B*07:470 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:470 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:470 protein under different cellular conditions.	Inquiry
HLA-B*07:471 Genomic Plasmid Vector	PHLAG8259458	Plasmid vector containing HLA-B*07:471 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:471 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:471 protein under different cellular conditions.	Inquiry

HLA-B*07:472N Genomic Plasmid Vector	PHLAG8259459	Plasmid vector containing HLA-B*07:472N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:472N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:472N protein under different cellular conditions.	Inquiry
HLA-B*07:473 Genomic Plasmid Vector	PHLAG8259460	Plasmid vector containing HLA-B*07:473 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:473 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:473 protein under different cellular conditions.	Inquiry
HLA-B*07:474 Genomic Plasmid Vector	PHLAG8259461	Plasmid vector containing HLA-B*07:474 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:474 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:474 protein under different cellular conditions.	Inquiry
HLA-B*07:475 Genomic Plasmid Vector	PHLAG8259462	Plasmid vector containing HLA-B*07:475 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:475 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:475 protein under different cellular conditions.	Inquiry
HLA-B*07:476 Genomic Plasmid Vector	PHLAG8259463	Plasmid vector containing HLA-B*07:476 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:476 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:476 protein under different cellular conditions.	Inquiry
HLA-B*07:477 Genomic Plasmid Vector	PHLAG8259464	Plasmid vector containing HLA-B*07:477 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:477 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:477 protein under different cellular conditions.	Inquiry
HLA-B*07:478 Genomic Plasmid Vector	PHLAG8259465	Plasmid vector containing HLA-B*07:478 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:478 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:478 protein under different cellular conditions.	Inquiry
HLA-B*07:479N Genomic Plasmid Vector	PHLAG8259466	Plasmid vector containing HLA-B*07:479N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:479N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:479N protein under different cellular conditions.	Inquiry
HLA-B*07:48:01 Genomic Plasmid Vector	PHLAG8259467	Plasmid vector containing HLA-B*07:48:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:48:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:48:01 protein under different cellular conditions.	Inquiry

HLA-B*07:48:02 Genomic Plasmid Vector	PHLAG8259468	Plasmid vector containing HLA-B*07:48:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:48:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:48:02 protein under different cellular conditions.	Inquiry
HLA-B*07:480 Genomic Plasmid Vector	PHLAG8259469	Plasmid vector containing HLA-B*07:480 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:480 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:480 protein under different cellular conditions.	Inquiry
HLA-B*07:481N Genomic Plasmid Vector	PHLAG8259470	Plasmid vector containing HLA-B*07:481N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:481N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:481N protein under different cellular conditions.	Inquiry
HLA-B*07:482 Genomic Plasmid Vector	PHLAG8259471	Plasmid vector containing HLA-B*07:482 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:482 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:482 protein under different cellular conditions.	Inquiry
HLA-B*07:483 Genomic Plasmid Vector	PHLAG8259472	Plasmid vector containing HLA-B*07:483 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:483 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:483 protein under different cellular conditions.	Inquiry
HLA-B*07:484 Genomic Plasmid Vector	PHLAG8259473	Plasmid vector containing HLA-B*07:484 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:484 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:484 protein under different cellular conditions.	Inquiry
HLA-B*07:485 Genomic Plasmid Vector	PHLAG8259474	Plasmid vector containing HLA-B*07:485 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:485 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:485 protein under different cellular conditions.	Inquiry
HLA-B*07:486 Genomic Plasmid Vector	PHLAG8259475	Plasmid vector containing HLA-B*07:486 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:486 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:486 protein under different cellular conditions.	Inquiry
HLA-B*07:487 Genomic Plasmid Vector	PHLAG8259476	Plasmid vector containing HLA-B*07:487 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:487 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:487 protein under different cellular conditions.	Inquiry

HLA-B*07:488 Genomic Plasmid Vector	PHLAG8259477	Plasmid vector containing HLA-B*07:488 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:488 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:488 protein under different cellular conditions.	Inquiry
HLA-B*07:489 Genomic Plasmid Vector	PHLAG8259478	Plasmid vector containing HLA-B*07:489 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:489 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:489 protein under different cellular conditions.	Inquiry
HLA-B*07:490 Genomic Plasmid Vector	PHLAG8259479	Plasmid vector containing HLA-B*07:490 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:490 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:490 protein under different cellular conditions.	Inquiry
HLA-B*07:491 Genomic Plasmid Vector	PHLAG8259480	Plasmid vector containing HLA-B*07:491 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:491 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:491 protein under different cellular conditions.	Inquiry
HLA-B*07:492 Genomic Plasmid Vector	PHLAG8259481	Plasmid vector containing HLA-B*07:492 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:492 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:492 protein under different cellular conditions.	Inquiry
HLA-B*07:493 Genomic Plasmid Vector	PHLAG8259482	Plasmid vector containing HLA-B*07:493 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:493 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:493 protein under different cellular conditions.	Inquiry
HLA-B*07:494 Genomic Plasmid Vector	PHLAG8259483	Plasmid vector containing HLA-B*07:494 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:494 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:494 protein under different cellular conditions.	Inquiry
HLA-B*07:495 Genomic Plasmid Vector	PHLAG8259484	Plasmid vector containing HLA-B*07:495 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:495 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:495 protein under different cellular conditions.	Inquiry
HLA-B*07:496 Genomic Plasmid Vector	PHLAG8259485	Plasmid vector containing HLA-B*07:496 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:496 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:496 protein under different cellular conditions.	Inquiry

HLA-B*07:497 Genomic Plasmid Vector	PHLAG8259486	Plasmid vector containing HLA-B*07:497 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:497 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:497 protein under different cellular conditions.	Inquiry
HLA-B*07:498 Genomic Plasmid Vector	PHLAG8259487	Plasmid vector containing HLA-B*07:498 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:498 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:498 protein under different cellular conditions.	Inquiry
HLA-B*07:499 Genomic Plasmid Vector	PHLAG8259488	Plasmid vector containing HLA-B*07:499 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:499 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:499 protein under different cellular conditions.	Inquiry
HLA-B*07:49N Genomic Plasmid Vector	PHLAG8259489	Plasmid vector containing HLA-B*07:49N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:49N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:49N protein under different cellular conditions.	Inquiry
HLA-B*07:50 Genomic Plasmid Vector	PHLAG8259490	Plasmid vector containing HLA-B*07:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:50 protein under different cellular conditions.	Inquiry
HLA-B*07:500 Genomic Plasmid Vector	PHLAG8259491	Plasmid vector containing HLA-B*07:500 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:500 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:500 protein under different cellular conditions.	Inquiry
HLA-B*07:501 Genomic Plasmid Vector	PHLAG8259492	Plasmid vector containing HLA-B*07:501 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:501 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:501 protein under different cellular conditions.	Inquiry
HLA-B*07:502 Genomic Plasmid Vector	PHLAG8259493	Plasmid vector containing HLA-B*07:502 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:502 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:502 protein under different cellular conditions.	Inquiry
HLA-B*07:503 Genomic Plasmid Vector	PHLAG8259494	Plasmid vector containing HLA-B*07:503 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:503 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:503 protein under different cellular conditions.	Inquiry

HLA-B*07:504 Genomic Plasmid Vector	PHLAG8259495	Plasmid vector containing HLA-B*07:504 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:504 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:504 protein under different cellular conditions.	Inquiry
HLA-B*07:505 Genomic Plasmid Vector	PHLAG8259496	Plasmid vector containing HLA-B*07:505 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:505 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:505 protein under different cellular conditions.	Inquiry
HLA-B*07:506 Genomic Plasmid Vector	PHLAG8259497	Plasmid vector containing HLA-B*07:506 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:506 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:506 protein under different cellular conditions.	Inquiry
HLA-B*07:507 Genomic Plasmid Vector	PHLAG8259498	Plasmid vector containing HLA-B*07:507 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:507 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:507 protein under different cellular conditions.	Inquiry
HLA-B*07:508 Genomic Plasmid Vector	PHLAG8259499	Plasmid vector containing HLA-B*07:508 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:508 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:508 protein under different cellular conditions.	Inquiry
HLA-B*07:509N Genomic Plasmid Vector	PHLAG8259500	Plasmid vector containing HLA-B*07:509N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:509N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:509N protein under different cellular conditions.	Inquiry
HLA-B*07:51 Genomic Plasmid Vector	PHLAG8259501	Plasmid vector containing HLA-B*07:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:51 protein under different cellular conditions.	Inquiry
HLA-B*07:510 Genomic Plasmid Vector	PHLAG8259502	Plasmid vector containing HLA-B*07:510 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:510 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:510 protein under different cellular conditions.	Inquiry
HLA-B*07:511 Genomic Plasmid Vector	PHLAG8259503	Plasmid vector containing HLA-B*07:511 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:511 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:511 protein under different cellular conditions.	Inquiry

HLA-B*07:512 Genomic Plasmid Vector	PHLAG8259504	Plasmid vector containing HLA-B*07:512 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:512 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:512 protein under different cellular conditions.	Inquiry
HLA-B*07:513 Genomic Plasmid Vector	PHLAG8259505	Plasmid vector containing HLA-B*07:513 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:513 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:513 protein under different cellular conditions.	Inquiry
HLA-B*07:514 Genomic Plasmid Vector	PHLAG8259506	Plasmid vector containing HLA-B*07:514 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:514 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:514 protein under different cellular conditions.	Inquiry
HLA-B*07:515 Genomic Plasmid Vector	PHLAG8259507	Plasmid vector containing HLA-B*07:515 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:515 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:515 protein under different cellular conditions.	Inquiry
HLA-B*07:516:01:01 Genomic Plasmid Vector	PHLAG8259508	Plasmid vector containing HLA-B*07:516:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:516:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:516:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:516:01:02 Genomic Plasmid Vector	PHLAG8259509	Plasmid vector containing HLA-B*07:516:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:516:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:516:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:517 Genomic Plasmid Vector	PHLAG8259510	Plasmid vector containing HLA-B*07:517 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:517 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:517 protein under different cellular conditions.	Inquiry
HLA-B*07:518 Genomic Plasmid Vector	PHLAG8259511	Plasmid vector containing HLA-B*07:518 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:518 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:518 protein under different cellular conditions.	Inquiry
HLA-B*07:519 Genomic Plasmid Vector	PHLAG8259512	Plasmid vector containing HLA-B*07:519 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:519 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:519 protein under different cellular conditions.	Inquiry

HLA-B*07:52 Genomic Plasmid Vector	PHLAG8259513	Plasmid vector containing HLA-B*07:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:52 protein under different cellular conditions.	Inquiry
HLA-B*07:520N Genomic Plasmid Vector	PHLAG8259514	Plasmid vector containing HLA-B*07:520N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:520N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:520N protein under different cellular conditions.	Inquiry
HLA-B*07:521 Genomic Plasmid Vector	PHLAG8259515	Plasmid vector containing HLA-B*07:521 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:521 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:521 protein under different cellular conditions.	Inquiry
HLA-B*07:522 Genomic Plasmid Vector	PHLAG8259516	Plasmid vector containing HLA-B*07:522 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:522 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:522 protein under different cellular conditions.	Inquiry
HLA-B*07:523 Genomic Plasmid Vector	PHLAG8259517	Plasmid vector containing HLA-B*07:523 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:523 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:523 protein under different cellular conditions.	Inquiry
HLA-B*07:524 Genomic Plasmid Vector	PHLAG8259518	Plasmid vector containing HLA-B*07:524 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:524 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:524 protein under different cellular conditions.	Inquiry
HLA-B*07:525 Genomic Plasmid Vector	PHLAG8259519	Plasmid vector containing HLA-B*07:525 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:525 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:525 protein under different cellular conditions.	Inquiry
HLA-B*07:526N Genomic Plasmid Vector	PHLAG8259520	Plasmid vector containing HLA-B*07:526N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:526N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:526N protein under different cellular conditions.	Inquiry
HLA-B*07:527 Genomic Plasmid Vector	PHLAG8259521	Plasmid vector containing HLA-B*07:527 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:527 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:527 protein under different cellular conditions.	Inquiry

HLA-B*07:528 Genomic Plasmid Vector	PHLAG8259522	Plasmid vector containing HLA-B*07:528 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:528 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:528 protein under different cellular conditions.	Inquiry
HLA-B*07:529 Genomic Plasmid Vector	PHLAG8259523	Plasmid vector containing HLA-B*07:529 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:529 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:529 protein under different cellular conditions.	Inquiry
HLA-B*07:53 Genomic Plasmid Vector	PHLAG8259524	Plasmid vector containing HLA-B*07:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:53 protein under different cellular conditions.	Inquiry
HLA-B*07:530 Genomic Plasmid Vector	PHLAG8259525	Plasmid vector containing HLA-B*07:530 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:530 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:530 protein under different cellular conditions.	Inquiry
HLA-B*07:531 Genomic Plasmid Vector	PHLAG8259526	Plasmid vector containing HLA-B*07:531 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:531 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:531 protein under different cellular conditions.	Inquiry
HLA-B*07:532 Genomic Plasmid Vector	PHLAG8259527	Plasmid vector containing HLA-B*07:532 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:532 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:532 protein under different cellular conditions.	Inquiry
HLA-B*07:533 Genomic Plasmid Vector	PHLAG8259528	Plasmid vector containing HLA-B*07:533 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:533 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:533 protein under different cellular conditions.	Inquiry
HLA-B*07:534 Genomic Plasmid Vector	PHLAG8259529	Plasmid vector containing HLA-B*07:534 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:534 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:534 protein under different cellular conditions.	Inquiry
HLA-B*07:535 Genomic Plasmid Vector	PHLAG8259530	Plasmid vector containing HLA-B*07:535 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:535 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:535 protein under different cellular conditions.	Inquiry

HLA-B*07:536 Genomic Plasmid Vector	PHLAG8259531	Plasmid vector containing HLA-B*07:536 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:536 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:536 protein under different cellular conditions.	Inquiry
HLA-B*07:537 Genomic Plasmid Vector	PHLAG8259532	Plasmid vector containing HLA-B*07:537 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:537 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:537 protein under different cellular conditions.	Inquiry
HLA-B*07:54 Genomic Plasmid Vector	PHLAG8259533	Plasmid vector containing HLA-B*07:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:54 protein under different cellular conditions.	Inquiry
HLA-B*07:55 Genomic Plasmid Vector	PHLAG8259534	Plasmid vector containing HLA-B*07:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:55 protein under different cellular conditions.	Inquiry
HLA-B*07:56:01 Genomic Plasmid Vector	PHLAG8259535	Plasmid vector containing HLA-B*07:56:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:56:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:56:01 protein under different cellular conditions.	Inquiry
HLA-B*07:56:02 Genomic Plasmid Vector	PHLAG8259536	Plasmid vector containing HLA-B*07:56:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:56:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:56:02 protein under different cellular conditions.	Inquiry
HLA-B*07:56:03 Genomic Plasmid Vector	PHLAG8259537	Plasmid vector containing HLA-B*07:56:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:56:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:56:03 protein under different cellular conditions.	Inquiry
HLA-B*07:57 Genomic Plasmid Vector	PHLAG8259538	Plasmid vector containing HLA-B*07:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:57 protein under different cellular conditions.	Inquiry
HLA-B*07:58 Genomic Plasmid Vector	PHLAG8259539	Plasmid vector containing HLA-B*07:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:58 protein under different cellular conditions.	Inquiry

HLA-B*07:59 Genomic Plasmid Vector	PHLAG8259540	Plasmid vector containing HLA-B*07:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:59 protein under different cellular conditions.	Inquiry
HLA-B*07:60 Genomic Plasmid Vector	PHLAG8259541	Plasmid vector containing HLA-B*07:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:60 protein under different cellular conditions.	Inquiry
HLA-B*07:61 Genomic Plasmid Vector	PHLAG8259542	Plasmid vector containing HLA-B*07:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:61 protein under different cellular conditions.	Inquiry
HLA-B*07:62:01 Genomic Plasmid Vector	PHLAG8259543	Plasmid vector containing HLA-B*07:62:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:62:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:62:01 protein under different cellular conditions.	Inquiry
HLA-B*07:62:02 Genomic Plasmid Vector	PHLAG8259544	Plasmid vector containing HLA-B*07:62:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:62:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:62:02 protein under different cellular conditions.	Inquiry
HLA-B*07:63 Genomic Plasmid Vector	PHLAG8259545	Plasmid vector containing HLA-B*07:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:63 protein under different cellular conditions.	Inquiry
HLA-B*07:64 Genomic Plasmid Vector	PHLAG8259546	Plasmid vector containing HLA-B*07:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:64 protein under different cellular conditions.	Inquiry
HLA-B*07:65 Genomic Plasmid Vector	PHLAG8259547	Plasmid vector containing HLA-B*07:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:65 protein under different cellular conditions.	Inquiry
HLA-B*07:66 Genomic Plasmid Vector	PHLAG8259548	Plasmid vector containing HLA-B*07:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:66 protein under different cellular conditions.	Inquiry

HLA-B*07:67N Genomic Plasmid Vector	PHLAG8259549	Plasmid vector containing HLA-B*07:67N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:67N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:67N protein under different cellular conditions.	Inquiry
HLA-B*07:68:01 Genomic Plasmid Vector	PHLAG8259550	Plasmid vector containing HLA-B*07:68:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:68:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:68:01 protein under different cellular conditions.	Inquiry
HLA-B*07:68:02 Genomic Plasmid Vector	PHLAG8259551	Plasmid vector containing HLA-B*07:68:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:68:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:68:02 protein under different cellular conditions.	Inquiry
HLA-B*07:68:03 Genomic Plasmid Vector	PHLAG8259552	Plasmid vector containing HLA-B*07:68:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:68:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:68:03 protein under different cellular conditions.	Inquiry
HLA-B*07:69 Genomic Plasmid Vector	PHLAG8259553	Plasmid vector containing HLA-B*07:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:69 protein under different cellular conditions.	Inquiry
HLA-B*07:70 Genomic Plasmid Vector	PHLAG8259554	Plasmid vector containing HLA-B*07:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:70 protein under different cellular conditions.	Inquiry
HLA-B*07:71 Genomic Plasmid Vector	PHLAG8259555	Plasmid vector containing HLA-B*07:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:71 protein under different cellular conditions.	Inquiry
HLA-B*07:72 Genomic Plasmid Vector	PHLAG8259556	Plasmid vector containing HLA-B*07:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:72 protein under different cellular conditions.	Inquiry
HLA-B*07:73 Genomic Plasmid Vector	PHLAG8259557	Plasmid vector containing HLA-B*07:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:73 protein under different cellular conditions.	Inquiry

HLA-B*07:74 Genomic Plasmid Vector	PHLAG8259558	Plasmid vector containing HLA-B*07:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:74 protein under different cellular conditions.	Inquiry
HLA-B*07:75:01:01 Genomic Plasmid Vector	PHLAG8259559	Plasmid vector containing HLA-B*07:75:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:75:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:75:01:01 protein under different cellular conditions.	Inquiry
HLA-B*07:75:01:02 Genomic Plasmid Vector	PHLAG8259560	Plasmid vector containing HLA-B*07:75:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:75:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:75:01:02 protein under different cellular conditions.	Inquiry
HLA-B*07:76 Genomic Plasmid Vector	PHLAG8259561	Plasmid vector containing HLA-B*07:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:76 protein under different cellular conditions.	Inquiry
HLA-B*07:77 Genomic Plasmid Vector	PHLAG8259562	Plasmid vector containing HLA-B*07:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:77 protein under different cellular conditions.	Inquiry
HLA-B*07:78 Genomic Plasmid Vector	PHLAG8259563	Plasmid vector containing HLA-B*07:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:78 protein under different cellular conditions.	Inquiry
HLA-B*07:79 Genomic Plasmid Vector	PHLAG8259564	Plasmid vector containing HLA-B*07:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:79 protein under different cellular conditions.	Inquiry
HLA-B*07:80 Genomic Plasmid Vector	PHLAG8259565	Plasmid vector containing HLA-B*07:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:80 protein under different cellular conditions.	Inquiry
HLA-B*07:81 Genomic Plasmid Vector	PHLAG8259566	Plasmid vector containing HLA-B*07:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:81 protein under different cellular conditions.	Inquiry

HLA-B*07:82 Genomic Plasmid Vector	PHLAG8259567	Plasmid vector containing HLA-B*07:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:82 protein under different cellular conditions.	Inquiry
HLA-B*07:83 Genomic Plasmid Vector	PHLAG8259568	Plasmid vector containing HLA-B*07:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:83 protein under different cellular conditions.	Inquiry
HLA-B*07:84 Genomic Plasmid Vector	PHLAG8259569	Plasmid vector containing HLA-B*07:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:84 protein under different cellular conditions.	Inquiry
HLA-B*07:85:01 Genomic Plasmid Vector	PHLAG8259570	Plasmid vector containing HLA-B*07:85:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:85:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:85:01 protein under different cellular conditions.	Inquiry
HLA-B*07:85:02 Genomic Plasmid Vector	PHLAG8259571	Plasmid vector containing HLA-B*07:85:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:85:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:85:02 protein under different cellular conditions.	Inquiry
HLA-B*07:86 Genomic Plasmid Vector	PHLAG8259572	Plasmid vector containing HLA-B*07:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:86 protein under different cellular conditions.	Inquiry
HLA-B*07:87 Genomic Plasmid Vector	PHLAG8259573	Plasmid vector containing HLA-B*07:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:87 protein under different cellular conditions.	Inquiry
HLA-B*07:88 Genomic Plasmid Vector	PHLAG8259574	Plasmid vector containing HLA-B*07:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:88 protein under different cellular conditions.	Inquiry
HLA-B*07:89 Genomic Plasmid Vector	PHLAG8259575	Plasmid vector containing HLA-B*07:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:89 protein under different cellular conditions.	Inquiry

HLA-B*07:90 Genomic Plasmid Vector	PHLAG8259576	Plasmid vector containing HLA-B*07:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:90 protein under different cellular conditions.	Inquiry
HLA-B*07:91 Genomic Plasmid Vector	PHLAG8259577	Plasmid vector containing HLA-B*07:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:91 protein under different cellular conditions.	Inquiry
HLA-B*07:92 Genomic Plasmid Vector	PHLAG8259578	Plasmid vector containing HLA-B*07:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:92 protein under different cellular conditions.	Inquiry
HLA-B*07:93:01 Genomic Plasmid Vector	PHLAG8259579	Plasmid vector containing HLA-B*07:93:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:93:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:93:01 protein under different cellular conditions.	Inquiry
HLA-B*07:93:02 Genomic Plasmid Vector	PHLAG8259580	Plasmid vector containing HLA-B*07:93:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:93:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:93:02 protein under different cellular conditions.	Inquiry
HLA-B*07:94 Genomic Plasmid Vector	PHLAG8259581	Plasmid vector containing HLA-B*07:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:94 protein under different cellular conditions.	Inquiry
HLA-B*07:95 Genomic Plasmid Vector	PHLAG8259582	Plasmid vector containing HLA-B*07:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:95 protein under different cellular conditions.	Inquiry
HLA-B*07:96:01 Genomic Plasmid Vector	PHLAG8259583	Plasmid vector containing HLA-B*07:96:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:96:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:96:01 protein under different cellular conditions.	Inquiry
HLA-B*07:96:02 Genomic Plasmid Vector	PHLAG8259584	Plasmid vector containing HLA-B*07:96:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:96:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:96:02 protein under different cellular conditions.	Inquiry

HLA-B*07:97 Genomic Plasmid Vector	PHLAG8259585	Plasmid vector containing HLA-B*07:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:97 protein under different cellular conditions.	Inquiry
HLA-B*07:98 Genomic Plasmid Vector	PHLAG8259586	Plasmid vector containing HLA-B*07:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:98 protein under different cellular conditions.	Inquiry
HLA-B*07:99 Genomic Plasmid Vector	PHLAG8259587	Plasmid vector containing HLA-B*07:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*07:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*07:99 protein under different cellular conditions.	Inquiry
HLA-B*0701 Genomic Plasmid Vector	PHLAG8259588	Plasmid vector containing HLA-B*0701 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*0701 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*0701 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:01 Genomic Plasmid Vector	PHLAG8259589	Plasmid vector containing HLA-B*08:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:01 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:02 Genomic Plasmid Vector	PHLAG8259590	Plasmid vector containing HLA-B*08:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:02 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:03 Genomic Plasmid Vector	PHLAG8259591	Plasmid vector containing HLA-B*08:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:03 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:04 Genomic Plasmid Vector	PHLAG8259592	Plasmid vector containing HLA-B*08:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:04 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:05 Genomic Plasmid Vector	PHLAG8259593	Plasmid vector containing HLA-B*08:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:05 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:06 Genomic Plasmid Vector	PHLAG8259594	Plasmid vector containing HLA-B*08:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:06 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:07 Genomic Plasmid Vector	PHLAG8259595	Plasmid vector containing HLA-B*08:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:07 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:08 Genomic Plasmid Vector	PHLAG8259596	Plasmid vector containing HLA-B*08:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:08 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:09 Genomic Plasmid Vector	PHLAG8259597	Plasmid vector containing HLA-B*08:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:09 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:10 Genomic Plasmid Vector	PHLAG8259598	Plasmid vector containing HLA-B*08:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:10 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:11 Genomic Plasmid Vector	PHLAG8259599	Plasmid vector containing HLA-B*08:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:11 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:12 Genomic Plasmid Vector	PHLAG8259600	Plasmid vector containing HLA-B*08:01:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:12 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:13 Genomic Plasmid Vector	PHLAG8259601	Plasmid vector containing HLA-B*08:01:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:13 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:14 Genomic Plasmid Vector	PHLAG8259602	Plasmid vector containing HLA-B*08:01:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:14 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:15 Genomic Plasmid Vector	PHLAG8259603	Plasmid vector containing HLA-B*08:01:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:15 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:16 Genomic Plasmid Vector	PHLAG8259604	Plasmid vector containing HLA-B*08:01:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:16 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:17 Genomic Plasmid Vector	PHLAG8259605	Plasmid vector containing HLA-B*08:01:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:17 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:18 Genomic Plasmid Vector	PHLAG8259606	Plasmid vector containing HLA-B*08:01:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:18 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:19 Genomic Plasmid Vector	PHLAG8259607	Plasmid vector containing HLA-B*08:01:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:19 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:20 Genomic Plasmid Vector	PHLAG8259608	Plasmid vector containing HLA-B*08:01:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:20 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:21 Genomic Plasmid Vector	PHLAG8259609	Plasmid vector containing HLA-B*08:01:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:21 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:22 Genomic Plasmid Vector	PHLAG8259610	Plasmid vector containing HLA-B*08:01:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:22 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:23 Genomic Plasmid Vector	PHLAG8259611	Plasmid vector containing HLA-B*08:01:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:23 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:24 Genomic Plasmid Vector	PHLAG8259612	Plasmid vector containing HLA-B*08:01:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:24 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:25 Genomic Plasmid Vector	PHLAG8259613	Plasmid vector containing HLA-B*08:01:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:25 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:26 Genomic Plasmid Vector	PHLAG8259614	Plasmid vector containing HLA-B*08:01:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:26 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:27 Genomic Plasmid Vector	PHLAG8259615	Plasmid vector containing HLA-B*08:01:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:27 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:28 Genomic Plasmid Vector	PHLAG8259616	Plasmid vector containing HLA-B*08:01:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:28 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:29 Genomic Plasmid Vector	PHLAG8259617	Plasmid vector containing HLA-B*08:01:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:29 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:30 Genomic Plasmid Vector	PHLAG8259618	Plasmid vector containing HLA-B*08:01:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:30 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:31 Genomic Plasmid Vector	PHLAG8259619	Plasmid vector containing HLA-B*08:01:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:31 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:32 Genomic Plasmid Vector	PHLAG8259620	Plasmid vector containing HLA-B*08:01:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:32 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:33 Genomic Plasmid Vector	PHLAG8259621	Plasmid vector containing HLA-B*08:01:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:33 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:34 Genomic Plasmid Vector	PHLAG8259622	Plasmid vector containing HLA-B*08:01:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:34 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:35 Genomic Plasmid Vector	PHLAG8259623	Plasmid vector containing HLA-B*08:01:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:35 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:36 Genomic Plasmid Vector	PHLAG8259624	Plasmid vector containing HLA-B*08:01:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:36 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:37 Genomic Plasmid Vector	PHLAG8259625	Plasmid vector containing HLA-B*08:01:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:37 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:38 Genomic Plasmid Vector	PHLAG8259626	Plasmid vector containing HLA-B*08:01:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:38 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:39 Genomic Plasmid Vector	PHLAG8259627	Plasmid vector containing HLA-B*08:01:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:39 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:40 Genomic Plasmid Vector	PHLAG8259628	Plasmid vector containing HLA-B*08:01:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:40 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:41 Genomic Plasmid Vector	PHLAG8259629	Plasmid vector containing HLA-B*08:01:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:41 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:42 Genomic Plasmid Vector	PHLAG8259630	Plasmid vector containing HLA-B*08:01:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:42 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:43 Genomic Plasmid Vector	PHLAG8259631	Plasmid vector containing HLA-B*08:01:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:43 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:44 Genomic Plasmid Vector	PHLAG8259632	Plasmid vector containing HLA-B*08:01:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:44 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:45 Genomic Plasmid Vector	PHLAG8259633	Plasmid vector containing HLA-B*08:01:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:45 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:46 Genomic Plasmid Vector	PHLAG8259634	Plasmid vector containing HLA-B*08:01:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:46 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:47 Genomic Plasmid Vector	PHLAG8259635	Plasmid vector containing HLA-B*08:01:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:47 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:48 Genomic Plasmid Vector	PHLAG8259636	Plasmid vector containing HLA-B*08:01:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:48 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:49 Genomic Plasmid Vector	PHLAG8259637	Plasmid vector containing HLA-B*08:01:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:49 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:50 Genomic Plasmid Vector	PHLAG8259638	Plasmid vector containing HLA-B*08:01:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:50 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:51 Genomic Plasmid Vector	PHLAG8259639	Plasmid vector containing HLA-B*08:01:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:51 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:52 Genomic Plasmid Vector	PHLAG8259640	Plasmid vector containing HLA-B*08:01:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:52 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:53 Genomic Plasmid Vector	PHLAG8259641	Plasmid vector containing HLA-B*08:01:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:53 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:54 Genomic Plasmid Vector	PHLAG8259642	Plasmid vector containing HLA-B*08:01:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:54 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:55 Genomic Plasmid Vector	PHLAG8259643	Plasmid vector containing HLA-B*08:01:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:55 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:56 Genomic Plasmid Vector	PHLAG8259644	Plasmid vector containing HLA-B*08:01:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:56 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:57 Genomic Plasmid Vector	PHLAG8259645	Plasmid vector containing HLA-B*08:01:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:57 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:58 Genomic Plasmid Vector	PHLAG8259646	Plasmid vector containing HLA-B*08:01:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:58 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:59 Genomic Plasmid Vector	PHLAG8259647	Plasmid vector containing HLA-B*08:01:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:59 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:60 Genomic Plasmid Vector	PHLAG8259648	Plasmid vector containing HLA-B*08:01:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:60 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:61 Genomic Plasmid Vector	PHLAG8259649	Plasmid vector containing HLA-B*08:01:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:61 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:62 Genomic Plasmid Vector	PHLAG8259650	Plasmid vector containing HLA-B*08:01:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:62 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:63 Genomic Plasmid Vector	PHLAG8259651	Plasmid vector containing HLA-B*08:01:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:63 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:64 Genomic Plasmid Vector	PHLAG8259652	Plasmid vector containing HLA-B*08:01:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:64 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:65 Genomic Plasmid Vector	PHLAG8259653	Plasmid vector containing HLA-B*08:01:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:65 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:66 Genomic Plasmid Vector	PHLAG8259654	Plasmid vector containing HLA-B*08:01:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:66 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:67 Genomic Plasmid Vector	PHLAG8259655	Plasmid vector containing HLA-B*08:01:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:67 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:68 Genomic Plasmid Vector	PHLAG8259656	Plasmid vector containing HLA-B*08:01:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:68 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:69 Genomic Plasmid Vector	PHLAG8259657	Plasmid vector containing HLA-B*08:01:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:69 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:70 Genomic Plasmid Vector	PHLAG8259658	Plasmid vector containing HLA-B*08:01:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:70 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:71 Genomic Plasmid Vector	PHLAG8259659	Plasmid vector containing HLA-B*08:01:01:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:71 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:72 Genomic Plasmid Vector	PHLAG8259660	Plasmid vector containing HLA-B*08:01:01:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:72 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:73 Genomic Plasmid Vector	PHLAG8259661	Plasmid vector containing HLA-B*08:01:01:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:73 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:74 Genomic Plasmid Vector	PHLAG8259662	Plasmid vector containing HLA-B*08:01:01:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:74 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:75 Genomic Plasmid Vector	PHLAG8259663	Plasmid vector containing HLA-B*08:01:01:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:75 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:76 Genomic Plasmid Vector	PHLAG8259664	Plasmid vector containing HLA-B*08:01:01:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:76 protein under different cellular conditions.	Inquiry
HLA-B*08:01:01:77 Genomic Plasmid Vector	PHLAG8259665	Plasmid vector containing HLA-B*08:01:01:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:77 protein under different cellular conditions.	Inquiry

HLA-B*08:01:01:78 Genomic Plasmid Vector	PHLAG8259666	Plasmid vector containing HLA-B*08:01:01:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:01:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:01:78 protein under different cellular conditions.	Inquiry
HLA-B*08:01:02 Genomic Plasmid Vector	PHLAG8259667	Plasmid vector containing HLA-B*08:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:02 protein under different cellular conditions.	Inquiry
HLA-B*08:01:03 Genomic Plasmid Vector	PHLAG8259668	Plasmid vector containing HLA-B*08:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:03 protein under different cellular conditions.	Inquiry
HLA-B*08:01:04 Genomic Plasmid Vector	PHLAG8259669	Plasmid vector containing HLA-B*08:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:04 protein under different cellular conditions.	Inquiry
HLA-B*08:01:05 Genomic Plasmid Vector	PHLAG8259670	Plasmid vector containing HLA-B*08:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:05 protein under different cellular conditions.	Inquiry
HLA-B*08:01:06 Genomic Plasmid Vector	PHLAG8259671	Plasmid vector containing HLA-B*08:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:06 protein under different cellular conditions.	Inquiry
HLA-B*08:01:07 Genomic Plasmid Vector	PHLAG8259672	Plasmid vector containing HLA-B*08:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:07 protein under different cellular conditions.	Inquiry
HLA-B*08:01:08 Genomic Plasmid Vector	PHLAG8259673	Plasmid vector containing HLA-B*08:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:08 protein under different cellular conditions.	Inquiry
HLA-B*08:01:09 Genomic Plasmid Vector	PHLAG8259674	Plasmid vector containing HLA-B*08:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:09 protein under different cellular conditions.	Inquiry

HLA-B*08:01:10 Genomic Plasmid Vector	PHLAG8259675	Plasmid vector containing HLA-B*08:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:10 protein under different cellular conditions.	Inquiry
HLA-B*08:01:11 Genomic Plasmid Vector	PHLAG8259676	Plasmid vector containing HLA-B*08:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:11 protein under different cellular conditions.	Inquiry
HLA-B*08:01:12 Genomic Plasmid Vector	PHLAG8259677	Plasmid vector containing HLA-B*08:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:12 protein under different cellular conditions.	Inquiry
HLA-B*08:01:13 Genomic Plasmid Vector	PHLAG8259678	Plasmid vector containing HLA-B*08:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:13 protein under different cellular conditions.	Inquiry
HLA-B*08:01:14 Genomic Plasmid Vector	PHLAG8259679	Plasmid vector containing HLA-B*08:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:14 protein under different cellular conditions.	Inquiry
HLA-B*08:01:15 Genomic Plasmid Vector	PHLAG8259680	Plasmid vector containing HLA-B*08:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:15 protein under different cellular conditions.	Inquiry
HLA-B*08:01:16 Genomic Plasmid Vector	PHLAG8259681	Plasmid vector containing HLA-B*08:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:16 protein under different cellular conditions.	Inquiry
HLA-B*08:01:17 Genomic Plasmid Vector	PHLAG8259682	Plasmid vector containing HLA-B*08:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:17 protein under different cellular conditions.	Inquiry
HLA-B*08:01:18 Genomic Plasmid Vector	PHLAG8259683	Plasmid vector containing HLA-B*08:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:18 protein under different cellular conditions.	Inquiry

HLA-B*08:01:19 Genomic Plasmid Vector	PHLAG8259684	Plasmid vector containing HLA-B*08:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:19 protein under different cellular conditions.	Inquiry
HLA-B*08:01:20 Genomic Plasmid Vector	PHLAG8259685	Plasmid vector containing HLA-B*08:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:20 protein under different cellular conditions.	Inquiry
HLA-B*08:01:21 Genomic Plasmid Vector	PHLAG8259686	Plasmid vector containing HLA-B*08:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:21 protein under different cellular conditions.	Inquiry
HLA-B*08:01:22 Genomic Plasmid Vector	PHLAG8259687	Plasmid vector containing HLA-B*08:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:22 protein under different cellular conditions.	Inquiry
HLA-B*08:01:23 Genomic Plasmid Vector	PHLAG8259688	Plasmid vector containing HLA-B*08:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:23 protein under different cellular conditions.	Inquiry
HLA-B*08:01:24 Genomic Plasmid Vector	PHLAG8259689	Plasmid vector containing HLA-B*08:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:24 protein under different cellular conditions.	Inquiry
HLA-B*08:01:25 Genomic Plasmid Vector	PHLAG8259690	Plasmid vector containing HLA-B*08:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:25 protein under different cellular conditions.	Inquiry
HLA-B*08:01:26 Genomic Plasmid Vector	PHLAG8259691	Plasmid vector containing HLA-B*08:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:26 protein under different cellular conditions.	Inquiry
HLA-B*08:01:27 Genomic Plasmid Vector	PHLAG8259692	Plasmid vector containing HLA-B*08:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:27 protein under different cellular conditions.	Inquiry

HLA-B*08:01:28 Genomic Plasmid Vector	PHLAG8259693	Plasmid vector containing HLA-B*08:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:28 protein under different cellular conditions.	Inquiry
HLA-B*08:01:29 Genomic Plasmid Vector	PHLAG8259694	Plasmid vector containing HLA-B*08:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:29 protein under different cellular conditions.	Inquiry
HLA-B*08:01:30 Genomic Plasmid Vector	PHLAG8259695	Plasmid vector containing HLA-B*08:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:30 protein under different cellular conditions.	Inquiry
HLA-B*08:01:31 Genomic Plasmid Vector	PHLAG8259696	Plasmid vector containing HLA-B*08:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:31 protein under different cellular conditions.	Inquiry
HLA-B*08:01:32 Genomic Plasmid Vector	PHLAG8259697	Plasmid vector containing HLA-B*08:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:32 protein under different cellular conditions.	Inquiry
HLA-B*08:01:33 Genomic Plasmid Vector	PHLAG8259698	Plasmid vector containing HLA-B*08:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:33 protein under different cellular conditions.	Inquiry
HLA-B*08:01:34 Genomic Plasmid Vector	PHLAG8259699	Plasmid vector containing HLA-B*08:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:34 protein under different cellular conditions.	Inquiry
HLA-B*08:01:35 Genomic Plasmid Vector	PHLAG8259700	Plasmid vector containing HLA-B*08:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:35 protein under different cellular conditions.	Inquiry
HLA-B*08:01:36 Genomic Plasmid Vector	PHLAG8259701	Plasmid vector containing HLA-B*08:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:36 protein under different cellular conditions.	Inquiry

HLA-B*08:01:37 Genomic Plasmid Vector	PHLAG8259702	Plasmid vector containing HLA-B*08:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:37 protein under different cellular conditions.	Inquiry
HLA-B*08:01:38 Genomic Plasmid Vector	PHLAG8259703	Plasmid vector containing HLA-B*08:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:38 protein under different cellular conditions.	Inquiry
HLA-B*08:01:39 Genomic Plasmid Vector	PHLAG8259704	Plasmid vector containing HLA-B*08:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:39 protein under different cellular conditions.	Inquiry
HLA-B*08:01:40 Genomic Plasmid Vector	PHLAG8259705	Plasmid vector containing HLA-B*08:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:40 protein under different cellular conditions.	Inquiry
HLA-B*08:01:41 Genomic Plasmid Vector	PHLAG8259706	Plasmid vector containing HLA-B*08:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:41 protein under different cellular conditions.	Inquiry
HLA-B*08:01:42 Genomic Plasmid Vector	PHLAG8259707	Plasmid vector containing HLA-B*08:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:42 protein under different cellular conditions.	Inquiry
HLA-B*08:01:43 Genomic Plasmid Vector	PHLAG8259708	Plasmid vector containing HLA-B*08:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:43 protein under different cellular conditions.	Inquiry
HLA-B*08:01:44 Genomic Plasmid Vector	PHLAG8259709	Plasmid vector containing HLA-B*08:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:44 protein under different cellular conditions.	Inquiry
HLA-B*08:01:45 Genomic Plasmid Vector	PHLAG8259710	Plasmid vector containing HLA-B*08:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:45 protein under different cellular conditions.	Inquiry

HLA-B*08:01:46 Genomic Plasmid Vector	PHLAG8259711	Plasmid vector containing HLA-B*08:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:46 protein under different cellular conditions.	Inquiry
HLA-B*08:01:47 Genomic Plasmid Vector	PHLAG8259712	Plasmid vector containing HLA-B*08:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:47 protein under different cellular conditions.	Inquiry
HLA-B*08:01:48 Genomic Plasmid Vector	PHLAG8259713	Plasmid vector containing HLA-B*08:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:48 protein under different cellular conditions.	Inquiry
HLA-B*08:01:49 Genomic Plasmid Vector	PHLAG8259714	Plasmid vector containing HLA-B*08:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:49 protein under different cellular conditions.	Inquiry
HLA-B*08:01:50 Genomic Plasmid Vector	PHLAG8259715	Plasmid vector containing HLA-B*08:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:50 protein under different cellular conditions.	Inquiry
HLA-B*08:01:51 Genomic Plasmid Vector	PHLAG8259716	Plasmid vector containing HLA-B*08:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:51 protein under different cellular conditions.	Inquiry
HLA-B*08:01:52 Genomic Plasmid Vector	PHLAG8259717	Plasmid vector containing HLA-B*08:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:52 protein under different cellular conditions.	Inquiry
HLA-B*08:01:53 Genomic Plasmid Vector	PHLAG8259718	Plasmid vector containing HLA-B*08:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:53 protein under different cellular conditions.	Inquiry
HLA-B*08:01:54 Genomic Plasmid Vector	PHLAG8259719	Plasmid vector containing HLA-B*08:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:54 protein under different cellular conditions.	Inquiry

HLA-B*08:01:55 Genomic Plasmid Vector	PHLAG8259720	Plasmid vector containing HLA-B*08:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:55 protein under different cellular conditions.	Inquiry
HLA-B*08:01:56 Genomic Plasmid Vector	PHLAG8259721	Plasmid vector containing HLA-B*08:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:56 protein under different cellular conditions.	Inquiry
HLA-B*08:01:57 Genomic Plasmid Vector	PHLAG8259722	Plasmid vector containing HLA-B*08:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:57 protein under different cellular conditions.	Inquiry
HLA-B*08:01:58 Genomic Plasmid Vector	PHLAG8259723	Plasmid vector containing HLA-B*08:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:58 protein under different cellular conditions.	Inquiry
HLA-B*08:01:59 Genomic Plasmid Vector	PHLAG8259724	Plasmid vector containing HLA-B*08:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:59 protein under different cellular conditions.	Inquiry
HLA-B*08:01:60 Genomic Plasmid Vector	PHLAG8259725	Plasmid vector containing HLA-B*08:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:60 protein under different cellular conditions.	Inquiry
HLA-B*08:01:61 Genomic Plasmid Vector	PHLAG8259726	Plasmid vector containing HLA-B*08:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:61 protein under different cellular conditions.	Inquiry
HLA-B*08:01:62 Genomic Plasmid Vector	PHLAG8259727	Plasmid vector containing HLA-B*08:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:62 protein under different cellular conditions.	Inquiry
HLA-B*08:01:63 Genomic Plasmid Vector	PHLAG8259728	Plasmid vector containing HLA-B*08:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:63 protein under different cellular conditions.	Inquiry

HLA-B*08:01:64 Genomic Plasmid Vector	PHLAG8259729	Plasmid vector containing HLA-B*08:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:64 protein under different cellular conditions.	Inquiry
HLA-B*08:01:65 Genomic Plasmid Vector	PHLAG8259730	Plasmid vector containing HLA-B*08:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:65 protein under different cellular conditions.	Inquiry
HLA-B*08:01:66 Genomic Plasmid Vector	PHLAG8259731	Plasmid vector containing HLA-B*08:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:66 protein under different cellular conditions.	Inquiry
HLA-B*08:01:67 Genomic Plasmid Vector	PHLAG8259732	Plasmid vector containing HLA-B*08:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:67 protein under different cellular conditions.	Inquiry
HLA-B*08:01:68 Genomic Plasmid Vector	PHLAG8259733	Plasmid vector containing HLA-B*08:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:68 protein under different cellular conditions.	Inquiry
HLA-B*08:01:69 Genomic Plasmid Vector	PHLAG8259734	Plasmid vector containing HLA-B*08:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:69 protein under different cellular conditions.	Inquiry
HLA-B*08:01:70 Genomic Plasmid Vector	PHLAG8259735	Plasmid vector containing HLA-B*08:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:70 protein under different cellular conditions.	Inquiry
HLA-B*08:01:71 Genomic Plasmid Vector	PHLAG8259736	Plasmid vector containing HLA-B*08:01:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:71 protein under different cellular conditions.	Inquiry
HLA-B*08:01:72 Genomic Plasmid Vector	PHLAG8259737	Plasmid vector containing HLA-B*08:01:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:72 protein under different cellular conditions.	Inquiry

HLA-B*08:01:73 Genomic Plasmid Vector	PHLAG8259738	Plasmid vector containing HLA-B*08:01:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:73 protein under different cellular conditions.	Inquiry
HLA-B*08:01:74 Genomic Plasmid Vector	PHLAG8259739	Plasmid vector containing HLA-B*08:01:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:74 protein under different cellular conditions.	Inquiry
HLA-B*08:01:75 Genomic Plasmid Vector	PHLAG8259740	Plasmid vector containing HLA-B*08:01:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:75 protein under different cellular conditions.	Inquiry
HLA-B*08:01:76 Genomic Plasmid Vector	PHLAG8259741	Plasmid vector containing HLA-B*08:01:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:76 protein under different cellular conditions.	Inquiry
HLA-B*08:01:77 Genomic Plasmid Vector	PHLAG8259742	Plasmid vector containing HLA-B*08:01:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:77 protein under different cellular conditions.	Inquiry
HLA-B*08:01:78 Genomic Plasmid Vector	PHLAG8259743	Plasmid vector containing HLA-B*08:01:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:78 protein under different cellular conditions.	Inquiry
HLA-B*08:01:79 Genomic Plasmid Vector	PHLAG8259744	Plasmid vector containing HLA-B*08:01:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:79 protein under different cellular conditions.	Inquiry
HLA-B*08:01:80 Genomic Plasmid Vector	PHLAG8259745	Plasmid vector containing HLA-B*08:01:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:80 protein under different cellular conditions.	Inquiry
HLA-B*08:01:81 Genomic Plasmid Vector	PHLAG8259746	Plasmid vector containing HLA-B*08:01:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:81 protein under different cellular conditions.	Inquiry

HLA-B*08:01:82 Genomic Plasmid Vector	PHLAG8259747	Plasmid vector containing HLA-B*08:01:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:01:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:01:82 protein under different cellular conditions.	Inquiry
HLA-B*08:02 Genomic Plasmid Vector	PHLAG8259748	Plasmid vector containing HLA-B*08:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:02 protein under different cellular conditions.	Inquiry
HLA-B*08:03 Genomic Plasmid Vector	PHLAG8259749	Plasmid vector containing HLA-B*08:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:03 protein under different cellular conditions.	Inquiry
HLA-B*08:04:01 Genomic Plasmid Vector	PHLAG8259750	Plasmid vector containing HLA-B*08:04:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:04:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:04:01 protein under different cellular conditions.	Inquiry
HLA-B*08:04:02 Genomic Plasmid Vector	PHLAG8259751	Plasmid vector containing HLA-B*08:04:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:04:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:04:02 protein under different cellular conditions.	Inquiry
HLA-B*08:05 Genomic Plasmid Vector	PHLAG8259752	Plasmid vector containing HLA-B*08:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:05 protein under different cellular conditions.	Inquiry
HLA-B*08:06 Genomic Plasmid Vector	PHLAG8259753	Plasmid vector containing HLA-B*08:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:06 protein under different cellular conditions.	Inquiry
HLA-B*08:07 Genomic Plasmid Vector	PHLAG8259754	Plasmid vector containing HLA-B*08:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:07 protein under different cellular conditions.	Inquiry
HLA-B*08:08N Genomic Plasmid Vector	PHLAG8259755	Plasmid vector containing HLA-B*08:08N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:08N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:08N protein under different cellular conditions.	Inquiry

HLA-B*08:09 Genomic Plasmid Vector	PHLAG8259756	Plasmid vector containing HLA-B*08:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:09 protein under different cellular conditions.	Inquiry
HLA-B*08:10 Genomic Plasmid Vector	PHLAG8259757	Plasmid vector containing HLA-B*08:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:10 protein under different cellular conditions.	Inquiry
HLA-B*08:100 Genomic Plasmid Vector	PHLAG8259758	Plasmid vector containing HLA-B*08:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:100 protein under different cellular conditions.	Inquiry
HLA-B*08:101 Genomic Plasmid Vector	PHLAG8259759	Plasmid vector containing HLA-B*08:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:101 protein under different cellular conditions.	Inquiry
HLA-B*08:102 Genomic Plasmid Vector	PHLAG8259760	Plasmid vector containing HLA-B*08:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:102 protein under different cellular conditions.	Inquiry
HLA-B*08:103 Genomic Plasmid Vector	PHLAG8259761	Plasmid vector containing HLA-B*08:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:103 protein under different cellular conditions.	Inquiry
HLA-B*08:104 Genomic Plasmid Vector	PHLAG8259762	Plasmid vector containing HLA-B*08:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:104 protein under different cellular conditions.	Inquiry
HLA-B*08:105 Genomic Plasmid Vector	PHLAG8259763	Plasmid vector containing HLA-B*08:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:105 protein under different cellular conditions.	Inquiry
HLA-B*08:106 Genomic Plasmid Vector	PHLAG8259764	Plasmid vector containing HLA-B*08:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:106 protein under different cellular conditions.	Inquiry

HLA-B*08:107 Genomic Plasmid Vector	PHLAG8259765	Plasmid vector containing HLA-B*08:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:107 protein under different cellular conditions.	Inquiry
HLA-B*08:108 Genomic Plasmid Vector	PHLAG8259766	Plasmid vector containing HLA-B*08:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:108 protein under different cellular conditions.	Inquiry
HLA-B*08:109 Genomic Plasmid Vector	PHLAG8259767	Plasmid vector containing HLA-B*08:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:109 protein under different cellular conditions.	Inquiry
HLA-B*08:11 Genomic Plasmid Vector	PHLAG8259768	Plasmid vector containing HLA-B*08:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:11 protein under different cellular conditions.	Inquiry
HLA-B*08:110 Genomic Plasmid Vector	PHLAG8259769	Plasmid vector containing HLA-B*08:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:110 protein under different cellular conditions.	Inquiry
HLA-B*08:111:01 Genomic Plasmid Vector	PHLAG8259770	Plasmid vector containing HLA-B*08:111:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:111:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:111:01 protein under different cellular conditions.	Inquiry
HLA-B*08:111:02 Genomic Plasmid Vector	PHLAG8259771	Plasmid vector containing HLA-B*08:111:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:111:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:111:02 protein under different cellular conditions.	Inquiry
HLA-B*08:112 Genomic Plasmid Vector	PHLAG8259772	Plasmid vector containing HLA-B*08:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:112 protein under different cellular conditions.	Inquiry
HLA-B*08:113 Genomic Plasmid Vector	PHLAG8259773	Plasmid vector containing HLA-B*08:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:113 protein under different cellular conditions.	Inquiry

HLA-B*08:114 Genomic Plasmid Vector	PHLAG8259774	Plasmid vector containing HLA-B*08:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:114 protein under different cellular conditions.	Inquiry
HLA-B*08:115 Genomic Plasmid Vector	PHLAG8259775	Plasmid vector containing HLA-B*08:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:115 protein under different cellular conditions.	Inquiry
HLA-B*08:116 Genomic Plasmid Vector	PHLAG8259776	Plasmid vector containing HLA-B*08:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:116 protein under different cellular conditions.	Inquiry
HLA-B*08:117 Genomic Plasmid Vector	PHLAG8259777	Plasmid vector containing HLA-B*08:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:117 protein under different cellular conditions.	Inquiry
HLA-B*08:118 Genomic Plasmid Vector	PHLAG8259778	Plasmid vector containing HLA-B*08:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:118 protein under different cellular conditions.	Inquiry
HLA-B*08:119 Genomic Plasmid Vector	PHLAG8259779	Plasmid vector containing HLA-B*08:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:119 protein under different cellular conditions.	Inquiry
HLA-B*08:12:01 Genomic Plasmid Vector	PHLAG8259780	Plasmid vector containing HLA-B*08:12:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:12:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:12:01 protein under different cellular conditions.	Inquiry
HLA-B*08:12:02 Genomic Plasmid Vector	PHLAG8259781	Plasmid vector containing HLA-B*08:12:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:12:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:12:02 protein under different cellular conditions.	Inquiry
HLA-B*08:12:03 Genomic Plasmid Vector	PHLAG8259782	Plasmid vector containing HLA-B*08:12:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:12:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:12:03 protein under different cellular conditions.	Inquiry

HLA-B*08:120 Genomic Plasmid Vector	PHLAG8259783	Plasmid vector containing HLA-B*08:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:120 protein under different cellular conditions.	Inquiry
HLA-B*08:121 Genomic Plasmid Vector	PHLAG8259784	Plasmid vector containing HLA-B*08:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:121 protein under different cellular conditions.	Inquiry
HLA-B*08:122 Genomic Plasmid Vector	PHLAG8259785	Plasmid vector containing HLA-B*08:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:122 protein under different cellular conditions.	Inquiry
HLA-B*08:123 Genomic Plasmid Vector	PHLAG8259786	Plasmid vector containing HLA-B*08:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:123 protein under different cellular conditions.	Inquiry
HLA-B*08:124 Genomic Plasmid Vector	PHLAG8259787	Plasmid vector containing HLA-B*08:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:124 protein under different cellular conditions.	Inquiry
HLA-B*08:125 Genomic Plasmid Vector	PHLAG8259788	Plasmid vector containing HLA-B*08:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:125 protein under different cellular conditions.	Inquiry
HLA-B*08:126 Genomic Plasmid Vector	PHLAG8259789	Plasmid vector containing HLA-B*08:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:126 protein under different cellular conditions.	Inquiry
HLA-B*08:127 Genomic Plasmid Vector	PHLAG8259790	Plasmid vector containing HLA-B*08:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:127 protein under different cellular conditions.	Inquiry
HLA-B*08:128 Genomic Plasmid Vector	PHLAG8259791	Plasmid vector containing HLA-B*08:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:128 protein under different cellular conditions.	Inquiry

HLA-B*08:129 Genomic Plasmid Vector	PHLAG8259792	Plasmid vector containing HLA-B*08:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:129 protein under different cellular conditions.	Inquiry
HLA-B*08:13 Genomic Plasmid Vector	PHLAG8259793	Plasmid vector containing HLA-B*08:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:13 protein under different cellular conditions.	Inquiry
HLA-B*08:130 Genomic Plasmid Vector	PHLAG8259794	Plasmid vector containing HLA-B*08:130 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:130 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:130 protein under different cellular conditions.	Inquiry
HLA-B*08:131 Genomic Plasmid Vector	PHLAG8259795	Plasmid vector containing HLA-B*08:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:131 protein under different cellular conditions.	Inquiry
HLA-B*08:132 Genomic Plasmid Vector	PHLAG8259796	Plasmid vector containing HLA-B*08:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:132 protein under different cellular conditions.	Inquiry
HLA-B*08:133 Genomic Plasmid Vector	PHLAG8259797	Plasmid vector containing HLA-B*08:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:133 protein under different cellular conditions.	Inquiry
HLA-B*08:134 Genomic Plasmid Vector	PHLAG8259798	Plasmid vector containing HLA-B*08:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:134 protein under different cellular conditions.	Inquiry
HLA-B*08:135 Genomic Plasmid Vector	PHLAG8259799	Plasmid vector containing HLA-B*08:135 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:135 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:135 protein under different cellular conditions.	Inquiry
HLA-B*08:136 Genomic Plasmid Vector	PHLAG8259800	Plasmid vector containing HLA-B*08:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:136 protein under different cellular conditions.	Inquiry

HLA-B*08:137 Genomic Plasmid Vector	PHLAG8259801	Plasmid vector containing HLA-B*08:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:137 protein under different cellular conditions.	Inquiry
HLA-B*08:138 Genomic Plasmid Vector	PHLAG8259802	Plasmid vector containing HLA-B*08:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:138 protein under different cellular conditions.	Inquiry
HLA-B*08:139 Genomic Plasmid Vector	PHLAG8259803	Plasmid vector containing HLA-B*08:139 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:139 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:139 protein under different cellular conditions.	Inquiry
HLA-B*08:14 Genomic Plasmid Vector	PHLAG8259804	Plasmid vector containing HLA-B*08:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:14 protein under different cellular conditions.	Inquiry
HLA-B*08:140 Genomic Plasmid Vector	PHLAG8259805	Plasmid vector containing HLA-B*08:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:140 protein under different cellular conditions.	Inquiry
HLA-B*08:141 Genomic Plasmid Vector	PHLAG8259806	Plasmid vector containing HLA-B*08:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:141 protein under different cellular conditions.	Inquiry
HLA-B*08:142 Genomic Plasmid Vector	PHLAG8259807	Plasmid vector containing HLA-B*08:142 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:142 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:142 protein under different cellular conditions.	Inquiry
HLA-B*08:143 Genomic Plasmid Vector	PHLAG8259808	Plasmid vector containing HLA-B*08:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:143 protein under different cellular conditions.	Inquiry
HLA-B*08:144 Genomic Plasmid Vector	PHLAG8259809	Plasmid vector containing HLA-B*08:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:144 protein under different cellular conditions.	Inquiry

HLA-B*08:145 Genomic Plasmid Vector	PHLAG8259810	Plasmid vector containing HLA-B*08:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:145 protein under different cellular conditions.	Inquiry
HLA-B*08:146 Genomic Plasmid Vector	PHLAG8259811	Plasmid vector containing HLA-B*08:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:146 protein under different cellular conditions.	Inquiry
HLA-B*08:147 Genomic Plasmid Vector	PHLAG8259812	Plasmid vector containing HLA-B*08:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:147 protein under different cellular conditions.	Inquiry
HLA-B*08:148N Genomic Plasmid Vector	PHLAG8259813	Plasmid vector containing HLA-B*08:148N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:148N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:148N protein under different cellular conditions.	Inquiry
HLA-B*08:149 Genomic Plasmid Vector	PHLAG8259814	Plasmid vector containing HLA-B*08:149 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:149 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:149 protein under different cellular conditions.	Inquiry
HLA-B*08:15 Genomic Plasmid Vector	PHLAG8259815	Plasmid vector containing HLA-B*08:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:15 protein under different cellular conditions.	Inquiry
HLA-B*08:150 Genomic Plasmid Vector	PHLAG8259816	Plasmid vector containing HLA-B*08:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:150 protein under different cellular conditions.	Inquiry
HLA-B*08:151 Genomic Plasmid Vector	PHLAG8259817	Plasmid vector containing HLA-B*08:151 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:151 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:151 protein under different cellular conditions.	Inquiry
HLA-B*08:152 Genomic Plasmid Vector	PHLAG8259818	Plasmid vector containing HLA-B*08:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:152 protein under different cellular conditions.	Inquiry

HLA-B*08:153 Genomic Plasmid Vector	PHLAG8259819	Plasmid vector containing HLA-B*08:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:153 protein under different cellular conditions.	Inquiry
HLA-B*08:154 Genomic Plasmid Vector	PHLAG8259820	Plasmid vector containing HLA-B*08:154 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:154 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:154 protein under different cellular conditions.	Inquiry
HLA-B*08:155 Genomic Plasmid Vector	PHLAG8259821	Plasmid vector containing HLA-B*08:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:155 protein under different cellular conditions.	Inquiry
HLA-B*08:156 Genomic Plasmid Vector	PHLAG8259822	Plasmid vector containing HLA-B*08:156 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:156 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:156 protein under different cellular conditions.	Inquiry
HLA-B*08:157 Genomic Plasmid Vector	PHLAG8259823	Plasmid vector containing HLA-B*08:157 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:157 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:157 protein under different cellular conditions.	Inquiry
HLA-B*08:158 Genomic Plasmid Vector	PHLAG8259824	Plasmid vector containing HLA-B*08:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:158 protein under different cellular conditions.	Inquiry
HLA-B*08:159 Genomic Plasmid Vector	PHLAG8259825	Plasmid vector containing HLA-B*08:159 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:159 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:159 protein under different cellular conditions.	Inquiry
HLA-B*08:16 Genomic Plasmid Vector	PHLAG8259826	Plasmid vector containing HLA-B*08:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:16 protein under different cellular conditions.	Inquiry
HLA-B*08:160 Genomic Plasmid Vector	PHLAG8259827	Plasmid vector containing HLA-B*08:160 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:160 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:160 protein under different cellular conditions.	Inquiry

HLA-B*08:161 Genomic Plasmid Vector	PHLAG8259828	Plasmid vector containing HLA-B*08:161 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:161 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:161 protein under different cellular conditions.	Inquiry
HLA-B*08:162 Genomic Plasmid Vector	PHLAG8259829	Plasmid vector containing HLA-B*08:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:162 protein under different cellular conditions.	Inquiry
HLA-B*08:163 Genomic Plasmid Vector	PHLAG8259830	Plasmid vector containing HLA-B*08:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:163 protein under different cellular conditions.	Inquiry
HLA-B*08:164 Genomic Plasmid Vector	PHLAG8259831	Plasmid vector containing HLA-B*08:164 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:164 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:164 protein under different cellular conditions.	Inquiry
HLA-B*08:165 Genomic Plasmid Vector	PHLAG8259832	Plasmid vector containing HLA-B*08:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:165 protein under different cellular conditions.	Inquiry
HLA-B*08:166 Genomic Plasmid Vector	PHLAG8259833	Plasmid vector containing HLA-B*08:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:166 protein under different cellular conditions.	Inquiry
HLA-B*08:167 Genomic Plasmid Vector	PHLAG8259834	Plasmid vector containing HLA-B*08:167 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:167 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:167 protein under different cellular conditions.	Inquiry
HLA-B*08:168 Genomic Plasmid Vector	PHLAG8259835	Plasmid vector containing HLA-B*08:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:168 protein under different cellular conditions.	Inquiry
HLA-B*08:169 Genomic Plasmid Vector	PHLAG8259836	Plasmid vector containing HLA-B*08:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:169 protein under different cellular conditions.	Inquiry

HLA-B*08:17 Genomic Plasmid Vector	PHLAG8259837	Plasmid vector containing HLA-B*08:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:17 protein under different cellular conditions.	Inquiry
HLA-B*08:170 Genomic Plasmid Vector	PHLAG8259838	Plasmid vector containing HLA-B*08:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:170 protein under different cellular conditions.	Inquiry
HLA-B*08:171 Genomic Plasmid Vector	PHLAG8259839	Plasmid vector containing HLA-B*08:171 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:171 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:171 protein under different cellular conditions.	Inquiry
HLA-B*08:172 Genomic Plasmid Vector	PHLAG8259840	Plasmid vector containing HLA-B*08:172 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:172 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:172 protein under different cellular conditions.	Inquiry
HLA-B*08:173 Genomic Plasmid Vector	PHLAG8259841	Plasmid vector containing HLA-B*08:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:173 protein under different cellular conditions.	Inquiry
HLA-B*08:174 Genomic Plasmid Vector	PHLAG8259842	Plasmid vector containing HLA-B*08:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:174 protein under different cellular conditions.	Inquiry
HLA-B*08:175 Genomic Plasmid Vector	PHLAG8259843	Plasmid vector containing HLA-B*08:175 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:175 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:175 protein under different cellular conditions.	Inquiry
HLA-B*08:176 Genomic Plasmid Vector	PHLAG8259844	Plasmid vector containing HLA-B*08:176 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:176 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:176 protein under different cellular conditions.	Inquiry
HLA-B*08:177 Genomic Plasmid Vector	PHLAG8259845	Plasmid vector containing HLA-B*08:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:177 protein under different cellular conditions.	Inquiry

HLA-B*08:178 Genomic Plasmid Vector	PHLAG8259846	Plasmid vector containing HLA-B*08:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:178 protein under different cellular conditions.	Inquiry
HLA-B*08:179 Genomic Plasmid Vector	PHLAG8259847	Plasmid vector containing HLA-B*08:179 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:179 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:179 protein under different cellular conditions.	Inquiry
HLA-B*08:18 Genomic Plasmid Vector	PHLAG8259848	Plasmid vector containing HLA-B*08:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:18 protein under different cellular conditions.	Inquiry
HLA-B*08:180 Genomic Plasmid Vector	PHLAG8259849	Plasmid vector containing HLA-B*08:180 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:180 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:180 protein under different cellular conditions.	Inquiry
HLA-B*08:181 Genomic Plasmid Vector	PHLAG8259850	Plasmid vector containing HLA-B*08:181 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:181 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:181 protein under different cellular conditions.	Inquiry
HLA-B*08:182 Genomic Plasmid Vector	PHLAG8259851	Plasmid vector containing HLA-B*08:182 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:182 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:182 protein under different cellular conditions.	Inquiry
HLA-B*08:183 Genomic Plasmid Vector	PHLAG8259852	Plasmid vector containing HLA-B*08:183 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:183 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:183 protein under different cellular conditions.	Inquiry
HLA-B*08:184 Genomic Plasmid Vector	PHLAG8259853	Plasmid vector containing HLA-B*08:184 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:184 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:184 protein under different cellular conditions.	Inquiry
HLA-B*08:185 Genomic Plasmid Vector	PHLAG8259854	Plasmid vector containing HLA-B*08:185 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:185 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:185 protein under different cellular conditions.	Inquiry

HLA-B*08:186 Genomic Plasmid Vector	PHLAG8259855	Plasmid vector containing HLA-B*08:186 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:186 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:186 protein under different cellular conditions.	Inquiry
HLA-B*08:187 Genomic Plasmid Vector	PHLAG8259856	Plasmid vector containing HLA-B*08:187 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:187 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:187 protein under different cellular conditions.	Inquiry
HLA-B*08:188 Genomic Plasmid Vector	PHLAG8259857	Plasmid vector containing HLA-B*08:188 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:188 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:188 protein under different cellular conditions.	Inquiry
HLA-B*08:189:01 Genomic Plasmid Vector	PHLAG8259858	Plasmid vector containing HLA-B*08:189:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:189:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:189:01 protein under different cellular conditions.	Inquiry
HLA-B*08:189:02 Genomic Plasmid Vector	PHLAG8259859	Plasmid vector containing HLA-B*08:189:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:189:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:189:02 protein under different cellular conditions.	Inquiry
HLA-B*08:190 Genomic Plasmid Vector	PHLAG8259860	Plasmid vector containing HLA-B*08:190 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:190 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:190 protein under different cellular conditions.	Inquiry
HLA-B*08:191 Genomic Plasmid Vector	PHLAG8259861	Plasmid vector containing HLA-B*08:191 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:191 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:191 protein under different cellular conditions.	Inquiry
HLA-B*08:192 Genomic Plasmid Vector	PHLAG8259862	Plasmid vector containing HLA-B*08:192 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:192 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:192 protein under different cellular conditions.	Inquiry
HLA-B*08:193 Genomic Plasmid Vector	PHLAG8259863	Plasmid vector containing HLA-B*08:193 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:193 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:193 protein under different cellular conditions.	Inquiry

HLA-B*08:194 Genomic Plasmid Vector	PHLAG8259864	Plasmid vector containing HLA-B*08:194 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:194 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:194 protein under different cellular conditions.	Inquiry
HLA-B*08:195 Genomic Plasmid Vector	PHLAG8259865	Plasmid vector containing HLA-B*08:195 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:195 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:195 protein under different cellular conditions.	Inquiry
HLA-B*08:196 Genomic Plasmid Vector	PHLAG8259866	Plasmid vector containing HLA-B*08:196 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:196 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:196 protein under different cellular conditions.	Inquiry
HLA-B*08:197 Genomic Plasmid Vector	PHLAG8259867	Plasmid vector containing HLA-B*08:197 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:197 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:197 protein under different cellular conditions.	Inquiry
HLA-B*08:198 Genomic Plasmid Vector	PHLAG8259868	Plasmid vector containing HLA-B*08:198 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:198 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:198 protein under different cellular conditions.	Inquiry
HLA-B*08:199 Genomic Plasmid Vector	PHLAG8259869	Plasmid vector containing HLA-B*08:199 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:199 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:199 protein under different cellular conditions.	Inquiry
HLA-B*08:19N Genomic Plasmid Vector	PHLAG8259870	Plasmid vector containing HLA-B*08:19N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:19N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:19N protein under different cellular conditions.	Inquiry
HLA-B*08:20:01 Genomic Plasmid Vector	PHLAG8259871	Plasmid vector containing HLA-B*08:20:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:20:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:20:01 protein under different cellular conditions.	Inquiry
HLA-B*08:20:02 Genomic Plasmid Vector	PHLAG8259872	Plasmid vector containing HLA-B*08:20:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:20:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:20:02 protein under different cellular conditions.	Inquiry

HLA-B*08:200 Genomic Plasmid Vector	PHLAG8259873	Plasmid vector containing HLA-B*08:200 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:200 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:200 protein under different cellular conditions.	Inquiry
HLA-B*08:201 Genomic Plasmid Vector	PHLAG8259874	Plasmid vector containing HLA-B*08:201 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:201 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:201 protein under different cellular conditions.	Inquiry
HLA-B*08:202 Genomic Plasmid Vector	PHLAG8259875	Plasmid vector containing HLA-B*08:202 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:202 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:202 protein under different cellular conditions.	Inquiry
HLA-B*08:203 Genomic Plasmid Vector	PHLAG8259876	Plasmid vector containing HLA-B*08:203 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:203 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:203 protein under different cellular conditions.	Inquiry
HLA-B*08:204 Genomic Plasmid Vector	PHLAG8259877	Plasmid vector containing HLA-B*08:204 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:204 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:204 protein under different cellular conditions.	Inquiry
HLA-B*08:205 Genomic Plasmid Vector	PHLAG8259878	Plasmid vector containing HLA-B*08:205 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:205 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:205 protein under different cellular conditions.	Inquiry
HLA-B*08:206 Genomic Plasmid Vector	PHLAG8259879	Plasmid vector containing HLA-B*08:206 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:206 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:206 protein under different cellular conditions.	Inquiry
HLA-B*08:207 Genomic Plasmid Vector	PHLAG8259880	Plasmid vector containing HLA-B*08:207 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:207 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:207 protein under different cellular conditions.	Inquiry
HLA-B*08:208 Genomic Plasmid Vector	PHLAG8259881	Plasmid vector containing HLA-B*08:208 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:208 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:208 protein under different cellular conditions.	Inquiry

HLA-B*08:209 Genomic Plasmid Vector	PHLAG8259882	Plasmid vector containing HLA-B*08:209 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:209 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:209 protein under different cellular conditions.	Inquiry
HLA-B*08:21 Genomic Plasmid Vector	PHLAG8259883	Plasmid vector containing HLA-B*08:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:21 protein under different cellular conditions.	Inquiry
HLA-B*08:210 Genomic Plasmid Vector	PHLAG8259884	Plasmid vector containing HLA-B*08:210 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:210 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:210 protein under different cellular conditions.	Inquiry
HLA-B*08:211 Genomic Plasmid Vector	PHLAG8259885	Plasmid vector containing HLA-B*08:211 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:211 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:211 protein under different cellular conditions.	Inquiry
HLA-B*08:212 Genomic Plasmid Vector	PHLAG8259886	Plasmid vector containing HLA-B*08:212 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:212 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:212 protein under different cellular conditions.	Inquiry
HLA-B*08:213:01 Genomic Plasmid Vector	PHLAG8259887	Plasmid vector containing HLA-B*08:213:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:213:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:213:01 protein under different cellular conditions.	Inquiry
HLA-B*08:213:02 Genomic Plasmid Vector	PHLAG8259888	Plasmid vector containing HLA-B*08:213:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:213:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:213:02 protein under different cellular conditions.	Inquiry
HLA-B*08:214N Genomic Plasmid Vector	PHLAG8259889	Plasmid vector containing HLA-B*08:214N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:214N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:214N protein under different cellular conditions.	Inquiry
HLA-B*08:215N Genomic Plasmid Vector	PHLAG8259890	Plasmid vector containing HLA-B*08:215N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:215N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:215N protein under different cellular conditions.	Inquiry

HLA-B*08:216 Genomic Plasmid Vector	PHLAG8259891	Plasmid vector containing HLA-B*08:216 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:216 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:216 protein under different cellular conditions.	Inquiry
HLA-B*08:217 Genomic Plasmid Vector	PHLAG8259892	Plasmid vector containing HLA-B*08:217 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:217 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:217 protein under different cellular conditions.	Inquiry
HLA-B*08:218 Genomic Plasmid Vector	PHLAG8259893	Plasmid vector containing HLA-B*08:218 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:218 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:218 protein under different cellular conditions.	Inquiry
HLA-B*08:219 Genomic Plasmid Vector	PHLAG8259894	Plasmid vector containing HLA-B*08:219 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:219 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:219 protein under different cellular conditions.	Inquiry
HLA-B*08:22 Genomic Plasmid Vector	PHLAG8259895	Plasmid vector containing HLA-B*08:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:22 protein under different cellular conditions.	Inquiry
HLA-B*08:220N Genomic Plasmid Vector	PHLAG8259896	Plasmid vector containing HLA-B*08:220N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:220N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:220N protein under different cellular conditions.	Inquiry
HLA-B*08:221 Genomic Plasmid Vector	PHLAG8259897	Plasmid vector containing HLA-B*08:221 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:221 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:221 protein under different cellular conditions.	Inquiry
HLA-B*08:222 Genomic Plasmid Vector	PHLAG8259898	Plasmid vector containing HLA-B*08:222 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:222 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:222 protein under different cellular conditions.	Inquiry
HLA-B*08:223 Genomic Plasmid Vector	PHLAG8259899	Plasmid vector containing HLA-B*08:223 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:223 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:223 protein under different cellular conditions.	Inquiry

HLA-B*08:224 Genomic Plasmid Vector	PHLAG8259900	Plasmid vector containing HLA-B*08:224 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:224 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:224 protein under different cellular conditions.	Inquiry
HLA-B*08:225 Genomic Plasmid Vector	PHLAG8259901	Plasmid vector containing HLA-B*08:225 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:225 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:225 protein under different cellular conditions.	Inquiry
HLA-B*08:226 Genomic Plasmid Vector	PHLAG8259902	Plasmid vector containing HLA-B*08:226 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:226 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:226 protein under different cellular conditions.	Inquiry
HLA-B*08:227 Genomic Plasmid Vector	PHLAG8259903	Plasmid vector containing HLA-B*08:227 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:227 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:227 protein under different cellular conditions.	Inquiry
HLA-B*08:228 Genomic Plasmid Vector	PHLAG8259904	Plasmid vector containing HLA-B*08:228 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:228 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:228 protein under different cellular conditions.	Inquiry
HLA-B*08:229 Genomic Plasmid Vector	PHLAG8259905	Plasmid vector containing HLA-B*08:229 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:229 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:229 protein under different cellular conditions.	Inquiry
HLA-B*08:23 Genomic Plasmid Vector	PHLAG8259906	Plasmid vector containing HLA-B*08:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:23 protein under different cellular conditions.	Inquiry
HLA-B*08:230 Genomic Plasmid Vector	PHLAG8259907	Plasmid vector containing HLA-B*08:230 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:230 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:230 protein under different cellular conditions.	Inquiry
HLA-B*08:231 Genomic Plasmid Vector	PHLAG8259908	Plasmid vector containing HLA-B*08:231 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:231 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:231 protein under different cellular conditions.	Inquiry

HLA-B*08:232 Genomic Plasmid Vector	PHLAG8259909	Plasmid vector containing HLA-B*08:232 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:232 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:232 protein under different cellular conditions.	Inquiry
HLA-B*08:233 Genomic Plasmid Vector	PHLAG8259910	Plasmid vector containing HLA-B*08:233 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:233 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:233 protein under different cellular conditions.	Inquiry
HLA-B*08:234 Genomic Plasmid Vector	PHLAG8259911	Plasmid vector containing HLA-B*08:234 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:234 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:234 protein under different cellular conditions.	Inquiry
HLA-B*08:235 Genomic Plasmid Vector	PHLAG8259912	Plasmid vector containing HLA-B*08:235 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:235 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:235 protein under different cellular conditions.	Inquiry
HLA-B*08:236N Genomic Plasmid Vector	PHLAG8259913	Plasmid vector containing HLA-B*08:236N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:236N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:236N protein under different cellular conditions.	Inquiry
HLA-B*08:237 Genomic Plasmid Vector	PHLAG8259914	Plasmid vector containing HLA-B*08:237 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:237 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:237 protein under different cellular conditions.	Inquiry
HLA-B*08:238 Genomic Plasmid Vector	PHLAG8259915	Plasmid vector containing HLA-B*08:238 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:238 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:238 protein under different cellular conditions.	Inquiry
HLA-B*08:239 Genomic Plasmid Vector	PHLAG8259916	Plasmid vector containing HLA-B*08:239 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:239 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:239 protein under different cellular conditions.	Inquiry
HLA-B*08:24 Genomic Plasmid Vector	PHLAG8259917	Plasmid vector containing HLA-B*08:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:24 protein under different cellular conditions.	Inquiry

HLA-B*08:240 Genomic Plasmid Vector	PHLAG8259918	Plasmid vector containing HLA-B*08:240 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:240 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:240 protein under different cellular conditions.	Inquiry
HLA-B*08:242 Genomic Plasmid Vector	PHLAG8259919	Plasmid vector containing HLA-B*08:242 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:242 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:242 protein under different cellular conditions.	Inquiry
HLA-B*08:243 Genomic Plasmid Vector	PHLAG8259920	Plasmid vector containing HLA-B*08:243 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:243 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:243 protein under different cellular conditions.	Inquiry
HLA-B*08:244 Genomic Plasmid Vector	PHLAG8259921	Plasmid vector containing HLA-B*08:244 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:244 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:244 protein under different cellular conditions.	Inquiry
HLA-B*08:245 Genomic Plasmid Vector	PHLAG8259922	Plasmid vector containing HLA-B*08:245 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:245 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:245 protein under different cellular conditions.	Inquiry
HLA-B*08:246 Genomic Plasmid Vector	PHLAG8259923	Plasmid vector containing HLA-B*08:246 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:246 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:246 protein under different cellular conditions.	Inquiry
HLA-B*08:247 Genomic Plasmid Vector	PHLAG8259924	Plasmid vector containing HLA-B*08:247 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:247 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:247 protein under different cellular conditions.	Inquiry
HLA-B*08:248 Genomic Plasmid Vector	PHLAG8259925	Plasmid vector containing HLA-B*08:248 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:248 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:248 protein under different cellular conditions.	Inquiry
HLA-B*08:249 Genomic Plasmid Vector	PHLAG8259926	Plasmid vector containing HLA-B*08:249 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:249 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:249 protein under different cellular conditions.	Inquiry

HLA-B*08:25 Genomic Plasmid Vector	PHLAG8259927	Plasmid vector containing HLA-B*08:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:25 protein under different cellular conditions.	Inquiry
HLA-B*08:250 Genomic Plasmid Vector	PHLAG8259928	Plasmid vector containing HLA-B*08:250 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:250 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:250 protein under different cellular conditions.	Inquiry
HLA-B*08:251 Genomic Plasmid Vector	PHLAG8259929	Plasmid vector containing HLA-B*08:251 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:251 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:251 protein under different cellular conditions.	Inquiry
HLA-B*08:252N Genomic Plasmid Vector	PHLAG8259930	Plasmid vector containing HLA-B*08:252N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:252N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:252N protein under different cellular conditions.	Inquiry
HLA-B*08:253 Genomic Plasmid Vector	PHLAG8259931	Plasmid vector containing HLA-B*08:253 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:253 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:253 protein under different cellular conditions.	Inquiry
HLA-B*08:254 Genomic Plasmid Vector	PHLAG8259932	Plasmid vector containing HLA-B*08:254 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:254 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:254 protein under different cellular conditions.	Inquiry
HLA-B*08:255 Genomic Plasmid Vector	PHLAG8259933	Plasmid vector containing HLA-B*08:255 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:255 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:255 protein under different cellular conditions.	Inquiry
HLA-B*08:256 Genomic Plasmid Vector	PHLAG8259934	Plasmid vector containing HLA-B*08:256 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:256 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:256 protein under different cellular conditions.	Inquiry
HLA-B*08:257 Genomic Plasmid Vector	PHLAG8259935	Plasmid vector containing HLA-B*08:257 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:257 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:257 protein under different cellular conditions.	Inquiry

HLA-B*08:258 Genomic Plasmid Vector	PHLAG8259936	Plasmid vector containing HLA-B*08:258 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:258 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:258 protein under different cellular conditions.	Inquiry
HLA-B*08:259 Genomic Plasmid Vector	PHLAG8259937	Plasmid vector containing HLA-B*08:259 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:259 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:259 protein under different cellular conditions.	Inquiry
HLA-B*08:26:01 Genomic Plasmid Vector	PHLAG8259938	Plasmid vector containing HLA-B*08:26:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:26:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:26:01 protein under different cellular conditions.	Inquiry
HLA-B*08:26:02 Genomic Plasmid Vector	PHLAG8259939	Plasmid vector containing HLA-B*08:26:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:26:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:26:02 protein under different cellular conditions.	Inquiry
HLA-B*08:26:03 Genomic Plasmid Vector	PHLAG8259940	Plasmid vector containing HLA-B*08:26:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:26:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:26:03 protein under different cellular conditions.	Inquiry
HLA-B*08:260 Genomic Plasmid Vector	PHLAG8259941	Plasmid vector containing HLA-B*08:260 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:260 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:260 protein under different cellular conditions.	Inquiry
HLA-B*08:261 Genomic Plasmid Vector	PHLAG8259942	Plasmid vector containing HLA-B*08:261 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:261 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:261 protein under different cellular conditions.	Inquiry
HLA-B*08:262 Genomic Plasmid Vector	PHLAG8259943	Plasmid vector containing HLA-B*08:262 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:262 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:262 protein under different cellular conditions.	Inquiry
HLA-B*08:263 Genomic Plasmid Vector	PHLAG8259944	Plasmid vector containing HLA-B*08:263 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:263 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:263 protein under different cellular conditions.	Inquiry

HLA-B*08:264 Genomic Plasmid Vector	PHLAG8259945	Plasmid vector containing HLA-B*08:264 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:264 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:264 protein under different cellular conditions.	Inquiry
HLA-B*08:265 Genomic Plasmid Vector	PHLAG8259946	Plasmid vector containing HLA-B*08:265 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:265 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:265 protein under different cellular conditions.	Inquiry
HLA-B*08:266 Genomic Plasmid Vector	PHLAG8259947	Plasmid vector containing HLA-B*08:266 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:266 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:266 protein under different cellular conditions.	Inquiry
HLA-B*08:267 Genomic Plasmid Vector	PHLAG8259948	Plasmid vector containing HLA-B*08:267 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:267 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:267 protein under different cellular conditions.	Inquiry
HLA-B*08:268 Genomic Plasmid Vector	PHLAG8259949	Plasmid vector containing HLA-B*08:268 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:268 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:268 protein under different cellular conditions.	Inquiry
HLA-B*08:269 Genomic Plasmid Vector	PHLAG8259950	Plasmid vector containing HLA-B*08:269 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:269 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:269 protein under different cellular conditions.	Inquiry
HLA-B*08:27 Genomic Plasmid Vector	PHLAG8259951	Plasmid vector containing HLA-B*08:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:27 protein under different cellular conditions.	Inquiry
HLA-B*08:270Q Genomic Plasmid Vector	PHLAG8259952	Plasmid vector containing HLA-B*08:270Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:270Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:270Q protein under different cellular conditions.	Inquiry
HLA-B*08:271 Genomic Plasmid Vector	PHLAG8259953	Plasmid vector containing HLA-B*08:271 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:271 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:271 protein under different cellular conditions.	Inquiry

HLA-B*08:272 Genomic Plasmid Vector	PHLAG8259954	Plasmid vector containing HLA-B*08:272 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:272 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:272 protein under different cellular conditions.	Inquiry
HLA-B*08:273 Genomic Plasmid Vector	PHLAG8259955	Plasmid vector containing HLA-B*08:273 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:273 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:273 protein under different cellular conditions.	Inquiry
HLA-B*08:274 Genomic Plasmid Vector	PHLAG8259956	Plasmid vector containing HLA-B*08:274 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:274 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:274 protein under different cellular conditions.	Inquiry
HLA-B*08:275 Genomic Plasmid Vector	PHLAG8259957	Plasmid vector containing HLA-B*08:275 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:275 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:275 protein under different cellular conditions.	Inquiry
HLA-B*08:276 Genomic Plasmid Vector	PHLAG8259958	Plasmid vector containing HLA-B*08:276 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:276 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:276 protein under different cellular conditions.	Inquiry
HLA-B*08:277 Genomic Plasmid Vector	PHLAG8259959	Plasmid vector containing HLA-B*08:277 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:277 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:277 protein under different cellular conditions.	Inquiry
HLA-B*08:278 Genomic Plasmid Vector	PHLAG8259960	Plasmid vector containing HLA-B*08:278 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:278 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:278 protein under different cellular conditions.	Inquiry
HLA-B*08:279N Genomic Plasmid Vector	PHLAG8259961	Plasmid vector containing HLA-B*08:279N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:279N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:279N protein under different cellular conditions.	Inquiry
HLA-B*08:28 Genomic Plasmid Vector	PHLAG8259962	Plasmid vector containing HLA-B*08:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:28 protein under different cellular conditions.	Inquiry

HLA-B*08:280 Genomic Plasmid Vector	PHLAG8259963	Plasmid vector containing HLA-B*08:280 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:280 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:280 protein under different cellular conditions.	Inquiry
HLA-B*08:281:01 Genomic Plasmid Vector	PHLAG8259964	Plasmid vector containing HLA-B*08:281:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:281:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:281:01 protein under different cellular conditions.	Inquiry
HLA-B*08:281:02 Genomic Plasmid Vector	PHLAG8259965	Plasmid vector containing HLA-B*08:281:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:281:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:281:02 protein under different cellular conditions.	Inquiry
HLA-B*08:282 Genomic Plasmid Vector	PHLAG8259966	Plasmid vector containing HLA-B*08:282 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:282 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:282 protein under different cellular conditions.	Inquiry
HLA-B*08:283 Genomic Plasmid Vector	PHLAG8259967	Plasmid vector containing HLA-B*08:283 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:283 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:283 protein under different cellular conditions.	Inquiry
HLA-B*08:284Q Genomic Plasmid Vector	PHLAG8259968	Plasmid vector containing HLA-B*08:284Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:284Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:284Q protein under different cellular conditions.	Inquiry
HLA-B*08:285 Genomic Plasmid Vector	PHLAG8259969	Plasmid vector containing HLA-B*08:285 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:285 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:285 protein under different cellular conditions.	Inquiry
HLA-B*08:286 Genomic Plasmid Vector	PHLAG8259970	Plasmid vector containing HLA-B*08:286 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:286 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:286 protein under different cellular conditions.	Inquiry
HLA-B*08:287N Genomic Plasmid Vector	PHLAG8259971	Plasmid vector containing HLA-B*08:287N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:287N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:287N protein under different cellular conditions.	Inquiry

HLA-B*08:288 Genomic Plasmid Vector	PHLAG8259972	Plasmid vector containing HLA-B*08:288 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:288 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:288 protein under different cellular conditions.	Inquiry
HLA-B*08:289 Genomic Plasmid Vector	PHLAG8259973	Plasmid vector containing HLA-B*08:289 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:289 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:289 protein under different cellular conditions.	Inquiry
HLA-B*08:29 Genomic Plasmid Vector	PHLAG8259974	Plasmid vector containing HLA-B*08:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:29 protein under different cellular conditions.	Inquiry
HLA-B*08:290 Genomic Plasmid Vector	PHLAG8259975	Plasmid vector containing HLA-B*08:290 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:290 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:290 protein under different cellular conditions.	Inquiry
HLA-B*08:291 Genomic Plasmid Vector	PHLAG8259976	Plasmid vector containing HLA-B*08:291 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:291 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:291 protein under different cellular conditions.	Inquiry
HLA-B*08:292 Genomic Plasmid Vector	PHLAG8259977	Plasmid vector containing HLA-B*08:292 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:292 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:292 protein under different cellular conditions.	Inquiry
HLA-B*08:293N Genomic Plasmid Vector	PHLAG8259978	Plasmid vector containing HLA-B*08:293N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:293N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:293N protein under different cellular conditions.	Inquiry
HLA-B*08:294 Genomic Plasmid Vector	PHLAG8259979	Plasmid vector containing HLA-B*08:294 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:294 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:294 protein under different cellular conditions.	Inquiry
HLA-B*08:295 Genomic Plasmid Vector	PHLAG8259980	Plasmid vector containing HLA-B*08:295 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:295 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:295 protein under different cellular conditions.	Inquiry

HLA-B*08:296 Genomic Plasmid Vector	PHLAG8259981	Plasmid vector containing HLA-B*08:296 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:296 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:296 protein under different cellular conditions.	Inquiry
HLA-B*08:297 Genomic Plasmid Vector	PHLAG8259982	Plasmid vector containing HLA-B*08:297 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:297 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:297 protein under different cellular conditions.	Inquiry
HLA-B*08:298 Genomic Plasmid Vector	PHLAG8259983	Plasmid vector containing HLA-B*08:298 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:298 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:298 protein under different cellular conditions.	Inquiry
HLA-B*08:299 Genomic Plasmid Vector	PHLAG8259984	Plasmid vector containing HLA-B*08:299 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:299 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:299 protein under different cellular conditions.	Inquiry
HLA-B*08:300Q Genomic Plasmid Vector	PHLAG8259985	Plasmid vector containing HLA-B*08:300Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:300Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:300Q protein under different cellular conditions.	Inquiry
HLA-B*08:301 Genomic Plasmid Vector	PHLAG8259986	Plasmid vector containing HLA-B*08:301 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:301 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:301 protein under different cellular conditions.	Inquiry
HLA-B*08:302 Genomic Plasmid Vector	PHLAG8259987	Plasmid vector containing HLA-B*08:302 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:302 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:302 protein under different cellular conditions.	Inquiry
HLA-B*08:303 Genomic Plasmid Vector	PHLAG8259988	Plasmid vector containing HLA-B*08:303 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:303 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:303 protein under different cellular conditions.	Inquiry
HLA-B*08:304 Genomic Plasmid Vector	PHLAG8259989	Plasmid vector containing HLA-B*08:304 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:304 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:304 protein under different cellular conditions.	Inquiry

HLA-B*08:305 Genomic Plasmid Vector	PHLAG8259990	Plasmid vector containing HLA-B*08:305 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:305 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:305 protein under different cellular conditions.	Inquiry
HLA-B*08:306 Genomic Plasmid Vector	PHLAG8259991	Plasmid vector containing HLA-B*08:306 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:306 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:306 protein under different cellular conditions.	Inquiry
HLA-B*08:307 Genomic Plasmid Vector	PHLAG8259992	Plasmid vector containing HLA-B*08:307 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:307 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:307 protein under different cellular conditions.	Inquiry
HLA-B*08:308 Genomic Plasmid Vector	PHLAG8259993	Plasmid vector containing HLA-B*08:308 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:308 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:308 protein under different cellular conditions.	Inquiry
HLA-B*08:309 Genomic Plasmid Vector	PHLAG8259994	Plasmid vector containing HLA-B*08:309 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:309 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:309 protein under different cellular conditions.	Inquiry
HLA-B*08:30N Genomic Plasmid Vector	PHLAG8259995	Plasmid vector containing HLA-B*08:30N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:30N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:30N protein under different cellular conditions.	Inquiry
HLA-B*08:31 Genomic Plasmid Vector	PHLAG8259996	Plasmid vector containing HLA-B*08:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:31 protein under different cellular conditions.	Inquiry
HLA-B*08:310 Genomic Plasmid Vector	PHLAG8259997	Plasmid vector containing HLA-B*08:310 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:310 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:310 protein under different cellular conditions.	Inquiry
HLA-B*08:311 Genomic Plasmid Vector	PHLAG8259998	Plasmid vector containing HLA-B*08:311 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:311 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:311 protein under different cellular conditions.	Inquiry

HLA-B*08:312 Genomic Plasmid Vector	PHLAG8259999	Plasmid vector containing HLA-B*08:312 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:312 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:312 protein under different cellular conditions.	Inquiry
HLA-B*08:313 Genomic Plasmid Vector	PHLAG82510000	Plasmid vector containing HLA-B*08:313 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:313 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:313 protein under different cellular conditions.	Inquiry
HLA-B*08:314 Genomic Plasmid Vector	PHLAG82510001	Plasmid vector containing HLA-B*08:314 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:314 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:314 protein under different cellular conditions.	Inquiry
HLA-B*08:315 Genomic Plasmid Vector	PHLAG82510002	Plasmid vector containing HLA-B*08:315 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:315 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:315 protein under different cellular conditions.	Inquiry
HLA-B*08:316 Genomic Plasmid Vector	PHLAG82510003	Plasmid vector containing HLA-B*08:316 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:316 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:316 protein under different cellular conditions.	Inquiry
HLA-B*08:317 Genomic Plasmid Vector	PHLAG82510004	Plasmid vector containing HLA-B*08:317 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:317 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:317 protein under different cellular conditions.	Inquiry
HLA-B*08:318 Genomic Plasmid Vector	PHLAG82510005	Plasmid vector containing HLA-B*08:318 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:318 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:318 protein under different cellular conditions.	Inquiry
HLA-B*08:319 Genomic Plasmid Vector	PHLAG82510006	Plasmid vector containing HLA-B*08:319 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:319 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:319 protein under different cellular conditions.	Inquiry
HLA-B*08:32 Genomic Plasmid Vector	PHLAG82510007	Plasmid vector containing HLA-B*08:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:32 protein under different cellular conditions.	Inquiry

HLA-B*08:320 Genomic Plasmid Vector	PHLAG82510008	Plasmid vector containing HLA-B*08:320 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:320 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:320 protein under different cellular conditions.	Inquiry
HLA-B*08:321 Genomic Plasmid Vector	PHLAG82510009	Plasmid vector containing HLA-B*08:321 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:321 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:321 protein under different cellular conditions.	Inquiry
HLA-B*08:322 Genomic Plasmid Vector	PHLAG82510010	Plasmid vector containing HLA-B*08:322 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:322 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:322 protein under different cellular conditions.	Inquiry
HLA-B*08:323Q Genomic Plasmid Vector	PHLAG82510011	Plasmid vector containing HLA-B*08:323Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:323Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:323Q protein under different cellular conditions.	Inquiry
HLA-B*08:324 Genomic Plasmid Vector	PHLAG82510012	Plasmid vector containing HLA-B*08:324 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:324 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:324 protein under different cellular conditions.	Inquiry
HLA-B*08:325 Genomic Plasmid Vector	PHLAG82510013	Plasmid vector containing HLA-B*08:325 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:325 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:325 protein under different cellular conditions.	Inquiry
HLA-B*08:326 Genomic Plasmid Vector	PHLAG82510014	Plasmid vector containing HLA-B*08:326 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:326 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:326 protein under different cellular conditions.	Inquiry
HLA-B*08:327 Genomic Plasmid Vector	PHLAG82510015	Plasmid vector containing HLA-B*08:327 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:327 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:327 protein under different cellular conditions.	Inquiry
HLA-B*08:328N Genomic Plasmid Vector	PHLAG82510016	Plasmid vector containing HLA-B*08:328N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:328N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:328N protein under different cellular conditions.	Inquiry

HLA-B*08:329Q Genomic Plasmid Vector	PHLAG82510017	Plasmid vector containing HLA-B*08:329Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:329Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:329Q protein under different cellular conditions.	Inquiry
HLA-B*08:33 Genomic Plasmid Vector	PHLAG82510018	Plasmid vector containing HLA-B*08:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:33 protein under different cellular conditions.	Inquiry
HLA-B*08:330 Genomic Plasmid Vector	PHLAG82510019	Plasmid vector containing HLA-B*08:330 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:330 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:330 protein under different cellular conditions.	Inquiry
HLA-B*08:331 Genomic Plasmid Vector	PHLAG82510020	Plasmid vector containing HLA-B*08:331 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:331 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:331 protein under different cellular conditions.	Inquiry
HLA-B*08:332 Genomic Plasmid Vector	PHLAG82510021	Plasmid vector containing HLA-B*08:332 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:332 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:332 protein under different cellular conditions.	Inquiry
HLA-B*08:333N Genomic Plasmid Vector	PHLAG82510022	Plasmid vector containing HLA-B*08:333N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:333N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:333N protein under different cellular conditions.	Inquiry
HLA-B*08:334 Genomic Plasmid Vector	PHLAG82510023	Plasmid vector containing HLA-B*08:334 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:334 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:334 protein under different cellular conditions.	Inquiry
HLA-B*08:335 Genomic Plasmid Vector	PHLAG82510024	Plasmid vector containing HLA-B*08:335 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:335 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:335 protein under different cellular conditions.	Inquiry
HLA-B*08:336N Genomic Plasmid Vector	PHLAG82510025	Plasmid vector containing HLA-B*08:336N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:336N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:336N protein under different cellular conditions.	Inquiry

HLA-B*08:34 Genomic Plasmid Vector	PHLAG82510026	Plasmid vector containing HLA-B*08:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:34 protein under different cellular conditions.	Inquiry
HLA-B*08:35 Genomic Plasmid Vector	PHLAG82510027	Plasmid vector containing HLA-B*08:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:35 protein under different cellular conditions.	Inquiry
HLA-B*08:36 Genomic Plasmid Vector	PHLAG82510028	Plasmid vector containing HLA-B*08:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:36 protein under different cellular conditions.	Inquiry
HLA-B*08:37 Genomic Plasmid Vector	PHLAG82510029	Plasmid vector containing HLA-B*08:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:37 protein under different cellular conditions.	Inquiry
HLA-B*08:38:01 Genomic Plasmid Vector	PHLAG82510030	Plasmid vector containing HLA-B*08:38:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:38:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:38:01 protein under different cellular conditions.	Inquiry
HLA-B*08:38:02 Genomic Plasmid Vector	PHLAG82510031	Plasmid vector containing HLA-B*08:38:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:38:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:38:02 protein under different cellular conditions.	Inquiry
HLA-B*08:39 Genomic Plasmid Vector	PHLAG82510032	Plasmid vector containing HLA-B*08:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:39 protein under different cellular conditions.	Inquiry
HLA-B*08:40 Genomic Plasmid Vector	PHLAG82510033	Plasmid vector containing HLA-B*08:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:40 protein under different cellular conditions.	Inquiry
HLA-B*08:41 Genomic Plasmid Vector	PHLAG82510034	Plasmid vector containing HLA-B*08:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:41 protein under different cellular conditions.	Inquiry

HLA-B*08:42 Genomic Plasmid Vector	PHLAG82510035	Plasmid vector containing HLA-B*08:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:42 protein under different cellular conditions.	Inquiry
HLA-B*08:43 Genomic Plasmid Vector	PHLAG82510036	Plasmid vector containing HLA-B*08:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:43 protein under different cellular conditions.	Inquiry
HLA-B*08:44 Genomic Plasmid Vector	PHLAG82510037	Plasmid vector containing HLA-B*08:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:44 protein under different cellular conditions.	Inquiry
HLA-B*08:45 Genomic Plasmid Vector	PHLAG82510038	Plasmid vector containing HLA-B*08:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:45 protein under different cellular conditions.	Inquiry
HLA-B*08:46 Genomic Plasmid Vector	PHLAG82510039	Plasmid vector containing HLA-B*08:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:46 protein under different cellular conditions.	Inquiry
HLA-B*08:47 Genomic Plasmid Vector	PHLAG82510040	Plasmid vector containing HLA-B*08:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:47 protein under different cellular conditions.	Inquiry
HLA-B*08:48 Genomic Plasmid Vector	PHLAG82510041	Plasmid vector containing HLA-B*08:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:48 protein under different cellular conditions.	Inquiry
HLA-B*08:49 Genomic Plasmid Vector	PHLAG82510042	Plasmid vector containing HLA-B*08:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:49 protein under different cellular conditions.	Inquiry
HLA-B*08:50 Genomic Plasmid Vector	PHLAG82510043	Plasmid vector containing HLA-B*08:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:50 protein under different cellular conditions.	Inquiry

HLA-B*08:51 Genomic Plasmid Vector	PHLAG82510044	Plasmid vector containing HLA-B*08:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:51 protein under different cellular conditions.	Inquiry
HLA-B*08:52 Genomic Plasmid Vector	PHLAG82510045	Plasmid vector containing HLA-B*08:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:52 protein under different cellular conditions.	Inquiry
HLA-B*08:53:01 Genomic Plasmid Vector	PHLAG82510046	Plasmid vector containing HLA-B*08:53:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:53:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:53:01 protein under different cellular conditions.	Inquiry
HLA-B*08:53:02 Genomic Plasmid Vector	PHLAG82510047	Plasmid vector containing HLA-B*08:53:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:53:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:53:02 protein under different cellular conditions.	Inquiry
HLA-B*08:54:01 Genomic Plasmid Vector	PHLAG82510048	Plasmid vector containing HLA-B*08:54:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:54:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:54:01 protein under different cellular conditions.	Inquiry
HLA-B*08:54:02 Genomic Plasmid Vector	PHLAG82510049	Plasmid vector containing HLA-B*08:54:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:54:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:54:02 protein under different cellular conditions.	Inquiry
HLA-B*08:55 Genomic Plasmid Vector	PHLAG82510050	Plasmid vector containing HLA-B*08:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:55 protein under different cellular conditions.	Inquiry
HLA-B*08:56:01 Genomic Plasmid Vector	PHLAG82510051	Plasmid vector containing HLA-B*08:56:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:56:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:56:01 protein under different cellular conditions.	Inquiry
HLA-B*08:56:02 Genomic Plasmid Vector	PHLAG82510052	Plasmid vector containing HLA-B*08:56:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:56:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:56:02 protein under different cellular conditions.	Inquiry

HLA-B*08:56:03 Genomic Plasmid Vector	PHLAG82510053	Plasmid vector containing HLA-B*08:56:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:56:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:56:03 protein under different cellular conditions.	Inquiry
HLA-B*08:57 Genomic Plasmid Vector	PHLAG82510054	Plasmid vector containing HLA-B*08:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:57 protein under different cellular conditions.	Inquiry
HLA-B*08:58 Genomic Plasmid Vector	PHLAG82510055	Plasmid vector containing HLA-B*08:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:58 protein under different cellular conditions.	Inquiry
HLA-B*08:59:01 Genomic Plasmid Vector	PHLAG82510056	Plasmid vector containing HLA-B*08:59:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:59:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:59:01 protein under different cellular conditions.	Inquiry
HLA-B*08:59:02 Genomic Plasmid Vector	PHLAG82510057	Plasmid vector containing HLA-B*08:59:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:59:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:59:02 protein under different cellular conditions.	Inquiry
HLA-B*08:60 Genomic Plasmid Vector	PHLAG82510058	Plasmid vector containing HLA-B*08:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:60 protein under different cellular conditions.	Inquiry
HLA-B*08:61 Genomic Plasmid Vector	PHLAG82510059	Plasmid vector containing HLA-B*08:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:61 protein under different cellular conditions.	Inquiry
HLA-B*08:62 Genomic Plasmid Vector	PHLAG82510060	Plasmid vector containing HLA-B*08:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:62 protein under different cellular conditions.	Inquiry
HLA-B*08:63 Genomic Plasmid Vector	PHLAG82510061	Plasmid vector containing HLA-B*08:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:63 protein under different cellular conditions.	Inquiry

HLA-B*08:64 Genomic Plasmid Vector	PHLAG82510062	Plasmid vector containing HLA-B*08:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:64 protein under different cellular conditions.	Inquiry
HLA-B*08:65 Genomic Plasmid Vector	PHLAG82510063	Plasmid vector containing HLA-B*08:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:65 protein under different cellular conditions.	Inquiry
HLA-B*08:66 Genomic Plasmid Vector	PHLAG82510064	Plasmid vector containing HLA-B*08:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:66 protein under different cellular conditions.	Inquiry
HLA-B*08:67:01N Genomic Plasmid Vector	PHLAG82510065	Plasmid vector containing HLA-B*08:67:01N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:67:01N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:67:01N protein under different cellular conditions.	Inquiry
HLA-B*08:67:02N Genomic Plasmid Vector	PHLAG82510066	Plasmid vector containing HLA-B*08:67:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:67:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:67:02N protein under different cellular conditions.	Inquiry
HLA-B*08:68 Genomic Plasmid Vector	PHLAG82510067	Plasmid vector containing HLA-B*08:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:68 protein under different cellular conditions.	Inquiry
HLA-B*08:69 Genomic Plasmid Vector	PHLAG82510068	Plasmid vector containing HLA-B*08:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:69 protein under different cellular conditions.	Inquiry
HLA-B*08:70 Genomic Plasmid Vector	PHLAG82510069	Plasmid vector containing HLA-B*08:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:70 protein under different cellular conditions.	Inquiry
HLA-B*08:71 Genomic Plasmid Vector	PHLAG82510070	Plasmid vector containing HLA-B*08:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:71 protein under different cellular conditions.	Inquiry

HLA-B*08:72N Genomic Plasmid Vector	PHLAG82510071	Plasmid vector containing HLA-B*08:72N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:72N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:72N protein under different cellular conditions.	Inquiry
HLA-B*08:73 Genomic Plasmid Vector	PHLAG82510072	Plasmid vector containing HLA-B*08:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:73 protein under different cellular conditions.	Inquiry
HLA-B*08:74 Genomic Plasmid Vector	PHLAG82510073	Plasmid vector containing HLA-B*08:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:74 protein under different cellular conditions.	Inquiry
HLA-B*08:75 Genomic Plasmid Vector	PHLAG82510074	Plasmid vector containing HLA-B*08:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:75 protein under different cellular conditions.	Inquiry
HLA-B*08:76 Genomic Plasmid Vector	PHLAG82510075	Plasmid vector containing HLA-B*08:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:76 protein under different cellular conditions.	Inquiry
HLA-B*08:77 Genomic Plasmid Vector	PHLAG82510076	Plasmid vector containing HLA-B*08:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:77 protein under different cellular conditions.	Inquiry
HLA-B*08:78 Genomic Plasmid Vector	PHLAG82510077	Plasmid vector containing HLA-B*08:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:78 protein under different cellular conditions.	Inquiry
HLA-B*08:79:01 Genomic Plasmid Vector	PHLAG82510078	Plasmid vector containing HLA-B*08:79:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:79:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:79:01 protein under different cellular conditions.	Inquiry
HLA-B*08:79:02 Genomic Plasmid Vector	PHLAG82510079	Plasmid vector containing HLA-B*08:79:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:79:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:79:02 protein under different cellular conditions.	Inquiry

HLA-B*08:80 Genomic Plasmid Vector	PHLAG82510080	Plasmid vector containing HLA-B*08:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:80 protein under different cellular conditions.	Inquiry
HLA-B*08:81 Genomic Plasmid Vector	PHLAG82510081	Plasmid vector containing HLA-B*08:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:81 protein under different cellular conditions.	Inquiry
HLA-B*08:82N Genomic Plasmid Vector	PHLAG82510082	Plasmid vector containing HLA-B*08:82N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:82N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:82N protein under different cellular conditions.	Inquiry
HLA-B*08:83 Genomic Plasmid Vector	PHLAG82510083	Plasmid vector containing HLA-B*08:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:83 protein under different cellular conditions.	Inquiry
HLA-B*08:84 Genomic Plasmid Vector	PHLAG82510084	Plasmid vector containing HLA-B*08:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:84 protein under different cellular conditions.	Inquiry
HLA-B*08:85 Genomic Plasmid Vector	PHLAG82510085	Plasmid vector containing HLA-B*08:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:85 protein under different cellular conditions.	Inquiry
HLA-B*08:86N Genomic Plasmid Vector	PHLAG82510086	Plasmid vector containing HLA-B*08:86N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:86N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:86N protein under different cellular conditions.	Inquiry
HLA-B*08:87 Genomic Plasmid Vector	PHLAG82510087	Plasmid vector containing HLA-B*08:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:87 protein under different cellular conditions.	Inquiry
HLA-B*08:88 Genomic Plasmid Vector	PHLAG82510088	Plasmid vector containing HLA-B*08:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:88 protein under different cellular conditions.	Inquiry

HLA-B*08:89 Genomic Plasmid Vector	PHLAG82510089	Plasmid vector containing HLA-B*08:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:89 protein under different cellular conditions.	Inquiry
HLA-B*08:90 Genomic Plasmid Vector	PHLAG82510090	Plasmid vector containing HLA-B*08:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:90 protein under different cellular conditions.	Inquiry
HLA-B*08:91 Genomic Plasmid Vector	PHLAG82510091	Plasmid vector containing HLA-B*08:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:91 protein under different cellular conditions.	Inquiry
HLA-B*08:92 Genomic Plasmid Vector	PHLAG82510092	Plasmid vector containing HLA-B*08:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:92 protein under different cellular conditions.	Inquiry
HLA-B*08:93 Genomic Plasmid Vector	PHLAG82510093	Plasmid vector containing HLA-B*08:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:93 protein under different cellular conditions.	Inquiry
HLA-B*08:94 Genomic Plasmid Vector	PHLAG82510094	Plasmid vector containing HLA-B*08:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:94 protein under different cellular conditions.	Inquiry
HLA-B*08:95 Genomic Plasmid Vector	PHLAG82510095	Plasmid vector containing HLA-B*08:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:95 protein under different cellular conditions.	Inquiry
HLA-B*08:96:01 Genomic Plasmid Vector	PHLAG82510096	Plasmid vector containing HLA-B*08:96:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:96:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:96:01 protein under different cellular conditions.	Inquiry
HLA-B*08:96:02 Genomic Plasmid Vector	PHLAG82510097	Plasmid vector containing HLA-B*08:96:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:96:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:96:02 protein under different cellular conditions.	Inquiry

HLA-B*08:97 Genomic Plasmid Vector	PHLAG82510098	Plasmid vector containing HLA-B*08:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:97 protein under different cellular conditions.	Inquiry
HLA-B*08:98 Genomic Plasmid Vector	PHLAG82510099	Plasmid vector containing HLA-B*08:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:98 protein under different cellular conditions.	Inquiry
HLA-B*08:99 Genomic Plasmid Vector	PHLAG825101000	Plasmid vector containing HLA-B*08:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*08:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*08:99 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:01 Genomic Plasmid Vector	PHLAG825101001	Plasmid vector containing HLA-B*13:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:01 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:02 Genomic Plasmid Vector	PHLAG825101002	Plasmid vector containing HLA-B*13:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:02 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:03 Genomic Plasmid Vector	PHLAG825101003	Plasmid vector containing HLA-B*13:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:03 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:04 Genomic Plasmid Vector	PHLAG825101004	Plasmid vector containing HLA-B*13:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:04 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:05 Genomic Plasmid Vector	PHLAG825101005	Plasmid vector containing HLA-B*13:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:05 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:06 Genomic Plasmid Vector	PHLAG825101006	Plasmid vector containing HLA-B*13:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:06 protein under different cellular conditions.	Inquiry

HLA-B*13:01:01:07 Genomic Plasmid Vector	PHLAG82510107	Plasmid vector containing HLA-B*13:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:07 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:08 Genomic Plasmid Vector	PHLAG82510108	Plasmid vector containing HLA-B*13:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:08 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:09 Genomic Plasmid Vector	PHLAG82510109	Plasmid vector containing HLA-B*13:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:09 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:10 Genomic Plasmid Vector	PHLAG825101110	Plasmid vector containing HLA-B*13:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:10 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:11 Genomic Plasmid Vector	PHLAG825101111	Plasmid vector containing HLA-B*13:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:11 protein under different cellular conditions.	Inquiry
HLA-B*13:01:01:12 Genomic Plasmid Vector	PHLAG825101112	Plasmid vector containing HLA-B*13:01:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:01:12 protein under different cellular conditions.	Inquiry
HLA-B*13:01:02 Genomic Plasmid Vector	PHLAG825101113	Plasmid vector containing HLA-B*13:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:02 protein under different cellular conditions.	Inquiry
HLA-B*13:01:03 Genomic Plasmid Vector	PHLAG825101114	Plasmid vector containing HLA-B*13:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:03 protein under different cellular conditions.	Inquiry
HLA-B*13:01:04 Genomic Plasmid Vector	PHLAG825101115	Plasmid vector containing HLA-B*13:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:04 protein under different cellular conditions.	Inquiry

HLA-B*13:01:05 Genomic Plasmid Vector	PHLAG82510116	Plasmid vector containing HLA-B*13:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:05 protein under different cellular conditions.	Inquiry
HLA-B*13:01:06 Genomic Plasmid Vector	PHLAG82510117	Plasmid vector containing HLA-B*13:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:06 protein under different cellular conditions.	Inquiry
HLA-B*13:01:07 Genomic Plasmid Vector	PHLAG82510118	Plasmid vector containing HLA-B*13:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:07 protein under different cellular conditions.	Inquiry
HLA-B*13:01:08 Genomic Plasmid Vector	PHLAG82510119	Plasmid vector containing HLA-B*13:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:08 protein under different cellular conditions.	Inquiry
HLA-B*13:01:09 Genomic Plasmid Vector	PHLAG82510120	Plasmid vector containing HLA-B*13:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:09 protein under different cellular conditions.	Inquiry
HLA-B*13:01:10 Genomic Plasmid Vector	PHLAG82510121	Plasmid vector containing HLA-B*13:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:10 protein under different cellular conditions.	Inquiry
HLA-B*13:01:11 Genomic Plasmid Vector	PHLAG82510122	Plasmid vector containing HLA-B*13:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:11 protein under different cellular conditions.	Inquiry
HLA-B*13:01:12 Genomic Plasmid Vector	PHLAG82510123	Plasmid vector containing HLA-B*13:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:12 protein under different cellular conditions.	Inquiry
HLA-B*13:01:13 Genomic Plasmid Vector	PHLAG82510124	Plasmid vector containing HLA-B*13:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:13 protein under different cellular conditions.	Inquiry

HLA-B*13:01:14 Genomic Plasmid Vector	PHLAG82510125	Plasmid vector containing HLA-B*13:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:14 protein under different cellular conditions.	Inquiry
HLA-B*13:01:15 Genomic Plasmid Vector	PHLAG82510126	Plasmid vector containing HLA-B*13:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:15 protein under different cellular conditions.	Inquiry
HLA-B*13:01:16 Genomic Plasmid Vector	PHLAG82510127	Plasmid vector containing HLA-B*13:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:16 protein under different cellular conditions.	Inquiry
HLA-B*13:01:17 Genomic Plasmid Vector	PHLAG82510128	Plasmid vector containing HLA-B*13:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:17 protein under different cellular conditions.	Inquiry
HLA-B*13:01:18 Genomic Plasmid Vector	PHLAG82510129	Plasmid vector containing HLA-B*13:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:18 protein under different cellular conditions.	Inquiry
HLA-B*13:01:19 Genomic Plasmid Vector	PHLAG82510130	Plasmid vector containing HLA-B*13:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:19 protein under different cellular conditions.	Inquiry
HLA-B*13:01:20 Genomic Plasmid Vector	PHLAG82510131	Plasmid vector containing HLA-B*13:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:20 protein under different cellular conditions.	Inquiry
HLA-B*13:01:21 Genomic Plasmid Vector	PHLAG82510132	Plasmid vector containing HLA-B*13:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:21 protein under different cellular conditions.	Inquiry
HLA-B*13:01:22 Genomic Plasmid Vector	PHLAG82510133	Plasmid vector containing HLA-B*13:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:22 protein under different cellular conditions.	Inquiry

HLA-B*13:01:23 Genomic Plasmid Vector	PHLAG82510134	Plasmid vector containing HLA-B*13:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:23 protein under different cellular conditions.	Inquiry
HLA-B*13:01:24 Genomic Plasmid Vector	PHLAG82510135	Plasmid vector containing HLA-B*13:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:24 protein under different cellular conditions.	Inquiry
HLA-B*13:01:25 Genomic Plasmid Vector	PHLAG82510136	Plasmid vector containing HLA-B*13:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:01:25 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:01 Genomic Plasmid Vector	PHLAG82510137	Plasmid vector containing HLA-B*13:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:01 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:02 Genomic Plasmid Vector	PHLAG82510138	Plasmid vector containing HLA-B*13:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:02 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:03 Genomic Plasmid Vector	PHLAG82510139	Plasmid vector containing HLA-B*13:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:03 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:04 Genomic Plasmid Vector	PHLAG82510140	Plasmid vector containing HLA-B*13:02:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:04 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:05 Genomic Plasmid Vector	PHLAG82510141	Plasmid vector containing HLA-B*13:02:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:05 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:06 Genomic Plasmid Vector	PHLAG82510142	Plasmid vector containing HLA-B*13:02:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:06 protein under different cellular conditions.	Inquiry

HLA-B*13:02:01:07 Genomic Plasmid Vector	PHLAG82510143	Plasmid vector containing HLA-B*13:02:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:07 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:08 Genomic Plasmid Vector	PHLAG82510144	Plasmid vector containing HLA-B*13:02:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:08 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:09 Genomic Plasmid Vector	PHLAG82510145	Plasmid vector containing HLA-B*13:02:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:09 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:10 Genomic Plasmid Vector	PHLAG82510146	Plasmid vector containing HLA-B*13:02:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:10 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:11 Genomic Plasmid Vector	PHLAG82510147	Plasmid vector containing HLA-B*13:02:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:11 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:12 Genomic Plasmid Vector	PHLAG82510148	Plasmid vector containing HLA-B*13:02:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:12 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:13 Genomic Plasmid Vector	PHLAG82510149	Plasmid vector containing HLA-B*13:02:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:13 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:14 Genomic Plasmid Vector	PHLAG825101510	Plasmid vector containing HLA-B*13:02:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:14 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:15 Genomic Plasmid Vector	PHLAG825101511	Plasmid vector containing HLA-B*13:02:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:15 protein under different cellular conditions.	Inquiry

HLA-B*13:02:01:16 Genomic Plasmid Vector	PHLAG82510152	Plasmid vector containing HLA-B*13:02:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:16 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:17 Genomic Plasmid Vector	PHLAG82510153	Plasmid vector containing HLA-B*13:02:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:17 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:18 Genomic Plasmid Vector	PHLAG82510154	Plasmid vector containing HLA-B*13:02:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:18 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:19 Genomic Plasmid Vector	PHLAG82510155	Plasmid vector containing HLA-B*13:02:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:19 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:20 Genomic Plasmid Vector	PHLAG82510156	Plasmid vector containing HLA-B*13:02:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:20 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:21 Genomic Plasmid Vector	PHLAG82510157	Plasmid vector containing HLA-B*13:02:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:21 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:22 Genomic Plasmid Vector	PHLAG82510158	Plasmid vector containing HLA-B*13:02:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:22 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:23 Genomic Plasmid Vector	PHLAG82510159	Plasmid vector containing HLA-B*13:02:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:23 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:24 Genomic Plasmid Vector	PHLAG82510160	Plasmid vector containing HLA-B*13:02:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:24 protein under different cellular conditions.	Inquiry

HLA-B*13:02:01:25 Genomic Plasmid Vector	PHLAG82510161	Plasmid vector containing HLA-B*13:02:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:25 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:26 Genomic Plasmid Vector	PHLAG82510162	Plasmid vector containing HLA-B*13:02:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:26 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:27 Genomic Plasmid Vector	PHLAG82510163	Plasmid vector containing HLA-B*13:02:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:27 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:28 Genomic Plasmid Vector	PHLAG82510164	Plasmid vector containing HLA-B*13:02:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:28 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:29 Genomic Plasmid Vector	PHLAG82510165	Plasmid vector containing HLA-B*13:02:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:29 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:30 Genomic Plasmid Vector	PHLAG82510166	Plasmid vector containing HLA-B*13:02:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:30 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:31 Genomic Plasmid Vector	PHLAG82510167	Plasmid vector containing HLA-B*13:02:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:31 protein under different cellular conditions.	Inquiry
HLA-B*13:02:01:32 Genomic Plasmid Vector	PHLAG82510168	Plasmid vector containing HLA-B*13:02:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:01:32 protein under different cellular conditions.	Inquiry
HLA-B*13:02:02 Genomic Plasmid Vector	PHLAG82510169	Plasmid vector containing HLA-B*13:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:02 protein under different cellular conditions.	Inquiry

HLA-B*13:02:03 Genomic Plasmid Vector	PHLAG82510170	Plasmid vector containing HLA-B*13:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:03 protein under different cellular conditions.	Inquiry
HLA-B*13:02:04 Genomic Plasmid Vector	PHLAG82510171	Plasmid vector containing HLA-B*13:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:04 protein under different cellular conditions.	Inquiry
HLA-B*13:02:05 Genomic Plasmid Vector	PHLAG82510172	Plasmid vector containing HLA-B*13:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:05 protein under different cellular conditions.	Inquiry
HLA-B*13:02:06 Genomic Plasmid Vector	PHLAG82510173	Plasmid vector containing HLA-B*13:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:06 protein under different cellular conditions.	Inquiry
HLA-B*13:02:07 Genomic Plasmid Vector	PHLAG82510174	Plasmid vector containing HLA-B*13:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:07 protein under different cellular conditions.	Inquiry
HLA-B*13:02:08 Genomic Plasmid Vector	PHLAG82510175	Plasmid vector containing HLA-B*13:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:08 protein under different cellular conditions.	Inquiry
HLA-B*13:02:09 Genomic Plasmid Vector	PHLAG82510176	Plasmid vector containing HLA-B*13:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:09 protein under different cellular conditions.	Inquiry
HLA-B*13:02:10 Genomic Plasmid Vector	PHLAG82510177	Plasmid vector containing HLA-B*13:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:10 protein under different cellular conditions.	Inquiry
HLA-B*13:02:11 Genomic Plasmid Vector	PHLAG82510178	Plasmid vector containing HLA-B*13:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:11 protein under different cellular conditions.	Inquiry

HLA-B*13:02:12 Genomic Plasmid Vector	PHLAG82510179	Plasmid vector containing HLA-B*13:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:12 protein under different cellular conditions.	Inquiry
HLA-B*13:02:13 Genomic Plasmid Vector	PHLAG82510180	Plasmid vector containing HLA-B*13:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:13 protein under different cellular conditions.	Inquiry
HLA-B*13:02:14 Genomic Plasmid Vector	PHLAG82510181	Plasmid vector containing HLA-B*13:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:14 protein under different cellular conditions.	Inquiry
HLA-B*13:02:15 Genomic Plasmid Vector	PHLAG82510182	Plasmid vector containing HLA-B*13:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:15 protein under different cellular conditions.	Inquiry
HLA-B*13:02:16 Genomic Plasmid Vector	PHLAG82510183	Plasmid vector containing HLA-B*13:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:16 protein under different cellular conditions.	Inquiry
HLA-B*13:02:17 Genomic Plasmid Vector	PHLAG82510184	Plasmid vector containing HLA-B*13:02:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:17 protein under different cellular conditions.	Inquiry
HLA-B*13:02:18 Genomic Plasmid Vector	PHLAG82510185	Plasmid vector containing HLA-B*13:02:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:18 protein under different cellular conditions.	Inquiry
HLA-B*13:02:19 Genomic Plasmid Vector	PHLAG82510186	Plasmid vector containing HLA-B*13:02:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:19 protein under different cellular conditions.	Inquiry
HLA-B*13:02:20 Genomic Plasmid Vector	PHLAG82510187	Plasmid vector containing HLA-B*13:02:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:20 protein under different cellular conditions.	Inquiry

HLA-B*13:02:21 Genomic Plasmid Vector	PHLAG82510188	Plasmid vector containing HLA-B*13:02:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:21 protein under different cellular conditions.	Inquiry
HLA-B*13:02:22 Genomic Plasmid Vector	PHLAG82510189	Plasmid vector containing HLA-B*13:02:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:22 protein under different cellular conditions.	Inquiry
HLA-B*13:02:23 Genomic Plasmid Vector	PHLAG82510190	Plasmid vector containing HLA-B*13:02:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:23 protein under different cellular conditions.	Inquiry
HLA-B*13:02:24 Genomic Plasmid Vector	PHLAG82510191	Plasmid vector containing HLA-B*13:02:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:24 protein under different cellular conditions.	Inquiry
HLA-B*13:02:25 Genomic Plasmid Vector	PHLAG82510192	Plasmid vector containing HLA-B*13:02:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:25 protein under different cellular conditions.	Inquiry
HLA-B*13:02:26 Genomic Plasmid Vector	PHLAG82510193	Plasmid vector containing HLA-B*13:02:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:26 protein under different cellular conditions.	Inquiry
HLA-B*13:02:27 Genomic Plasmid Vector	PHLAG82510194	Plasmid vector containing HLA-B*13:02:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:27 protein under different cellular conditions.	Inquiry
HLA-B*13:02:28 Genomic Plasmid Vector	PHLAG82510195	Plasmid vector containing HLA-B*13:02:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:28 protein under different cellular conditions.	Inquiry
HLA-B*13:02:29 Genomic Plasmid Vector	PHLAG82510196	Plasmid vector containing HLA-B*13:02:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:29 protein under different cellular conditions.	Inquiry

HLA-B*13:02:30 Genomic Plasmid Vector	PHLAG82510197	Plasmid vector containing HLA-B*13:02:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:30 protein under different cellular conditions.	Inquiry
HLA-B*13:02:31 Genomic Plasmid Vector	PHLAG82510198	Plasmid vector containing HLA-B*13:02:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:31 protein under different cellular conditions.	Inquiry
HLA-B*13:02:32 Genomic Plasmid Vector	PHLAG82510199	Plasmid vector containing HLA-B*13:02:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:32 protein under different cellular conditions.	Inquiry
HLA-B*13:02:33 Genomic Plasmid Vector	PHLAG825102000	Plasmid vector containing HLA-B*13:02:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:33 protein under different cellular conditions.	Inquiry
HLA-B*13:02:34 Genomic Plasmid Vector	PHLAG825102001	Plasmid vector containing HLA-B*13:02:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:34 protein under different cellular conditions.	Inquiry
HLA-B*13:02:35 Genomic Plasmid Vector	PHLAG825102002	Plasmid vector containing HLA-B*13:02:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:35 protein under different cellular conditions.	Inquiry
HLA-B*13:02:36 Genomic Plasmid Vector	PHLAG825102003	Plasmid vector containing HLA-B*13:02:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:36 protein under different cellular conditions.	Inquiry
HLA-B*13:02:37 Genomic Plasmid Vector	PHLAG825102004	Plasmid vector containing HLA-B*13:02:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:37 protein under different cellular conditions.	Inquiry
HLA-B*13:02:38 Genomic Plasmid Vector	PHLAG825102005	Plasmid vector containing HLA-B*13:02:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:38 protein under different cellular conditions.	Inquiry

HLA-B*13:02:39 Genomic Plasmid Vector	PHLAG82510206	Plasmid vector containing HLA-B*13:02:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:39 protein under different cellular conditions.	Inquiry
HLA-B*13:02:40 Genomic Plasmid Vector	PHLAG82510207	Plasmid vector containing HLA-B*13:02:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:40 protein under different cellular conditions.	Inquiry
HLA-B*13:02:41 Genomic Plasmid Vector	PHLAG82510208	Plasmid vector containing HLA-B*13:02:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:41 protein under different cellular conditions.	Inquiry
HLA-B*13:02:42 Genomic Plasmid Vector	PHLAG82510209	Plasmid vector containing HLA-B*13:02:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:42 protein under different cellular conditions.	Inquiry
HLA-B*13:02:43 Genomic Plasmid Vector	PHLAG82510210	Plasmid vector containing HLA-B*13:02:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:43 protein under different cellular conditions.	Inquiry
HLA-B*13:02:44 Genomic Plasmid Vector	PHLAG82510211	Plasmid vector containing HLA-B*13:02:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:44 protein under different cellular conditions.	Inquiry
HLA-B*13:02:45 Genomic Plasmid Vector	PHLAG82510212	Plasmid vector containing HLA-B*13:02:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:45 protein under different cellular conditions.	Inquiry
HLA-B*13:02:46 Genomic Plasmid Vector	PHLAG82510213	Plasmid vector containing HLA-B*13:02:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:02:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:02:46 protein under different cellular conditions.	Inquiry
HLA-B*13:03 Genomic Plasmid Vector	PHLAG82510214	Plasmid vector containing HLA-B*13:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:03 protein under different cellular conditions.	Inquiry

HLA-B*13:04 Genomic Plasmid Vector	PHLAG82510215	Plasmid vector containing HLA-B*13:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:04 protein under different cellular conditions.	Inquiry
HLA-B*13:06 Genomic Plasmid Vector	PHLAG82510216	Plasmid vector containing HLA-B*13:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:06 protein under different cellular conditions.	Inquiry
HLA-B*13:07N Genomic Plasmid Vector	PHLAG82510217	Plasmid vector containing HLA-B*13:07N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:07N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:07N protein under different cellular conditions.	Inquiry
HLA-B*13:08 Genomic Plasmid Vector	PHLAG82510218	Plasmid vector containing HLA-B*13:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:08 protein under different cellular conditions.	Inquiry
HLA-B*13:09 Genomic Plasmid Vector	PHLAG82510219	Plasmid vector containing HLA-B*13:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:09 protein under different cellular conditions.	Inquiry
HLA-B*13:10 Genomic Plasmid Vector	PHLAG82510220	Plasmid vector containing HLA-B*13:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:10 protein under different cellular conditions.	Inquiry
HLA-B*13:100 Genomic Plasmid Vector	PHLAG82510221	Plasmid vector containing HLA-B*13:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:100 protein under different cellular conditions.	Inquiry
HLA-B*13:101 Genomic Plasmid Vector	PHLAG82510222	Plasmid vector containing HLA-B*13:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:101 protein under different cellular conditions.	Inquiry
HLA-B*13:102 Genomic Plasmid Vector	PHLAG82510223	Plasmid vector containing HLA-B*13:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:102 protein under different cellular conditions.	Inquiry

HLA-B*13:103N Genomic Plasmid Vector	PHLAG82510224	Plasmid vector containing HLA-B*13:103N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:103N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:103N protein under different cellular conditions.	Inquiry
HLA-B*13:104 Genomic Plasmid Vector	PHLAG82510225	Plasmid vector containing HLA-B*13:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:104 protein under different cellular conditions.	Inquiry
HLA-B*13:105 Genomic Plasmid Vector	PHLAG82510226	Plasmid vector containing HLA-B*13:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:105 protein under different cellular conditions.	Inquiry
HLA-B*13:106 Genomic Plasmid Vector	PHLAG82510227	Plasmid vector containing HLA-B*13:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:106 protein under different cellular conditions.	Inquiry
HLA-B*13:107 Genomic Plasmid Vector	PHLAG82510228	Plasmid vector containing HLA-B*13:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:107 protein under different cellular conditions.	Inquiry
HLA-B*13:108 Genomic Plasmid Vector	PHLAG82510229	Plasmid vector containing HLA-B*13:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:108 protein under different cellular conditions.	Inquiry
HLA-B*13:109 Genomic Plasmid Vector	PHLAG82510230	Plasmid vector containing HLA-B*13:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:109 protein under different cellular conditions.	Inquiry
HLA-B*13:11 Genomic Plasmid Vector	PHLAG82510231	Plasmid vector containing HLA-B*13:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:11 protein under different cellular conditions.	Inquiry
HLA-B*13:110 Genomic Plasmid Vector	PHLAG82510232	Plasmid vector containing HLA-B*13:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:110 protein under different cellular conditions.	Inquiry

HLA-B*13:111 Genomic Plasmid Vector	PHLAG82510233	Plasmid vector containing HLA-B*13:111 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:111 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:111 protein under different cellular conditions.	Inquiry
HLA-B*13:112 Genomic Plasmid Vector	PHLAG82510234	Plasmid vector containing HLA-B*13:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:112 protein under different cellular conditions.	Inquiry
HLA-B*13:113 Genomic Plasmid Vector	PHLAG82510235	Plasmid vector containing HLA-B*13:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:113 protein under different cellular conditions.	Inquiry
HLA-B*13:114 Genomic Plasmid Vector	PHLAG82510236	Plasmid vector containing HLA-B*13:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:114 protein under different cellular conditions.	Inquiry
HLA-B*13:115 Genomic Plasmid Vector	PHLAG82510237	Plasmid vector containing HLA-B*13:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:115 protein under different cellular conditions.	Inquiry
HLA-B*13:116N Genomic Plasmid Vector	PHLAG82510238	Plasmid vector containing HLA-B*13:116N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:116N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:116N protein under different cellular conditions.	Inquiry
HLA-B*13:117 Genomic Plasmid Vector	PHLAG82510239	Plasmid vector containing HLA-B*13:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:117 protein under different cellular conditions.	Inquiry
HLA-B*13:118 Genomic Plasmid Vector	PHLAG82510240	Plasmid vector containing HLA-B*13:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:118 protein under different cellular conditions.	Inquiry
HLA-B*13:119 Genomic Plasmid Vector	PHLAG82510241	Plasmid vector containing HLA-B*13:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:119 protein under different cellular conditions.	Inquiry

HLA-B*13:12:01 Genomic Plasmid Vector	PHLAG82510242	Plasmid vector containing HLA-B*13:12:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:12:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:12:01 protein under different cellular conditions.	Inquiry
HLA-B*13:12:02 Genomic Plasmid Vector	PHLAG82510243	Plasmid vector containing HLA-B*13:12:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:12:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:12:02 protein under different cellular conditions.	Inquiry
HLA-B*13:120 Genomic Plasmid Vector	PHLAG82510244	Plasmid vector containing HLA-B*13:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:120 protein under different cellular conditions.	Inquiry
HLA-B*13:121 Genomic Plasmid Vector	PHLAG82510245	Plasmid vector containing HLA-B*13:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:121 protein under different cellular conditions.	Inquiry
HLA-B*13:122 Genomic Plasmid Vector	PHLAG82510246	Plasmid vector containing HLA-B*13:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:122 protein under different cellular conditions.	Inquiry
HLA-B*13:123Q Genomic Plasmid Vector	PHLAG82510247	Plasmid vector containing HLA-B*13:123Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:123Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:123Q protein under different cellular conditions.	Inquiry
HLA-B*13:124 Genomic Plasmid Vector	PHLAG82510248	Plasmid vector containing HLA-B*13:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:124 protein under different cellular conditions.	Inquiry
HLA-B*13:125 Genomic Plasmid Vector	PHLAG82510249	Plasmid vector containing HLA-B*13:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:125 protein under different cellular conditions.	Inquiry
HLA-B*13:126 Genomic Plasmid Vector	PHLAG82510250	Plasmid vector containing HLA-B*13:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:126 protein under different cellular conditions.	Inquiry

HLA-B*13:127 Genomic Plasmid Vector	PHLAG82510251	Plasmid vector containing HLA-B*13:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:127 protein under different cellular conditions.	Inquiry
HLA-B*13:128 Genomic Plasmid Vector	PHLAG82510252	Plasmid vector containing HLA-B*13:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:128 protein under different cellular conditions.	Inquiry
HLA-B*13:129 Genomic Plasmid Vector	PHLAG82510253	Plasmid vector containing HLA-B*13:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:129 protein under different cellular conditions.	Inquiry
HLA-B*13:13:01 Genomic Plasmid Vector	PHLAG82510254	Plasmid vector containing HLA-B*13:13:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:13:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:13:01 protein under different cellular conditions.	Inquiry
HLA-B*13:13:02 Genomic Plasmid Vector	PHLAG82510255	Plasmid vector containing HLA-B*13:13:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:13:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:13:02 protein under different cellular conditions.	Inquiry
HLA-B*13:130 Genomic Plasmid Vector	PHLAG82510256	Plasmid vector containing HLA-B*13:130 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:130 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:130 protein under different cellular conditions.	Inquiry
HLA-B*13:131 Genomic Plasmid Vector	PHLAG82510257	Plasmid vector containing HLA-B*13:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:131 protein under different cellular conditions.	Inquiry
HLA-B*13:132 Genomic Plasmid Vector	PHLAG82510258	Plasmid vector containing HLA-B*13:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:132 protein under different cellular conditions.	Inquiry
HLA-B*13:133 Genomic Plasmid Vector	PHLAG82510259	Plasmid vector containing HLA-B*13:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:133 protein under different cellular conditions.	Inquiry

HLA-B*13:134 Genomic Plasmid Vector	PHLAG825102600	Plasmid vector containing HLA-B*13:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:134 protein under different cellular conditions.	Inquiry
HLA-B*13:135 Genomic Plasmid Vector	PHLAG825102601	Plasmid vector containing HLA-B*13:135 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:135 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:135 protein under different cellular conditions.	Inquiry
HLA-B*13:136 Genomic Plasmid Vector	PHLAG825102602	Plasmid vector containing HLA-B*13:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:136 protein under different cellular conditions.	Inquiry
HLA-B*13:137N Genomic Plasmid Vector	PHLAG825102603	Plasmid vector containing HLA-B*13:137N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:137N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:137N protein under different cellular conditions.	Inquiry
HLA-B*13:138 Genomic Plasmid Vector	PHLAG825102604	Plasmid vector containing HLA-B*13:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:138 protein under different cellular conditions.	Inquiry
HLA-B*13:139N Genomic Plasmid Vector	PHLAG825102605	Plasmid vector containing HLA-B*13:139N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:139N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:139N protein under different cellular conditions.	Inquiry
HLA-B*13:14 Genomic Plasmid Vector	PHLAG825102606	Plasmid vector containing HLA-B*13:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:14 protein under different cellular conditions.	Inquiry
HLA-B*13:140 Genomic Plasmid Vector	PHLAG825102607	Plasmid vector containing HLA-B*13:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:140 protein under different cellular conditions.	Inquiry
HLA-B*13:141 Genomic Plasmid Vector	PHLAG825102608	Plasmid vector containing HLA-B*13:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:141 protein under different cellular conditions.	Inquiry

HLA-B*13:142 Genomic Plasmid Vector	PHLAG82510269	Plasmid vector containing HLA-B*13:142 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:142 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:142 protein under different cellular conditions.	Inquiry
HLA-B*13:143 Genomic Plasmid Vector	PHLAG825102700	Plasmid vector containing HLA-B*13:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:143 protein under different cellular conditions.	Inquiry
HLA-B*13:144 Genomic Plasmid Vector	PHLAG825102701	Plasmid vector containing HLA-B*13:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:144 protein under different cellular conditions.	Inquiry
HLA-B*13:145 Genomic Plasmid Vector	PHLAG825102702	Plasmid vector containing HLA-B*13:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:145 protein under different cellular conditions.	Inquiry
HLA-B*13:146 Genomic Plasmid Vector	PHLAG825102703	Plasmid vector containing HLA-B*13:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:146 protein under different cellular conditions.	Inquiry
HLA-B*13:147 Genomic Plasmid Vector	PHLAG825102704	Plasmid vector containing HLA-B*13:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:147 protein under different cellular conditions.	Inquiry
HLA-B*13:148 Genomic Plasmid Vector	PHLAG825102705	Plasmid vector containing HLA-B*13:148 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:148 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:148 protein under different cellular conditions.	Inquiry
HLA-B*13:149 Genomic Plasmid Vector	PHLAG825102706	Plasmid vector containing HLA-B*13:149 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:149 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:149 protein under different cellular conditions.	Inquiry
HLA-B*13:15 Genomic Plasmid Vector	PHLAG825102707	Plasmid vector containing HLA-B*13:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:15 protein under different cellular conditions.	Inquiry

HLA-B*13:150 Genomic Plasmid Vector	PHLAG82510278	Plasmid vector containing HLA-B*13:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:150 protein under different cellular conditions.	Inquiry
HLA-B*13:151 Genomic Plasmid Vector	PHLAG82510279	Plasmid vector containing HLA-B*13:151 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:151 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:151 protein under different cellular conditions.	Inquiry
HLA-B*13:152 Genomic Plasmid Vector	PHLAG82510280	Plasmid vector containing HLA-B*13:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:152 protein under different cellular conditions.	Inquiry
HLA-B*13:153 Genomic Plasmid Vector	PHLAG82510281	Plasmid vector containing HLA-B*13:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:153 protein under different cellular conditions.	Inquiry
HLA-B*13:154 Genomic Plasmid Vector	PHLAG82510282	Plasmid vector containing HLA-B*13:154 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:154 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:154 protein under different cellular conditions.	Inquiry
HLA-B*13:155 Genomic Plasmid Vector	PHLAG82510283	Plasmid vector containing HLA-B*13:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:155 protein under different cellular conditions.	Inquiry
HLA-B*13:156 Genomic Plasmid Vector	PHLAG82510284	Plasmid vector containing HLA-B*13:156 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:156 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:156 protein under different cellular conditions.	Inquiry
HLA-B*13:157 Genomic Plasmid Vector	PHLAG82510285	Plasmid vector containing HLA-B*13:157 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:157 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:157 protein under different cellular conditions.	Inquiry
HLA-B*13:158 Genomic Plasmid Vector	PHLAG82510286	Plasmid vector containing HLA-B*13:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:158 protein under different cellular conditions.	Inquiry

HLA-B*13:159 Genomic Plasmid Vector	PHLAG82510287	Plasmid vector containing HLA-B*13:159 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:159 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:159 protein under different cellular conditions.	Inquiry
HLA-B*13:16 Genomic Plasmid Vector	PHLAG82510288	Plasmid vector containing HLA-B*13:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:16 protein under different cellular conditions.	Inquiry
HLA-B*13:160 Genomic Plasmid Vector	PHLAG82510289	Plasmid vector containing HLA-B*13:160 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:160 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:160 protein under different cellular conditions.	Inquiry
HLA-B*13:161N Genomic Plasmid Vector	PHLAG82510290	Plasmid vector containing HLA-B*13:161N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:161N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:161N protein under different cellular conditions.	Inquiry
HLA-B*13:162 Genomic Plasmid Vector	PHLAG82510291	Plasmid vector containing HLA-B*13:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:162 protein under different cellular conditions.	Inquiry
HLA-B*13:163 Genomic Plasmid Vector	PHLAG82510292	Plasmid vector containing HLA-B*13:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:163 protein under different cellular conditions.	Inquiry
HLA-B*13:164 Genomic Plasmid Vector	PHLAG82510293	Plasmid vector containing HLA-B*13:164 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:164 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:164 protein under different cellular conditions.	Inquiry
HLA-B*13:165 Genomic Plasmid Vector	PHLAG82510294	Plasmid vector containing HLA-B*13:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:165 protein under different cellular conditions.	Inquiry
HLA-B*13:166 Genomic Plasmid Vector	PHLAG82510295	Plasmid vector containing HLA-B*13:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:166 protein under different cellular conditions.	Inquiry

HLA-B*13:167 Genomic Plasmid Vector	PHLAG82510296	Plasmid vector containing HLA-B*13:167 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:167 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:167 protein under different cellular conditions.	Inquiry
HLA-B*13:168 Genomic Plasmid Vector	PHLAG82510297	Plasmid vector containing HLA-B*13:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:168 protein under different cellular conditions.	Inquiry
HLA-B*13:169 Genomic Plasmid Vector	PHLAG82510298	Plasmid vector containing HLA-B*13:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:169 protein under different cellular conditions.	Inquiry
HLA-B*13:17 Genomic Plasmid Vector	PHLAG82510299	Plasmid vector containing HLA-B*13:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:17 protein under different cellular conditions.	Inquiry
HLA-B*13:170 Genomic Plasmid Vector	PHLAG825103000	Plasmid vector containing HLA-B*13:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:170 protein under different cellular conditions.	Inquiry
HLA-B*13:171 Genomic Plasmid Vector	PHLAG825103001	Plasmid vector containing HLA-B*13:171 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:171 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:171 protein under different cellular conditions.	Inquiry
HLA-B*13:172 Genomic Plasmid Vector	PHLAG825103002	Plasmid vector containing HLA-B*13:172 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:172 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:172 protein under different cellular conditions.	Inquiry
HLA-B*13:173 Genomic Plasmid Vector	PHLAG825103003	Plasmid vector containing HLA-B*13:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:173 protein under different cellular conditions.	Inquiry
HLA-B*13:174 Genomic Plasmid Vector	PHLAG825103004	Plasmid vector containing HLA-B*13:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:174 protein under different cellular conditions.	Inquiry

HLA-B*13:175 Genomic Plasmid Vector	PHLAG82510305	Plasmid vector containing HLA-B*13:175 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:175 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:175 protein under different cellular conditions.	Inquiry
HLA-B*13:176 Genomic Plasmid Vector	PHLAG82510306	Plasmid vector containing HLA-B*13:176 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:176 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:176 protein under different cellular conditions.	Inquiry
HLA-B*13:177 Genomic Plasmid Vector	PHLAG82510307	Plasmid vector containing HLA-B*13:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:177 protein under different cellular conditions.	Inquiry
HLA-B*13:178 Genomic Plasmid Vector	PHLAG82510308	Plasmid vector containing HLA-B*13:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:178 protein under different cellular conditions.	Inquiry
HLA-B*13:179 Genomic Plasmid Vector	PHLAG82510309	Plasmid vector containing HLA-B*13:179 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:179 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:179 protein under different cellular conditions.	Inquiry
HLA-B*13:18 Genomic Plasmid Vector	PHLAG825103110	Plasmid vector containing HLA-B*13:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:18 protein under different cellular conditions.	Inquiry
HLA-B*13:180 Genomic Plasmid Vector	PHLAG825103111	Plasmid vector containing HLA-B*13:180 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:180 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:180 protein under different cellular conditions.	Inquiry
HLA-B*13:181 Genomic Plasmid Vector	PHLAG825103112	Plasmid vector containing HLA-B*13:181 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:181 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:181 protein under different cellular conditions.	Inquiry
HLA-B*13:182 Genomic Plasmid Vector	PHLAG825103113	Plasmid vector containing HLA-B*13:182 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:182 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:182 protein under different cellular conditions.	Inquiry

HLA-B*13:183 Genomic Plasmid Vector	PHLAG82510314	Plasmid vector containing HLA-B*13:183 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:183 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:183 protein under different cellular conditions.	Inquiry
HLA-B*13:184 Genomic Plasmid Vector	PHLAG82510315	Plasmid vector containing HLA-B*13:184 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:184 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:184 protein under different cellular conditions.	Inquiry
HLA-B*13:185 Genomic Plasmid Vector	PHLAG82510316	Plasmid vector containing HLA-B*13:185 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:185 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:185 protein under different cellular conditions.	Inquiry
HLA-B*13:186 Genomic Plasmid Vector	PHLAG82510317	Plasmid vector containing HLA-B*13:186 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:186 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:186 protein under different cellular conditions.	Inquiry
HLA-B*13:187 Genomic Plasmid Vector	PHLAG82510318	Plasmid vector containing HLA-B*13:187 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:187 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:187 protein under different cellular conditions.	Inquiry
HLA-B*13:188 Genomic Plasmid Vector	PHLAG82510319	Plasmid vector containing HLA-B*13:188 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:188 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:188 protein under different cellular conditions.	Inquiry
HLA-B*13:189 Genomic Plasmid Vector	PHLAG82510320	Plasmid vector containing HLA-B*13:189 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:189 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:189 protein under different cellular conditions.	Inquiry
HLA-B*13:19 Genomic Plasmid Vector	PHLAG82510321	Plasmid vector containing HLA-B*13:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:19 protein under different cellular conditions.	Inquiry
HLA-B*13:190 Genomic Plasmid Vector	PHLAG82510322	Plasmid vector containing HLA-B*13:190 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:190 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:190 protein under different cellular conditions.	Inquiry

HLA-B*13:191 Genomic Plasmid Vector	PHLAG82510323	Plasmid vector containing HLA-B*13:191 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:191 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:191 protein under different cellular conditions.	Inquiry
HLA-B*13:192 Genomic Plasmid Vector	PHLAG82510324	Plasmid vector containing HLA-B*13:192 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:192 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:192 protein under different cellular conditions.	Inquiry
HLA-B*13:193 Genomic Plasmid Vector	PHLAG82510325	Plasmid vector containing HLA-B*13:193 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:193 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:193 protein under different cellular conditions.	Inquiry
HLA-B*13:194 Genomic Plasmid Vector	PHLAG82510326	Plasmid vector containing HLA-B*13:194 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:194 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:194 protein under different cellular conditions.	Inquiry
HLA-B*13:195 Genomic Plasmid Vector	PHLAG82510327	Plasmid vector containing HLA-B*13:195 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:195 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:195 protein under different cellular conditions.	Inquiry
HLA-B*13:196 Genomic Plasmid Vector	PHLAG82510328	Plasmid vector containing HLA-B*13:196 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:196 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:196 protein under different cellular conditions.	Inquiry
HLA-B*13:197 Genomic Plasmid Vector	PHLAG82510329	Plasmid vector containing HLA-B*13:197 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:197 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:197 protein under different cellular conditions.	Inquiry
HLA-B*13:198N Genomic Plasmid Vector	PHLAG82510330	Plasmid vector containing HLA-B*13:198N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:198N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:198N protein under different cellular conditions.	Inquiry
HLA-B*13:199 Genomic Plasmid Vector	PHLAG82510331	Plasmid vector containing HLA-B*13:199 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:199 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:199 protein under different cellular conditions.	Inquiry

HLA-B*13:20 Genomic Plasmid Vector	PHLAG82510332	Plasmid vector containing HLA-B*13:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:20 protein under different cellular conditions.	Inquiry
HLA-B*13:200 Genomic Plasmid Vector	PHLAG82510333	Plasmid vector containing HLA-B*13:200 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:200 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:200 protein under different cellular conditions.	Inquiry
HLA-B*13:201 Genomic Plasmid Vector	PHLAG82510334	Plasmid vector containing HLA-B*13:201 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:201 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:201 protein under different cellular conditions.	Inquiry
HLA-B*13:202 Genomic Plasmid Vector	PHLAG82510335	Plasmid vector containing HLA-B*13:202 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:202 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:202 protein under different cellular conditions.	Inquiry
HLA-B*13:203 Genomic Plasmid Vector	PHLAG82510336	Plasmid vector containing HLA-B*13:203 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:203 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:203 protein under different cellular conditions.	Inquiry
HLA-B*13:204 Genomic Plasmid Vector	PHLAG82510337	Plasmid vector containing HLA-B*13:204 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:204 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:204 protein under different cellular conditions.	Inquiry
HLA-B*13:205N Genomic Plasmid Vector	PHLAG82510338	Plasmid vector containing HLA-B*13:205N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:205N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:205N protein under different cellular conditions.	Inquiry
HLA-B*13:206 Genomic Plasmid Vector	PHLAG82510339	Plasmid vector containing HLA-B*13:206 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:206 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:206 protein under different cellular conditions.	Inquiry
HLA-B*13:207 Genomic Plasmid Vector	PHLAG82510340	Plasmid vector containing HLA-B*13:207 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:207 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:207 protein under different cellular conditions.	Inquiry

HLA-B*13:208 Genomic Plasmid Vector	PHLAG82510341	Plasmid vector containing HLA-B*13:208 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:208 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:208 protein under different cellular conditions.	Inquiry
HLA-B*13:209N Genomic Plasmid Vector	PHLAG82510342	Plasmid vector containing HLA-B*13:209N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:209N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:209N protein under different cellular conditions.	Inquiry
HLA-B*13:21 Genomic Plasmid Vector	PHLAG82510343	Plasmid vector containing HLA-B*13:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:21 protein under different cellular conditions.	Inquiry
HLA-B*13:210 Genomic Plasmid Vector	PHLAG82510344	Plasmid vector containing HLA-B*13:210 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:210 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:210 protein under different cellular conditions.	Inquiry
HLA-B*13:211 Genomic Plasmid Vector	PHLAG82510345	Plasmid vector containing HLA-B*13:211 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:211 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:211 protein under different cellular conditions.	Inquiry
HLA-B*13:212 Genomic Plasmid Vector	PHLAG82510346	Plasmid vector containing HLA-B*13:212 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:212 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:212 protein under different cellular conditions.	Inquiry
HLA-B*13:22:01 Genomic Plasmid Vector	PHLAG82510347	Plasmid vector containing HLA-B*13:22:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:22:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:22:01 protein under different cellular conditions.	Inquiry
HLA-B*13:22:02 Genomic Plasmid Vector	PHLAG82510348	Plasmid vector containing HLA-B*13:22:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:22:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:22:02 protein under different cellular conditions.	Inquiry
HLA-B*13:23 Genomic Plasmid Vector	PHLAG82510349	Plasmid vector containing HLA-B*13:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:23 protein under different cellular conditions.	Inquiry

HLA-B*13:25 Genomic Plasmid Vector	PHLAG82510350	Plasmid vector containing HLA-B*13:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:25 protein under different cellular conditions.	Inquiry
HLA-B*13:26:01 Genomic Plasmid Vector	PHLAG82510351	Plasmid vector containing HLA-B*13:26:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:26:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:26:01 protein under different cellular conditions.	Inquiry
HLA-B*13:26:02 Genomic Plasmid Vector	PHLAG82510352	Plasmid vector containing HLA-B*13:26:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:26:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:26:02 protein under different cellular conditions.	Inquiry
HLA-B*13:27 Genomic Plasmid Vector	PHLAG82510353	Plasmid vector containing HLA-B*13:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:27 protein under different cellular conditions.	Inquiry
HLA-B*13:28 Genomic Plasmid Vector	PHLAG82510354	Plasmid vector containing HLA-B*13:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:28 protein under different cellular conditions.	Inquiry
HLA-B*13:29 Genomic Plasmid Vector	PHLAG82510355	Plasmid vector containing HLA-B*13:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:29 protein under different cellular conditions.	Inquiry
HLA-B*13:30 Genomic Plasmid Vector	PHLAG82510356	Plasmid vector containing HLA-B*13:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:30 protein under different cellular conditions.	Inquiry
HLA-B*13:31 Genomic Plasmid Vector	PHLAG82510357	Plasmid vector containing HLA-B*13:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:31 protein under different cellular conditions.	Inquiry
HLA-B*13:32 Genomic Plasmid Vector	PHLAG82510358	Plasmid vector containing HLA-B*13:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:32 protein under different cellular conditions.	Inquiry

HLA-B*13:33 Genomic Plasmid Vector	PHLAG82510359	Plasmid vector containing HLA-B*13:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:33 protein under different cellular conditions.	Inquiry
HLA-B*13:34 Genomic Plasmid Vector	PHLAG82510360	Plasmid vector containing HLA-B*13:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:34 protein under different cellular conditions.	Inquiry
HLA-B*13:35 Genomic Plasmid Vector	PHLAG82510361	Plasmid vector containing HLA-B*13:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:35 protein under different cellular conditions.	Inquiry
HLA-B*13:36 Genomic Plasmid Vector	PHLAG82510362	Plasmid vector containing HLA-B*13:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:36 protein under different cellular conditions.	Inquiry
HLA-B*13:37 Genomic Plasmid Vector	PHLAG82510363	Plasmid vector containing HLA-B*13:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:37 protein under different cellular conditions.	Inquiry
HLA-B*13:38 Genomic Plasmid Vector	PHLAG82510364	Plasmid vector containing HLA-B*13:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:38 protein under different cellular conditions.	Inquiry
HLA-B*13:39 Genomic Plasmid Vector	PHLAG82510365	Plasmid vector containing HLA-B*13:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:39 protein under different cellular conditions.	Inquiry
HLA-B*13:40 Genomic Plasmid Vector	PHLAG82510366	Plasmid vector containing HLA-B*13:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:40 protein under different cellular conditions.	Inquiry
HLA-B*13:41 Genomic Plasmid Vector	PHLAG82510367	Plasmid vector containing HLA-B*13:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:41 protein under different cellular conditions.	Inquiry

HLA-B*13:42 Genomic Plasmid Vector	PHLAG82510368	Plasmid vector containing HLA-B*13:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:42 protein under different cellular conditions.	Inquiry
HLA-B*13:43 Genomic Plasmid Vector	PHLAG82510369	Plasmid vector containing HLA-B*13:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:43 protein under different cellular conditions.	Inquiry
HLA-B*13:44 Genomic Plasmid Vector	PHLAG82510370	Plasmid vector containing HLA-B*13:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:44 protein under different cellular conditions.	Inquiry
HLA-B*13:45 Genomic Plasmid Vector	PHLAG82510371	Plasmid vector containing HLA-B*13:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:45 protein under different cellular conditions.	Inquiry
HLA-B*13:46 Genomic Plasmid Vector	PHLAG82510372	Plasmid vector containing HLA-B*13:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:46 protein under different cellular conditions.	Inquiry
HLA-B*13:47 Genomic Plasmid Vector	PHLAG82510373	Plasmid vector containing HLA-B*13:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:47 protein under different cellular conditions.	Inquiry
HLA-B*13:48 Genomic Plasmid Vector	PHLAG82510374	Plasmid vector containing HLA-B*13:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:48 protein under different cellular conditions.	Inquiry
HLA-B*13:49N Genomic Plasmid Vector	PHLAG82510375	Plasmid vector containing HLA-B*13:49N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:49N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:49N protein under different cellular conditions.	Inquiry
HLA-B*13:50 Genomic Plasmid Vector	PHLAG82510376	Plasmid vector containing HLA-B*13:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:50 protein under different cellular conditions.	Inquiry

HLA-B*13:50 Genomic Plasmid Vector	PHLAG82510377	Plasmid vector containing HLA-B*13:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:50 protein under different cellular conditions.	Inquiry
HLA-B*13:51 Genomic Plasmid Vector	PHLAG82510378	Plasmid vector containing HLA-B*13:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:51 protein under different cellular conditions.	Inquiry
HLA-B*13:52 Genomic Plasmid Vector	PHLAG82510379	Plasmid vector containing HLA-B*13:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:52 protein under different cellular conditions.	Inquiry
HLA-B*13:53 Genomic Plasmid Vector	PHLAG825103800	Plasmid vector containing HLA-B*13:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:53 protein under different cellular conditions.	Inquiry
HLA-B*13:54 Genomic Plasmid Vector	PHLAG825103801	Plasmid vector containing HLA-B*13:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:54 protein under different cellular conditions.	Inquiry
HLA-B*13:55 Genomic Plasmid Vector	PHLAG825103802	Plasmid vector containing HLA-B*13:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:55 protein under different cellular conditions.	Inquiry
HLA-B*13:56:01N Genomic Plasmid Vector	PHLAG825103803	Plasmid vector containing HLA-B*13:56:01N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:56:01N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:56:01N protein under different cellular conditions.	Inquiry
HLA-B*13:56:02N Genomic Plasmid Vector	PHLAG825103804	Plasmid vector containing HLA-B*13:56:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:56:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:56:02N protein under different cellular conditions.	Inquiry
HLA-B*13:57 Genomic Plasmid Vector	PHLAG825103805	Plasmid vector containing HLA-B*13:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:57 protein under different cellular conditions.	Inquiry

HLA-B*13:58 Genomic Plasmid Vector	PHLAG82510386	Plasmid vector containing HLA-B*13:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:58 protein under different cellular conditions.	Inquiry
HLA-B*13:59 Genomic Plasmid Vector	PHLAG82510387	Plasmid vector containing HLA-B*13:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:59 protein under different cellular conditions.	Inquiry
HLA-B*13:60 Genomic Plasmid Vector	PHLAG82510388	Plasmid vector containing HLA-B*13:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:60 protein under different cellular conditions.	Inquiry
HLA-B*13:61 Genomic Plasmid Vector	PHLAG82510389	Plasmid vector containing HLA-B*13:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:61 protein under different cellular conditions.	Inquiry
HLA-B*13:62 Genomic Plasmid Vector	PHLAG82510390	Plasmid vector containing HLA-B*13:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:62 protein under different cellular conditions.	Inquiry
HLA-B*13:63N Genomic Plasmid Vector	PHLAG82510391	Plasmid vector containing HLA-B*13:63N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:63N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:63N protein under different cellular conditions.	Inquiry
HLA-B*13:64 Genomic Plasmid Vector	PHLAG82510392	Plasmid vector containing HLA-B*13:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:64 protein under different cellular conditions.	Inquiry
HLA-B*13:65 Genomic Plasmid Vector	PHLAG82510393	Plasmid vector containing HLA-B*13:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:65 protein under different cellular conditions.	Inquiry
HLA-B*13:66 Genomic Plasmid Vector	PHLAG82510394	Plasmid vector containing HLA-B*13:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:66 protein under different cellular conditions.	Inquiry

HLA-B*13:67 Genomic Plasmid Vector	PHLAG82510395	Plasmid vector containing HLA-B*13:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:67 protein under different cellular conditions.	Inquiry
HLA-B*13:68 Genomic Plasmid Vector	PHLAG82510396	Plasmid vector containing HLA-B*13:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:68 protein under different cellular conditions.	Inquiry
HLA-B*13:69 Genomic Plasmid Vector	PHLAG82510397	Plasmid vector containing HLA-B*13:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:69 protein under different cellular conditions.	Inquiry
HLA-B*13:70 Genomic Plasmid Vector	PHLAG82510398	Plasmid vector containing HLA-B*13:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:70 protein under different cellular conditions.	Inquiry
HLA-B*13:71 Genomic Plasmid Vector	PHLAG82510399	Plasmid vector containing HLA-B*13:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:71 protein under different cellular conditions.	Inquiry
HLA-B*13:72 Genomic Plasmid Vector	PHLAG825104000	Plasmid vector containing HLA-B*13:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:72 protein under different cellular conditions.	Inquiry
HLA-B*13:73 Genomic Plasmid Vector	PHLAG825104001	Plasmid vector containing HLA-B*13:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:73 protein under different cellular conditions.	Inquiry
HLA-B*13:74 Genomic Plasmid Vector	PHLAG825104002	Plasmid vector containing HLA-B*13:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:74 protein under different cellular conditions.	Inquiry
HLA-B*13:75 Genomic Plasmid Vector	PHLAG825104003	Plasmid vector containing HLA-B*13:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:75 protein under different cellular conditions.	Inquiry

HLA-B*13:76N Genomic Plasmid Vector	PHLAG82510404	Plasmid vector containing HLA-B*13:76N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:76N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:76N protein under different cellular conditions.	Inquiry
HLA-B*13:77 Genomic Plasmid Vector	PHLAG82510405	Plasmid vector containing HLA-B*13:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:77 protein under different cellular conditions.	Inquiry
HLA-B*13:78 Genomic Plasmid Vector	PHLAG82510406	Plasmid vector containing HLA-B*13:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:78 protein under different cellular conditions.	Inquiry
HLA-B*13:79 Genomic Plasmid Vector	PHLAG82510407	Plasmid vector containing HLA-B*13:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:79 protein under different cellular conditions.	Inquiry
HLA-B*13:80 Genomic Plasmid Vector	PHLAG82510408	Plasmid vector containing HLA-B*13:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:80 protein under different cellular conditions.	Inquiry
HLA-B*13:81 Genomic Plasmid Vector	PHLAG82510409	Plasmid vector containing HLA-B*13:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:81 protein under different cellular conditions.	Inquiry
HLA-B*13:82 Genomic Plasmid Vector	PHLAG82510410	Plasmid vector containing HLA-B*13:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:82 protein under different cellular conditions.	Inquiry
HLA-B*13:83 Genomic Plasmid Vector	PHLAG82510411	Plasmid vector containing HLA-B*13:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:83 protein under different cellular conditions.	Inquiry
HLA-B*13:84 Genomic Plasmid Vector	PHLAG82510412	Plasmid vector containing HLA-B*13:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:84 protein under different cellular conditions.	Inquiry

HLA-B*13:85 Genomic Plasmid Vector	PHLAG82510413	Plasmid vector containing HLA-B*13:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:85 protein under different cellular conditions.	Inquiry
HLA-B*13:86 Genomic Plasmid Vector	PHLAG82510414	Plasmid vector containing HLA-B*13:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:86 protein under different cellular conditions.	Inquiry
HLA-B*13:87 Genomic Plasmid Vector	PHLAG82510415	Plasmid vector containing HLA-B*13:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:87 protein under different cellular conditions.	Inquiry
HLA-B*13:88 Genomic Plasmid Vector	PHLAG82510416	Plasmid vector containing HLA-B*13:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:88 protein under different cellular conditions.	Inquiry
HLA-B*13:89 Genomic Plasmid Vector	PHLAG82510417	Plasmid vector containing HLA-B*13:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:89 protein under different cellular conditions.	Inquiry
HLA-B*13:90 Genomic Plasmid Vector	PHLAG82510418	Plasmid vector containing HLA-B*13:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:90 protein under different cellular conditions.	Inquiry
HLA-B*13:91 Genomic Plasmid Vector	PHLAG82510419	Plasmid vector containing HLA-B*13:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:91 protein under different cellular conditions.	Inquiry
HLA-B*13:92 Genomic Plasmid Vector	PHLAG82510420	Plasmid vector containing HLA-B*13:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:92 protein under different cellular conditions.	Inquiry
HLA-B*13:93 Genomic Plasmid Vector	PHLAG82510421	Plasmid vector containing HLA-B*13:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:93 protein under different cellular conditions.	Inquiry

HLA-B*13:94 Genomic Plasmid Vector	PHLAG82510422	Plasmid vector containing HLA-B*13:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:94 protein under different cellular conditions.	Inquiry
HLA-B*13:95 Genomic Plasmid Vector	PHLAG82510423	Plasmid vector containing HLA-B*13:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:95 protein under different cellular conditions.	Inquiry
HLA-B*13:96 Genomic Plasmid Vector	PHLAG82510424	Plasmid vector containing HLA-B*13:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:96 protein under different cellular conditions.	Inquiry
HLA-B*13:97 Genomic Plasmid Vector	PHLAG82510425	Plasmid vector containing HLA-B*13:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:97 protein under different cellular conditions.	Inquiry
HLA-B*13:98 Genomic Plasmid Vector	PHLAG82510426	Plasmid vector containing HLA-B*13:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:98 protein under different cellular conditions.	Inquiry
HLA-B*13:99 Genomic Plasmid Vector	PHLAG82510427	Plasmid vector containing HLA-B*13:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*13:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*13:99 protein under different cellular conditions.	Inquiry
HLA-B*1305 Genomic Plasmid Vector	PHLAG82510428	Plasmid vector containing HLA-B*1305 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*1305 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*1305 protein under different cellular conditions.	Inquiry
HLA-B*1324 Genomic Plasmid Vector	PHLAG82510429	Plasmid vector containing HLA-B*1324 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*1324 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*1324 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:01 Genomic Plasmid Vector	PHLAG82510430	Plasmid vector containing HLA-B*14:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:01 protein under different cellular conditions.	Inquiry

HLA-B*14:01:01:02 Genomic Plasmid Vector	PHLAG82510431	Plasmid vector containing HLA-B*14:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:02 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:03 Genomic Plasmid Vector	PHLAG82510432	Plasmid vector containing HLA-B*14:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:03 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:04 Genomic Plasmid Vector	PHLAG82510433	Plasmid vector containing HLA-B*14:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:04 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:05 Genomic Plasmid Vector	PHLAG82510434	Plasmid vector containing HLA-B*14:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:05 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:06 Genomic Plasmid Vector	PHLAG82510435	Plasmid vector containing HLA-B*14:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:06 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:07 Genomic Plasmid Vector	PHLAG82510436	Plasmid vector containing HLA-B*14:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:07 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:08 Genomic Plasmid Vector	PHLAG82510437	Plasmid vector containing HLA-B*14:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:08 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:09 Genomic Plasmid Vector	PHLAG82510438	Plasmid vector containing HLA-B*14:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:09 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:10 Genomic Plasmid Vector	PHLAG82510439	Plasmid vector containing HLA-B*14:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:10 protein under different cellular conditions.	Inquiry

HLA-B*14:01:01:11 Genomic Plasmid Vector	PHLAG82510440	Plasmid vector containing HLA-B*14:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:11 protein under different cellular conditions.	Inquiry
HLA-B*14:01:01:12 Genomic Plasmid Vector	PHLAG82510441	Plasmid vector containing HLA-B*14:01:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:01:12 protein under different cellular conditions.	Inquiry
HLA-B*14:01:02 Genomic Plasmid Vector	PHLAG82510442	Plasmid vector containing HLA-B*14:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:02 protein under different cellular conditions.	Inquiry
HLA-B*14:01:03 Genomic Plasmid Vector	PHLAG82510443	Plasmid vector containing HLA-B*14:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:03 protein under different cellular conditions.	Inquiry
HLA-B*14:01:04 Genomic Plasmid Vector	PHLAG82510444	Plasmid vector containing HLA-B*14:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:04 protein under different cellular conditions.	Inquiry
HLA-B*14:01:05 Genomic Plasmid Vector	PHLAG82510445	Plasmid vector containing HLA-B*14:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:05 protein under different cellular conditions.	Inquiry
HLA-B*14:01:06 Genomic Plasmid Vector	PHLAG82510446	Plasmid vector containing HLA-B*14:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:06 protein under different cellular conditions.	Inquiry
HLA-B*14:01:07 Genomic Plasmid Vector	PHLAG82510447	Plasmid vector containing HLA-B*14:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:07 protein under different cellular conditions.	Inquiry
HLA-B*14:01:08 Genomic Plasmid Vector	PHLAG82510448	Plasmid vector containing HLA-B*14:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:08 protein under different cellular conditions.	Inquiry

HLA-B*14:01:09 Genomic Plasmid Vector	PHLAG82510449	Plasmid vector containing HLA-B*14:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:09 protein under different cellular conditions.	Inquiry
HLA-B*14:01:10 Genomic Plasmid Vector	PHLAG82510450	Plasmid vector containing HLA-B*14:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:10 protein under different cellular conditions.	Inquiry
HLA-B*14:01:11 Genomic Plasmid Vector	PHLAG82510451	Plasmid vector containing HLA-B*14:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:11 protein under different cellular conditions.	Inquiry
HLA-B*14:01:12 Genomic Plasmid Vector	PHLAG82510452	Plasmid vector containing HLA-B*14:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:12 protein under different cellular conditions.	Inquiry
HLA-B*14:01:13 Genomic Plasmid Vector	PHLAG82510453	Plasmid vector containing HLA-B*14:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:13 protein under different cellular conditions.	Inquiry
HLA-B*14:01:14 Genomic Plasmid Vector	PHLAG82510454	Plasmid vector containing HLA-B*14:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:14 protein under different cellular conditions.	Inquiry
HLA-B*14:01:15 Genomic Plasmid Vector	PHLAG82510455	Plasmid vector containing HLA-B*14:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:01:15 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:01 Genomic Plasmid Vector	PHLAG82510456	Plasmid vector containing HLA-B*14:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:01 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:02 Genomic Plasmid Vector	PHLAG82510457	Plasmid vector containing HLA-B*14:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:02 protein under different cellular conditions.	Inquiry

HLA-B*14:02:01:03 Genomic Plasmid Vector	PHLAG82510458	Plasmid vector containing HLA-B*14:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:03 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:04 Genomic Plasmid Vector	PHLAG82510459	Plasmid vector containing HLA-B*14:02:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:04 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:05 Genomic Plasmid Vector	PHLAG825104600	Plasmid vector containing HLA-B*14:02:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:05 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:06 Genomic Plasmid Vector	PHLAG825104601	Plasmid vector containing HLA-B*14:02:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:06 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:07 Genomic Plasmid Vector	PHLAG825104602	Plasmid vector containing HLA-B*14:02:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:07 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:08 Genomic Plasmid Vector	PHLAG825104603	Plasmid vector containing HLA-B*14:02:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:08 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:09 Genomic Plasmid Vector	PHLAG825104604	Plasmid vector containing HLA-B*14:02:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:09 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:10 Genomic Plasmid Vector	PHLAG825104605	Plasmid vector containing HLA-B*14:02:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:10 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:11 Genomic Plasmid Vector	PHLAG825104606	Plasmid vector containing HLA-B*14:02:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:11 protein under different cellular conditions.	Inquiry

HLA-B*14:02:01:12 Genomic Plasmid Vector	PHLAG82510467	Plasmid vector containing HLA-B*14:02:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:12 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:13 Genomic Plasmid Vector	PHLAG82510468	Plasmid vector containing HLA-B*14:02:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:13 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:14 Genomic Plasmid Vector	PHLAG82510469	Plasmid vector containing HLA-B*14:02:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:14 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:15 Genomic Plasmid Vector	PHLAG825104710	Plasmid vector containing HLA-B*14:02:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:15 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:16 Genomic Plasmid Vector	PHLAG825104711	Plasmid vector containing HLA-B*14:02:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:16 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:17 Genomic Plasmid Vector	PHLAG825104712	Plasmid vector containing HLA-B*14:02:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:17 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:18 Genomic Plasmid Vector	PHLAG825104713	Plasmid vector containing HLA-B*14:02:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:18 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:19 Genomic Plasmid Vector	PHLAG825104714	Plasmid vector containing HLA-B*14:02:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:19 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:20 Genomic Plasmid Vector	PHLAG825104715	Plasmid vector containing HLA-B*14:02:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:20 protein under different cellular conditions.	Inquiry

HLA-B*14:02:01:21 Genomic Plasmid Vector	PHLAG82510476	Plasmid vector containing HLA-B*14:02:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:21 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:22 Genomic Plasmid Vector	PHLAG82510477	Plasmid vector containing HLA-B*14:02:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:22 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:23 Genomic Plasmid Vector	PHLAG82510478	Plasmid vector containing HLA-B*14:02:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:23 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:24 Genomic Plasmid Vector	PHLAG82510479	Plasmid vector containing HLA-B*14:02:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:24 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:25Q Genomic Plasmid Vector	PHLAG82510480	Plasmid vector containing HLA-B*14:02:01:25Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:25Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:25Q protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:26 Genomic Plasmid Vector	PHLAG82510481	Plasmid vector containing HLA-B*14:02:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:26 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:27 Genomic Plasmid Vector	PHLAG82510482	Plasmid vector containing HLA-B*14:02:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:27 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:28 Genomic Plasmid Vector	PHLAG82510483	Plasmid vector containing HLA-B*14:02:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:28 protein under different cellular conditions.	Inquiry
HLA-B*14:02:01:29 Genomic Plasmid Vector	PHLAG82510484	Plasmid vector containing HLA-B*14:02:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:29 protein under different cellular conditions.	Inquiry

HLA-B*14:02:01:30 Genomic Plasmid Vector	PHLAG82510485	Plasmid vector containing HLA-B*14:02:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:01:30 protein under different cellular conditions.	Inquiry
HLA-B*14:02:02 Genomic Plasmid Vector	PHLAG82510486	Plasmid vector containing HLA-B*14:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:02 protein under different cellular conditions.	Inquiry
HLA-B*14:02:03 Genomic Plasmid Vector	PHLAG82510487	Plasmid vector containing HLA-B*14:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:03 protein under different cellular conditions.	Inquiry
HLA-B*14:02:04 Genomic Plasmid Vector	PHLAG82510488	Plasmid vector containing HLA-B*14:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:04 protein under different cellular conditions.	Inquiry
HLA-B*14:02:05 Genomic Plasmid Vector	PHLAG82510489	Plasmid vector containing HLA-B*14:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:05 protein under different cellular conditions.	Inquiry
HLA-B*14:02:06 Genomic Plasmid Vector	PHLAG82510490	Plasmid vector containing HLA-B*14:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:06 protein under different cellular conditions.	Inquiry
HLA-B*14:02:07 Genomic Plasmid Vector	PHLAG82510491	Plasmid vector containing HLA-B*14:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:07 protein under different cellular conditions.	Inquiry
HLA-B*14:02:08 Genomic Plasmid Vector	PHLAG82510492	Plasmid vector containing HLA-B*14:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:08 protein under different cellular conditions.	Inquiry
HLA-B*14:02:09 Genomic Plasmid Vector	PHLAG82510493	Plasmid vector containing HLA-B*14:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:09 protein under different cellular conditions.	Inquiry

HLA-B*14:02:10 Genomic Plasmid Vector	PHLAG82510494	Plasmid vector containing HLA-B*14:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:10 protein under different cellular conditions.	Inquiry
HLA-B*14:02:11 Genomic Plasmid Vector	PHLAG82510495	Plasmid vector containing HLA-B*14:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:11 protein under different cellular conditions.	Inquiry
HLA-B*14:02:12 Genomic Plasmid Vector	PHLAG82510496	Plasmid vector containing HLA-B*14:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:12 protein under different cellular conditions.	Inquiry
HLA-B*14:02:13 Genomic Plasmid Vector	PHLAG82510497	Plasmid vector containing HLA-B*14:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:13 protein under different cellular conditions.	Inquiry
HLA-B*14:02:14 Genomic Plasmid Vector	PHLAG82510498	Plasmid vector containing HLA-B*14:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:14 protein under different cellular conditions.	Inquiry
HLA-B*14:02:15 Genomic Plasmid Vector	PHLAG82510499	Plasmid vector containing HLA-B*14:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:15 protein under different cellular conditions.	Inquiry
HLA-B*14:02:16 Genomic Plasmid Vector	PHLAG825105000	Plasmid vector containing HLA-B*14:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:16 protein under different cellular conditions.	Inquiry
HLA-B*14:02:17 Genomic Plasmid Vector	PHLAG825105001	Plasmid vector containing HLA-B*14:02:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:17 protein under different cellular conditions.	Inquiry
HLA-B*14:02:18 Genomic Plasmid Vector	PHLAG825105002	Plasmid vector containing HLA-B*14:02:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:18 protein under different cellular conditions.	Inquiry

HLA-B*14:02:19 Genomic Plasmid Vector	PHLAG82510503	Plasmid vector containing HLA-B*14:02:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:19 protein under different cellular conditions.	Inquiry
HLA-B*14:02:20 Genomic Plasmid Vector	PHLAG82510504	Plasmid vector containing HLA-B*14:02:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:20 protein under different cellular conditions.	Inquiry
HLA-B*14:02:21 Genomic Plasmid Vector	PHLAG82510505	Plasmid vector containing HLA-B*14:02:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:21 protein under different cellular conditions.	Inquiry
HLA-B*14:02:22 Genomic Plasmid Vector	PHLAG82510506	Plasmid vector containing HLA-B*14:02:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:22 protein under different cellular conditions.	Inquiry
HLA-B*14:02:23 Genomic Plasmid Vector	PHLAG82510507	Plasmid vector containing HLA-B*14:02:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:23 protein under different cellular conditions.	Inquiry
HLA-B*14:02:24 Genomic Plasmid Vector	PHLAG82510508	Plasmid vector containing HLA-B*14:02:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:24 protein under different cellular conditions.	Inquiry
HLA-B*14:02:25 Genomic Plasmid Vector	PHLAG82510509	Plasmid vector containing HLA-B*14:02:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:25 protein under different cellular conditions.	Inquiry
HLA-B*14:02:26 Genomic Plasmid Vector	PHLAG825105110	Plasmid vector containing HLA-B*14:02:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:26 protein under different cellular conditions.	Inquiry
HLA-B*14:02:27 Genomic Plasmid Vector	PHLAG825105111	Plasmid vector containing HLA-B*14:02:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:27 protein under different cellular conditions.	Inquiry

HLA-B*14:02:28 Genomic Plasmid Vector	PHLAG82510512	Plasmid vector containing HLA-B*14:02:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:28 protein under different cellular conditions.	Inquiry
HLA-B*14:02:29 Genomic Plasmid Vector	PHLAG82510513	Plasmid vector containing HLA-B*14:02:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:29 protein under different cellular conditions.	Inquiry
HLA-B*14:02:30 Genomic Plasmid Vector	PHLAG82510514	Plasmid vector containing HLA-B*14:02:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:30 protein under different cellular conditions.	Inquiry
HLA-B*14:02:31:01 Genomic Plasmid Vector	PHLAG82510515	Plasmid vector containing HLA-B*14:02:31:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:31:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:31:01 protein under different cellular conditions.	Inquiry
HLA-B*14:02:31:02 Genomic Plasmid Vector	PHLAG82510516	Plasmid vector containing HLA-B*14:02:31:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:31:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:31:02 protein under different cellular conditions.	Inquiry
HLA-B*14:02:32 Genomic Plasmid Vector	PHLAG82510517	Plasmid vector containing HLA-B*14:02:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:32 protein under different cellular conditions.	Inquiry
HLA-B*14:02:33 Genomic Plasmid Vector	PHLAG82510518	Plasmid vector containing HLA-B*14:02:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:33 protein under different cellular conditions.	Inquiry
HLA-B*14:02:34 Genomic Plasmid Vector	PHLAG82510519	Plasmid vector containing HLA-B*14:02:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:02:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:02:34 protein under different cellular conditions.	Inquiry
HLA-B*14:03 Genomic Plasmid Vector	PHLAG82510520	Plasmid vector containing HLA-B*14:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:03 protein under different cellular conditions.	Inquiry

HLA-B*14:04 Genomic Plasmid Vector	PHLAG82510521	Plasmid vector containing HLA-B*14:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:04 protein under different cellular conditions.	Inquiry
HLA-B*14:05 Genomic Plasmid Vector	PHLAG82510522	Plasmid vector containing HLA-B*14:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:05 protein under different cellular conditions.	Inquiry
HLA-B*14:06:01 Genomic Plasmid Vector	PHLAG82510523	Plasmid vector containing HLA-B*14:06:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:06:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:06:01 protein under different cellular conditions.	Inquiry
HLA-B*14:06:02 Genomic Plasmid Vector	PHLAG82510524	Plasmid vector containing HLA-B*14:06:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:06:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:06:02 protein under different cellular conditions.	Inquiry
HLA-B*14:07N Genomic Plasmid Vector	PHLAG82510525	Plasmid vector containing HLA-B*14:07N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:07N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:07N protein under different cellular conditions.	Inquiry
HLA-B*14:08:01 Genomic Plasmid Vector	PHLAG82510526	Plasmid vector containing HLA-B*14:08:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:08:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:08:01 protein under different cellular conditions.	Inquiry
HLA-B*14:08:02 Genomic Plasmid Vector	PHLAG82510527	Plasmid vector containing HLA-B*14:08:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:08:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:08:02 protein under different cellular conditions.	Inquiry
HLA-B*14:09 Genomic Plasmid Vector	PHLAG82510528	Plasmid vector containing HLA-B*14:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:09 protein under different cellular conditions.	Inquiry
HLA-B*14:10 Genomic Plasmid Vector	PHLAG82510529	Plasmid vector containing HLA-B*14:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:10 protein under different cellular conditions.	Inquiry

HLA-B*14:100N Genomic Plasmid Vector	PHLAG82510530	Plasmid vector containing HLA-B*14:100N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:100N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:100N protein under different cellular conditions.	Inquiry
HLA-B*14:101N Genomic Plasmid Vector	PHLAG82510531	Plasmid vector containing HLA-B*14:101N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:101N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:101N protein under different cellular conditions.	Inquiry
HLA-B*14:102 Genomic Plasmid Vector	PHLAG82510532	Plasmid vector containing HLA-B*14:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:102 protein under different cellular conditions.	Inquiry
HLA-B*14:103 Genomic Plasmid Vector	PHLAG82510533	Plasmid vector containing HLA-B*14:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:103 protein under different cellular conditions.	Inquiry
HLA-B*14:104 Genomic Plasmid Vector	PHLAG82510534	Plasmid vector containing HLA-B*14:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:104 protein under different cellular conditions.	Inquiry
HLA-B*14:105 Genomic Plasmid Vector	PHLAG82510535	Plasmid vector containing HLA-B*14:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:105 protein under different cellular conditions.	Inquiry
HLA-B*14:106 Genomic Plasmid Vector	PHLAG82510536	Plasmid vector containing HLA-B*14:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:106 protein under different cellular conditions.	Inquiry
HLA-B*14:107 Genomic Plasmid Vector	PHLAG82510537	Plasmid vector containing HLA-B*14:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:107 protein under different cellular conditions.	Inquiry
HLA-B*14:108Q Genomic Plasmid Vector	PHLAG82510538	Plasmid vector containing HLA-B*14:108Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:108Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:108Q protein under different cellular conditions.	Inquiry

HLA-B*14:109 Genomic Plasmid Vector	PHLAG82510539	Plasmid vector containing HLA-B*14:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:109 protein under different cellular conditions.	Inquiry
HLA-B*14:11 Genomic Plasmid Vector	PHLAG825105400	Plasmid vector containing HLA-B*14:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:11 protein under different cellular conditions.	Inquiry
HLA-B*14:110 Genomic Plasmid Vector	PHLAG825105401	Plasmid vector containing HLA-B*14:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:110 protein under different cellular conditions.	Inquiry
HLA-B*14:111 Genomic Plasmid Vector	PHLAG825105402	Plasmid vector containing HLA-B*14:111 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:111 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:111 protein under different cellular conditions.	Inquiry
HLA-B*14:112 Genomic Plasmid Vector	PHLAG825105403	Plasmid vector containing HLA-B*14:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:112 protein under different cellular conditions.	Inquiry
HLA-B*14:113N Genomic Plasmid Vector	PHLAG825105404	Plasmid vector containing HLA-B*14:113N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:113N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:113N protein under different cellular conditions.	Inquiry
HLA-B*14:114 Genomic Plasmid Vector	PHLAG825105405	Plasmid vector containing HLA-B*14:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:114 protein under different cellular conditions.	Inquiry
HLA-B*14:115 Genomic Plasmid Vector	PHLAG825105406	Plasmid vector containing HLA-B*14:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:115 protein under different cellular conditions.	Inquiry
HLA-B*14:116 Genomic Plasmid Vector	PHLAG825105407	Plasmid vector containing HLA-B*14:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:116 protein under different cellular conditions.	Inquiry

HLA-B*14:117 Genomic Plasmid Vector	PHLAG82510548	Plasmid vector containing HLA-B*14:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:117 protein under different cellular conditions.	Inquiry
HLA-B*14:118 Genomic Plasmid Vector	PHLAG82510549	Plasmid vector containing HLA-B*14:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:118 protein under different cellular conditions.	Inquiry
HLA-B*14:119 Genomic Plasmid Vector	PHLAG82510550	Plasmid vector containing HLA-B*14:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:119 protein under different cellular conditions.	Inquiry
HLA-B*14:12 Genomic Plasmid Vector	PHLAG82510551	Plasmid vector containing HLA-B*14:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:12 protein under different cellular conditions.	Inquiry
HLA-B*14:120 Genomic Plasmid Vector	PHLAG82510552	Plasmid vector containing HLA-B*14:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:120 protein under different cellular conditions.	Inquiry
HLA-B*14:121 Genomic Plasmid Vector	PHLAG82510553	Plasmid vector containing HLA-B*14:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:121 protein under different cellular conditions.	Inquiry
HLA-B*14:122 Genomic Plasmid Vector	PHLAG82510554	Plasmid vector containing HLA-B*14:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:122 protein under different cellular conditions.	Inquiry
HLA-B*14:123 Genomic Plasmid Vector	PHLAG82510555	Plasmid vector containing HLA-B*14:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:123 protein under different cellular conditions.	Inquiry
HLA-B*14:124 Genomic Plasmid Vector	PHLAG82510556	Plasmid vector containing HLA-B*14:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:124 protein under different cellular conditions.	Inquiry

HLA-B*14:125 Genomic Plasmid Vector	PHLAG82510557	Plasmid vector containing HLA-B*14:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:125 protein under different cellular conditions.	Inquiry
HLA-B*14:126 Genomic Plasmid Vector	PHLAG82510558	Plasmid vector containing HLA-B*14:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:126 protein under different cellular conditions.	Inquiry
HLA-B*14:127 Genomic Plasmid Vector	PHLAG82510559	Plasmid vector containing HLA-B*14:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:127 protein under different cellular conditions.	Inquiry
HLA-B*14:128 Genomic Plasmid Vector	PHLAG82510560	Plasmid vector containing HLA-B*14:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:128 protein under different cellular conditions.	Inquiry
HLA-B*14:129 Genomic Plasmid Vector	PHLAG82510561	Plasmid vector containing HLA-B*14:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:129 protein under different cellular conditions.	Inquiry
HLA-B*14:13 Genomic Plasmid Vector	PHLAG82510562	Plasmid vector containing HLA-B*14:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:13 protein under different cellular conditions.	Inquiry
HLA-B*14:130 Genomic Plasmid Vector	PHLAG82510563	Plasmid vector containing HLA-B*14:130 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:130 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:130 protein under different cellular conditions.	Inquiry
HLA-B*14:131N Genomic Plasmid Vector	PHLAG82510564	Plasmid vector containing HLA-B*14:131N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:131N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:131N protein under different cellular conditions.	Inquiry
HLA-B*14:132 Genomic Plasmid Vector	PHLAG82510565	Plasmid vector containing HLA-B*14:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:132 protein under different cellular conditions.	Inquiry

HLA-B*14:133 Genomic Plasmid Vector	PHLAG82510566	Plasmid vector containing HLA-B*14:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:133 protein under different cellular conditions.	Inquiry
HLA-B*14:134 Genomic Plasmid Vector	PHLAG82510567	Plasmid vector containing HLA-B*14:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:134 protein under different cellular conditions.	Inquiry
HLA-B*14:135 Genomic Plasmid Vector	PHLAG82510568	Plasmid vector containing HLA-B*14:135 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:135 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:135 protein under different cellular conditions.	Inquiry
HLA-B*14:136 Genomic Plasmid Vector	PHLAG82510569	Plasmid vector containing HLA-B*14:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:136 protein under different cellular conditions.	Inquiry
HLA-B*14:137 Genomic Plasmid Vector	PHLAG82510570	Plasmid vector containing HLA-B*14:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:137 protein under different cellular conditions.	Inquiry
HLA-B*14:138 Genomic Plasmid Vector	PHLAG82510571	Plasmid vector containing HLA-B*14:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:138 protein under different cellular conditions.	Inquiry
HLA-B*14:139N Genomic Plasmid Vector	PHLAG82510572	Plasmid vector containing HLA-B*14:139N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:139N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:139N protein under different cellular conditions.	Inquiry
HLA-B*14:14 Genomic Plasmid Vector	PHLAG82510573	Plasmid vector containing HLA-B*14:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:14 protein under different cellular conditions.	Inquiry
HLA-B*14:15 Genomic Plasmid Vector	PHLAG82510574	Plasmid vector containing HLA-B*14:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:15 protein under different cellular conditions.	Inquiry

HLA-B*14:16 Genomic Plasmid Vector	PHLAG82510575	Plasmid vector containing HLA-B*14:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:16 protein under different cellular conditions.	Inquiry
HLA-B*14:17 Genomic Plasmid Vector	PHLAG82510576	Plasmid vector containing HLA-B*14:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:17 protein under different cellular conditions.	Inquiry
HLA-B*14:18 Genomic Plasmid Vector	PHLAG82510577	Plasmid vector containing HLA-B*14:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:18 protein under different cellular conditions.	Inquiry
HLA-B*14:19 Genomic Plasmid Vector	PHLAG82510578	Plasmid vector containing HLA-B*14:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:19 protein under different cellular conditions.	Inquiry
HLA-B*14:20 Genomic Plasmid Vector	PHLAG82510579	Plasmid vector containing HLA-B*14:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:20 protein under different cellular conditions.	Inquiry
HLA-B*14:21:01 Genomic Plasmid Vector	PHLAG825105810	Plasmid vector containing HLA-B*14:21:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:21:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:21:01 protein under different cellular conditions.	Inquiry
HLA-B*14:21:02 Genomic Plasmid Vector	PHLAG825105811	Plasmid vector containing HLA-B*14:21:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:21:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:21:02 protein under different cellular conditions.	Inquiry
HLA-B*14:22 Genomic Plasmid Vector	PHLAG825105812	Plasmid vector containing HLA-B*14:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:22 protein under different cellular conditions.	Inquiry
HLA-B*14:23 Genomic Plasmid Vector	PHLAG825105813	Plasmid vector containing HLA-B*14:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:23 protein under different cellular conditions.	Inquiry

HLA-B*14:24 Genomic Plasmid Vector	PHLAG82510584	Plasmid vector containing HLA-B*14:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:24 protein under different cellular conditions.	Inquiry
HLA-B*14:25 Genomic Plasmid Vector	PHLAG82510585	Plasmid vector containing HLA-B*14:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:25 protein under different cellular conditions.	Inquiry
HLA-B*14:26 Genomic Plasmid Vector	PHLAG82510586	Plasmid vector containing HLA-B*14:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:26 protein under different cellular conditions.	Inquiry
HLA-B*14:27 Genomic Plasmid Vector	PHLAG82510587	Plasmid vector containing HLA-B*14:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:27 protein under different cellular conditions.	Inquiry
HLA-B*14:28 Genomic Plasmid Vector	PHLAG82510588	Plasmid vector containing HLA-B*14:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:28 protein under different cellular conditions.	Inquiry
HLA-B*14:29 Genomic Plasmid Vector	PHLAG82510589	Plasmid vector containing HLA-B*14:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:29 protein under different cellular conditions.	Inquiry
HLA-B*14:30 Genomic Plasmid Vector	PHLAG825105910	Plasmid vector containing HLA-B*14:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:30 protein under different cellular conditions.	Inquiry
HLA-B*14:31 Genomic Plasmid Vector	PHLAG825105911	Plasmid vector containing HLA-B*14:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:31 protein under different cellular conditions.	Inquiry
HLA-B*14:32 Genomic Plasmid Vector	PHLAG825105912	Plasmid vector containing HLA-B*14:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:32 protein under different cellular conditions.	Inquiry

HLA-B*14:33 Genomic Plasmid Vector	PHLAG82510593	Plasmid vector containing HLA-B*14:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:33 protein under different cellular conditions.	Inquiry
HLA-B*14:34 Genomic Plasmid Vector	PHLAG82510594	Plasmid vector containing HLA-B*14:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:34 protein under different cellular conditions.	Inquiry
HLA-B*14:35 Genomic Plasmid Vector	PHLAG82510595	Plasmid vector containing HLA-B*14:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:35 protein under different cellular conditions.	Inquiry
HLA-B*14:36 Genomic Plasmid Vector	PHLAG82510596	Plasmid vector containing HLA-B*14:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:36 protein under different cellular conditions.	Inquiry
HLA-B*14:37 Genomic Plasmid Vector	PHLAG82510597	Plasmid vector containing HLA-B*14:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:37 protein under different cellular conditions.	Inquiry
HLA-B*14:38 Genomic Plasmid Vector	PHLAG82510598	Plasmid vector containing HLA-B*14:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:38 protein under different cellular conditions.	Inquiry
HLA-B*14:39 Genomic Plasmid Vector	PHLAG82510599	Plasmid vector containing HLA-B*14:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:39 protein under different cellular conditions.	Inquiry
HLA-B*14:40 Genomic Plasmid Vector	PHLAG825106000	Plasmid vector containing HLA-B*14:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:40 protein under different cellular conditions.	Inquiry
HLA-B*14:41N Genomic Plasmid Vector	PHLAG825106001	Plasmid vector containing HLA-B*14:41N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:41N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:41N protein under different cellular conditions.	Inquiry

HLA-B*14:42:01 Genomic Plasmid Vector	PHLAG82510602	Plasmid vector containing HLA-B*14:42:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:42:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:42:01 protein under different cellular conditions.	Inquiry
HLA-B*14:42:02 Genomic Plasmid Vector	PHLAG82510603	Plasmid vector containing HLA-B*14:42:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:42:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:42:02 protein under different cellular conditions.	Inquiry
HLA-B*14:43 Genomic Plasmid Vector	PHLAG82510604	Plasmid vector containing HLA-B*14:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:43 protein under different cellular conditions.	Inquiry
HLA-B*14:44 Genomic Plasmid Vector	PHLAG82510605	Plasmid vector containing HLA-B*14:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:44 protein under different cellular conditions.	Inquiry
HLA-B*14:45 Genomic Plasmid Vector	PHLAG82510606	Plasmid vector containing HLA-B*14:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:45 protein under different cellular conditions.	Inquiry
HLA-B*14:46 Genomic Plasmid Vector	PHLAG82510607	Plasmid vector containing HLA-B*14:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:46 protein under different cellular conditions.	Inquiry
HLA-B*14:47 Genomic Plasmid Vector	PHLAG82510608	Plasmid vector containing HLA-B*14:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:47 protein under different cellular conditions.	Inquiry
HLA-B*14:48 Genomic Plasmid Vector	PHLAG82510609	Plasmid vector containing HLA-B*14:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:48 protein under different cellular conditions.	Inquiry
HLA-B*14:49 Genomic Plasmid Vector	PHLAG82510610	Plasmid vector containing HLA-B*14:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:49 protein under different cellular conditions.	Inquiry

HLA-B*14:50 Genomic Plasmid Vector	PHLAG82510611	Plasmid vector containing HLA-B*14:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:50 protein under different cellular conditions.	Inquiry
HLA-B*14:51 Genomic Plasmid Vector	PHLAG82510612	Plasmid vector containing HLA-B*14:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:51 protein under different cellular conditions.	Inquiry
HLA-B*14:52 Genomic Plasmid Vector	PHLAG82510613	Plasmid vector containing HLA-B*14:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:52 protein under different cellular conditions.	Inquiry
HLA-B*14:53 Genomic Plasmid Vector	PHLAG82510614	Plasmid vector containing HLA-B*14:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:53 protein under different cellular conditions.	Inquiry
HLA-B*14:54 Genomic Plasmid Vector	PHLAG82510615	Plasmid vector containing HLA-B*14:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:54 protein under different cellular conditions.	Inquiry
HLA-B*14:55 Genomic Plasmid Vector	PHLAG82510616	Plasmid vector containing HLA-B*14:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:55 protein under different cellular conditions.	Inquiry
HLA-B*14:56 Genomic Plasmid Vector	PHLAG82510617	Plasmid vector containing HLA-B*14:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:56 protein under different cellular conditions.	Inquiry
HLA-B*14:57 Genomic Plasmid Vector	PHLAG82510618	Plasmid vector containing HLA-B*14:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:57 protein under different cellular conditions.	Inquiry
HLA-B*14:58 Genomic Plasmid Vector	PHLAG82510619	Plasmid vector containing HLA-B*14:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:58 protein under different cellular conditions.	Inquiry

HLA-B*14:59 Genomic Plasmid Vector	PHLAG82510620	Plasmid vector containing HLA-B*14:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:59 protein under different cellular conditions.	Inquiry
HLA-B*14:60 Genomic Plasmid Vector	PHLAG82510621	Plasmid vector containing HLA-B*14:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:60 protein under different cellular conditions.	Inquiry
HLA-B*14:61 Genomic Plasmid Vector	PHLAG82510622	Plasmid vector containing HLA-B*14:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:61 protein under different cellular conditions.	Inquiry
HLA-B*14:62 Genomic Plasmid Vector	PHLAG82510623	Plasmid vector containing HLA-B*14:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:62 protein under different cellular conditions.	Inquiry
HLA-B*14:63 Genomic Plasmid Vector	PHLAG82510624	Plasmid vector containing HLA-B*14:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:63 protein under different cellular conditions.	Inquiry
HLA-B*14:64 Genomic Plasmid Vector	PHLAG82510625	Plasmid vector containing HLA-B*14:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:64 protein under different cellular conditions.	Inquiry
HLA-B*14:65 Genomic Plasmid Vector	PHLAG82510626	Plasmid vector containing HLA-B*14:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:65 protein under different cellular conditions.	Inquiry
HLA-B*14:66 Genomic Plasmid Vector	PHLAG82510627	Plasmid vector containing HLA-B*14:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:66 protein under different cellular conditions.	Inquiry
HLA-B*14:67 Genomic Plasmid Vector	PHLAG82510628	Plasmid vector containing HLA-B*14:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:67 protein under different cellular conditions.	Inquiry

HLA-B*14:68 Genomic Plasmid Vector	PHLAG82510629	Plasmid vector containing HLA-B*14:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:68 protein under different cellular conditions.	Inquiry
HLA-B*14:69N Genomic Plasmid Vector	PHLAG825106330	Plasmid vector containing HLA-B*14:69N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:69N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:69N protein under different cellular conditions.	Inquiry
HLA-B*14:70Q Genomic Plasmid Vector	PHLAG825106331	Plasmid vector containing HLA-B*14:70Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:70Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:70Q protein under different cellular conditions.	Inquiry
HLA-B*14:71 Genomic Plasmid Vector	PHLAG825106332	Plasmid vector containing HLA-B*14:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:71 protein under different cellular conditions.	Inquiry
HLA-B*14:72N Genomic Plasmid Vector	PHLAG825106333	Plasmid vector containing HLA-B*14:72N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:72N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:72N protein under different cellular conditions.	Inquiry
HLA-B*14:73 Genomic Plasmid Vector	PHLAG825106334	Plasmid vector containing HLA-B*14:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:73 protein under different cellular conditions.	Inquiry
HLA-B*14:74 Genomic Plasmid Vector	PHLAG825106335	Plasmid vector containing HLA-B*14:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:74 protein under different cellular conditions.	Inquiry
HLA-B*14:75 Genomic Plasmid Vector	PHLAG825106336	Plasmid vector containing HLA-B*14:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:75 protein under different cellular conditions.	Inquiry
HLA-B*14:76N Genomic Plasmid Vector	PHLAG825106337	Plasmid vector containing HLA-B*14:76N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:76N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:76N protein under different cellular conditions.	Inquiry

HLA-B*14:77 Genomic Plasmid Vector	PHLAG82510638	Plasmid vector containing HLA-B*14:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:77 protein under different cellular conditions.	Inquiry
HLA-B*14:78 Genomic Plasmid Vector	PHLAG82510639	Plasmid vector containing HLA-B*14:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:78 protein under different cellular conditions.	Inquiry
HLA-B*14:79N Genomic Plasmid Vector	PHLAG82510640	Plasmid vector containing HLA-B*14:79N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:79N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:79N protein under different cellular conditions.	Inquiry
HLA-B*14:80 Genomic Plasmid Vector	PHLAG82510641	Plasmid vector containing HLA-B*14:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:80 protein under different cellular conditions.	Inquiry
HLA-B*14:81 Genomic Plasmid Vector	PHLAG82510642	Plasmid vector containing HLA-B*14:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:81 protein under different cellular conditions.	Inquiry
HLA-B*14:82 Genomic Plasmid Vector	PHLAG82510643	Plasmid vector containing HLA-B*14:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:82 protein under different cellular conditions.	Inquiry
HLA-B*14:83 Genomic Plasmid Vector	PHLAG82510644	Plasmid vector containing HLA-B*14:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:83 protein under different cellular conditions.	Inquiry
HLA-B*14:84 Genomic Plasmid Vector	PHLAG82510645	Plasmid vector containing HLA-B*14:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:84 protein under different cellular conditions.	Inquiry
HLA-B*14:85N Genomic Plasmid Vector	PHLAG82510646	Plasmid vector containing HLA-B*14:85N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:85N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:85N protein under different cellular conditions.	Inquiry

HLA-B*14:86 Genomic Plasmid Vector	PHLAG82510647	Plasmid vector containing HLA-B*14:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:86 protein under different cellular conditions.	Inquiry
HLA-B*14:87 Genomic Plasmid Vector	PHLAG82510648	Plasmid vector containing HLA-B*14:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:87 protein under different cellular conditions.	Inquiry
HLA-B*14:88 Genomic Plasmid Vector	PHLAG82510649	Plasmid vector containing HLA-B*14:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:88 protein under different cellular conditions.	Inquiry
HLA-B*14:89 Genomic Plasmid Vector	PHLAG825106510	Plasmid vector containing HLA-B*14:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:89 protein under different cellular conditions.	Inquiry
HLA-B*14:90 Genomic Plasmid Vector	PHLAG825106511	Plasmid vector containing HLA-B*14:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:90 protein under different cellular conditions.	Inquiry
HLA-B*14:91 Genomic Plasmid Vector	PHLAG825106512	Plasmid vector containing HLA-B*14:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:91 protein under different cellular conditions.	Inquiry
HLA-B*14:92 Genomic Plasmid Vector	PHLAG825106513	Plasmid vector containing HLA-B*14:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:92 protein under different cellular conditions.	Inquiry
HLA-B*14:93 Genomic Plasmid Vector	PHLAG825106514	Plasmid vector containing HLA-B*14:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:93 protein under different cellular conditions.	Inquiry
HLA-B*14:94 Genomic Plasmid Vector	PHLAG825106515	Plasmid vector containing HLA-B*14:94 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:94 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:94 protein under different cellular conditions.	Inquiry

HLA-B*14:95 Genomic Plasmid Vector	PHLAG82510656	Plasmid vector containing HLA-B*14:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:95 protein under different cellular conditions.	Inquiry
HLA-B*14:96 Genomic Plasmid Vector	PHLAG82510657	Plasmid vector containing HLA-B*14:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:96 protein under different cellular conditions.	Inquiry
HLA-B*14:97 Genomic Plasmid Vector	PHLAG82510658	Plasmid vector containing HLA-B*14:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:97 protein under different cellular conditions.	Inquiry
HLA-B*14:98 Genomic Plasmid Vector	PHLAG82510659	Plasmid vector containing HLA-B*14:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:98 protein under different cellular conditions.	Inquiry
HLA-B*14:99 Genomic Plasmid Vector	PHLAG82510660	Plasmid vector containing HLA-B*14:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*14:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*14:99 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:01 Genomic Plasmid Vector	PHLAG82510661	Plasmid vector containing HLA-B*15:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:02N Genomic Plasmid Vector	PHLAG82510662	Plasmid vector containing HLA-B*15:01:01:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:02N protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:03 Genomic Plasmid Vector	PHLAG82510663	Plasmid vector containing HLA-B*15:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:04 Genomic Plasmid Vector	PHLAG82510664	Plasmid vector containing HLA-B*15:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:04 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:05 Genomic Plasmid Vector	PHLAG82510665	Plasmid vector containing HLA-B*15:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:06 Genomic Plasmid Vector	PHLAG82510666	Plasmid vector containing HLA-B*15:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:07 Genomic Plasmid Vector	PHLAG82510667	Plasmid vector containing HLA-B*15:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:08 Genomic Plasmid Vector	PHLAG82510668	Plasmid vector containing HLA-B*15:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:09 Genomic Plasmid Vector	PHLAG82510669	Plasmid vector containing HLA-B*15:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:09 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:10 Genomic Plasmid Vector	PHLAG82510670	Plasmid vector containing HLA-B*15:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:10 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:11 Genomic Plasmid Vector	PHLAG82510671	Plasmid vector containing HLA-B*15:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:11 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:12 Genomic Plasmid Vector	PHLAG82510672	Plasmid vector containing HLA-B*15:01:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:12 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:13 Genomic Plasmid Vector	PHLAG82510673	Plasmid vector containing HLA-B*15:01:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:13 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:14 Genomic Plasmid Vector	PHLAG82510674	Plasmid vector containing HLA-B*15:01:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:14 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:15 Genomic Plasmid Vector	PHLAG82510675	Plasmid vector containing HLA-B*15:01:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:15 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:16 Genomic Plasmid Vector	PHLAG82510676	Plasmid vector containing HLA-B*15:01:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:16 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:17 Genomic Plasmid Vector	PHLAG82510677	Plasmid vector containing HLA-B*15:01:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:17 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:18 Genomic Plasmid Vector	PHLAG82510678	Plasmid vector containing HLA-B*15:01:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:18 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:19 Genomic Plasmid Vector	PHLAG82510679	Plasmid vector containing HLA-B*15:01:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:19 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:20 Genomic Plasmid Vector	PHLAG82510680	Plasmid vector containing HLA-B*15:01:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:20 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:21 Genomic Plasmid Vector	PHLAG82510681	Plasmid vector containing HLA-B*15:01:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:21 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:22 Genomic Plasmid Vector	PHLAG82510682	Plasmid vector containing HLA-B*15:01:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:22 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:23 Genomic Plasmid Vector	PHLAG82510683	Plasmid vector containing HLA-B*15:01:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:23 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:24 Genomic Plasmid Vector	PHLAG82510684	Plasmid vector containing HLA-B*15:01:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:24 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:25 Genomic Plasmid Vector	PHLAG82510685	Plasmid vector containing HLA-B*15:01:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:25 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:26 Genomic Plasmid Vector	PHLAG82510686	Plasmid vector containing HLA-B*15:01:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:26 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:27 Genomic Plasmid Vector	PHLAG82510687	Plasmid vector containing HLA-B*15:01:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:27 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:28 Genomic Plasmid Vector	PHLAG82510688	Plasmid vector containing HLA-B*15:01:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:28 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:29 Genomic Plasmid Vector	PHLAG82510689	Plasmid vector containing HLA-B*15:01:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:29 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:30 Genomic Plasmid Vector	PHLAG82510690	Plasmid vector containing HLA-B*15:01:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:30 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:31 Genomic Plasmid Vector	PHLAG82510691	Plasmid vector containing HLA-B*15:01:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:31 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:32 Genomic Plasmid Vector	PHLAG82510692	Plasmid vector containing HLA-B*15:01:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:32 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:33 Genomic Plasmid Vector	PHLAG82510693	Plasmid vector containing HLA-B*15:01:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:33 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:34 Genomic Plasmid Vector	PHLAG82510694	Plasmid vector containing HLA-B*15:01:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:34 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:35 Genomic Plasmid Vector	PHLAG82510695	Plasmid vector containing HLA-B*15:01:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:35 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:36 Genomic Plasmid Vector	PHLAG82510696	Plasmid vector containing HLA-B*15:01:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:36 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:37 Genomic Plasmid Vector	PHLAG82510697	Plasmid vector containing HLA-B*15:01:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:37 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:38 Genomic Plasmid Vector	PHLAG82510698	Plasmid vector containing HLA-B*15:01:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:38 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:39Q Genomic Plasmid Vector	PHLAG82510699	Plasmid vector containing HLA-B*15:01:01:39Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:39Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:39Q protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:40 Genomic Plasmid Vector	PHLAG82510700	Plasmid vector containing HLA-B*15:01:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:40 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:41 Genomic Plasmid Vector	PHLAG82510701	Plasmid vector containing HLA-B*15:01:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:41 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:42 Genomic Plasmid Vector	PHLAG82510702	Plasmid vector containing HLA-B*15:01:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:42 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:43 Genomic Plasmid Vector	PHLAG82510703	Plasmid vector containing HLA-B*15:01:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:43 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:44 Genomic Plasmid Vector	PHLAG82510704	Plasmid vector containing HLA-B*15:01:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:44 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:45 Genomic Plasmid Vector	PHLAG82510705	Plasmid vector containing HLA-B*15:01:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:45 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:46 Genomic Plasmid Vector	PHLAG82510706	Plasmid vector containing HLA-B*15:01:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:46 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:47 Genomic Plasmid Vector	PHLAG82510707	Plasmid vector containing HLA-B*15:01:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:47 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:48 Genomic Plasmid Vector	PHLAG82510708	Plasmid vector containing HLA-B*15:01:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:48 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:49 Genomic Plasmid Vector	PHLAG82510709	Plasmid vector containing HLA-B*15:01:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:49 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:50 Genomic Plasmid Vector	PHLAG82510710	Plasmid vector containing HLA-B*15:01:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:50 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:51 Genomic Plasmid Vector	PHLAG82510711	Plasmid vector containing HLA-B*15:01:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:51 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:52 Genomic Plasmid Vector	PHLAG82510712	Plasmid vector containing HLA-B*15:01:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:52 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:53 Genomic Plasmid Vector	PHLAG82510713	Plasmid vector containing HLA-B*15:01:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:53 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:54 Genomic Plasmid Vector	PHLAG82510714	Plasmid vector containing HLA-B*15:01:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:54 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:55 Genomic Plasmid Vector	PHLAG82510715	Plasmid vector containing HLA-B*15:01:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:55 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:56 Genomic Plasmid Vector	PHLAG82510716	Plasmid vector containing HLA-B*15:01:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:56 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:57 Genomic Plasmid Vector	PHLAG82510717	Plasmid vector containing HLA-B*15:01:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:57 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:58 Genomic Plasmid Vector	PHLAG82510718	Plasmid vector containing HLA-B*15:01:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:58 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:59 Genomic Plasmid Vector	PHLAG82510719	Plasmid vector containing HLA-B*15:01:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:59 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:60 Genomic Plasmid Vector	PHLAG825107220	Plasmid vector containing HLA-B*15:01:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:60 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:61 Genomic Plasmid Vector	PHLAG825107221	Plasmid vector containing HLA-B*15:01:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:61 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:62 Genomic Plasmid Vector	PHLAG825107222	Plasmid vector containing HLA-B*15:01:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:62 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:63 Genomic Plasmid Vector	PHLAG825107223	Plasmid vector containing HLA-B*15:01:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:63 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:64 Genomic Plasmid Vector	PHLAG825107224	Plasmid vector containing HLA-B*15:01:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:64 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:65Q Genomic Plasmid Vector	PHLAG825107225	Plasmid vector containing HLA-B*15:01:01:65Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:65Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:65Q protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:66 Genomic Plasmid Vector	PHLAG825107226	Plasmid vector containing HLA-B*15:01:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:66 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:67 Genomic Plasmid Vector	PHLAG825107227	Plasmid vector containing HLA-B*15:01:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:67 protein under different cellular conditions.	Inquiry

HLA-B*15:01:01:68 Genomic Plasmid Vector	PHLAG82510728	Plasmid vector containing HLA-B*15:01:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:68 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:69 Genomic Plasmid Vector	PHLAG82510729	Plasmid vector containing HLA-B*15:01:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:69 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:70 Genomic Plasmid Vector	PHLAG82510730	Plasmid vector containing HLA-B*15:01:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:70 protein under different cellular conditions.	Inquiry
HLA-B*15:01:01:71Q Genomic Plasmid Vector	PHLAG82510731	Plasmid vector containing HLA-B*15:01:01:71Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:01:71Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:01:71Q protein under different cellular conditions.	Inquiry
HLA-B*15:01:02 Genomic Plasmid Vector	PHLAG82510732	Plasmid vector containing HLA-B*15:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:01:03 Genomic Plasmid Vector	PHLAG82510733	Plasmid vector containing HLA-B*15:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:01:04 Genomic Plasmid Vector	PHLAG82510734	Plasmid vector containing HLA-B*15:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:01:06 Genomic Plasmid Vector	PHLAG82510735	Plasmid vector containing HLA-B*15:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:01:07 Genomic Plasmid Vector	PHLAG82510736	Plasmid vector containing HLA-B*15:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:07 protein under different cellular conditions.	Inquiry

HLA-B*15:01:08 Genomic Plasmid Vector	PHLAG82510737	Plasmid vector containing HLA-B*15:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:01:09 Genomic Plasmid Vector	PHLAG82510738	Plasmid vector containing HLA-B*15:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:09 protein under different cellular conditions.	Inquiry
HLA-B*15:01:10 Genomic Plasmid Vector	PHLAG82510739	Plasmid vector containing HLA-B*15:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:10 protein under different cellular conditions.	Inquiry
HLA-B*15:01:11 Genomic Plasmid Vector	PHLAG82510740	Plasmid vector containing HLA-B*15:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:11 protein under different cellular conditions.	Inquiry
HLA-B*15:01:12 Genomic Plasmid Vector	PHLAG82510741	Plasmid vector containing HLA-B*15:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:12 protein under different cellular conditions.	Inquiry
HLA-B*15:01:13 Genomic Plasmid Vector	PHLAG82510742	Plasmid vector containing HLA-B*15:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:13 protein under different cellular conditions.	Inquiry
HLA-B*15:01:14 Genomic Plasmid Vector	PHLAG82510743	Plasmid vector containing HLA-B*15:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:14 protein under different cellular conditions.	Inquiry
HLA-B*15:01:15 Genomic Plasmid Vector	PHLAG82510744	Plasmid vector containing HLA-B*15:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:15 protein under different cellular conditions.	Inquiry
HLA-B*15:01:16 Genomic Plasmid Vector	PHLAG82510745	Plasmid vector containing HLA-B*15:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:16 protein under different cellular conditions.	Inquiry

HLA-B*15:01:17 Genomic Plasmid Vector	PHLAG82510746	Plasmid vector containing HLA-B*15:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:17 protein under different cellular conditions.	Inquiry
HLA-B*15:01:18 Genomic Plasmid Vector	PHLAG82510747	Plasmid vector containing HLA-B*15:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:18 protein under different cellular conditions.	Inquiry
HLA-B*15:01:19 Genomic Plasmid Vector	PHLAG82510748	Plasmid vector containing HLA-B*15:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:19 protein under different cellular conditions.	Inquiry
HLA-B*15:01:20 Genomic Plasmid Vector	PHLAG82510749	Plasmid vector containing HLA-B*15:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:20 protein under different cellular conditions.	Inquiry
HLA-B*15:01:21 Genomic Plasmid Vector	PHLAG82510750	Plasmid vector containing HLA-B*15:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:21 protein under different cellular conditions.	Inquiry
HLA-B*15:01:22 Genomic Plasmid Vector	PHLAG82510751	Plasmid vector containing HLA-B*15:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:22 protein under different cellular conditions.	Inquiry
HLA-B*15:01:23 Genomic Plasmid Vector	PHLAG82510752	Plasmid vector containing HLA-B*15:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:23 protein under different cellular conditions.	Inquiry
HLA-B*15:01:24 Genomic Plasmid Vector	PHLAG82510753	Plasmid vector containing HLA-B*15:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:24 protein under different cellular conditions.	Inquiry
HLA-B*15:01:25 Genomic Plasmid Vector	PHLAG82510754	Plasmid vector containing HLA-B*15:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:25 protein under different cellular conditions.	Inquiry

HLA-B*15:01:26 Genomic Plasmid Vector	PHLAG82510755	Plasmid vector containing HLA-B*15:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:26 protein under different cellular conditions.	Inquiry
HLA-B*15:01:27 Genomic Plasmid Vector	PHLAG82510756	Plasmid vector containing HLA-B*15:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:27 protein under different cellular conditions.	Inquiry
HLA-B*15:01:28 Genomic Plasmid Vector	PHLAG82510757	Plasmid vector containing HLA-B*15:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:28 protein under different cellular conditions.	Inquiry
HLA-B*15:01:29 Genomic Plasmid Vector	PHLAG82510758	Plasmid vector containing HLA-B*15:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:29 protein under different cellular conditions.	Inquiry
HLA-B*15:01:30 Genomic Plasmid Vector	PHLAG82510759	Plasmid vector containing HLA-B*15:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:30 protein under different cellular conditions.	Inquiry
HLA-B*15:01:31 Genomic Plasmid Vector	PHLAG82510760	Plasmid vector containing HLA-B*15:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:31 protein under different cellular conditions.	Inquiry
HLA-B*15:01:32 Genomic Plasmid Vector	PHLAG82510761	Plasmid vector containing HLA-B*15:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:32 protein under different cellular conditions.	Inquiry
HLA-B*15:01:33 Genomic Plasmid Vector	PHLAG82510762	Plasmid vector containing HLA-B*15:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:33 protein under different cellular conditions.	Inquiry
HLA-B*15:01:34 Genomic Plasmid Vector	PHLAG82510763	Plasmid vector containing HLA-B*15:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:34 protein under different cellular conditions.	Inquiry

HLA-B*15:01:35 Genomic Plasmid Vector	PHLAG82510764	Plasmid vector containing HLA-B*15:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:35 protein under different cellular conditions.	Inquiry
HLA-B*15:01:36 Genomic Plasmid Vector	PHLAG82510765	Plasmid vector containing HLA-B*15:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:36 protein under different cellular conditions.	Inquiry
HLA-B*15:01:37 Genomic Plasmid Vector	PHLAG82510766	Plasmid vector containing HLA-B*15:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:37 protein under different cellular conditions.	Inquiry
HLA-B*15:01:38 Genomic Plasmid Vector	PHLAG82510767	Plasmid vector containing HLA-B*15:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:38 protein under different cellular conditions.	Inquiry
HLA-B*15:01:39 Genomic Plasmid Vector	PHLAG82510768	Plasmid vector containing HLA-B*15:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:39 protein under different cellular conditions.	Inquiry
HLA-B*15:01:40 Genomic Plasmid Vector	PHLAG82510769	Plasmid vector containing HLA-B*15:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:40 protein under different cellular conditions.	Inquiry
HLA-B*15:01:41 Genomic Plasmid Vector	PHLAG82510770	Plasmid vector containing HLA-B*15:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:41 protein under different cellular conditions.	Inquiry
HLA-B*15:01:42 Genomic Plasmid Vector	PHLAG82510771	Plasmid vector containing HLA-B*15:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:42 protein under different cellular conditions.	Inquiry
HLA-B*15:01:43 Genomic Plasmid Vector	PHLAG82510772	Plasmid vector containing HLA-B*15:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:43 protein under different cellular conditions.	Inquiry

HLA-B*15:01:44 Genomic Plasmid Vector	PHLAG82510773	Plasmid vector containing HLA-B*15:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:44 protein under different cellular conditions.	Inquiry
HLA-B*15:01:45 Genomic Plasmid Vector	PHLAG82510774	Plasmid vector containing HLA-B*15:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:45 protein under different cellular conditions.	Inquiry
HLA-B*15:01:46 Genomic Plasmid Vector	PHLAG82510775	Plasmid vector containing HLA-B*15:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:46 protein under different cellular conditions.	Inquiry
HLA-B*15:01:47 Genomic Plasmid Vector	PHLAG82510776	Plasmid vector containing HLA-B*15:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:47 protein under different cellular conditions.	Inquiry
HLA-B*15:01:48 Genomic Plasmid Vector	PHLAG82510777	Plasmid vector containing HLA-B*15:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:48 protein under different cellular conditions.	Inquiry
HLA-B*15:01:49 Genomic Plasmid Vector	PHLAG82510778	Plasmid vector containing HLA-B*15:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:49 protein under different cellular conditions.	Inquiry
HLA-B*15:01:50 Genomic Plasmid Vector	PHLAG82510779	Plasmid vector containing HLA-B*15:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:50 protein under different cellular conditions.	Inquiry
HLA-B*15:01:51 Genomic Plasmid Vector	PHLAG82510780	Plasmid vector containing HLA-B*15:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:51 protein under different cellular conditions.	Inquiry
HLA-B*15:01:52 Genomic Plasmid Vector	PHLAG82510781	Plasmid vector containing HLA-B*15:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:52 protein under different cellular conditions.	Inquiry

HLA-B*15:01:53 Genomic Plasmid Vector	PHLAG82510782	Plasmid vector containing HLA-B*15:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:53 protein under different cellular conditions.	Inquiry
HLA-B*15:01:54 Genomic Plasmid Vector	PHLAG82510783	Plasmid vector containing HLA-B*15:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:54 protein under different cellular conditions.	Inquiry
HLA-B*15:01:55 Genomic Plasmid Vector	PHLAG82510784	Plasmid vector containing HLA-B*15:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:55 protein under different cellular conditions.	Inquiry
HLA-B*15:01:56 Genomic Plasmid Vector	PHLAG82510785	Plasmid vector containing HLA-B*15:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:56 protein under different cellular conditions.	Inquiry
HLA-B*15:01:57 Genomic Plasmid Vector	PHLAG82510786	Plasmid vector containing HLA-B*15:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:57 protein under different cellular conditions.	Inquiry
HLA-B*15:01:58 Genomic Plasmid Vector	PHLAG82510787	Plasmid vector containing HLA-B*15:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:58 protein under different cellular conditions.	Inquiry
HLA-B*15:01:59 Genomic Plasmid Vector	PHLAG82510788	Plasmid vector containing HLA-B*15:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:59 protein under different cellular conditions.	Inquiry
HLA-B*15:01:60 Genomic Plasmid Vector	PHLAG82510789	Plasmid vector containing HLA-B*15:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:60 protein under different cellular conditions.	Inquiry
HLA-B*15:01:61 Genomic Plasmid Vector	PHLAG82510790	Plasmid vector containing HLA-B*15:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:61 protein under different cellular conditions.	Inquiry

HLA-B*15:01:62 Genomic Plasmid Vector	PHLAG82510791	Plasmid vector containing HLA-B*15:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:62 protein under different cellular conditions.	Inquiry
HLA-B*15:01:63 Genomic Plasmid Vector	PHLAG82510792	Plasmid vector containing HLA-B*15:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:63 protein under different cellular conditions.	Inquiry
HLA-B*15:01:64 Genomic Plasmid Vector	PHLAG82510793	Plasmid vector containing HLA-B*15:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:64 protein under different cellular conditions.	Inquiry
HLA-B*15:01:65 Genomic Plasmid Vector	PHLAG82510794	Plasmid vector containing HLA-B*15:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:65 protein under different cellular conditions.	Inquiry
HLA-B*15:01:66 Genomic Plasmid Vector	PHLAG82510795	Plasmid vector containing HLA-B*15:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:66 protein under different cellular conditions.	Inquiry
HLA-B*15:01:67 Genomic Plasmid Vector	PHLAG82510796	Plasmid vector containing HLA-B*15:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:67 protein under different cellular conditions.	Inquiry
HLA-B*15:01:68 Genomic Plasmid Vector	PHLAG82510797	Plasmid vector containing HLA-B*15:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:68 protein under different cellular conditions.	Inquiry
HLA-B*15:01:69 Genomic Plasmid Vector	PHLAG82510798	Plasmid vector containing HLA-B*15:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:69 protein under different cellular conditions.	Inquiry
HLA-B*15:01:70 Genomic Plasmid Vector	PHLAG82510799	Plasmid vector containing HLA-B*15:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:70 protein under different cellular conditions.	Inquiry

HLA-B*15:01:71 Genomic Plasmid Vector	PHLAG825108000	Plasmid vector containing HLA-B*15:01:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:71 protein under different cellular conditions.	Inquiry
HLA-B*15:01:72 Genomic Plasmid Vector	PHLAG825108001	Plasmid vector containing HLA-B*15:01:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:72 protein under different cellular conditions.	Inquiry
HLA-B*15:01:73 Genomic Plasmid Vector	PHLAG825108002	Plasmid vector containing HLA-B*15:01:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:73 protein under different cellular conditions.	Inquiry
HLA-B*15:01:74 Genomic Plasmid Vector	PHLAG825108003	Plasmid vector containing HLA-B*15:01:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:74 protein under different cellular conditions.	Inquiry
HLA-B*15:01:75 Genomic Plasmid Vector	PHLAG825108004	Plasmid vector containing HLA-B*15:01:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:75 protein under different cellular conditions.	Inquiry
HLA-B*15:01:76 Genomic Plasmid Vector	PHLAG825108005	Plasmid vector containing HLA-B*15:01:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:76 protein under different cellular conditions.	Inquiry
HLA-B*15:01:77 Genomic Plasmid Vector	PHLAG825108006	Plasmid vector containing HLA-B*15:01:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:77 protein under different cellular conditions.	Inquiry
HLA-B*15:01:78 Genomic Plasmid Vector	PHLAG825108007	Plasmid vector containing HLA-B*15:01:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:78 protein under different cellular conditions.	Inquiry
HLA-B*15:01:79 Genomic Plasmid Vector	PHLAG825108008	Plasmid vector containing HLA-B*15:01:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:79 protein under different cellular conditions.	Inquiry

HLA-B*15:01:80 Genomic Plasmid Vector	PHLAG82510809	Plasmid vector containing HLA-B*15:01:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:80 protein under different cellular conditions.	Inquiry
HLA-B*15:01:81 Genomic Plasmid Vector	PHLAG825108110	Plasmid vector containing HLA-B*15:01:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:81 protein under different cellular conditions.	Inquiry
HLA-B*15:01:82 Genomic Plasmid Vector	PHLAG825108111	Plasmid vector containing HLA-B*15:01:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:82 protein under different cellular conditions.	Inquiry
HLA-B*15:01:83 Genomic Plasmid Vector	PHLAG825108112	Plasmid vector containing HLA-B*15:01:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:83 protein under different cellular conditions.	Inquiry
HLA-B*15:01:84 Genomic Plasmid Vector	PHLAG825108113	Plasmid vector containing HLA-B*15:01:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:84 protein under different cellular conditions.	Inquiry
HLA-B*15:01:85 Genomic Plasmid Vector	PHLAG825108114	Plasmid vector containing HLA-B*15:01:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:85 protein under different cellular conditions.	Inquiry
HLA-B*15:01:86 Genomic Plasmid Vector	PHLAG825108115	Plasmid vector containing HLA-B*15:01:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:86 protein under different cellular conditions.	Inquiry
HLA-B*15:01:87 Genomic Plasmid Vector	PHLAG825108116	Plasmid vector containing HLA-B*15:01:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:87 protein under different cellular conditions.	Inquiry
HLA-B*15:01:88 Genomic Plasmid Vector	PHLAG825108117	Plasmid vector containing HLA-B*15:01:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:88 protein under different cellular conditions.	Inquiry

HLA-B*15:01:89 Genomic Plasmid Vector	PHLAG82510818	Plasmid vector containing HLA-B*15:01:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:89 protein under different cellular conditions.	Inquiry
HLA-B*15:01:90 Genomic Plasmid Vector	PHLAG82510819	Plasmid vector containing HLA-B*15:01:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:90 protein under different cellular conditions.	Inquiry
HLA-B*15:01:91 Genomic Plasmid Vector	PHLAG82510820	Plasmid vector containing HLA-B*15:01:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:91 protein under different cellular conditions.	Inquiry
HLA-B*15:01:92 Genomic Plasmid Vector	PHLAG82510821	Plasmid vector containing HLA-B*15:01:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:92 protein under different cellular conditions.	Inquiry
HLA-B*15:01:93 Genomic Plasmid Vector	PHLAG82510822	Plasmid vector containing HLA-B*15:01:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:01:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:01:93 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:01 Genomic Plasmid Vector	PHLAG82510823	Plasmid vector containing HLA-B*15:02:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:02 Genomic Plasmid Vector	PHLAG82510824	Plasmid vector containing HLA-B*15:02:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:03 Genomic Plasmid Vector	PHLAG82510825	Plasmid vector containing HLA-B*15:02:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:04 Genomic Plasmid Vector	PHLAG82510826	Plasmid vector containing HLA-B*15:02:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:04 protein under different cellular conditions.	Inquiry

HLA-B*15:02:01:05 Genomic Plasmid Vector	PHLAG82510827	Plasmid vector containing HLA-B*15:02:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:06 Genomic Plasmid Vector	PHLAG82510828	Plasmid vector containing HLA-B*15:02:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:02:01:07 Genomic Plasmid Vector	PHLAG82510829	Plasmid vector containing HLA-B*15:02:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:02:02 Genomic Plasmid Vector	PHLAG825108300	Plasmid vector containing HLA-B*15:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:02 protein under different cellular conditions.	Inquiry
HLA-B*15:02:03 Genomic Plasmid Vector	PHLAG825108301	Plasmid vector containing HLA-B*15:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:03 protein under different cellular conditions.	Inquiry
HLA-B*15:02:04 Genomic Plasmid Vector	PHLAG825108302	Plasmid vector containing HLA-B*15:02:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:04 protein under different cellular conditions.	Inquiry
HLA-B*15:02:05 Genomic Plasmid Vector	PHLAG825108303	Plasmid vector containing HLA-B*15:02:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:05 protein under different cellular conditions.	Inquiry
HLA-B*15:02:06 Genomic Plasmid Vector	PHLAG825108304	Plasmid vector containing HLA-B*15:02:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:06 protein under different cellular conditions.	Inquiry
HLA-B*15:02:07 Genomic Plasmid Vector	PHLAG825108305	Plasmid vector containing HLA-B*15:02:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:07 protein under different cellular conditions.	Inquiry

HLA-B*15:02:08 Genomic Plasmid Vector	PHLAG82510836	Plasmid vector containing HLA-B*15:02:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:08 protein under different cellular conditions.	Inquiry
HLA-B*15:02:09 Genomic Plasmid Vector	PHLAG82510837	Plasmid vector containing HLA-B*15:02:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:09 protein under different cellular conditions.	Inquiry
HLA-B*15:02:10 Genomic Plasmid Vector	PHLAG82510838	Plasmid vector containing HLA-B*15:02:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:10 protein under different cellular conditions.	Inquiry
HLA-B*15:02:11 Genomic Plasmid Vector	PHLAG82510839	Plasmid vector containing HLA-B*15:02:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:11 protein under different cellular conditions.	Inquiry
HLA-B*15:02:12 Genomic Plasmid Vector	PHLAG82510840	Plasmid vector containing HLA-B*15:02:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:12 protein under different cellular conditions.	Inquiry
HLA-B*15:02:13 Genomic Plasmid Vector	PHLAG82510841	Plasmid vector containing HLA-B*15:02:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:13 protein under different cellular conditions.	Inquiry
HLA-B*15:02:14 Genomic Plasmid Vector	PHLAG82510842	Plasmid vector containing HLA-B*15:02:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:14 protein under different cellular conditions.	Inquiry
HLA-B*15:02:15 Genomic Plasmid Vector	PHLAG82510843	Plasmid vector containing HLA-B*15:02:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:15 protein under different cellular conditions.	Inquiry
HLA-B*15:02:16 Genomic Plasmid Vector	PHLAG82510844	Plasmid vector containing HLA-B*15:02:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:02:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:02:16 protein under different cellular conditions.	Inquiry

HLA-B*15:03:01:01 Genomic Plasmid Vector	PHLAG82510845	Plasmid vector containing HLA-B*15:03:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:02 Genomic Plasmid Vector	PHLAG82510846	Plasmid vector containing HLA-B*15:03:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:03 Genomic Plasmid Vector	PHLAG82510847	Plasmid vector containing HLA-B*15:03:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:04 Genomic Plasmid Vector	PHLAG82510848	Plasmid vector containing HLA-B*15:03:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:05 Genomic Plasmid Vector	PHLAG82510849	Plasmid vector containing HLA-B*15:03:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:06 Genomic Plasmid Vector	PHLAG825108500	Plasmid vector containing HLA-B*15:03:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:07 Genomic Plasmid Vector	PHLAG825108501	Plasmid vector containing HLA-B*15:03:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:08 Genomic Plasmid Vector	PHLAG825108502	Plasmid vector containing HLA-B*15:03:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:09 Genomic Plasmid Vector	PHLAG825108503	Plasmid vector containing HLA-B*15:03:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:09 protein under different cellular conditions.	Inquiry

HLA-B*15:03:01:10 Genomic Plasmid Vector	PHLAG82510854	Plasmid vector containing HLA-B*15:03:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:10 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:11 Genomic Plasmid Vector	PHLAG82510855	Plasmid vector containing HLA-B*15:03:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:11 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:12 Genomic Plasmid Vector	PHLAG82510856	Plasmid vector containing HLA-B*15:03:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:12 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:13 Genomic Plasmid Vector	PHLAG82510857	Plasmid vector containing HLA-B*15:03:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:13 protein under different cellular conditions.	Inquiry
HLA-B*15:03:01:14 Genomic Plasmid Vector	PHLAG82510858	Plasmid vector containing HLA-B*15:03:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:01:14 protein under different cellular conditions.	Inquiry
HLA-B*15:03:02 Genomic Plasmid Vector	PHLAG82510859	Plasmid vector containing HLA-B*15:03:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:02 protein under different cellular conditions.	Inquiry
HLA-B*15:03:03 Genomic Plasmid Vector	PHLAG82510860	Plasmid vector containing HLA-B*15:03:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:03 protein under different cellular conditions.	Inquiry
HLA-B*15:03:04 Genomic Plasmid Vector	PHLAG82510861	Plasmid vector containing HLA-B*15:03:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:04 protein under different cellular conditions.	Inquiry
HLA-B*15:03:05 Genomic Plasmid Vector	PHLAG82510862	Plasmid vector containing HLA-B*15:03:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:05 protein under different cellular conditions.	Inquiry

HLA-B*15:03:06 Genomic Plasmid Vector	PHLAG82510863	Plasmid vector containing HLA-B*15:03:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:06 protein under different cellular conditions.	Inquiry
HLA-B*15:03:07 Genomic Plasmid Vector	PHLAG82510864	Plasmid vector containing HLA-B*15:03:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:07 protein under different cellular conditions.	Inquiry
HLA-B*15:03:08 Genomic Plasmid Vector	PHLAG82510865	Plasmid vector containing HLA-B*15:03:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:08 protein under different cellular conditions.	Inquiry
HLA-B*15:03:09 Genomic Plasmid Vector	PHLAG82510866	Plasmid vector containing HLA-B*15:03:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:09 protein under different cellular conditions.	Inquiry
HLA-B*15:03:10 Genomic Plasmid Vector	PHLAG82510867	Plasmid vector containing HLA-B*15:03:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:10 protein under different cellular conditions.	Inquiry
HLA-B*15:03:11 Genomic Plasmid Vector	PHLAG82510868	Plasmid vector containing HLA-B*15:03:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:11 protein under different cellular conditions.	Inquiry
HLA-B*15:03:12 Genomic Plasmid Vector	PHLAG82510869	Plasmid vector containing HLA-B*15:03:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:12 protein under different cellular conditions.	Inquiry
HLA-B*15:03:13 Genomic Plasmid Vector	PHLAG825108700	Plasmid vector containing HLA-B*15:03:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:13 protein under different cellular conditions.	Inquiry
HLA-B*15:03:14 Genomic Plasmid Vector	PHLAG825108701	Plasmid vector containing HLA-B*15:03:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:03:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:03:14 protein under different cellular conditions.	Inquiry

HLA-B*15:04:01:01 Genomic Plasmid Vector	PHLAG82510872	Plasmid vector containing HLA-B*15:04:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:04:01:02 Genomic Plasmid Vector	PHLAG82510873	Plasmid vector containing HLA-B*15:04:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:04:01:03 Genomic Plasmid Vector	PHLAG82510874	Plasmid vector containing HLA-B*15:04:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:04:02 Genomic Plasmid Vector	PHLAG82510875	Plasmid vector containing HLA-B*15:04:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:02 protein under different cellular conditions.	Inquiry
HLA-B*15:04:03 Genomic Plasmid Vector	PHLAG82510876	Plasmid vector containing HLA-B*15:04:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:03 protein under different cellular conditions.	Inquiry
HLA-B*15:04:04 Genomic Plasmid Vector	PHLAG82510877	Plasmid vector containing HLA-B*15:04:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:04 protein under different cellular conditions.	Inquiry
HLA-B*15:04:05 Genomic Plasmid Vector	PHLAG82510878	Plasmid vector containing HLA-B*15:04:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:04:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:04:05 protein under different cellular conditions.	Inquiry
HLA-B*15:05:01:01 Genomic Plasmid Vector	PHLAG82510879	Plasmid vector containing HLA-B*15:05:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:05:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:05:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:05:01:02 Genomic Plasmid Vector	PHLAG82510880	Plasmid vector containing HLA-B*15:05:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:05:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:05:01:02 protein under different cellular conditions.	Inquiry

HLA-B*15:05:02 Genomic Plasmid Vector	PHLAG82510881	Plasmid vector containing HLA-B*15:05:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:05:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:05:02 protein under different cellular conditions.	Inquiry
HLA-B*15:05:03 Genomic Plasmid Vector	PHLAG82510882	Plasmid vector containing HLA-B*15:05:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:05:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:05:03 protein under different cellular conditions.	Inquiry
HLA-B*15:05:04 Genomic Plasmid Vector	PHLAG82510883	Plasmid vector containing HLA-B*15:05:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:05:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:05:04 protein under different cellular conditions.	Inquiry
HLA-B*15:06 Genomic Plasmid Vector	PHLAG82510884	Plasmid vector containing HLA-B*15:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:06 protein under different cellular conditions.	Inquiry
HLA-B*15:07:01:01 Genomic Plasmid Vector	PHLAG82510885	Plasmid vector containing HLA-B*15:07:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:07:01:02 Genomic Plasmid Vector	PHLAG82510886	Plasmid vector containing HLA-B*15:07:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:07:01:03 Genomic Plasmid Vector	PHLAG82510887	Plasmid vector containing HLA-B*15:07:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:07:01:04 Genomic Plasmid Vector	PHLAG82510888	Plasmid vector containing HLA-B*15:07:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:07:01:05 Genomic Plasmid Vector	PHLAG82510889	Plasmid vector containing HLA-B*15:07:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:05 protein under different cellular conditions.	Inquiry

HLA-B*15:07:01:06 Genomic Plasmid Vector	PHLAG82510890	Plasmid vector containing HLA-B*15:07:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:07:02 Genomic Plasmid Vector	PHLAG82510891	Plasmid vector containing HLA-B*15:07:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:02 protein under different cellular conditions.	Inquiry
HLA-B*15:07:03 Genomic Plasmid Vector	PHLAG82510892	Plasmid vector containing HLA-B*15:07:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:07:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:07:03 protein under different cellular conditions.	Inquiry
HLA-B*15:08:01:01 Genomic Plasmid Vector	PHLAG82510893	Plasmid vector containing HLA-B*15:08:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:08:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:08:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:08:01:02 Genomic Plasmid Vector	PHLAG82510894	Plasmid vector containing HLA-B*15:08:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:08:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:08:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:08:02 Genomic Plasmid Vector	PHLAG82510895	Plasmid vector containing HLA-B*15:08:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:08:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:08:02 protein under different cellular conditions.	Inquiry
HLA-B*15:09:01 Genomic Plasmid Vector	PHLAG82510896	Plasmid vector containing HLA-B*15:09:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:09:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:09:01 protein under different cellular conditions.	Inquiry
HLA-B*15:09:02 Genomic Plasmid Vector	PHLAG82510897	Plasmid vector containing HLA-B*15:09:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:09:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:09:02 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:01 Genomic Plasmid Vector	PHLAG82510898	Plasmid vector containing HLA-B*15:10:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:01 protein under different cellular conditions.	Inquiry

HLA-B*15:10:01:02 Genomic Plasmid Vector	PHLAG82510899	Plasmid vector containing HLA-B*15:10:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:03 Genomic Plasmid Vector	PHLAG825109000	Plasmid vector containing HLA-B*15:10:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:04 Genomic Plasmid Vector	PHLAG825109001	Plasmid vector containing HLA-B*15:10:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:05 Genomic Plasmid Vector	PHLAG825109002	Plasmid vector containing HLA-B*15:10:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:06 Genomic Plasmid Vector	PHLAG825109003	Plasmid vector containing HLA-B*15:10:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:07 Genomic Plasmid Vector	PHLAG825109004	Plasmid vector containing HLA-B*15:10:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:08 Genomic Plasmid Vector	PHLAG825109005	Plasmid vector containing HLA-B*15:10:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:09 Genomic Plasmid Vector	PHLAG825109006	Plasmid vector containing HLA-B*15:10:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:09 protein under different cellular conditions.	Inquiry
HLA-B*15:10:01:10 Genomic Plasmid Vector	PHLAG825109007	Plasmid vector containing HLA-B*15:10:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:01:10 protein under different cellular conditions.	Inquiry

HLA-B*15:10:02 Genomic Plasmid Vector	PHLAG82510908	Plasmid vector containing HLA-B*15:10:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:02 protein under different cellular conditions.	Inquiry
HLA-B*15:10:03 Genomic Plasmid Vector	PHLAG82510909	Plasmid vector containing HLA-B*15:10:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:03 protein under different cellular conditions.	Inquiry
HLA-B*15:10:04 Genomic Plasmid Vector	PHLAG825109110	Plasmid vector containing HLA-B*15:10:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:04 protein under different cellular conditions.	Inquiry
HLA-B*15:10:05 Genomic Plasmid Vector	PHLAG825109111	Plasmid vector containing HLA-B*15:10:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:05 protein under different cellular conditions.	Inquiry
HLA-B*15:10:06 Genomic Plasmid Vector	PHLAG825109112	Plasmid vector containing HLA-B*15:10:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:06 protein under different cellular conditions.	Inquiry
HLA-B*15:10:07 Genomic Plasmid Vector	PHLAG825109113	Plasmid vector containing HLA-B*15:10:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:07 protein under different cellular conditions.	Inquiry
HLA-B*15:10:08 Genomic Plasmid Vector	PHLAG825109114	Plasmid vector containing HLA-B*15:10:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:08 protein under different cellular conditions.	Inquiry
HLA-B*15:10:09 Genomic Plasmid Vector	PHLAG825109115	Plasmid vector containing HLA-B*15:10:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:10:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:10:09 protein under different cellular conditions.	Inquiry
HLA-B*15:100 Genomic Plasmid Vector	PHLAG825109116	Plasmid vector containing HLA-B*15:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:100 protein under different cellular conditions.	Inquiry

HLA-B*15:101 Genomic Plasmid Vector	PHLAG82510917	Plasmid vector containing HLA-B*15:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:101 protein under different cellular conditions.	Inquiry
HLA-B*15:102 Genomic Plasmid Vector	PHLAG82510918	Plasmid vector containing HLA-B*15:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:102 protein under different cellular conditions.	Inquiry
HLA-B*15:103 Genomic Plasmid Vector	PHLAG82510919	Plasmid vector containing HLA-B*15:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:103 protein under different cellular conditions.	Inquiry
HLA-B*15:104 Genomic Plasmid Vector	PHLAG825109210	Plasmid vector containing HLA-B*15:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:104 protein under different cellular conditions.	Inquiry
HLA-B*15:105 Genomic Plasmid Vector	PHLAG825109211	Plasmid vector containing HLA-B*15:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:105 protein under different cellular conditions.	Inquiry
HLA-B*15:106 Genomic Plasmid Vector	PHLAG825109212	Plasmid vector containing HLA-B*15:106 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:106 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:106 protein under different cellular conditions.	Inquiry
HLA-B*15:107 Genomic Plasmid Vector	PHLAG825109213	Plasmid vector containing HLA-B*15:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:107 protein under different cellular conditions.	Inquiry
HLA-B*15:108 Genomic Plasmid Vector	PHLAG825109214	Plasmid vector containing HLA-B*15:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:108 protein under different cellular conditions.	Inquiry
HLA-B*15:109 Genomic Plasmid Vector	PHLAG825109215	Plasmid vector containing HLA-B*15:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:109 protein under different cellular conditions.	Inquiry

HLA-B*15:11:01:01 Genomic Plasmid Vector	PHLAG82510926	Plasmid vector containing HLA-B*15:11:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:11:01:02 Genomic Plasmid Vector	PHLAG82510927	Plasmid vector containing HLA-B*15:11:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:11:02 Genomic Plasmid Vector	PHLAG82510928	Plasmid vector containing HLA-B*15:11:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:02 protein under different cellular conditions.	Inquiry
HLA-B*15:11:03 Genomic Plasmid Vector	PHLAG82510929	Plasmid vector containing HLA-B*15:11:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:03 protein under different cellular conditions.	Inquiry
HLA-B*15:11:04 Genomic Plasmid Vector	PHLAG82510930	Plasmid vector containing HLA-B*15:11:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:04 protein under different cellular conditions.	Inquiry
HLA-B*15:11:05 Genomic Plasmid Vector	PHLAG82510931	Plasmid vector containing HLA-B*15:11:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:05 protein under different cellular conditions.	Inquiry
HLA-B*15:11:06 Genomic Plasmid Vector	PHLAG82510932	Plasmid vector containing HLA-B*15:11:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:06 protein under different cellular conditions.	Inquiry
HLA-B*15:11:07 Genomic Plasmid Vector	PHLAG82510933	Plasmid vector containing HLA-B*15:11:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:07 protein under different cellular conditions.	Inquiry
HLA-B*15:11:08 Genomic Plasmid Vector	PHLAG82510934	Plasmid vector containing HLA-B*15:11:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:11:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:11:08 protein under different cellular conditions.	Inquiry

HLA-B*15:110 Genomic Plasmid Vector	PHLAG825109315	Plasmid vector containing HLA-B*15:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:110 protein under different cellular conditions.	Inquiry
HLA-B*15:111N Genomic Plasmid Vector	PHLAG825109316	Plasmid vector containing HLA-B*15:111N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:111N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:111N protein under different cellular conditions.	Inquiry
HLA-B*15:112 Genomic Plasmid Vector	PHLAG825109317	Plasmid vector containing HLA-B*15:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:112 protein under different cellular conditions.	Inquiry
HLA-B*15:113 Genomic Plasmid Vector	PHLAG825109318	Plasmid vector containing HLA-B*15:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:113 protein under different cellular conditions.	Inquiry
HLA-B*15:114 Genomic Plasmid Vector	PHLAG825109319	Plasmid vector containing HLA-B*15:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:114 protein under different cellular conditions.	Inquiry
HLA-B*15:115 Genomic Plasmid Vector	PHLAG825109400	Plasmid vector containing HLA-B*15:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:115 protein under different cellular conditions.	Inquiry
HLA-B*15:116 Genomic Plasmid Vector	PHLAG825109401	Plasmid vector containing HLA-B*15:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:116 protein under different cellular conditions.	Inquiry
HLA-B*15:117 Genomic Plasmid Vector	PHLAG825109402	Plasmid vector containing HLA-B*15:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:117 protein under different cellular conditions.	Inquiry
HLA-B*15:118 Genomic Plasmid Vector	PHLAG825109403	Plasmid vector containing HLA-B*15:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:118 protein under different cellular conditions.	Inquiry

HLA-B*15:119 Genomic Plasmid Vector	PHLAG82510944	Plasmid vector containing HLA-B*15:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:119 protein under different cellular conditions.	Inquiry
HLA-B*15:12:01 Genomic Plasmid Vector	PHLAG82510945	Plasmid vector containing HLA-B*15:12:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:12:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:12:01 protein under different cellular conditions.	Inquiry
HLA-B*15:12:02 Genomic Plasmid Vector	PHLAG82510946	Plasmid vector containing HLA-B*15:12:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:12:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:12:02 protein under different cellular conditions.	Inquiry
HLA-B*15:12:03 Genomic Plasmid Vector	PHLAG82510947	Plasmid vector containing HLA-B*15:12:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:12:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:12:03 protein under different cellular conditions.	Inquiry
HLA-B*15:120 Genomic Plasmid Vector	PHLAG82510948	Plasmid vector containing HLA-B*15:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:120 protein under different cellular conditions.	Inquiry
HLA-B*15:121 Genomic Plasmid Vector	PHLAG82510949	Plasmid vector containing HLA-B*15:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:121 protein under different cellular conditions.	Inquiry
HLA-B*15:122 Genomic Plasmid Vector	PHLAG825109500	Plasmid vector containing HLA-B*15:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:122 protein under different cellular conditions.	Inquiry
HLA-B*15:123 Genomic Plasmid Vector	PHLAG825109501	Plasmid vector containing HLA-B*15:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:123 protein under different cellular conditions.	Inquiry
HLA-B*15:124 Genomic Plasmid Vector	PHLAG825109502	Plasmid vector containing HLA-B*15:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:124 protein under different cellular conditions.	Inquiry

HLA-B*15:125:01 Genomic Plasmid Vector	PHLAG82510953	Plasmid vector containing HLA-B*15:125:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:125:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:125:01 protein under different cellular conditions.	Inquiry
HLA-B*15:125:02 Genomic Plasmid Vector	PHLAG82510954	Plasmid vector containing HLA-B*15:125:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:125:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:125:02 protein under different cellular conditions.	Inquiry
HLA-B*15:126 Genomic Plasmid Vector	PHLAG82510955	Plasmid vector containing HLA-B*15:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:126 protein under different cellular conditions.	Inquiry
HLA-B*15:127 Genomic Plasmid Vector	PHLAG82510956	Plasmid vector containing HLA-B*15:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:127 protein under different cellular conditions.	Inquiry
HLA-B*15:128 Genomic Plasmid Vector	PHLAG82510957	Plasmid vector containing HLA-B*15:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:128 protein under different cellular conditions.	Inquiry
HLA-B*15:129 Genomic Plasmid Vector	PHLAG82510958	Plasmid vector containing HLA-B*15:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:129 protein under different cellular conditions.	Inquiry
HLA-B*15:13:01 Genomic Plasmid Vector	PHLAG82510959	Plasmid vector containing HLA-B*15:13:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:13:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:13:01 protein under different cellular conditions.	Inquiry
HLA-B*15:13:02 Genomic Plasmid Vector	PHLAG82510960	Plasmid vector containing HLA-B*15:13:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:13:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:13:02 protein under different cellular conditions.	Inquiry
HLA-B*15:13:03 Genomic Plasmid Vector	PHLAG82510961	Plasmid vector containing HLA-B*15:13:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:13:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:13:03 protein under different cellular conditions.	Inquiry

HLA-B*15:131 Genomic Plasmid Vector	PHLAG82510962	Plasmid vector containing HLA-B*15:131 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:131 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:131 protein under different cellular conditions.	Inquiry
HLA-B*15:132 Genomic Plasmid Vector	PHLAG82510963	Plasmid vector containing HLA-B*15:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:132 protein under different cellular conditions.	Inquiry
HLA-B*15:133 Genomic Plasmid Vector	PHLAG82510964	Plasmid vector containing HLA-B*15:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:133 protein under different cellular conditions.	Inquiry
HLA-B*15:134 Genomic Plasmid Vector	PHLAG82510965	Plasmid vector containing HLA-B*15:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:134 protein under different cellular conditions.	Inquiry
HLA-B*15:135 Genomic Plasmid Vector	PHLAG82510966	Plasmid vector containing HLA-B*15:135 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:135 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:135 protein under different cellular conditions.	Inquiry
HLA-B*15:136 Genomic Plasmid Vector	PHLAG82510967	Plasmid vector containing HLA-B*15:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:136 protein under different cellular conditions.	Inquiry
HLA-B*15:137 Genomic Plasmid Vector	PHLAG82510968	Plasmid vector containing HLA-B*15:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:137 protein under different cellular conditions.	Inquiry
HLA-B*15:138 Genomic Plasmid Vector	PHLAG82510969	Plasmid vector containing HLA-B*15:138 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:138 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:138 protein under different cellular conditions.	Inquiry
HLA-B*15:139 Genomic Plasmid Vector	PHLAG82510970	Plasmid vector containing HLA-B*15:139 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:139 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:139 protein under different cellular conditions.	Inquiry

HLA-B*15:14 Genomic Plasmid Vector	PHLAG82510971	Plasmid vector containing HLA-B*15:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:14 protein under different cellular conditions.	Inquiry
HLA-B*15:140 Genomic Plasmid Vector	PHLAG82510972	Plasmid vector containing HLA-B*15:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:140 protein under different cellular conditions.	Inquiry
HLA-B*15:141 Genomic Plasmid Vector	PHLAG82510973	Plasmid vector containing HLA-B*15:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:141 protein under different cellular conditions.	Inquiry
HLA-B*15:142 Genomic Plasmid Vector	PHLAG82510974	Plasmid vector containing HLA-B*15:142 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:142 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:142 protein under different cellular conditions.	Inquiry
HLA-B*15:143 Genomic Plasmid Vector	PHLAG82510975	Plasmid vector containing HLA-B*15:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:143 protein under different cellular conditions.	Inquiry
HLA-B*15:144 Genomic Plasmid Vector	PHLAG82510976	Plasmid vector containing HLA-B*15:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:144 protein under different cellular conditions.	Inquiry
HLA-B*15:145 Genomic Plasmid Vector	PHLAG82510977	Plasmid vector containing HLA-B*15:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:145 protein under different cellular conditions.	Inquiry
HLA-B*15:146 Genomic Plasmid Vector	PHLAG82510978	Plasmid vector containing HLA-B*15:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:146 protein under different cellular conditions.	Inquiry
HLA-B*15:147 Genomic Plasmid Vector	PHLAG82510979	Plasmid vector containing HLA-B*15:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:147 protein under different cellular conditions.	Inquiry

HLA-B*15:148 Genomic Plasmid Vector	PHLAG82510980	Plasmid vector containing HLA-B*15:148 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:148 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:148 protein under different cellular conditions.	Inquiry
HLA-B*15:149N Genomic Plasmid Vector	PHLAG82510981	Plasmid vector containing HLA-B*15:149N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:149N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:149N protein under different cellular conditions.	Inquiry
HLA-B*15:15:01:01 Genomic Plasmid Vector	PHLAG82510982	Plasmid vector containing HLA-B*15:15:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:15:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:15:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:15:01:02 Genomic Plasmid Vector	PHLAG82510983	Plasmid vector containing HLA-B*15:15:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:15:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:15:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:15:02 Genomic Plasmid Vector	PHLAG82510984	Plasmid vector containing HLA-B*15:15:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:15:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:15:02 protein under different cellular conditions.	Inquiry
HLA-B*15:15:03 Genomic Plasmid Vector	PHLAG82510985	Plasmid vector containing HLA-B*15:15:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:15:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:15:03 protein under different cellular conditions.	Inquiry
HLA-B*15:150 Genomic Plasmid Vector	PHLAG82510986	Plasmid vector containing HLA-B*15:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:150 protein under different cellular conditions.	Inquiry
HLA-B*15:151 Genomic Plasmid Vector	PHLAG82510987	Plasmid vector containing HLA-B*15:151 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:151 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:151 protein under different cellular conditions.	Inquiry
HLA-B*15:152 Genomic Plasmid Vector	PHLAG82510988	Plasmid vector containing HLA-B*15:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:152 protein under different cellular conditions.	Inquiry

HLA-B*15:153 Genomic Plasmid Vector	PHLAG82510989	Plasmid vector containing HLA-B*15:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:153 protein under different cellular conditions.	Inquiry
HLA-B*15:154:01 Genomic Plasmid Vector	PHLAG825109900	Plasmid vector containing HLA-B*15:154:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:154:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:154:01 protein under different cellular conditions.	Inquiry
HLA-B*15:154:02 Genomic Plasmid Vector	PHLAG825109901	Plasmid vector containing HLA-B*15:154:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:154:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:154:02 protein under different cellular conditions.	Inquiry
HLA-B*15:155 Genomic Plasmid Vector	PHLAG825109902	Plasmid vector containing HLA-B*15:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:155 protein under different cellular conditions.	Inquiry
HLA-B*15:156 Genomic Plasmid Vector	PHLAG825109903	Plasmid vector containing HLA-B*15:156 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:156 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:156 protein under different cellular conditions.	Inquiry
HLA-B*15:157 Genomic Plasmid Vector	PHLAG825109904	Plasmid vector containing HLA-B*15:157 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:157 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:157 protein under different cellular conditions.	Inquiry
HLA-B*15:158 Genomic Plasmid Vector	PHLAG825109905	Plasmid vector containing HLA-B*15:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:158 protein under different cellular conditions.	Inquiry
HLA-B*15:159 Genomic Plasmid Vector	PHLAG825109906	Plasmid vector containing HLA-B*15:159 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:159 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:159 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:01 Genomic Plasmid Vector	PHLAG825109907	Plasmid vector containing HLA-B*15:16:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:01 protein under different cellular conditions.	Inquiry

HLA-B*15:16:01:02 Genomic Plasmid Vector	PHLAG82510998	Plasmid vector containing HLA-B*15:16:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:03 Genomic Plasmid Vector	PHLAG82510999	Plasmid vector containing HLA-B*15:16:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:04 Genomic Plasmid Vector	PHLAG825110000	Plasmid vector containing HLA-B*15:16:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:05 Genomic Plasmid Vector	PHLAG825110001	Plasmid vector containing HLA-B*15:16:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:06 Genomic Plasmid Vector	PHLAG825110002	Plasmid vector containing HLA-B*15:16:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:07 Genomic Plasmid Vector	PHLAG825110003	Plasmid vector containing HLA-B*15:16:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:16:01:08 Genomic Plasmid Vector	PHLAG825110004	Plasmid vector containing HLA-B*15:16:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:16:02:01 Genomic Plasmid Vector	PHLAG825110005	Plasmid vector containing HLA-B*15:16:02:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:02:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:02:01 protein under different cellular conditions.	Inquiry
HLA-B*15:16:02:02 Genomic Plasmid Vector	PHLAG825110006	Plasmid vector containing HLA-B*15:16:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:02:02 protein under different cellular conditions.	Inquiry

HLA-B*15:16:03 Genomic Plasmid Vector	PHLAG82511007	Plasmid vector containing HLA-B*15:16:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:03 protein under different cellular conditions.	Inquiry
HLA-B*15:16:04 Genomic Plasmid Vector	PHLAG82511008	Plasmid vector containing HLA-B*15:16:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:04 protein under different cellular conditions.	Inquiry
HLA-B*15:16:05 Genomic Plasmid Vector	PHLAG82511009	Plasmid vector containing HLA-B*15:16:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:05 protein under different cellular conditions.	Inquiry
HLA-B*15:16:06 Genomic Plasmid Vector	PHLAG825110110	Plasmid vector containing HLA-B*15:16:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:16:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:16:06 protein under different cellular conditions.	Inquiry
HLA-B*15:160:01:01 Genomic Plasmid Vector	PHLAG825110111	Plasmid vector containing HLA-B*15:160:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:160:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:160:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:160:01:02 Genomic Plasmid Vector	PHLAG825110112	Plasmid vector containing HLA-B*15:160:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:160:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:160:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:161 Genomic Plasmid Vector	PHLAG825110113	Plasmid vector containing HLA-B*15:161 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:161 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:161 protein under different cellular conditions.	Inquiry
HLA-B*15:162 Genomic Plasmid Vector	PHLAG825110114	Plasmid vector containing HLA-B*15:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:162 protein under different cellular conditions.	Inquiry
HLA-B*15:163 Genomic Plasmid Vector	PHLAG825110115	Plasmid vector containing HLA-B*15:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:163 protein under different cellular conditions.	Inquiry

HLA-B*15:164 Genomic Plasmid Vector	PHLAG82511016	Plasmid vector containing HLA-B*15:164 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:164 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:164 protein under different cellular conditions.	Inquiry
HLA-B*15:165 Genomic Plasmid Vector	PHLAG82511017	Plasmid vector containing HLA-B*15:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:165 protein under different cellular conditions.	Inquiry
HLA-B*15:166 Genomic Plasmid Vector	PHLAG82511018	Plasmid vector containing HLA-B*15:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:166 protein under different cellular conditions.	Inquiry
HLA-B*15:167 Genomic Plasmid Vector	PHLAG82511019	Plasmid vector containing HLA-B*15:167 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:167 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:167 protein under different cellular conditions.	Inquiry
HLA-B*15:168 Genomic Plasmid Vector	PHLAG82511020	Plasmid vector containing HLA-B*15:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:168 protein under different cellular conditions.	Inquiry
HLA-B*15:169 Genomic Plasmid Vector	PHLAG82511021	Plasmid vector containing HLA-B*15:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:169 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:01 Genomic Plasmid Vector	PHLAG82511022	Plasmid vector containing HLA-B*15:17:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:02 Genomic Plasmid Vector	PHLAG82511023	Plasmid vector containing HLA-B*15:17:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:03 Genomic Plasmid Vector	PHLAG82511024	Plasmid vector containing HLA-B*15:17:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:03 protein under different cellular conditions.	Inquiry

HLA-B*15:17:01:04 Genomic Plasmid Vector	PHLAG82511025	Plasmid vector containing HLA-B*15:17:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:05 Genomic Plasmid Vector	PHLAG82511026	Plasmid vector containing HLA-B*15:17:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:05 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:06 Genomic Plasmid Vector	PHLAG82511027	Plasmid vector containing HLA-B*15:17:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:17:01:07 Genomic Plasmid Vector	PHLAG82511028	Plasmid vector containing HLA-B*15:17:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:17:02 Genomic Plasmid Vector	PHLAG82511029	Plasmid vector containing HLA-B*15:17:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:02 protein under different cellular conditions.	Inquiry
HLA-B*15:17:03 Genomic Plasmid Vector	PHLAG82511030	Plasmid vector containing HLA-B*15:17:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:03 protein under different cellular conditions.	Inquiry
HLA-B*15:17:04 Genomic Plasmid Vector	PHLAG82511031	Plasmid vector containing HLA-B*15:17:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:04 protein under different cellular conditions.	Inquiry
HLA-B*15:17:05 Genomic Plasmid Vector	PHLAG82511032	Plasmid vector containing HLA-B*15:17:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:05 protein under different cellular conditions.	Inquiry
HLA-B*15:17:06 Genomic Plasmid Vector	PHLAG82511033	Plasmid vector containing HLA-B*15:17:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:06 protein under different cellular conditions.	Inquiry

HLA-B*15:17:07 Genomic Plasmid Vector	PHLAG82511034	Plasmid vector containing HLA-B*15:17:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:07 protein under different cellular conditions.	Inquiry
HLA-B*15:17:08 Genomic Plasmid Vector	PHLAG82511035	Plasmid vector containing HLA-B*15:17:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:17:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:17:08 protein under different cellular conditions.	Inquiry
HLA-B*15:170 Genomic Plasmid Vector	PHLAG82511036	Plasmid vector containing HLA-B*15:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:170 protein under different cellular conditions.	Inquiry
HLA-B*15:171 Genomic Plasmid Vector	PHLAG82511037	Plasmid vector containing HLA-B*15:171 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:171 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:171 protein under different cellular conditions.	Inquiry
HLA-B*15:172 Genomic Plasmid Vector	PHLAG82511038	Plasmid vector containing HLA-B*15:172 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:172 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:172 protein under different cellular conditions.	Inquiry
HLA-B*15:173 Genomic Plasmid Vector	PHLAG82511039	Plasmid vector containing HLA-B*15:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:173 protein under different cellular conditions.	Inquiry
HLA-B*15:174 Genomic Plasmid Vector	PHLAG82511040	Plasmid vector containing HLA-B*15:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:174 protein under different cellular conditions.	Inquiry
HLA-B*15:175 Genomic Plasmid Vector	PHLAG82511041	Plasmid vector containing HLA-B*15:175 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:175 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:175 protein under different cellular conditions.	Inquiry
HLA-B*15:176 Genomic Plasmid Vector	PHLAG82511042	Plasmid vector containing HLA-B*15:176 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:176 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:176 protein under different cellular conditions.	Inquiry

HLA-B*15:177 Genomic Plasmid Vector	PHLAG82511043	Plasmid vector containing HLA-B*15:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:177 protein under different cellular conditions.	Inquiry
HLA-B*15:178 Genomic Plasmid Vector	PHLAG82511044	Plasmid vector containing HLA-B*15:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:178 protein under different cellular conditions.	Inquiry
HLA-B*15:179:01 Genomic Plasmid Vector	PHLAG82511045	Plasmid vector containing HLA-B*15:179:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:179:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:179:01 protein under different cellular conditions.	Inquiry
HLA-B*15:179:02 Genomic Plasmid Vector	PHLAG82511046	Plasmid vector containing HLA-B*15:179:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:179:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:179:02 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:01 Genomic Plasmid Vector	PHLAG82511047	Plasmid vector containing HLA-B*15:18:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:02 Genomic Plasmid Vector	PHLAG82511048	Plasmid vector containing HLA-B*15:18:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:03 Genomic Plasmid Vector	PHLAG82511049	Plasmid vector containing HLA-B*15:18:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:04 Genomic Plasmid Vector	PHLAG825110510	Plasmid vector containing HLA-B*15:18:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:05 Genomic Plasmid Vector	PHLAG825110511	Plasmid vector containing HLA-B*15:18:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:05 protein under different cellular conditions.	Inquiry

HLA-B*15:18:01:06 Genomic Plasmid Vector	PHLAG82511052	Plasmid vector containing HLA-B*15:18:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:06 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:07 Genomic Plasmid Vector	PHLAG82511053	Plasmid vector containing HLA-B*15:18:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:07 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:08 Genomic Plasmid Vector	PHLAG82511054	Plasmid vector containing HLA-B*15:18:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:08 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:09 Genomic Plasmid Vector	PHLAG82511055	Plasmid vector containing HLA-B*15:18:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:09 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:10 Genomic Plasmid Vector	PHLAG82511056	Plasmid vector containing HLA-B*15:18:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:10 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:11 Genomic Plasmid Vector	PHLAG82511057	Plasmid vector containing HLA-B*15:18:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:11 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:12 Genomic Plasmid Vector	PHLAG82511058	Plasmid vector containing HLA-B*15:18:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:12 protein under different cellular conditions.	Inquiry
HLA-B*15:18:01:13 Genomic Plasmid Vector	PHLAG82511059	Plasmid vector containing HLA-B*15:18:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:01:13 protein under different cellular conditions.	Inquiry
HLA-B*15:18:02 Genomic Plasmid Vector	PHLAG82511060	Plasmid vector containing HLA-B*15:18:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:02 protein under different cellular conditions.	Inquiry

HLA-B*15:18:03 Genomic Plasmid Vector	PHLAG82511061	Plasmid vector containing HLA-B*15:18:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:03 protein under different cellular conditions.	Inquiry
HLA-B*15:18:04 Genomic Plasmid Vector	PHLAG82511062	Plasmid vector containing HLA-B*15:18:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:04 protein under different cellular conditions.	Inquiry
HLA-B*15:18:05 Genomic Plasmid Vector	PHLAG82511063	Plasmid vector containing HLA-B*15:18:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:05 protein under different cellular conditions.	Inquiry
HLA-B*15:18:06 Genomic Plasmid Vector	PHLAG82511064	Plasmid vector containing HLA-B*15:18:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:06 protein under different cellular conditions.	Inquiry
HLA-B*15:18:07 Genomic Plasmid Vector	PHLAG82511065	Plasmid vector containing HLA-B*15:18:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:07 protein under different cellular conditions.	Inquiry
HLA-B*15:18:08 Genomic Plasmid Vector	PHLAG82511066	Plasmid vector containing HLA-B*15:18:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:08 protein under different cellular conditions.	Inquiry
HLA-B*15:18:09 Genomic Plasmid Vector	PHLAG82511067	Plasmid vector containing HLA-B*15:18:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:09 protein under different cellular conditions.	Inquiry
HLA-B*15:18:10 Genomic Plasmid Vector	PHLAG82511068	Plasmid vector containing HLA-B*15:18:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:18:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:18:10 protein under different cellular conditions.	Inquiry
HLA-B*15:180 Genomic Plasmid Vector	PHLAG82511069	Plasmid vector containing HLA-B*15:180 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:180 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:180 protein under different cellular conditions.	Inquiry

HLA-B*15:181N Genomic Plasmid Vector	PHLAG82511070	Plasmid vector containing HLA-B*15:181N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:181N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:181N protein under different cellular conditions.	Inquiry
HLA-B*15:182N Genomic Plasmid Vector	PHLAG82511071	Plasmid vector containing HLA-B*15:182N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:182N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:182N protein under different cellular conditions.	Inquiry
HLA-B*15:183 Genomic Plasmid Vector	PHLAG82511072	Plasmid vector containing HLA-B*15:183 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:183 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:183 protein under different cellular conditions.	Inquiry
HLA-B*15:184 Genomic Plasmid Vector	PHLAG82511073	Plasmid vector containing HLA-B*15:184 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:184 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:184 protein under different cellular conditions.	Inquiry
HLA-B*15:185 Genomic Plasmid Vector	PHLAG82511074	Plasmid vector containing HLA-B*15:185 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:185 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:185 protein under different cellular conditions.	Inquiry
HLA-B*15:186 Genomic Plasmid Vector	PHLAG82511075	Plasmid vector containing HLA-B*15:186 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:186 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:186 protein under different cellular conditions.	Inquiry
HLA-B*15:187 Genomic Plasmid Vector	PHLAG82511076	Plasmid vector containing HLA-B*15:187 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:187 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:187 protein under different cellular conditions.	Inquiry
HLA-B*15:188 Genomic Plasmid Vector	PHLAG82511077	Plasmid vector containing HLA-B*15:188 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:188 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:188 protein under different cellular conditions.	Inquiry
HLA-B*15:189:01 Genomic Plasmid Vector	PHLAG82511078	Plasmid vector containing HLA-B*15:189:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:189:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:189:01 protein under different cellular conditions.	Inquiry

HLA-B*15:189:02 Genomic Plasmid Vector	PHLAG82511079	Plasmid vector containing HLA-B*15:189:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:189:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:189:02 protein under different cellular conditions.	Inquiry
HLA-B*15:19 Genomic Plasmid Vector	PHLAG825110810	Plasmid vector containing HLA-B*15:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:19 protein under different cellular conditions.	Inquiry
HLA-B*15:190N Genomic Plasmid Vector	PHLAG825110811	Plasmid vector containing HLA-B*15:190N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:190N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:190N protein under different cellular conditions.	Inquiry
HLA-B*15:191 Genomic Plasmid Vector	PHLAG825110812	Plasmid vector containing HLA-B*15:191 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:191 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:191 protein under different cellular conditions.	Inquiry
HLA-B*15:192 Genomic Plasmid Vector	PHLAG825110813	Plasmid vector containing HLA-B*15:192 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:192 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:192 protein under different cellular conditions.	Inquiry
HLA-B*15:193 Genomic Plasmid Vector	PHLAG825110814	Plasmid vector containing HLA-B*15:193 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:193 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:193 protein under different cellular conditions.	Inquiry
HLA-B*15:194 Genomic Plasmid Vector	PHLAG825110815	Plasmid vector containing HLA-B*15:194 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:194 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:194 protein under different cellular conditions.	Inquiry
HLA-B*15:195 Genomic Plasmid Vector	PHLAG825110816	Plasmid vector containing HLA-B*15:195 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:195 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:195 protein under different cellular conditions.	Inquiry
HLA-B*15:196 Genomic Plasmid Vector	PHLAG825110817	Plasmid vector containing HLA-B*15:196 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:196 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:196 protein under different cellular conditions.	Inquiry

HLA-B*15:197:01 Genomic Plasmid Vector	PHLAG82511088	Plasmid vector containing HLA-B*15:197:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:197:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:197:01 protein under different cellular conditions.	Inquiry
HLA-B*15:197:02 Genomic Plasmid Vector	PHLAG82511089	Plasmid vector containing HLA-B*15:197:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:197:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:197:02 protein under different cellular conditions.	Inquiry
HLA-B*15:198 Genomic Plasmid Vector	PHLAG82511090	Plasmid vector containing HLA-B*15:198 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:198 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:198 protein under different cellular conditions.	Inquiry
HLA-B*15:199 Genomic Plasmid Vector	PHLAG82511091	Plasmid vector containing HLA-B*15:199 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:199 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:199 protein under different cellular conditions.	Inquiry
HLA-B*15:20 Genomic Plasmid Vector	PHLAG82511092	Plasmid vector containing HLA-B*15:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:20 protein under different cellular conditions.	Inquiry
HLA-B*15:200 Genomic Plasmid Vector	PHLAG82511093	Plasmid vector containing HLA-B*15:200 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:200 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:200 protein under different cellular conditions.	Inquiry
HLA-B*15:201 Genomic Plasmid Vector	PHLAG82511094	Plasmid vector containing HLA-B*15:201 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:201 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:201 protein under different cellular conditions.	Inquiry
HLA-B*15:202 Genomic Plasmid Vector	PHLAG82511095	Plasmid vector containing HLA-B*15:202 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:202 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:202 protein under different cellular conditions.	Inquiry
HLA-B*15:203 Genomic Plasmid Vector	PHLAG82511096	Plasmid vector containing HLA-B*15:203 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:203 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:203 protein under different cellular conditions.	Inquiry

HLA-B*15:204 Genomic Plasmid Vector	PHLAG82511097	Plasmid vector containing HLA-B*15:204 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:204 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:204 protein under different cellular conditions.	Inquiry
HLA-B*15:205 Genomic Plasmid Vector	PHLAG82511098	Plasmid vector containing HLA-B*15:205 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:205 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:205 protein under different cellular conditions.	Inquiry
HLA-B*15:206 Genomic Plasmid Vector	PHLAG82511099	Plasmid vector containing HLA-B*15:206 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:206 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:206 protein under different cellular conditions.	Inquiry
HLA-B*15:207 Genomic Plasmid Vector	PHLAG825111000	Plasmid vector containing HLA-B*15:207 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:207 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:207 protein under different cellular conditions.	Inquiry
HLA-B*15:208 Genomic Plasmid Vector	PHLAG825111001	Plasmid vector containing HLA-B*15:208 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:208 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:208 protein under different cellular conditions.	Inquiry
HLA-B*15:209N Genomic Plasmid Vector	PHLAG825111002	Plasmid vector containing HLA-B*15:209N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:209N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:209N protein under different cellular conditions.	Inquiry
HLA-B*15:21:01:01 Genomic Plasmid Vector	PHLAG825111003	Plasmid vector containing HLA-B*15:21:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:21:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:21:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:21:01:02 Genomic Plasmid Vector	PHLAG825111004	Plasmid vector containing HLA-B*15:21:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:21:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:21:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:21:01:03 Genomic Plasmid Vector	PHLAG825111005	Plasmid vector containing HLA-B*15:21:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:21:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:21:01:03 protein under different cellular conditions.	Inquiry

HLA-B*15:210 Genomic Plasmid Vector	PHLAG82511106	Plasmid vector containing HLA-B*15:210 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:210 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:210 protein under different cellular conditions.	Inquiry
HLA-B*15:211 Genomic Plasmid Vector	PHLAG82511107	Plasmid vector containing HLA-B*15:211 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:211 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:211 protein under different cellular conditions.	Inquiry
HLA-B*15:212 Genomic Plasmid Vector	PHLAG82511108	Plasmid vector containing HLA-B*15:212 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:212 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:212 protein under different cellular conditions.	Inquiry
HLA-B*15:213 Genomic Plasmid Vector	PHLAG82511109	Plasmid vector containing HLA-B*15:213 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:213 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:213 protein under different cellular conditions.	Inquiry
HLA-B*15:214 Genomic Plasmid Vector	PHLAG82511110	Plasmid vector containing HLA-B*15:214 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:214 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:214 protein under different cellular conditions.	Inquiry
HLA-B*15:215 Genomic Plasmid Vector	PHLAG82511111	Plasmid vector containing HLA-B*15:215 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:215 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:215 protein under different cellular conditions.	Inquiry
HLA-B*15:216 Genomic Plasmid Vector	PHLAG82511112	Plasmid vector containing HLA-B*15:216 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:216 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:216 protein under different cellular conditions.	Inquiry
HLA-B*15:217 Genomic Plasmid Vector	PHLAG82511113	Plasmid vector containing HLA-B*15:217 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:217 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:217 protein under different cellular conditions.	Inquiry
HLA-B*15:218Q Genomic Plasmid Vector	PHLAG82511114	Plasmid vector containing HLA-B*15:218Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:218Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:218Q protein under different cellular conditions.	Inquiry

HLA-B*15:219 Genomic Plasmid Vector	PHLAG82511115	Plasmid vector containing HLA-B*15:219 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:219 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:219 protein under different cellular conditions.	Inquiry
HLA-B*15:220:01:01 Genomic Plasmid Vector	PHLAG82511116	Plasmid vector containing HLA-B*15:220:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:220:01:02 Genomic Plasmid Vector	PHLAG82511117	Plasmid vector containing HLA-B*15:220:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:220:01:03 Genomic Plasmid Vector	PHLAG82511118	Plasmid vector containing HLA-B*15:220:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:220:01:04 Genomic Plasmid Vector	PHLAG82511119	Plasmid vector containing HLA-B*15:220:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:01:04 protein under different cellular conditions.	Inquiry
HLA-B*15:220:02 Genomic Plasmid Vector	PHLAG82511120	Plasmid vector containing HLA-B*15:220:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:02 protein under different cellular conditions.	Inquiry
HLA-B*15:220:03 Genomic Plasmid Vector	PHLAG82511121	Plasmid vector containing HLA-B*15:220:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:03 protein under different cellular conditions.	Inquiry
HLA-B*15:220:04 Genomic Plasmid Vector	PHLAG82511122	Plasmid vector containing HLA-B*15:220:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:220:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:220:04 protein under different cellular conditions.	Inquiry
HLA-B*15:221 Genomic Plasmid Vector	PHLAG82511123	Plasmid vector containing HLA-B*15:221 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:221 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:221 protein under different cellular conditions.	Inquiry

HLA-B*15:222 Genomic Plasmid Vector	PHLAG82511124	Plasmid vector containing HLA-B*15:222 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:222 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:222 protein under different cellular conditions.	Inquiry
HLA-B*15:223 Genomic Plasmid Vector	PHLAG82511125	Plasmid vector containing HLA-B*15:223 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:223 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:223 protein under different cellular conditions.	Inquiry
HLA-B*15:224 Genomic Plasmid Vector	PHLAG82511126	Plasmid vector containing HLA-B*15:224 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:224 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:224 protein under different cellular conditions.	Inquiry
HLA-B*15:225 Genomic Plasmid Vector	PHLAG82511127	Plasmid vector containing HLA-B*15:225 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:225 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:225 protein under different cellular conditions.	Inquiry
HLA-B*15:226N Genomic Plasmid Vector	PHLAG82511128	Plasmid vector containing HLA-B*15:226N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:226N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:226N protein under different cellular conditions.	Inquiry
HLA-B*15:227 Genomic Plasmid Vector	PHLAG82511129	Plasmid vector containing HLA-B*15:227 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:227 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:227 protein under different cellular conditions.	Inquiry
HLA-B*15:228 Genomic Plasmid Vector	PHLAG82511130	Plasmid vector containing HLA-B*15:228 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:228 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:228 protein under different cellular conditions.	Inquiry
HLA-B*15:229 Genomic Plasmid Vector	PHLAG82511131	Plasmid vector containing HLA-B*15:229 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:229 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:229 protein under different cellular conditions.	Inquiry
HLA-B*15:23 Genomic Plasmid Vector	PHLAG82511132	Plasmid vector containing HLA-B*15:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:23 protein under different cellular conditions.	Inquiry

HLA-B*15:230 Genomic Plasmid Vector	PHLAG82511133	Plasmid vector containing HLA-B*15:230 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:230 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:230 protein under different cellular conditions.	Inquiry
HLA-B*15:231 Genomic Plasmid Vector	PHLAG82511134	Plasmid vector containing HLA-B*15:231 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:231 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:231 protein under different cellular conditions.	Inquiry
HLA-B*15:232 Genomic Plasmid Vector	PHLAG82511135	Plasmid vector containing HLA-B*15:232 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:232 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:232 protein under different cellular conditions.	Inquiry
HLA-B*15:233 Genomic Plasmid Vector	PHLAG82511136	Plasmid vector containing HLA-B*15:233 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:233 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:233 protein under different cellular conditions.	Inquiry
HLA-B*15:234 Genomic Plasmid Vector	PHLAG82511137	Plasmid vector containing HLA-B*15:234 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:234 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:234 protein under different cellular conditions.	Inquiry
HLA-B*15:235 Genomic Plasmid Vector	PHLAG82511138	Plasmid vector containing HLA-B*15:235 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:235 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:235 protein under different cellular conditions.	Inquiry
HLA-B*15:236 Genomic Plasmid Vector	PHLAG82511139	Plasmid vector containing HLA-B*15:236 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:236 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:236 protein under different cellular conditions.	Inquiry
HLA-B*15:237 Genomic Plasmid Vector	PHLAG82511140	Plasmid vector containing HLA-B*15:237 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:237 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:237 protein under different cellular conditions.	Inquiry
HLA-B*15:238 Genomic Plasmid Vector	PHLAG82511141	Plasmid vector containing HLA-B*15:238 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:238 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:238 protein under different cellular conditions.	Inquiry

HLA-B*15:239 Genomic Plasmid Vector	PHLAG82511142	Plasmid vector containing HLA-B*15:239 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:239 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:239 protein under different cellular conditions.	Inquiry
HLA-B*15:24:01 Genomic Plasmid Vector	PHLAG82511143	Plasmid vector containing HLA-B*15:24:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:24:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:24:01 protein under different cellular conditions.	Inquiry
HLA-B*15:24:02 Genomic Plasmid Vector	PHLAG82511144	Plasmid vector containing HLA-B*15:24:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:24:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:24:02 protein under different cellular conditions.	Inquiry
HLA-B*15:240 Genomic Plasmid Vector	PHLAG82511145	Plasmid vector containing HLA-B*15:240 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:240 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:240 protein under different cellular conditions.	Inquiry
HLA-B*15:241 Genomic Plasmid Vector	PHLAG82511146	Plasmid vector containing HLA-B*15:241 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:241 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:241 protein under different cellular conditions.	Inquiry
HLA-B*15:242:01 Genomic Plasmid Vector	PHLAG82511147	Plasmid vector containing HLA-B*15:242:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:242:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:242:01 protein under different cellular conditions.	Inquiry
HLA-B*15:242:02 Genomic Plasmid Vector	PHLAG82511148	Plasmid vector containing HLA-B*15:242:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:242:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:242:02 protein under different cellular conditions.	Inquiry
HLA-B*15:243 Genomic Plasmid Vector	PHLAG82511149	Plasmid vector containing HLA-B*15:243 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:243 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:243 protein under different cellular conditions.	Inquiry
HLA-B*15:244 Genomic Plasmid Vector	PHLAG82511150	Plasmid vector containing HLA-B*15:244 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:244 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:244 protein under different cellular conditions.	Inquiry

HLA-B*15:245:01Q Genomic Plasmid Vector	PHLAG82511151	Plasmid vector containing HLA-B*15:245:01Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:245:01Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:245:01Q protein under different cellular conditions.	Inquiry
HLA-B*15:245:02Q Genomic Plasmid Vector	PHLAG82511152	Plasmid vector containing HLA-B*15:245:02Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:245:02Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:245:02Q protein under different cellular conditions.	Inquiry
HLA-B*15:246N Genomic Plasmid Vector	PHLAG82511153	Plasmid vector containing HLA-B*15:246N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:246N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:246N protein under different cellular conditions.	Inquiry
HLA-B*15:247 Genomic Plasmid Vector	PHLAG82511154	Plasmid vector containing HLA-B*15:247 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:247 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:247 protein under different cellular conditions.	Inquiry
HLA-B*15:248 Genomic Plasmid Vector	PHLAG82511155	Plasmid vector containing HLA-B*15:248 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:248 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:248 protein under different cellular conditions.	Inquiry
HLA-B*15:249 Genomic Plasmid Vector	PHLAG82511156	Plasmid vector containing HLA-B*15:249 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:249 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:249 protein under different cellular conditions.	Inquiry
HLA-B*15:25:01:01 Genomic Plasmid Vector	PHLAG82511157	Plasmid vector containing HLA-B*15:25:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:25:01:02 Genomic Plasmid Vector	PHLAG82511158	Plasmid vector containing HLA-B*15:25:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:25:02 Genomic Plasmid Vector	PHLAG82511159	Plasmid vector containing HLA-B*15:25:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:02 protein under different cellular conditions.	Inquiry

HLA-B*15:25:03 Genomic Plasmid Vector	PHLAG82511160	Plasmid vector containing HLA-B*15:25:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:03 protein under different cellular conditions.	Inquiry
HLA-B*15:25:04 Genomic Plasmid Vector	PHLAG82511161	Plasmid vector containing HLA-B*15:25:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:04 protein under different cellular conditions.	Inquiry
HLA-B*15:25:05 Genomic Plasmid Vector	PHLAG82511162	Plasmid vector containing HLA-B*15:25:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:25:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:25:05 protein under different cellular conditions.	Inquiry
HLA-B*15:250 Genomic Plasmid Vector	PHLAG82511163	Plasmid vector containing HLA-B*15:250 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:250 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:250 protein under different cellular conditions.	Inquiry
HLA-B*15:251:01 Genomic Plasmid Vector	PHLAG82511164	Plasmid vector containing HLA-B*15:251:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:251:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:251:01 protein under different cellular conditions.	Inquiry
HLA-B*15:251:02 Genomic Plasmid Vector	PHLAG82511165	Plasmid vector containing HLA-B*15:251:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:251:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:251:02 protein under different cellular conditions.	Inquiry
HLA-B*15:251:03 Genomic Plasmid Vector	PHLAG82511166	Plasmid vector containing HLA-B*15:251:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:251:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:251:03 protein under different cellular conditions.	Inquiry
HLA-B*15:252 Genomic Plasmid Vector	PHLAG82511167	Plasmid vector containing HLA-B*15:252 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:252 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:252 protein under different cellular conditions.	Inquiry
HLA-B*15:253 Genomic Plasmid Vector	PHLAG82511168	Plasmid vector containing HLA-B*15:253 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:253 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:253 protein under different cellular conditions.	Inquiry

HLA-B*15:254 Genomic Plasmid Vector	PHLAG82511169	Plasmid vector containing HLA-B*15:254 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:254 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:254 protein under different cellular conditions.	Inquiry
HLA-B*15:255 Genomic Plasmid Vector	PHLAG825111170	Plasmid vector containing HLA-B*15:255 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:255 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:255 protein under different cellular conditions.	Inquiry
HLA-B*15:256 Genomic Plasmid Vector	PHLAG825111171	Plasmid vector containing HLA-B*15:256 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:256 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:256 protein under different cellular conditions.	Inquiry
HLA-B*15:257 Genomic Plasmid Vector	PHLAG825111172	Plasmid vector containing HLA-B*15:257 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:257 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:257 protein under different cellular conditions.	Inquiry
HLA-B*15:258N Genomic Plasmid Vector	PHLAG825111173	Plasmid vector containing HLA-B*15:258N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:258N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:258N protein under different cellular conditions.	Inquiry
HLA-B*15:259 Genomic Plasmid Vector	PHLAG825111174	Plasmid vector containing HLA-B*15:259 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:259 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:259 protein under different cellular conditions.	Inquiry
HLA-B*15:260 Genomic Plasmid Vector	PHLAG825111175	Plasmid vector containing HLA-B*15:260 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:260 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:260 protein under different cellular conditions.	Inquiry
HLA-B*15:261 Genomic Plasmid Vector	PHLAG825111176	Plasmid vector containing HLA-B*15:261 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:261 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:261 protein under different cellular conditions.	Inquiry
HLA-B*15:262:01N Genomic Plasmid Vector	PHLAG825111177	Plasmid vector containing HLA-B*15:262:01N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:262:01N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:262:01N protein under different cellular conditions.	Inquiry

HLA-B*15:262:02N Genomic Plasmid Vector	PHLAG82511178	Plasmid vector containing HLA-B*15:262:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:262:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:262:02N protein under different cellular conditions.	Inquiry
HLA-B*15:263 Genomic Plasmid Vector	PHLAG82511179	Plasmid vector containing HLA-B*15:263 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:263 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:263 protein under different cellular conditions.	Inquiry
HLA-B*15:264 Genomic Plasmid Vector	PHLAG82511180	Plasmid vector containing HLA-B*15:264 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:264 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:264 protein under different cellular conditions.	Inquiry
HLA-B*15:265 Genomic Plasmid Vector	PHLAG82511181	Plasmid vector containing HLA-B*15:265 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:265 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:265 protein under different cellular conditions.	Inquiry
HLA-B*15:266 Genomic Plasmid Vector	PHLAG82511182	Plasmid vector containing HLA-B*15:266 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:266 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:266 protein under different cellular conditions.	Inquiry
HLA-B*15:267 Genomic Plasmid Vector	PHLAG82511183	Plasmid vector containing HLA-B*15:267 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:267 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:267 protein under different cellular conditions.	Inquiry
HLA-B*15:268 Genomic Plasmid Vector	PHLAG82511184	Plasmid vector containing HLA-B*15:268 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:268 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:268 protein under different cellular conditions.	Inquiry
HLA-B*15:269 Genomic Plasmid Vector	PHLAG82511185	Plasmid vector containing HLA-B*15:269 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:269 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:269 protein under different cellular conditions.	Inquiry
HLA-B*15:26N Genomic Plasmid Vector	PHLAG82511186	Plasmid vector containing HLA-B*15:26N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:26N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:26N protein under different cellular conditions.	Inquiry

HLA-B*15:27:01:01 Genomic Plasmid Vector	PHLAG82511187	Plasmid vector containing HLA-B*15:27:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:27:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:27:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:27:01:02 Genomic Plasmid Vector	PHLAG82511188	Plasmid vector containing HLA-B*15:27:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:27:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:27:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:27:02 Genomic Plasmid Vector	PHLAG82511189	Plasmid vector containing HLA-B*15:27:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:27:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:27:02 protein under different cellular conditions.	Inquiry
HLA-B*15:27:03 Genomic Plasmid Vector	PHLAG82511190	Plasmid vector containing HLA-B*15:27:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:27:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:27:03 protein under different cellular conditions.	Inquiry
HLA-B*15:27:04 Genomic Plasmid Vector	PHLAG82511191	Plasmid vector containing HLA-B*15:27:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:27:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:27:04 protein under different cellular conditions.	Inquiry
HLA-B*15:270 Genomic Plasmid Vector	PHLAG82511192	Plasmid vector containing HLA-B*15:270 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:270 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:270 protein under different cellular conditions.	Inquiry
HLA-B*15:271 Genomic Plasmid Vector	PHLAG82511193	Plasmid vector containing HLA-B*15:271 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:271 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:271 protein under different cellular conditions.	Inquiry
HLA-B*15:272N Genomic Plasmid Vector	PHLAG82511194	Plasmid vector containing HLA-B*15:272N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:272N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:272N protein under different cellular conditions.	Inquiry
HLA-B*15:273 Genomic Plasmid Vector	PHLAG82511195	Plasmid vector containing HLA-B*15:273 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:273 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:273 protein under different cellular conditions.	Inquiry

HLA-B*15:274 Genomic Plasmid Vector	PHLAG82511196	Plasmid vector containing HLA-B*15:274 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:274 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:274 protein under different cellular conditions.	Inquiry
HLA-B*15:275:01 Genomic Plasmid Vector	PHLAG82511197	Plasmid vector containing HLA-B*15:275:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:275:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:275:01 protein under different cellular conditions.	Inquiry
HLA-B*15:275:02 Genomic Plasmid Vector	PHLAG82511198	Plasmid vector containing HLA-B*15:275:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:275:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:275:02 protein under different cellular conditions.	Inquiry
HLA-B*15:276 Genomic Plasmid Vector	PHLAG82511199	Plasmid vector containing HLA-B*15:276 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:276 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:276 protein under different cellular conditions.	Inquiry
HLA-B*15:277 Genomic Plasmid Vector	PHLAG82511200	Plasmid vector containing HLA-B*15:277 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:277 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:277 protein under different cellular conditions.	Inquiry
HLA-B*15:278 Genomic Plasmid Vector	PHLAG82511201	Plasmid vector containing HLA-B*15:278 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:278 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:278 protein under different cellular conditions.	Inquiry
HLA-B*15:279 Genomic Plasmid Vector	PHLAG82511202	Plasmid vector containing HLA-B*15:279 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:279 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:279 protein under different cellular conditions.	Inquiry
HLA-B*15:28 Genomic Plasmid Vector	PHLAG82511203	Plasmid vector containing HLA-B*15:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:28 protein under different cellular conditions.	Inquiry
HLA-B*15:280 Genomic Plasmid Vector	PHLAG82511204	Plasmid vector containing HLA-B*15:280 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:280 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:280 protein under different cellular conditions.	Inquiry

HLA-B*15:281 Genomic Plasmid Vector	PHLAG82511205	Plasmid vector containing HLA-B*15:281 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:281 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:281 protein under different cellular conditions.	Inquiry
HLA-B*15:282 Genomic Plasmid Vector	PHLAG82511206	Plasmid vector containing HLA-B*15:282 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:282 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:282 protein under different cellular conditions.	Inquiry
HLA-B*15:283 Genomic Plasmid Vector	PHLAG82511207	Plasmid vector containing HLA-B*15:283 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:283 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:283 protein under different cellular conditions.	Inquiry
HLA-B*15:284 Genomic Plasmid Vector	PHLAG82511208	Plasmid vector containing HLA-B*15:284 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:284 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:284 protein under different cellular conditions.	Inquiry
HLA-B*15:285 Genomic Plasmid Vector	PHLAG82511209	Plasmid vector containing HLA-B*15:285 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:285 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:285 protein under different cellular conditions.	Inquiry
HLA-B*15:286 Genomic Plasmid Vector	PHLAG825112110	Plasmid vector containing HLA-B*15:286 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:286 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:286 protein under different cellular conditions.	Inquiry
HLA-B*15:287 Genomic Plasmid Vector	PHLAG825112111	Plasmid vector containing HLA-B*15:287 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:287 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:287 protein under different cellular conditions.	Inquiry
HLA-B*15:288 Genomic Plasmid Vector	PHLAG825112112	Plasmid vector containing HLA-B*15:288 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:288 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:288 protein under different cellular conditions.	Inquiry
HLA-B*15:289 Genomic Plasmid Vector	PHLAG825112113	Plasmid vector containing HLA-B*15:289 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:289 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:289 protein under different cellular conditions.	Inquiry

HLA-B*15:29:01:01 Genomic Plasmid Vector	PHLAG82511214	Plasmid vector containing HLA-B*15:29:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:29:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:29:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:29:01:02 Genomic Plasmid Vector	PHLAG82511215	Plasmid vector containing HLA-B*15:29:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:29:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:29:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:290 Genomic Plasmid Vector	PHLAG82511216	Plasmid vector containing HLA-B*15:290 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:290 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:290 protein under different cellular conditions.	Inquiry
HLA-B*15:291 Genomic Plasmid Vector	PHLAG82511217	Plasmid vector containing HLA-B*15:291 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:291 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:291 protein under different cellular conditions.	Inquiry
HLA-B*15:292 Genomic Plasmid Vector	PHLAG82511218	Plasmid vector containing HLA-B*15:292 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:292 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:292 protein under different cellular conditions.	Inquiry
HLA-B*15:293 Genomic Plasmid Vector	PHLAG82511219	Plasmid vector containing HLA-B*15:293 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:293 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:293 protein under different cellular conditions.	Inquiry
HLA-B*15:294N Genomic Plasmid Vector	PHLAG82511220	Plasmid vector containing HLA-B*15:294N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:294N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:294N protein under different cellular conditions.	Inquiry
HLA-B*15:295 Genomic Plasmid Vector	PHLAG82511221	Plasmid vector containing HLA-B*15:295 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:295 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:295 protein under different cellular conditions.	Inquiry
HLA-B*15:296 Genomic Plasmid Vector	PHLAG82511222	Plasmid vector containing HLA-B*15:296 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:296 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:296 protein under different cellular conditions.	Inquiry

HLA-B*15:297 Genomic Plasmid Vector	PHLAG82511223	Plasmid vector containing HLA-B*15:297 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:297 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:297 protein under different cellular conditions.	Inquiry
HLA-B*15:298 Genomic Plasmid Vector	PHLAG82511224	Plasmid vector containing HLA-B*15:298 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:298 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:298 protein under different cellular conditions.	Inquiry
HLA-B*15:299 Genomic Plasmid Vector	PHLAG82511225	Plasmid vector containing HLA-B*15:299 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:299 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:299 protein under different cellular conditions.	Inquiry
HLA-B*15:30:01:01 Genomic Plasmid Vector	PHLAG82511226	Plasmid vector containing HLA-B*15:30:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:30:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:30:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:30:01:02 Genomic Plasmid Vector	PHLAG82511227	Plasmid vector containing HLA-B*15:30:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:30:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:30:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:30:01:03 Genomic Plasmid Vector	PHLAG82511228	Plasmid vector containing HLA-B*15:30:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:30:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:30:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:300 Genomic Plasmid Vector	PHLAG82511229	Plasmid vector containing HLA-B*15:300 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:300 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:300 protein under different cellular conditions.	Inquiry
HLA-B*15:301 Genomic Plasmid Vector	PHLAG82511230	Plasmid vector containing HLA-B*15:301 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:301 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:301 protein under different cellular conditions.	Inquiry
HLA-B*15:302N Genomic Plasmid Vector	PHLAG82511231	Plasmid vector containing HLA-B*15:302N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:302N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:302N protein under different cellular conditions.	Inquiry

HLA-B*15:303 Genomic Plasmid Vector	PHLAG82511232	Plasmid vector containing HLA-B*15:303 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:303 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:303 protein under different cellular conditions.	Inquiry
HLA-B*15:304N Genomic Plasmid Vector	PHLAG82511233	Plasmid vector containing HLA-B*15:304N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:304N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:304N protein under different cellular conditions.	Inquiry
HLA-B*15:305 Genomic Plasmid Vector	PHLAG82511234	Plasmid vector containing HLA-B*15:305 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:305 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:305 protein under different cellular conditions.	Inquiry
HLA-B*15:306 Genomic Plasmid Vector	PHLAG82511235	Plasmid vector containing HLA-B*15:306 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:306 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:306 protein under different cellular conditions.	Inquiry
HLA-B*15:307 Genomic Plasmid Vector	PHLAG82511236	Plasmid vector containing HLA-B*15:307 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:307 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:307 protein under different cellular conditions.	Inquiry
HLA-B*15:308 Genomic Plasmid Vector	PHLAG82511237	Plasmid vector containing HLA-B*15:308 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:308 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:308 protein under different cellular conditions.	Inquiry
HLA-B*15:309 Genomic Plasmid Vector	PHLAG82511238	Plasmid vector containing HLA-B*15:309 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:309 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:309 protein under different cellular conditions.	Inquiry
HLA-B*15:31:01:01 Genomic Plasmid Vector	PHLAG82511239	Plasmid vector containing HLA-B*15:31:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:31:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:31:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:31:01:02 Genomic Plasmid Vector	PHLAG82511240	Plasmid vector containing HLA-B*15:31:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:31:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:31:01:02 protein under different cellular conditions.	Inquiry

HLA-B*15:31:01:03 Genomic Plasmid Vector	PHLAG82511241	Plasmid vector containing HLA-B*15:31:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:31:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:31:01:03 protein under different cellular conditions.	Inquiry
HLA-B*15:310 Genomic Plasmid Vector	PHLAG82511242	Plasmid vector containing HLA-B*15:310 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:310 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:310 protein under different cellular conditions.	Inquiry
HLA-B*15:311 Genomic Plasmid Vector	PHLAG82511243	Plasmid vector containing HLA-B*15:311 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:311 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:311 protein under different cellular conditions.	Inquiry
HLA-B*15:312 Genomic Plasmid Vector	PHLAG82511244	Plasmid vector containing HLA-B*15:312 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:312 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:312 protein under different cellular conditions.	Inquiry
HLA-B*15:313 Genomic Plasmid Vector	PHLAG82511245	Plasmid vector containing HLA-B*15:313 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:313 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:313 protein under different cellular conditions.	Inquiry
HLA-B*15:314 Genomic Plasmid Vector	PHLAG82511246	Plasmid vector containing HLA-B*15:314 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:314 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:314 protein under different cellular conditions.	Inquiry
HLA-B*15:315 Genomic Plasmid Vector	PHLAG82511247	Plasmid vector containing HLA-B*15:315 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:315 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:315 protein under different cellular conditions.	Inquiry
HLA-B*15:316 Genomic Plasmid Vector	PHLAG82511248	Plasmid vector containing HLA-B*15:316 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:316 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:316 protein under different cellular conditions.	Inquiry
HLA-B*15:317 Genomic Plasmid Vector	PHLAG82511249	Plasmid vector containing HLA-B*15:317 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:317 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:317 protein under different cellular conditions.	Inquiry

HLA-B*15:318 Genomic Plasmid Vector	PHLAG825112510	Plasmid vector containing HLA-B*15:318 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:318 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:318 protein under different cellular conditions.	Inquiry
HLA-B*15:319 Genomic Plasmid Vector	PHLAG825112511	Plasmid vector containing HLA-B*15:319 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:319 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:319 protein under different cellular conditions.	Inquiry
HLA-B*15:32:01 Genomic Plasmid Vector	PHLAG825112512	Plasmid vector containing HLA-B*15:32:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:32:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:32:01 protein under different cellular conditions.	Inquiry
HLA-B*15:32:02 Genomic Plasmid Vector	PHLAG825112513	Plasmid vector containing HLA-B*15:32:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:32:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:32:02 protein under different cellular conditions.	Inquiry
HLA-B*15:320 Genomic Plasmid Vector	PHLAG825112514	Plasmid vector containing HLA-B*15:320 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:320 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:320 protein under different cellular conditions.	Inquiry
HLA-B*15:321Q Genomic Plasmid Vector	PHLAG825112515	Plasmid vector containing HLA-B*15:321Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:321Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:321Q protein under different cellular conditions.	Inquiry
HLA-B*15:322 Genomic Plasmid Vector	PHLAG825112516	Plasmid vector containing HLA-B*15:322 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:322 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:322 protein under different cellular conditions.	Inquiry
HLA-B*15:323 Genomic Plasmid Vector	PHLAG825112517	Plasmid vector containing HLA-B*15:323 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:323 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:323 protein under different cellular conditions.	Inquiry
HLA-B*15:324 Genomic Plasmid Vector	PHLAG825112518	Plasmid vector containing HLA-B*15:324 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:324 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:324 protein under different cellular conditions.	Inquiry

HLA-B*15:325 Genomic Plasmid Vector	PHLAG82511259	Plasmid vector containing HLA-B*15:325 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:325 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:325 protein under different cellular conditions.	Inquiry
HLA-B*15:326 Genomic Plasmid Vector	PHLAG825112600	Plasmid vector containing HLA-B*15:326 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:326 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:326 protein under different cellular conditions.	Inquiry
HLA-B*15:327 Genomic Plasmid Vector	PHLAG825112611	Plasmid vector containing HLA-B*15:327 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:327 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:327 protein under different cellular conditions.	Inquiry
HLA-B*15:328 Genomic Plasmid Vector	PHLAG825112622	Plasmid vector containing HLA-B*15:328 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:328 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:328 protein under different cellular conditions.	Inquiry
HLA-B*15:329 Genomic Plasmid Vector	PHLAG825112633	Plasmid vector containing HLA-B*15:329 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:329 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:329 protein under different cellular conditions.	Inquiry
HLA-B*15:33 Genomic Plasmid Vector	PHLAG825112644	Plasmid vector containing HLA-B*15:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:33 protein under different cellular conditions.	Inquiry
HLA-B*15:330 Genomic Plasmid Vector	PHLAG825112655	Plasmid vector containing HLA-B*15:330 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:330 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:330 protein under different cellular conditions.	Inquiry
HLA-B*15:331 Genomic Plasmid Vector	PHLAG825112666	Plasmid vector containing HLA-B*15:331 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:331 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:331 protein under different cellular conditions.	Inquiry
HLA-B*15:332 Genomic Plasmid Vector	PHLAG825112677	Plasmid vector containing HLA-B*15:332 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:332 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:332 protein under different cellular conditions.	Inquiry

HLA-B*15:333 Genomic Plasmid Vector	PHLAG82511268	Plasmid vector containing HLA-B*15:333 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:333 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:333 protein under different cellular conditions.	Inquiry
HLA-B*15:334 Genomic Plasmid Vector	PHLAG82511269	Plasmid vector containing HLA-B*15:334 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:334 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:334 protein under different cellular conditions.	Inquiry
HLA-B*15:335 Genomic Plasmid Vector	PHLAG82511270	Plasmid vector containing HLA-B*15:335 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:335 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:335 protein under different cellular conditions.	Inquiry
HLA-B*15:336 Genomic Plasmid Vector	PHLAG82511271	Plasmid vector containing HLA-B*15:336 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:336 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:336 protein under different cellular conditions.	Inquiry
HLA-B*15:337 Genomic Plasmid Vector	PHLAG82511272	Plasmid vector containing HLA-B*15:337 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:337 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:337 protein under different cellular conditions.	Inquiry
HLA-B*15:338 Genomic Plasmid Vector	PHLAG82511273	Plasmid vector containing HLA-B*15:338 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:338 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:338 protein under different cellular conditions.	Inquiry
HLA-B*15:339 Genomic Plasmid Vector	PHLAG82511274	Plasmid vector containing HLA-B*15:339 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:339 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:339 protein under different cellular conditions.	Inquiry
HLA-B*15:34:01 Genomic Plasmid Vector	PHLAG82511275	Plasmid vector containing HLA-B*15:34:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:34:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:34:01 protein under different cellular conditions.	Inquiry
HLA-B*15:34:02 Genomic Plasmid Vector	PHLAG82511276	Plasmid vector containing HLA-B*15:34:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:34:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:34:02 protein under different cellular conditions.	Inquiry

HLA-B*15:340 Genomic Plasmid Vector	PHLAG82511277	Plasmid vector containing HLA-B*15:340 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:340 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:340 protein under different cellular conditions.	Inquiry
HLA-B*15:341 Genomic Plasmid Vector	PHLAG82511278	Plasmid vector containing HLA-B*15:341 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:341 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:341 protein under different cellular conditions.	Inquiry
HLA-B*15:342 Genomic Plasmid Vector	PHLAG82511279	Plasmid vector containing HLA-B*15:342 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:342 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:342 protein under different cellular conditions.	Inquiry
HLA-B*15:343 Genomic Plasmid Vector	PHLAG825112800	Plasmid vector containing HLA-B*15:343 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:343 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:343 protein under different cellular conditions.	Inquiry
HLA-B*15:344 Genomic Plasmid Vector	PHLAG825112801	Plasmid vector containing HLA-B*15:344 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:344 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:344 protein under different cellular conditions.	Inquiry
HLA-B*15:345 Genomic Plasmid Vector	PHLAG825112802	Plasmid vector containing HLA-B*15:345 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:345 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:345 protein under different cellular conditions.	Inquiry
HLA-B*15:346 Genomic Plasmid Vector	PHLAG825112803	Plasmid vector containing HLA-B*15:346 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:346 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:346 protein under different cellular conditions.	Inquiry
HLA-B*15:347 Genomic Plasmid Vector	PHLAG825112804	Plasmid vector containing HLA-B*15:347 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:347 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:347 protein under different cellular conditions.	Inquiry
HLA-B*15:348 Genomic Plasmid Vector	PHLAG825112805	Plasmid vector containing HLA-B*15:348 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:348 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:348 protein under different cellular conditions.	Inquiry

HLA-B*15:349:01 Genomic Plasmid Vector	PHLAG82511286	Plasmid vector containing HLA-B*15:349:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:349:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:349:01 protein under different cellular conditions.	Inquiry
HLA-B*15:349:02 Genomic Plasmid Vector	PHLAG82511287	Plasmid vector containing HLA-B*15:349:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:349:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:349:02 protein under different cellular conditions.	Inquiry
HLA-B*15:35:01:01 Genomic Plasmid Vector	PHLAG82511288	Plasmid vector containing HLA-B*15:35:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:35:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:35:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:35:01:02 Genomic Plasmid Vector	PHLAG82511289	Plasmid vector containing HLA-B*15:35:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:35:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:35:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:35:02 Genomic Plasmid Vector	PHLAG82511290	Plasmid vector containing HLA-B*15:35:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:35:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:35:02 protein under different cellular conditions.	Inquiry
HLA-B*15:350 Genomic Plasmid Vector	PHLAG82511291	Plasmid vector containing HLA-B*15:350 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:350 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:350 protein under different cellular conditions.	Inquiry
HLA-B*15:351 Genomic Plasmid Vector	PHLAG82511292	Plasmid vector containing HLA-B*15:351 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:351 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:351 protein under different cellular conditions.	Inquiry
HLA-B*15:352 Genomic Plasmid Vector	PHLAG82511293	Plasmid vector containing HLA-B*15:352 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:352 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:352 protein under different cellular conditions.	Inquiry
HLA-B*15:353 Genomic Plasmid Vector	PHLAG82511294	Plasmid vector containing HLA-B*15:353 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:353 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:353 protein under different cellular conditions.	Inquiry

HLA-B*15:354 Genomic Plasmid Vector	PHLAG82511295	Plasmid vector containing HLA-B*15:354 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:354 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:354 protein under different cellular conditions.	Inquiry
HLA-B*15:355 Genomic Plasmid Vector	PHLAG82511296	Plasmid vector containing HLA-B*15:355 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:355 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:355 protein under different cellular conditions.	Inquiry
HLA-B*15:356 Genomic Plasmid Vector	PHLAG82511297	Plasmid vector containing HLA-B*15:356 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:356 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:356 protein under different cellular conditions.	Inquiry
HLA-B*15:357 Genomic Plasmid Vector	PHLAG82511298	Plasmid vector containing HLA-B*15:357 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:357 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:357 protein under different cellular conditions.	Inquiry
HLA-B*15:358 Genomic Plasmid Vector	PHLAG82511299	Plasmid vector containing HLA-B*15:358 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:358 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:358 protein under different cellular conditions.	Inquiry
HLA-B*15:359 Genomic Plasmid Vector	PHLAG825113000	Plasmid vector containing HLA-B*15:359 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:359 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:359 protein under different cellular conditions.	Inquiry
HLA-B*15:36 Genomic Plasmid Vector	PHLAG825113001	Plasmid vector containing HLA-B*15:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:36 protein under different cellular conditions.	Inquiry
HLA-B*15:360 Genomic Plasmid Vector	PHLAG825113002	Plasmid vector containing HLA-B*15:360 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:360 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:360 protein under different cellular conditions.	Inquiry
HLA-B*15:361 Genomic Plasmid Vector	PHLAG825113003	Plasmid vector containing HLA-B*15:361 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:361 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:361 protein under different cellular conditions.	Inquiry

HLA-B*15:362 Genomic Plasmid Vector	PHLAG82511304	Plasmid vector containing HLA-B*15:362 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:362 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:362 protein under different cellular conditions.	Inquiry
HLA-B*15:363:01 Genomic Plasmid Vector	PHLAG82511305	Plasmid vector containing HLA-B*15:363:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:363:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:363:01 protein under different cellular conditions.	Inquiry
HLA-B*15:363:02 Genomic Plasmid Vector	PHLAG82511306	Plasmid vector containing HLA-B*15:363:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:363:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:363:02 protein under different cellular conditions.	Inquiry
HLA-B*15:364 Genomic Plasmid Vector	PHLAG82511307	Plasmid vector containing HLA-B*15:364 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:364 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:364 protein under different cellular conditions.	Inquiry
HLA-B*15:365 Genomic Plasmid Vector	PHLAG82511308	Plasmid vector containing HLA-B*15:365 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:365 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:365 protein under different cellular conditions.	Inquiry
HLA-B*15:366 Genomic Plasmid Vector	PHLAG82511309	Plasmid vector containing HLA-B*15:366 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:366 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:366 protein under different cellular conditions.	Inquiry
HLA-B*15:367 Genomic Plasmid Vector	PHLAG825113110	Plasmid vector containing HLA-B*15:367 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:367 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:367 protein under different cellular conditions.	Inquiry
HLA-B*15:368 Genomic Plasmid Vector	PHLAG825113111	Plasmid vector containing HLA-B*15:368 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:368 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:368 protein under different cellular conditions.	Inquiry
HLA-B*15:369 Genomic Plasmid Vector	PHLAG825113112	Plasmid vector containing HLA-B*15:369 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:369 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:369 protein under different cellular conditions.	Inquiry

HLA-B*15:37 Genomic Plasmid Vector	PHLAG82511313	Plasmid vector containing HLA-B*15:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:37 protein under different cellular conditions.	Inquiry
HLA-B*15:370 Genomic Plasmid Vector	PHLAG82511314	Plasmid vector containing HLA-B*15:370 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:370 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:370 protein under different cellular conditions.	Inquiry
HLA-B*15:371 Genomic Plasmid Vector	PHLAG82511315	Plasmid vector containing HLA-B*15:371 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:371 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:371 protein under different cellular conditions.	Inquiry
HLA-B*15:372 Genomic Plasmid Vector	PHLAG82511316	Plasmid vector containing HLA-B*15:372 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:372 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:372 protein under different cellular conditions.	Inquiry
HLA-B*15:373 Genomic Plasmid Vector	PHLAG82511317	Plasmid vector containing HLA-B*15:373 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:373 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:373 protein under different cellular conditions.	Inquiry
HLA-B*15:374 Genomic Plasmid Vector	PHLAG82511318	Plasmid vector containing HLA-B*15:374 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:374 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:374 protein under different cellular conditions.	Inquiry
HLA-B*15:375N Genomic Plasmid Vector	PHLAG82511319	Plasmid vector containing HLA-B*15:375N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:375N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:375N protein under different cellular conditions.	Inquiry
HLA-B*15:376 Genomic Plasmid Vector	PHLAG82511320	Plasmid vector containing HLA-B*15:376 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:376 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:376 protein under different cellular conditions.	Inquiry
HLA-B*15:377Q Genomic Plasmid Vector	PHLAG82511321	Plasmid vector containing HLA-B*15:377Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:377Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:377Q protein under different cellular conditions.	Inquiry

HLA-B*15:378 Genomic Plasmid Vector	PHLAG825113212	Plasmid vector containing HLA-B*15:378 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:378 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:378 protein under different cellular conditions.	Inquiry
HLA-B*15:379 Genomic Plasmid Vector	PHLAG825113213	Plasmid vector containing HLA-B*15:379 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:379 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:379 protein under different cellular conditions.	Inquiry
HLA-B*15:38:01 Genomic Plasmid Vector	PHLAG825113214	Plasmid vector containing HLA-B*15:38:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:38:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:38:01 protein under different cellular conditions.	Inquiry
HLA-B*15:38:02 Genomic Plasmid Vector	PHLAG825113215	Plasmid vector containing HLA-B*15:38:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:38:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:38:02 protein under different cellular conditions.	Inquiry
HLA-B*15:380N Genomic Plasmid Vector	PHLAG825113216	Plasmid vector containing HLA-B*15:380N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:380N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:380N protein under different cellular conditions.	Inquiry
HLA-B*15:381 Genomic Plasmid Vector	PHLAG825113217	Plasmid vector containing HLA-B*15:381 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:381 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:381 protein under different cellular conditions.	Inquiry
HLA-B*15:382 Genomic Plasmid Vector	PHLAG825113218	Plasmid vector containing HLA-B*15:382 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:382 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:382 protein under different cellular conditions.	Inquiry
HLA-B*15:383 Genomic Plasmid Vector	PHLAG825113219	Plasmid vector containing HLA-B*15:383 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:383 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:383 protein under different cellular conditions.	Inquiry
HLA-B*15:384:01 Genomic Plasmid Vector	PHLAG825113310	Plasmid vector containing HLA-B*15:384:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:384:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:384:01 protein under different cellular conditions.	Inquiry

HLA-B*15:384:02 Genomic Plasmid Vector	PHLAG82511331	Plasmid vector containing HLA-B*15:384:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:384:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:384:02 protein under different cellular conditions.	Inquiry
HLA-B*15:385 Genomic Plasmid Vector	PHLAG82511332	Plasmid vector containing HLA-B*15:385 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:385 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:385 protein under different cellular conditions.	Inquiry
HLA-B*15:386 Genomic Plasmid Vector	PHLAG82511333	Plasmid vector containing HLA-B*15:386 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:386 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:386 protein under different cellular conditions.	Inquiry
HLA-B*15:387 Genomic Plasmid Vector	PHLAG82511334	Plasmid vector containing HLA-B*15:387 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:387 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:387 protein under different cellular conditions.	Inquiry
HLA-B*15:388 Genomic Plasmid Vector	PHLAG82511335	Plasmid vector containing HLA-B*15:388 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:388 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:388 protein under different cellular conditions.	Inquiry
HLA-B*15:389 Genomic Plasmid Vector	PHLAG82511336	Plasmid vector containing HLA-B*15:389 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:389 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:389 protein under different cellular conditions.	Inquiry
HLA-B*15:39:01:01 Genomic Plasmid Vector	PHLAG82511337	Plasmid vector containing HLA-B*15:39:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:39:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:39:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:39:01:02 Genomic Plasmid Vector	PHLAG82511338	Plasmid vector containing HLA-B*15:39:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:39:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:39:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:39:02 Genomic Plasmid Vector	PHLAG82511339	Plasmid vector containing HLA-B*15:39:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:39:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:39:02 protein under different cellular conditions.	Inquiry

HLA-B*15:390 Genomic Plasmid Vector	PHLAG82511340	Plasmid vector containing HLA-B*15:390 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:390 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:390 protein under different cellular conditions.	Inquiry
HLA-B*15:391 Genomic Plasmid Vector	PHLAG82511341	Plasmid vector containing HLA-B*15:391 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:391 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:391 protein under different cellular conditions.	Inquiry
HLA-B*15:392 Genomic Plasmid Vector	PHLAG82511342	Plasmid vector containing HLA-B*15:392 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:392 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:392 protein under different cellular conditions.	Inquiry
HLA-B*15:393 Genomic Plasmid Vector	PHLAG82511343	Plasmid vector containing HLA-B*15:393 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:393 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:393 protein under different cellular conditions.	Inquiry
HLA-B*15:394 Genomic Plasmid Vector	PHLAG82511344	Plasmid vector containing HLA-B*15:394 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:394 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:394 protein under different cellular conditions.	Inquiry
HLA-B*15:395 Genomic Plasmid Vector	PHLAG82511345	Plasmid vector containing HLA-B*15:395 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:395 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:395 protein under different cellular conditions.	Inquiry
HLA-B*15:396 Genomic Plasmid Vector	PHLAG82511346	Plasmid vector containing HLA-B*15:396 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:396 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:396 protein under different cellular conditions.	Inquiry
HLA-B*15:397 Genomic Plasmid Vector	PHLAG82511347	Plasmid vector containing HLA-B*15:397 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:397 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:397 protein under different cellular conditions.	Inquiry
HLA-B*15:398 Genomic Plasmid Vector	PHLAG82511348	Plasmid vector containing HLA-B*15:398 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:398 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:398 protein under different cellular conditions.	Inquiry

HLA-B*15:399 Genomic Plasmid Vector	PHLAG82511349	Plasmid vector containing HLA-B*15:399 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:399 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:399 protein under different cellular conditions.	Inquiry
HLA-B*15:40:01 Genomic Plasmid Vector	PHLAG825113500	Plasmid vector containing HLA-B*15:40:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:40:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:40:01 protein under different cellular conditions.	Inquiry
HLA-B*15:40:02 Genomic Plasmid Vector	PHLAG825113501	Plasmid vector containing HLA-B*15:40:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:40:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:40:02 protein under different cellular conditions.	Inquiry
HLA-B*15:400N Genomic Plasmid Vector	PHLAG825113502	Plasmid vector containing HLA-B*15:400N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:400N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:400N protein under different cellular conditions.	Inquiry
HLA-B*15:401 Genomic Plasmid Vector	PHLAG825113503	Plasmid vector containing HLA-B*15:401 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:401 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:401 protein under different cellular conditions.	Inquiry
HLA-B*15:402 Genomic Plasmid Vector	PHLAG825113504	Plasmid vector containing HLA-B*15:402 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:402 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:402 protein under different cellular conditions.	Inquiry
HLA-B*15:403 Genomic Plasmid Vector	PHLAG825113505	Plasmid vector containing HLA-B*15:403 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:403 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:403 protein under different cellular conditions.	Inquiry
HLA-B*15:404 Genomic Plasmid Vector	PHLAG825113506	Plasmid vector containing HLA-B*15:404 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:404 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:404 protein under different cellular conditions.	Inquiry
HLA-B*15:405 Genomic Plasmid Vector	PHLAG825113507	Plasmid vector containing HLA-B*15:405 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:405 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:405 protein under different cellular conditions.	Inquiry

HLA-B*15:406 Genomic Plasmid Vector	PHLAG82511358	Plasmid vector containing HLA-B*15:406 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:406 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:406 protein under different cellular conditions.	Inquiry
HLA-B*15:407 Genomic Plasmid Vector	PHLAG82511359	Plasmid vector containing HLA-B*15:407 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:407 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:407 protein under different cellular conditions.	Inquiry
HLA-B*15:408 Genomic Plasmid Vector	PHLAG82511360	Plasmid vector containing HLA-B*15:408 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:408 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:408 protein under different cellular conditions.	Inquiry
HLA-B*15:409 Genomic Plasmid Vector	PHLAG82511361	Plasmid vector containing HLA-B*15:409 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:409 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:409 protein under different cellular conditions.	Inquiry
HLA-B*15:410 Genomic Plasmid Vector	PHLAG82511362	Plasmid vector containing HLA-B*15:410 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:410 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:410 protein under different cellular conditions.	Inquiry
HLA-B*15:411 Genomic Plasmid Vector	PHLAG82511363	Plasmid vector containing HLA-B*15:411 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:411 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:411 protein under different cellular conditions.	Inquiry
HLA-B*15:412 Genomic Plasmid Vector	PHLAG82511364	Plasmid vector containing HLA-B*15:412 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:412 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:412 protein under different cellular conditions.	Inquiry
HLA-B*15:413 Genomic Plasmid Vector	PHLAG82511365	Plasmid vector containing HLA-B*15:413 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:413 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:413 protein under different cellular conditions.	Inquiry
HLA-B*15:414 Genomic Plasmid Vector	PHLAG82511366	Plasmid vector containing HLA-B*15:414 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:414 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:414 protein under different cellular conditions.	Inquiry

HLA-B*15:415 Genomic Plasmid Vector	PHLAG82511367	Plasmid vector containing HLA-B*15:415 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:415 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:415 protein under different cellular conditions.	Inquiry
HLA-B*15:416 Genomic Plasmid Vector	PHLAG82511368	Plasmid vector containing HLA-B*15:416 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:416 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:416 protein under different cellular conditions.	Inquiry
HLA-B*15:417 Genomic Plasmid Vector	PHLAG82511369	Plasmid vector containing HLA-B*15:417 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:417 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:417 protein under different cellular conditions.	Inquiry
HLA-B*15:418 Genomic Plasmid Vector	PHLAG825113710	Plasmid vector containing HLA-B*15:418 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:418 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:418 protein under different cellular conditions.	Inquiry
HLA-B*15:419 Genomic Plasmid Vector	PHLAG825113711	Plasmid vector containing HLA-B*15:419 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:419 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:419 protein under different cellular conditions.	Inquiry
HLA-B*15:42 Genomic Plasmid Vector	PHLAG825113712	Plasmid vector containing HLA-B*15:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:42 protein under different cellular conditions.	Inquiry
HLA-B*15:420 Genomic Plasmid Vector	PHLAG825113713	Plasmid vector containing HLA-B*15:420 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:420 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:420 protein under different cellular conditions.	Inquiry
HLA-B*15:421 Genomic Plasmid Vector	PHLAG825113714	Plasmid vector containing HLA-B*15:421 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:421 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:421 protein under different cellular conditions.	Inquiry
HLA-B*15:422 Genomic Plasmid Vector	PHLAG825113715	Plasmid vector containing HLA-B*15:422 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:422 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:422 protein under different cellular conditions.	Inquiry

HLA-B*15:423 Genomic Plasmid Vector	PHLAG82511376	Plasmid vector containing HLA-B*15:423 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:423 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:423 protein under different cellular conditions.	Inquiry
HLA-B*15:424 Genomic Plasmid Vector	PHLAG82511377	Plasmid vector containing HLA-B*15:424 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:424 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:424 protein under different cellular conditions.	Inquiry
HLA-B*15:425 Genomic Plasmid Vector	PHLAG82511378	Plasmid vector containing HLA-B*15:425 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:425 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:425 protein under different cellular conditions.	Inquiry
HLA-B*15:426 Genomic Plasmid Vector	PHLAG82511379	Plasmid vector containing HLA-B*15:426 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:426 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:426 protein under different cellular conditions.	Inquiry
HLA-B*15:427 Genomic Plasmid Vector	PHLAG82511380	Plasmid vector containing HLA-B*15:427 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:427 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:427 protein under different cellular conditions.	Inquiry
HLA-B*15:428 Genomic Plasmid Vector	PHLAG82511381	Plasmid vector containing HLA-B*15:428 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:428 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:428 protein under different cellular conditions.	Inquiry
HLA-B*15:429 Genomic Plasmid Vector	PHLAG82511382	Plasmid vector containing HLA-B*15:429 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:429 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:429 protein under different cellular conditions.	Inquiry
HLA-B*15:43 Genomic Plasmid Vector	PHLAG82511383	Plasmid vector containing HLA-B*15:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:43 protein under different cellular conditions.	Inquiry
HLA-B*15:430 Genomic Plasmid Vector	PHLAG82511384	Plasmid vector containing HLA-B*15:430 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:430 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:430 protein under different cellular conditions.	Inquiry

HLA-B*15:431 Genomic Plasmid Vector	PHLAG82511385	Plasmid vector containing HLA-B*15:431 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:431 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:431 protein under different cellular conditions.	Inquiry
HLA-B*15:432 Genomic Plasmid Vector	PHLAG82511386	Plasmid vector containing HLA-B*15:432 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:432 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:432 protein under different cellular conditions.	Inquiry
HLA-B*15:433 Genomic Plasmid Vector	PHLAG82511387	Plasmid vector containing HLA-B*15:433 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:433 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:433 protein under different cellular conditions.	Inquiry
HLA-B*15:434 Genomic Plasmid Vector	PHLAG82511388	Plasmid vector containing HLA-B*15:434 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:434 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:434 protein under different cellular conditions.	Inquiry
HLA-B*15:435 Genomic Plasmid Vector	PHLAG82511389	Plasmid vector containing HLA-B*15:435 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:435 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:435 protein under different cellular conditions.	Inquiry
HLA-B*15:436 Genomic Plasmid Vector	PHLAG82511390	Plasmid vector containing HLA-B*15:436 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:436 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:436 protein under different cellular conditions.	Inquiry
HLA-B*15:437 Genomic Plasmid Vector	PHLAG82511391	Plasmid vector containing HLA-B*15:437 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:437 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:437 protein under different cellular conditions.	Inquiry
HLA-B*15:438 Genomic Plasmid Vector	PHLAG82511392	Plasmid vector containing HLA-B*15:438 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:438 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:438 protein under different cellular conditions.	Inquiry
HLA-B*15:439 Genomic Plasmid Vector	PHLAG82511393	Plasmid vector containing HLA-B*15:439 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:439 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:439 protein under different cellular conditions.	Inquiry

HLA-B*15:44 Genomic Plasmid Vector	PHLAG82511394	Plasmid vector containing HLA-B*15:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:44 protein under different cellular conditions.	Inquiry
HLA-B*15:440 Genomic Plasmid Vector	PHLAG82511395	Plasmid vector containing HLA-B*15:440 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:440 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:440 protein under different cellular conditions.	Inquiry
HLA-B*15:441 Genomic Plasmid Vector	PHLAG82511396	Plasmid vector containing HLA-B*15:441 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:441 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:441 protein under different cellular conditions.	Inquiry
HLA-B*15:442 Genomic Plasmid Vector	PHLAG82511397	Plasmid vector containing HLA-B*15:442 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:442 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:442 protein under different cellular conditions.	Inquiry
HLA-B*15:443 Genomic Plasmid Vector	PHLAG82511398	Plasmid vector containing HLA-B*15:443 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:443 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:443 protein under different cellular conditions.	Inquiry
HLA-B*15:444 Genomic Plasmid Vector	PHLAG82511399	Plasmid vector containing HLA-B*15:444 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:444 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:444 protein under different cellular conditions.	Inquiry
HLA-B*15:445 Genomic Plasmid Vector	PHLAG825114000	Plasmid vector containing HLA-B*15:445 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:445 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:445 protein under different cellular conditions.	Inquiry
HLA-B*15:446 Genomic Plasmid Vector	PHLAG825114001	Plasmid vector containing HLA-B*15:446 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:446 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:446 protein under different cellular conditions.	Inquiry
HLA-B*15:447 Genomic Plasmid Vector	PHLAG825114002	Plasmid vector containing HLA-B*15:447 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:447 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:447 protein under different cellular conditions.	Inquiry

HLA-B*15:448 Genomic Plasmid Vector	PHLAG82511403	Plasmid vector containing HLA-B*15:448 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:448 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:448 protein under different cellular conditions.	Inquiry
HLA-B*15:449 Genomic Plasmid Vector	PHLAG82511404	Plasmid vector containing HLA-B*15:449 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:449 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:449 protein under different cellular conditions.	Inquiry
HLA-B*15:45 Genomic Plasmid Vector	PHLAG82511405	Plasmid vector containing HLA-B*15:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:45 protein under different cellular conditions.	Inquiry
HLA-B*15:450 Genomic Plasmid Vector	PHLAG82511406	Plasmid vector containing HLA-B*15:450 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:450 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:450 protein under different cellular conditions.	Inquiry
HLA-B*15:451 Genomic Plasmid Vector	PHLAG82511407	Plasmid vector containing HLA-B*15:451 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:451 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:451 protein under different cellular conditions.	Inquiry
HLA-B*15:452 Genomic Plasmid Vector	PHLAG82511408	Plasmid vector containing HLA-B*15:452 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:452 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:452 protein under different cellular conditions.	Inquiry
HLA-B*15:453 Genomic Plasmid Vector	PHLAG82511409	Plasmid vector containing HLA-B*15:453 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:453 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:453 protein under different cellular conditions.	Inquiry
HLA-B*15:454N Genomic Plasmid Vector	PHLAG825114110	Plasmid vector containing HLA-B*15:454N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:454N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:454N protein under different cellular conditions.	Inquiry
HLA-B*15:455 Genomic Plasmid Vector	PHLAG825114111	Plasmid vector containing HLA-B*15:455 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:455 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:455 protein under different cellular conditions.	Inquiry

HLA-B*15:456 Genomic Plasmid Vector	PHLAG82511412	Plasmid vector containing HLA-B*15:456 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:456 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:456 protein under different cellular conditions.	Inquiry
HLA-B*15:457 Genomic Plasmid Vector	PHLAG82511413	Plasmid vector containing HLA-B*15:457 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:457 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:457 protein under different cellular conditions.	Inquiry
HLA-B*15:458 Genomic Plasmid Vector	PHLAG82511414	Plasmid vector containing HLA-B*15:458 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:458 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:458 protein under different cellular conditions.	Inquiry
HLA-B*15:459 Genomic Plasmid Vector	PHLAG82511415	Plasmid vector containing HLA-B*15:459 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:459 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:459 protein under different cellular conditions.	Inquiry
HLA-B*15:46 Genomic Plasmid Vector	PHLAG82511416	Plasmid vector containing HLA-B*15:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:46 protein under different cellular conditions.	Inquiry
HLA-B*15:460 Genomic Plasmid Vector	PHLAG82511417	Plasmid vector containing HLA-B*15:460 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:460 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:460 protein under different cellular conditions.	Inquiry
HLA-B*15:461 Genomic Plasmid Vector	PHLAG82511418	Plasmid vector containing HLA-B*15:461 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:461 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:461 protein under different cellular conditions.	Inquiry
HLA-B*15:462 Genomic Plasmid Vector	PHLAG82511419	Plasmid vector containing HLA-B*15:462 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:462 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:462 protein under different cellular conditions.	Inquiry
HLA-B*15:463N Genomic Plasmid Vector	PHLAG82511420	Plasmid vector containing HLA-B*15:463N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:463N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:463N protein under different cellular conditions.	Inquiry

HLA-B*15:464 Genomic Plasmid Vector	PHLAG82511421	Plasmid vector containing HLA-B*15:464 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:464 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:464 protein under different cellular conditions.	Inquiry
HLA-B*15:465 Genomic Plasmid Vector	PHLAG82511422	Plasmid vector containing HLA-B*15:465 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:465 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:465 protein under different cellular conditions.	Inquiry
HLA-B*15:466 Genomic Plasmid Vector	PHLAG82511423	Plasmid vector containing HLA-B*15:466 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:466 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:466 protein under different cellular conditions.	Inquiry
HLA-B*15:467 Genomic Plasmid Vector	PHLAG82511424	Plasmid vector containing HLA-B*15:467 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:467 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:467 protein under different cellular conditions.	Inquiry
HLA-B*15:468 Genomic Plasmid Vector	PHLAG82511425	Plasmid vector containing HLA-B*15:468 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:468 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:468 protein under different cellular conditions.	Inquiry
HLA-B*15:469 Genomic Plasmid Vector	PHLAG82511426	Plasmid vector containing HLA-B*15:469 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:469 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:469 protein under different cellular conditions.	Inquiry
HLA-B*15:47:01 Genomic Plasmid Vector	PHLAG82511427	Plasmid vector containing HLA-B*15:47:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:47:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:47:01 protein under different cellular conditions.	Inquiry
HLA-B*15:47:02 Genomic Plasmid Vector	PHLAG82511428	Plasmid vector containing HLA-B*15:47:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:47:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:47:02 protein under different cellular conditions.	Inquiry
HLA-B*15:470 Genomic Plasmid Vector	PHLAG82511429	Plasmid vector containing HLA-B*15:470 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:470 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:470 protein under different cellular conditions.	Inquiry

HLA-B*15:471 Genomic Plasmid Vector	PHLAG82511430	Plasmid vector containing HLA-B*15:471 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:471 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:471 protein under different cellular conditions.	Inquiry
HLA-B*15:472 Genomic Plasmid Vector	PHLAG82511431	Plasmid vector containing HLA-B*15:472 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:472 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:472 protein under different cellular conditions.	Inquiry
HLA-B*15:473 Genomic Plasmid Vector	PHLAG82511432	Plasmid vector containing HLA-B*15:473 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:473 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:473 protein under different cellular conditions.	Inquiry
HLA-B*15:474 Genomic Plasmid Vector	PHLAG82511433	Plasmid vector containing HLA-B*15:474 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:474 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:474 protein under different cellular conditions.	Inquiry
HLA-B*15:475 Genomic Plasmid Vector	PHLAG82511434	Plasmid vector containing HLA-B*15:475 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:475 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:475 protein under different cellular conditions.	Inquiry
HLA-B*15:476 Genomic Plasmid Vector	PHLAG82511435	Plasmid vector containing HLA-B*15:476 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:476 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:476 protein under different cellular conditions.	Inquiry
HLA-B*15:477 Genomic Plasmid Vector	PHLAG82511436	Plasmid vector containing HLA-B*15:477 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:477 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:477 protein under different cellular conditions.	Inquiry
HLA-B*15:478 Genomic Plasmid Vector	PHLAG82511437	Plasmid vector containing HLA-B*15:478 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:478 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:478 protein under different cellular conditions.	Inquiry
HLA-B*15:479 Genomic Plasmid Vector	PHLAG82511438	Plasmid vector containing HLA-B*15:479 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:479 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:479 protein under different cellular conditions.	Inquiry

HLA-B*15:48 Genomic Plasmid Vector	PHLAG82511439	Plasmid vector containing HLA-B*15:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:48 protein under different cellular conditions.	Inquiry
HLA-B*15:480 Genomic Plasmid Vector	PHLAG825114440	Plasmid vector containing HLA-B*15:480 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:480 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:480 protein under different cellular conditions.	Inquiry
HLA-B*15:481 Genomic Plasmid Vector	PHLAG825114441	Plasmid vector containing HLA-B*15:481 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:481 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:481 protein under different cellular conditions.	Inquiry
HLA-B*15:482 Genomic Plasmid Vector	PHLAG825114442	Plasmid vector containing HLA-B*15:482 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:482 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:482 protein under different cellular conditions.	Inquiry
HLA-B*15:483N Genomic Plasmid Vector	PHLAG825114443	Plasmid vector containing HLA-B*15:483N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:483N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:483N protein under different cellular conditions.	Inquiry
HLA-B*15:484 Genomic Plasmid Vector	PHLAG825114444	Plasmid vector containing HLA-B*15:484 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:484 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:484 protein under different cellular conditions.	Inquiry
HLA-B*15:485 Genomic Plasmid Vector	PHLAG825114445	Plasmid vector containing HLA-B*15:485 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:485 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:485 protein under different cellular conditions.	Inquiry
HLA-B*15:486 Genomic Plasmid Vector	PHLAG825114446	Plasmid vector containing HLA-B*15:486 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:486 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:486 protein under different cellular conditions.	Inquiry
HLA-B*15:487N Genomic Plasmid Vector	PHLAG825114447	Plasmid vector containing HLA-B*15:487N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:487N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:487N protein under different cellular conditions.	Inquiry

HLA-B*15:488 Genomic Plasmid Vector	PHLAG82511448	Plasmid vector containing HLA-B*15:488 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:488 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:488 protein under different cellular conditions.	Inquiry
HLA-B*15:489 Genomic Plasmid Vector	PHLAG82511449	Plasmid vector containing HLA-B*15:489 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:489 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:489 protein under different cellular conditions.	Inquiry
HLA-B*15:49 Genomic Plasmid Vector	PHLAG82511450	Plasmid vector containing HLA-B*15:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:49 protein under different cellular conditions.	Inquiry
HLA-B*15:490 Genomic Plasmid Vector	PHLAG82511451	Plasmid vector containing HLA-B*15:490 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:490 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:490 protein under different cellular conditions.	Inquiry
HLA-B*15:491 Genomic Plasmid Vector	PHLAG82511452	Plasmid vector containing HLA-B*15:491 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:491 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:491 protein under different cellular conditions.	Inquiry
HLA-B*15:492 Genomic Plasmid Vector	PHLAG82511453	Plasmid vector containing HLA-B*15:492 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:492 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:492 protein under different cellular conditions.	Inquiry
HLA-B*15:493 Genomic Plasmid Vector	PHLAG82511454	Plasmid vector containing HLA-B*15:493 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:493 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:493 protein under different cellular conditions.	Inquiry
HLA-B*15:494 Genomic Plasmid Vector	PHLAG82511455	Plasmid vector containing HLA-B*15:494 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:494 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:494 protein under different cellular conditions.	Inquiry
HLA-B*15:495 Genomic Plasmid Vector	PHLAG82511456	Plasmid vector containing HLA-B*15:495 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:495 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:495 protein under different cellular conditions.	Inquiry

HLA-B*15:496N Genomic Plasmid Vector	PHLAG82511457	Plasmid vector containing HLA-B*15:496N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:496N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:496N protein under different cellular conditions.	Inquiry
HLA-B*15:497 Genomic Plasmid Vector	PHLAG82511458	Plasmid vector containing HLA-B*15:497 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:497 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:497 protein under different cellular conditions.	Inquiry
HLA-B*15:498 Genomic Plasmid Vector	PHLAG82511459	Plasmid vector containing HLA-B*15:498 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:498 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:498 protein under different cellular conditions.	Inquiry
HLA-B*15:499 Genomic Plasmid Vector	PHLAG82511460	Plasmid vector containing HLA-B*15:499 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:499 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:499 protein under different cellular conditions.	Inquiry
HLA-B*15:50 Genomic Plasmid Vector	PHLAG82511461	Plasmid vector containing HLA-B*15:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:50 protein under different cellular conditions.	Inquiry
HLA-B*15:500 Genomic Plasmid Vector	PHLAG82511462	Plasmid vector containing HLA-B*15:500 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:500 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:500 protein under different cellular conditions.	Inquiry
HLA-B*15:501 Genomic Plasmid Vector	PHLAG82511463	Plasmid vector containing HLA-B*15:501 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:501 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:501 protein under different cellular conditions.	Inquiry
HLA-B*15:502 Genomic Plasmid Vector	PHLAG82511464	Plasmid vector containing HLA-B*15:502 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:502 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:502 protein under different cellular conditions.	Inquiry
HLA-B*15:503 Genomic Plasmid Vector	PHLAG82511465	Plasmid vector containing HLA-B*15:503 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:503 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:503 protein under different cellular conditions.	Inquiry

HLA-B*15:504:01 Genomic Plasmid Vector	PHLAG82511466	Plasmid vector containing HLA-B*15:504:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:504:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:504:01 protein under different cellular conditions.	Inquiry
HLA-B*15:504:02 Genomic Plasmid Vector	PHLAG82511467	Plasmid vector containing HLA-B*15:504:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:504:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:504:02 protein under different cellular conditions.	Inquiry
HLA-B*15:504:03 Genomic Plasmid Vector	PHLAG82511468	Plasmid vector containing HLA-B*15:504:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:504:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:504:03 protein under different cellular conditions.	Inquiry
HLA-B*15:505 Genomic Plasmid Vector	PHLAG82511469	Plasmid vector containing HLA-B*15:505 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:505 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:505 protein under different cellular conditions.	Inquiry
HLA-B*15:506 Genomic Plasmid Vector	PHLAG82511470	Plasmid vector containing HLA-B*15:506 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:506 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:506 protein under different cellular conditions.	Inquiry
HLA-B*15:507 Genomic Plasmid Vector	PHLAG82511471	Plasmid vector containing HLA-B*15:507 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:507 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:507 protein under different cellular conditions.	Inquiry
HLA-B*15:508 Genomic Plasmid Vector	PHLAG82511472	Plasmid vector containing HLA-B*15:508 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:508 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:508 protein under different cellular conditions.	Inquiry
HLA-B*15:509 Genomic Plasmid Vector	PHLAG82511473	Plasmid vector containing HLA-B*15:509 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:509 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:509 protein under different cellular conditions.	Inquiry
HLA-B*15:51 Genomic Plasmid Vector	PHLAG82511474	Plasmid vector containing HLA-B*15:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:51 protein under different cellular conditions.	Inquiry

HLA-B*15:510 Genomic Plasmid Vector	PHLAG82511475	Plasmid vector containing HLA-B*15:510 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:510 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:510 protein under different cellular conditions.	Inquiry
HLA-B*15:511 Genomic Plasmid Vector	PHLAG82511476	Plasmid vector containing HLA-B*15:511 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:511 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:511 protein under different cellular conditions.	Inquiry
HLA-B*15:512 Genomic Plasmid Vector	PHLAG82511477	Plasmid vector containing HLA-B*15:512 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:512 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:512 protein under different cellular conditions.	Inquiry
HLA-B*15:513 Genomic Plasmid Vector	PHLAG82511478	Plasmid vector containing HLA-B*15:513 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:513 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:513 protein under different cellular conditions.	Inquiry
HLA-B*15:514 Genomic Plasmid Vector	PHLAG82511479	Plasmid vector containing HLA-B*15:514 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:514 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:514 protein under different cellular conditions.	Inquiry
HLA-B*15:515 Genomic Plasmid Vector	PHLAG82511480	Plasmid vector containing HLA-B*15:515 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:515 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:515 protein under different cellular conditions.	Inquiry
HLA-B*15:516 Genomic Plasmid Vector	PHLAG82511481	Plasmid vector containing HLA-B*15:516 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:516 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:516 protein under different cellular conditions.	Inquiry
HLA-B*15:517 Genomic Plasmid Vector	PHLAG82511482	Plasmid vector containing HLA-B*15:517 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:517 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:517 protein under different cellular conditions.	Inquiry
HLA-B*15:518 Genomic Plasmid Vector	PHLAG82511483	Plasmid vector containing HLA-B*15:518 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:518 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:518 protein under different cellular conditions.	Inquiry

HLA-B*15:519 Genomic Plasmid Vector	PHLAG82511484	Plasmid vector containing HLA-B*15:519 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:519 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:519 protein under different cellular conditions.	Inquiry
HLA-B*15:52 Genomic Plasmid Vector	PHLAG82511485	Plasmid vector containing HLA-B*15:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:52 protein under different cellular conditions.	Inquiry
HLA-B*15:520Q Genomic Plasmid Vector	PHLAG82511486	Plasmid vector containing HLA-B*15:520Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:520Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:520Q protein under different cellular conditions.	Inquiry
HLA-B*15:521 Genomic Plasmid Vector	PHLAG82511487	Plasmid vector containing HLA-B*15:521 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:521 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:521 protein under different cellular conditions.	Inquiry
HLA-B*15:522 Genomic Plasmid Vector	PHLAG82511488	Plasmid vector containing HLA-B*15:522 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:522 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:522 protein under different cellular conditions.	Inquiry
HLA-B*15:523 Genomic Plasmid Vector	PHLAG82511489	Plasmid vector containing HLA-B*15:523 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:523 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:523 protein under different cellular conditions.	Inquiry
HLA-B*15:524 Genomic Plasmid Vector	PHLAG82511490	Plasmid vector containing HLA-B*15:524 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:524 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:524 protein under different cellular conditions.	Inquiry
HLA-B*15:525 Genomic Plasmid Vector	PHLAG82511491	Plasmid vector containing HLA-B*15:525 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:525 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:525 protein under different cellular conditions.	Inquiry
HLA-B*15:526 Genomic Plasmid Vector	PHLAG82511492	Plasmid vector containing HLA-B*15:526 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:526 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:526 protein under different cellular conditions.	Inquiry

HLA-B*15:527 Genomic Plasmid Vector	PHLAG82511493	Plasmid vector containing HLA-B*15:527 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:527 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:527 protein under different cellular conditions.	Inquiry
HLA-B*15:528N Genomic Plasmid Vector	PHLAG82511494	Plasmid vector containing HLA-B*15:528N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:528N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:528N protein under different cellular conditions.	Inquiry
HLA-B*15:529 Genomic Plasmid Vector	PHLAG82511495	Plasmid vector containing HLA-B*15:529 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:529 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:529 protein under different cellular conditions.	Inquiry
HLA-B*15:53 Genomic Plasmid Vector	PHLAG82511496	Plasmid vector containing HLA-B*15:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:53 protein under different cellular conditions.	Inquiry
HLA-B*15:530 Genomic Plasmid Vector	PHLAG82511497	Plasmid vector containing HLA-B*15:530 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:530 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:530 protein under different cellular conditions.	Inquiry
HLA-B*15:531 Genomic Plasmid Vector	PHLAG82511498	Plasmid vector containing HLA-B*15:531 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:531 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:531 protein under different cellular conditions.	Inquiry
HLA-B*15:532 Genomic Plasmid Vector	PHLAG82511499	Plasmid vector containing HLA-B*15:532 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:532 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:532 protein under different cellular conditions.	Inquiry
HLA-B*15:533:01 Genomic Plasmid Vector	PHLAG825115000	Plasmid vector containing HLA-B*15:533:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:533:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:533:01 protein under different cellular conditions.	Inquiry
HLA-B*15:533:02 Genomic Plasmid Vector	PHLAG825115001	Plasmid vector containing HLA-B*15:533:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:533:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:533:02 protein under different cellular conditions.	Inquiry

HLA-B*15:534 Genomic Plasmid Vector	PHLAG82511502	Plasmid vector containing HLA-B*15:534 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:534 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:534 protein under different cellular conditions.	Inquiry
HLA-B*15:535 Genomic Plasmid Vector	PHLAG82511503	Plasmid vector containing HLA-B*15:535 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:535 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:535 protein under different cellular conditions.	Inquiry
HLA-B*15:536 Genomic Plasmid Vector	PHLAG82511504	Plasmid vector containing HLA-B*15:536 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:536 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:536 protein under different cellular conditions.	Inquiry
HLA-B*15:537 Genomic Plasmid Vector	PHLAG82511505	Plasmid vector containing HLA-B*15:537 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:537 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:537 protein under different cellular conditions.	Inquiry
HLA-B*15:538 Genomic Plasmid Vector	PHLAG82511506	Plasmid vector containing HLA-B*15:538 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:538 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:538 protein under different cellular conditions.	Inquiry
HLA-B*15:539 Genomic Plasmid Vector	PHLAG82511507	Plasmid vector containing HLA-B*15:539 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:539 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:539 protein under different cellular conditions.	Inquiry
HLA-B*15:54 Genomic Plasmid Vector	PHLAG82511508	Plasmid vector containing HLA-B*15:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:54 protein under different cellular conditions.	Inquiry
HLA-B*15:540N Genomic Plasmid Vector	PHLAG82511509	Plasmid vector containing HLA-B*15:540N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:540N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:540N protein under different cellular conditions.	Inquiry
HLA-B*15:541 Genomic Plasmid Vector	PHLAG82511510	Plasmid vector containing HLA-B*15:541 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:541 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:541 protein under different cellular conditions.	Inquiry

HLA-B*15:542 Genomic Plasmid Vector	PHLAG82511511	Plasmid vector containing HLA-B*15:542 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:542 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:542 protein under different cellular conditions.	Inquiry
HLA-B*15:543 Genomic Plasmid Vector	PHLAG82511512	Plasmid vector containing HLA-B*15:543 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:543 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:543 protein under different cellular conditions.	Inquiry
HLA-B*15:544N Genomic Plasmid Vector	PHLAG82511513	Plasmid vector containing HLA-B*15:544N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:544N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:544N protein under different cellular conditions.	Inquiry
HLA-B*15:545 Genomic Plasmid Vector	PHLAG82511514	Plasmid vector containing HLA-B*15:545 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:545 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:545 protein under different cellular conditions.	Inquiry
HLA-B*15:546Q Genomic Plasmid Vector	PHLAG82511515	Plasmid vector containing HLA-B*15:546Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:546Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:546Q protein under different cellular conditions.	Inquiry
HLA-B*15:547 Genomic Plasmid Vector	PHLAG82511516	Plasmid vector containing HLA-B*15:547 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:547 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:547 protein under different cellular conditions.	Inquiry
HLA-B*15:548 Genomic Plasmid Vector	PHLAG82511517	Plasmid vector containing HLA-B*15:548 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:548 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:548 protein under different cellular conditions.	Inquiry
HLA-B*15:549:01N Genomic Plasmid Vector	PHLAG82511518	Plasmid vector containing HLA-B*15:549:01N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:549:01N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:549:01N protein under different cellular conditions.	Inquiry
HLA-B*15:549:02N Genomic Plasmid Vector	PHLAG82511519	Plasmid vector containing HLA-B*15:549:02N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:549:02N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:549:02N protein under different cellular conditions.	Inquiry

HLA-B*15:55 Genomic Plasmid Vector	PHLAG82511520	Plasmid vector containing HLA-B*15:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:55 protein under different cellular conditions.	Inquiry
HLA-B*15:550 Genomic Plasmid Vector	PHLAG82511521	Plasmid vector containing HLA-B*15:550 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:550 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:550 protein under different cellular conditions.	Inquiry
HLA-B*15:551 Genomic Plasmid Vector	PHLAG82511522	Plasmid vector containing HLA-B*15:551 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:551 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:551 protein under different cellular conditions.	Inquiry
HLA-B*15:552 Genomic Plasmid Vector	PHLAG82511523	Plasmid vector containing HLA-B*15:552 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:552 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:552 protein under different cellular conditions.	Inquiry
HLA-B*15:553 Genomic Plasmid Vector	PHLAG82511524	Plasmid vector containing HLA-B*15:553 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:553 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:553 protein under different cellular conditions.	Inquiry
HLA-B*15:554 Genomic Plasmid Vector	PHLAG82511525	Plasmid vector containing HLA-B*15:554 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:554 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:554 protein under different cellular conditions.	Inquiry
HLA-B*15:555 Genomic Plasmid Vector	PHLAG82511526	Plasmid vector containing HLA-B*15:555 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:555 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:555 protein under different cellular conditions.	Inquiry
HLA-B*15:556 Genomic Plasmid Vector	PHLAG82511527	Plasmid vector containing HLA-B*15:556 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:556 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:556 protein under different cellular conditions.	Inquiry
HLA-B*15:557 Genomic Plasmid Vector	PHLAG82511528	Plasmid vector containing HLA-B*15:557 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:557 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:557 protein under different cellular conditions.	Inquiry

HLA-B*15:558 Genomic Plasmid Vector	PHLAG82511529	Plasmid vector containing HLA-B*15:558 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:558 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:558 protein under different cellular conditions.	Inquiry
HLA-B*15:559 Genomic Plasmid Vector	PHLAG825115330	Plasmid vector containing HLA-B*15:559 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:559 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:559 protein under different cellular conditions.	Inquiry
HLA-B*15:56 Genomic Plasmid Vector	PHLAG825115331	Plasmid vector containing HLA-B*15:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:56 protein under different cellular conditions.	Inquiry
HLA-B*15:560 Genomic Plasmid Vector	PHLAG825115332	Plasmid vector containing HLA-B*15:560 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:560 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:560 protein under different cellular conditions.	Inquiry
HLA-B*15:561 Genomic Plasmid Vector	PHLAG825115333	Plasmid vector containing HLA-B*15:561 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:561 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:561 protein under different cellular conditions.	Inquiry
HLA-B*15:562N Genomic Plasmid Vector	PHLAG825115334	Plasmid vector containing HLA-B*15:562N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:562N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:562N protein under different cellular conditions.	Inquiry
HLA-B*15:563 Genomic Plasmid Vector	PHLAG825115335	Plasmid vector containing HLA-B*15:563 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:563 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:563 protein under different cellular conditions.	Inquiry
HLA-B*15:564 Genomic Plasmid Vector	PHLAG825115336	Plasmid vector containing HLA-B*15:564 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:564 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:564 protein under different cellular conditions.	Inquiry
HLA-B*15:565 Genomic Plasmid Vector	PHLAG825115337	Plasmid vector containing HLA-B*15:565 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:565 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:565 protein under different cellular conditions.	Inquiry

HLA-B*15:566 Genomic Plasmid Vector	PHLAG82511538	Plasmid vector containing HLA-B*15:566 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:566 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:566 protein under different cellular conditions.	Inquiry
HLA-B*15:567 Genomic Plasmid Vector	PHLAG82511539	Plasmid vector containing HLA-B*15:567 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:567 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:567 protein under different cellular conditions.	Inquiry
HLA-B*15:568 Genomic Plasmid Vector	PHLAG82511540	Plasmid vector containing HLA-B*15:568 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:568 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:568 protein under different cellular conditions.	Inquiry
HLA-B*15:569 Genomic Plasmid Vector	PHLAG82511541	Plasmid vector containing HLA-B*15:569 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:569 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:569 protein under different cellular conditions.	Inquiry
HLA-B*15:57 Genomic Plasmid Vector	PHLAG82511542	Plasmid vector containing HLA-B*15:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:57 protein under different cellular conditions.	Inquiry
HLA-B*15:570 Genomic Plasmid Vector	PHLAG82511543	Plasmid vector containing HLA-B*15:570 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:570 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:570 protein under different cellular conditions.	Inquiry
HLA-B*15:571 Genomic Plasmid Vector	PHLAG82511544	Plasmid vector containing HLA-B*15:571 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:571 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:571 protein under different cellular conditions.	Inquiry
HLA-B*15:572 Genomic Plasmid Vector	PHLAG82511545	Plasmid vector containing HLA-B*15:572 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:572 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:572 protein under different cellular conditions.	Inquiry
HLA-B*15:573 Genomic Plasmid Vector	PHLAG82511546	Plasmid vector containing HLA-B*15:573 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:573 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:573 protein under different cellular conditions.	Inquiry

HLA-B*15:574 Genomic Plasmid Vector	PHLAG82511547	Plasmid vector containing HLA-B*15:574 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:574 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:574 protein under different cellular conditions.	Inquiry
HLA-B*15:575N Genomic Plasmid Vector	PHLAG82511548	Plasmid vector containing HLA-B*15:575N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:575N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:575N protein under different cellular conditions.	Inquiry
HLA-B*15:576 Genomic Plasmid Vector	PHLAG82511549	Plasmid vector containing HLA-B*15:576 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:576 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:576 protein under different cellular conditions.	Inquiry
HLA-B*15:577 Genomic Plasmid Vector	PHLAG82511550	Plasmid vector containing HLA-B*15:577 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:577 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:577 protein under different cellular conditions.	Inquiry
HLA-B*15:578 Genomic Plasmid Vector	PHLAG82511551	Plasmid vector containing HLA-B*15:578 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:578 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:578 protein under different cellular conditions.	Inquiry
HLA-B*15:579 Genomic Plasmid Vector	PHLAG82511552	Plasmid vector containing HLA-B*15:579 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:579 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:579 protein under different cellular conditions.	Inquiry
HLA-B*15:58 Genomic Plasmid Vector	PHLAG82511553	Plasmid vector containing HLA-B*15:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:58 protein under different cellular conditions.	Inquiry
HLA-B*15:580 Genomic Plasmid Vector	PHLAG82511554	Plasmid vector containing HLA-B*15:580 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:580 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:580 protein under different cellular conditions.	Inquiry
HLA-B*15:581 Genomic Plasmid Vector	PHLAG82511555	Plasmid vector containing HLA-B*15:581 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:581 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:581 protein under different cellular conditions.	Inquiry

HLA-B*15:582 Genomic Plasmid Vector	PHLAG82511556	Plasmid vector containing HLA-B*15:582 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:582 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:582 protein under different cellular conditions.	Inquiry
HLA-B*15:583 Genomic Plasmid Vector	PHLAG82511557	Plasmid vector containing HLA-B*15:583 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:583 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:583 protein under different cellular conditions.	Inquiry
HLA-B*15:584N Genomic Plasmid Vector	PHLAG82511558	Plasmid vector containing HLA-B*15:584N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:584N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:584N protein under different cellular conditions.	Inquiry
HLA-B*15:585 Genomic Plasmid Vector	PHLAG82511559	Plasmid vector containing HLA-B*15:585 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:585 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:585 protein under different cellular conditions.	Inquiry
HLA-B*15:586 Genomic Plasmid Vector	PHLAG82511560	Plasmid vector containing HLA-B*15:586 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:586 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:586 protein under different cellular conditions.	Inquiry
HLA-B*15:587 Genomic Plasmid Vector	PHLAG82511561	Plasmid vector containing HLA-B*15:587 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:587 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:587 protein under different cellular conditions.	Inquiry
HLA-B*15:588 Genomic Plasmid Vector	PHLAG82511562	Plasmid vector containing HLA-B*15:588 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:588 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:588 protein under different cellular conditions.	Inquiry
HLA-B*15:589 Genomic Plasmid Vector	PHLAG82511563	Plasmid vector containing HLA-B*15:589 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:589 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:589 protein under different cellular conditions.	Inquiry
HLA-B*15:590 Genomic Plasmid Vector	PHLAG82511564	Plasmid vector containing HLA-B*15:590 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:590 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:590 protein under different cellular conditions.	Inquiry

HLA-B*15:591 Genomic Plasmid Vector	PHLAG82511565	Plasmid vector containing HLA-B*15:591 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:591 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:591 protein under different cellular conditions.	Inquiry
HLA-B*15:592 Genomic Plasmid Vector	PHLAG82511566	Plasmid vector containing HLA-B*15:592 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:592 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:592 protein under different cellular conditions.	Inquiry
HLA-B*15:593 Genomic Plasmid Vector	PHLAG82511567	Plasmid vector containing HLA-B*15:593 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:593 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:593 protein under different cellular conditions.	Inquiry
HLA-B*15:594 Genomic Plasmid Vector	PHLAG82511568	Plasmid vector containing HLA-B*15:594 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:594 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:594 protein under different cellular conditions.	Inquiry
HLA-B*15:595 Genomic Plasmid Vector	PHLAG82511569	Plasmid vector containing HLA-B*15:595 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:595 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:595 protein under different cellular conditions.	Inquiry
HLA-B*15:596N Genomic Plasmid Vector	PHLAG82511570	Plasmid vector containing HLA-B*15:596N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:596N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:596N protein under different cellular conditions.	Inquiry
HLA-B*15:597 Genomic Plasmid Vector	PHLAG82511571	Plasmid vector containing HLA-B*15:597 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:597 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:597 protein under different cellular conditions.	Inquiry
HLA-B*15:598 Genomic Plasmid Vector	PHLAG82511572	Plasmid vector containing HLA-B*15:598 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:598 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:598 protein under different cellular conditions.	Inquiry
HLA-B*15:599 Genomic Plasmid Vector	PHLAG82511573	Plasmid vector containing HLA-B*15:599 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:599 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:599 protein under different cellular conditions.	Inquiry

HLA-B*15:60 Genomic Plasmid Vector	PHLAG82511574	Plasmid vector containing HLA-B*15:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:60 protein under different cellular conditions.	Inquiry
HLA-B*15:600 Genomic Plasmid Vector	PHLAG82511575	Plasmid vector containing HLA-B*15:600 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:600 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:600 protein under different cellular conditions.	Inquiry
HLA-B*15:601 Genomic Plasmid Vector	PHLAG82511576	Plasmid vector containing HLA-B*15:601 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:601 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:601 protein under different cellular conditions.	Inquiry
HLA-B*15:602 Genomic Plasmid Vector	PHLAG82511577	Plasmid vector containing HLA-B*15:602 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:602 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:602 protein under different cellular conditions.	Inquiry
HLA-B*15:603 Genomic Plasmid Vector	PHLAG82511578	Plasmid vector containing HLA-B*15:603 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:603 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:603 protein under different cellular conditions.	Inquiry
HLA-B*15:604N Genomic Plasmid Vector	PHLAG82511579	Plasmid vector containing HLA-B*15:604N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:604N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:604N protein under different cellular conditions.	Inquiry
HLA-B*15:605 Genomic Plasmid Vector	PHLAG82511580	Plasmid vector containing HLA-B*15:605 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:605 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:605 protein under different cellular conditions.	Inquiry
HLA-B*15:606 Genomic Plasmid Vector	PHLAG82511581	Plasmid vector containing HLA-B*15:606 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:606 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:606 protein under different cellular conditions.	Inquiry
HLA-B*15:607 Genomic Plasmid Vector	PHLAG82511582	Plasmid vector containing HLA-B*15:607 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:607 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:607 protein under different cellular conditions.	Inquiry

HLA-B*15:608 Genomic Plasmid Vector	PHLAG82511583	Plasmid vector containing HLA-B*15:608 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:608 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:608 protein under different cellular conditions.	Inquiry
HLA-B*15:609 Genomic Plasmid Vector	PHLAG82511584	Plasmid vector containing HLA-B*15:609 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:609 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:609 protein under different cellular conditions.	Inquiry
HLA-B*15:61 Genomic Plasmid Vector	PHLAG82511585	Plasmid vector containing HLA-B*15:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:61 protein under different cellular conditions.	Inquiry
HLA-B*15:610 Genomic Plasmid Vector	PHLAG82511586	Plasmid vector containing HLA-B*15:610 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:610 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:610 protein under different cellular conditions.	Inquiry
HLA-B*15:611 Genomic Plasmid Vector	PHLAG82511587	Plasmid vector containing HLA-B*15:611 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:611 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:611 protein under different cellular conditions.	Inquiry
HLA-B*15:612 Genomic Plasmid Vector	PHLAG82511588	Plasmid vector containing HLA-B*15:612 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:612 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:612 protein under different cellular conditions.	Inquiry
HLA-B*15:613 Genomic Plasmid Vector	PHLAG82511589	Plasmid vector containing HLA-B*15:613 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:613 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:613 protein under different cellular conditions.	Inquiry
HLA-B*15:614:01:01 Genomic Plasmid Vector	PHLAG825115910	Plasmid vector containing HLA-B*15:614:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:614:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:614:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:614:01:02 Genomic Plasmid Vector	PHLAG825115911	Plasmid vector containing HLA-B*15:614:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:614:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:614:01:02 protein under different cellular conditions.	Inquiry

HLA-B*15:615 Genomic Plasmid Vector	PHLAG825115912	Plasmid vector containing HLA-B*15:615 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:615 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:615 protein under different cellular conditions.	Inquiry
HLA-B*15:616Q Genomic Plasmid Vector	PHLAG825115913	Plasmid vector containing HLA-B*15:616Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:616Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:616Q protein under different cellular conditions.	Inquiry
HLA-B*15:617 Genomic Plasmid Vector	PHLAG825115914	Plasmid vector containing HLA-B*15:617 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:617 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:617 protein under different cellular conditions.	Inquiry
HLA-B*15:618 Genomic Plasmid Vector	PHLAG825115915	Plasmid vector containing HLA-B*15:618 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:618 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:618 protein under different cellular conditions.	Inquiry
HLA-B*15:619 Genomic Plasmid Vector	PHLAG825115916	Plasmid vector containing HLA-B*15:619 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:619 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:619 protein under different cellular conditions.	Inquiry
HLA-B*15:62 Genomic Plasmid Vector	PHLAG825115917	Plasmid vector containing HLA-B*15:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:62 protein under different cellular conditions.	Inquiry
HLA-B*15:620 Genomic Plasmid Vector	PHLAG825115918	Plasmid vector containing HLA-B*15:620 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:620 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:620 protein under different cellular conditions.	Inquiry
HLA-B*15:621 Genomic Plasmid Vector	PHLAG825115919	Plasmid vector containing HLA-B*15:621 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:621 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:621 protein under different cellular conditions.	Inquiry
HLA-B*15:622 Genomic Plasmid Vector	PHLAG8251160	Plasmid vector containing HLA-B*15:622 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:622 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:622 protein under different cellular conditions.	Inquiry

HLA-B*15:623 Genomic Plasmid Vector	PHLAG82511601	Plasmid vector containing HLA-B*15:623 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:623 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:623 protein under different cellular conditions.	Inquiry
HLA-B*15:624 Genomic Plasmid Vector	PHLAG82511602	Plasmid vector containing HLA-B*15:624 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:624 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:624 protein under different cellular conditions.	Inquiry
HLA-B*15:625 Genomic Plasmid Vector	PHLAG82511603	Plasmid vector containing HLA-B*15:625 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:625 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:625 protein under different cellular conditions.	Inquiry
HLA-B*15:626 Genomic Plasmid Vector	PHLAG82511604	Plasmid vector containing HLA-B*15:626 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:626 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:626 protein under different cellular conditions.	Inquiry
HLA-B*15:627 Genomic Plasmid Vector	PHLAG82511605	Plasmid vector containing HLA-B*15:627 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:627 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:627 protein under different cellular conditions.	Inquiry
HLA-B*15:628:01 Genomic Plasmid Vector	PHLAG82511606	Plasmid vector containing HLA-B*15:628:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:628:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:628:01 protein under different cellular conditions.	Inquiry
HLA-B*15:628:02 Genomic Plasmid Vector	PHLAG82511607	Plasmid vector containing HLA-B*15:628:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:628:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:628:02 protein under different cellular conditions.	Inquiry
HLA-B*15:629 Genomic Plasmid Vector	PHLAG82511608	Plasmid vector containing HLA-B*15:629 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:629 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:629 protein under different cellular conditions.	Inquiry
HLA-B*15:63 Genomic Plasmid Vector	PHLAG82511609	Plasmid vector containing HLA-B*15:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:63 protein under different cellular conditions.	Inquiry

HLA-B*15:630 Genomic Plasmid Vector	PHLAG82511610	Plasmid vector containing HLA-B*15:630 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:630 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:630 protein under different cellular conditions.	Inquiry
HLA-B*15:631 Genomic Plasmid Vector	PHLAG82511611	Plasmid vector containing HLA-B*15:631 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:631 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:631 protein under different cellular conditions.	Inquiry
HLA-B*15:632 Genomic Plasmid Vector	PHLAG82511612	Plasmid vector containing HLA-B*15:632 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:632 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:632 protein under different cellular conditions.	Inquiry
HLA-B*15:633 Genomic Plasmid Vector	PHLAG82511613	Plasmid vector containing HLA-B*15:633 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:633 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:633 protein under different cellular conditions.	Inquiry
HLA-B*15:634 Genomic Plasmid Vector	PHLAG82511614	Plasmid vector containing HLA-B*15:634 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:634 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:634 protein under different cellular conditions.	Inquiry
HLA-B*15:635 Genomic Plasmid Vector	PHLAG82511615	Plasmid vector containing HLA-B*15:635 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:635 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:635 protein under different cellular conditions.	Inquiry
HLA-B*15:636 Genomic Plasmid Vector	PHLAG82511616	Plasmid vector containing HLA-B*15:636 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:636 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:636 protein under different cellular conditions.	Inquiry
HLA-B*15:637 Genomic Plasmid Vector	PHLAG82511617	Plasmid vector containing HLA-B*15:637 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:637 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:637 protein under different cellular conditions.	Inquiry
HLA-B*15:638 Genomic Plasmid Vector	PHLAG82511618	Plasmid vector containing HLA-B*15:638 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:638 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:638 protein under different cellular conditions.	Inquiry

HLA-B*15:639 Genomic Plasmid Vector	PHLAG82511619	Plasmid vector containing HLA-B*15:639 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:639 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:639 protein under different cellular conditions.	Inquiry
HLA-B*15:64:01 Genomic Plasmid Vector	PHLAG825116220	Plasmid vector containing HLA-B*15:64:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:64:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:64:01 protein under different cellular conditions.	Inquiry
HLA-B*15:64:02 Genomic Plasmid Vector	PHLAG825116221	Plasmid vector containing HLA-B*15:64:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:64:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:64:02 protein under different cellular conditions.	Inquiry
HLA-B*15:640 Genomic Plasmid Vector	PHLAG825116222	Plasmid vector containing HLA-B*15:640 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:640 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:640 protein under different cellular conditions.	Inquiry
HLA-B*15:641 Genomic Plasmid Vector	PHLAG825116223	Plasmid vector containing HLA-B*15:641 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:641 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:641 protein under different cellular conditions.	Inquiry
HLA-B*15:642 Genomic Plasmid Vector	PHLAG825116224	Plasmid vector containing HLA-B*15:642 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:642 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:642 protein under different cellular conditions.	Inquiry
HLA-B*15:643 Genomic Plasmid Vector	PHLAG825116225	Plasmid vector containing HLA-B*15:643 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:643 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:643 protein under different cellular conditions.	Inquiry
HLA-B*15:644 Genomic Plasmid Vector	PHLAG825116226	Plasmid vector containing HLA-B*15:644 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:644 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:644 protein under different cellular conditions.	Inquiry
HLA-B*15:645 Genomic Plasmid Vector	PHLAG825116227	Plasmid vector containing HLA-B*15:645 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:645 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:645 protein under different cellular conditions.	Inquiry

HLA-B*15:646 Genomic Plasmid Vector	PHLAG82511628	Plasmid vector containing HLA-B*15:646 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:646 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:646 protein under different cellular conditions.	Inquiry
HLA-B*15:647 Genomic Plasmid Vector	PHLAG82511629	Plasmid vector containing HLA-B*15:647 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:647 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:647 protein under different cellular conditions.	Inquiry
HLA-B*15:648 Genomic Plasmid Vector	PHLAG82511630	Plasmid vector containing HLA-B*15:648 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:648 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:648 protein under different cellular conditions.	Inquiry
HLA-B*15:649 Genomic Plasmid Vector	PHLAG82511631	Plasmid vector containing HLA-B*15:649 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:649 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:649 protein under different cellular conditions.	Inquiry
HLA-B*15:65 Genomic Plasmid Vector	PHLAG82511632	Plasmid vector containing HLA-B*15:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:65 protein under different cellular conditions.	Inquiry
HLA-B*15:650 Genomic Plasmid Vector	PHLAG82511633	Plasmid vector containing HLA-B*15:650 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:650 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:650 protein under different cellular conditions.	Inquiry
HLA-B*15:651 Genomic Plasmid Vector	PHLAG82511634	Plasmid vector containing HLA-B*15:651 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:651 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:651 protein under different cellular conditions.	Inquiry
HLA-B*15:652 Genomic Plasmid Vector	PHLAG82511635	Plasmid vector containing HLA-B*15:652 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:652 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:652 protein under different cellular conditions.	Inquiry
HLA-B*15:653 Genomic Plasmid Vector	PHLAG82511636	Plasmid vector containing HLA-B*15:653 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:653 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:653 protein under different cellular conditions.	Inquiry

HLA-B*15:654 Genomic Plasmid Vector	PHLAG82511637	Plasmid vector containing HLA-B*15:654 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:654 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:654 protein under different cellular conditions.	Inquiry
HLA-B*15:655 Genomic Plasmid Vector	PHLAG82511638	Plasmid vector containing HLA-B*15:655 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:655 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:655 protein under different cellular conditions.	Inquiry
HLA-B*15:656 Genomic Plasmid Vector	PHLAG82511639	Plasmid vector containing HLA-B*15:656 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:656 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:656 protein under different cellular conditions.	Inquiry
HLA-B*15:657 Genomic Plasmid Vector	PHLAG82511640	Plasmid vector containing HLA-B*15:657 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:657 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:657 protein under different cellular conditions.	Inquiry
HLA-B*15:658 Genomic Plasmid Vector	PHLAG82511641	Plasmid vector containing HLA-B*15:658 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:658 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:658 protein under different cellular conditions.	Inquiry
HLA-B*15:659 Genomic Plasmid Vector	PHLAG82511642	Plasmid vector containing HLA-B*15:659 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:659 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:659 protein under different cellular conditions.	Inquiry
HLA-B*15:66 Genomic Plasmid Vector	PHLAG82511643	Plasmid vector containing HLA-B*15:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:66 protein under different cellular conditions.	Inquiry
HLA-B*15:660 Genomic Plasmid Vector	PHLAG82511644	Plasmid vector containing HLA-B*15:660 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:660 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:660 protein under different cellular conditions.	Inquiry
HLA-B*15:661 Genomic Plasmid Vector	PHLAG82511645	Plasmid vector containing HLA-B*15:661 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:661 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:661 protein under different cellular conditions.	Inquiry

HLA-B*15:662 Genomic Plasmid Vector	PHLAG82511646	Plasmid vector containing HLA-B*15:662 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:662 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:662 protein under different cellular conditions.	Inquiry
HLA-B*15:663 Genomic Plasmid Vector	PHLAG82511647	Plasmid vector containing HLA-B*15:663 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:663 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:663 protein under different cellular conditions.	Inquiry
HLA-B*15:664 Genomic Plasmid Vector	PHLAG82511648	Plasmid vector containing HLA-B*15:664 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:664 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:664 protein under different cellular conditions.	Inquiry
HLA-B*15:665 Genomic Plasmid Vector	PHLAG82511649	Plasmid vector containing HLA-B*15:665 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:665 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:665 protein under different cellular conditions.	Inquiry
HLA-B*15:666 Genomic Plasmid Vector	PHLAG82511650	Plasmid vector containing HLA-B*15:666 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:666 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:666 protein under different cellular conditions.	Inquiry
HLA-B*15:667 Genomic Plasmid Vector	PHLAG82511651	Plasmid vector containing HLA-B*15:667 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:667 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:667 protein under different cellular conditions.	Inquiry
HLA-B*15:668 Genomic Plasmid Vector	PHLAG82511652	Plasmid vector containing HLA-B*15:668 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:668 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:668 protein under different cellular conditions.	Inquiry
HLA-B*15:669N Genomic Plasmid Vector	PHLAG82511653	Plasmid vector containing HLA-B*15:669N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:669N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:669N protein under different cellular conditions.	Inquiry
HLA-B*15:67 Genomic Plasmid Vector	PHLAG82511654	Plasmid vector containing HLA-B*15:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:67 protein under different cellular conditions.	Inquiry

HLA-B*15:670 Genomic Plasmid Vector	PHLAG82511655	Plasmid vector containing HLA-B*15:670 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:670 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:670 protein under different cellular conditions.	Inquiry
HLA-B*15:671N Genomic Plasmid Vector	PHLAG82511656	Plasmid vector containing HLA-B*15:671N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:671N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:671N protein under different cellular conditions.	Inquiry
HLA-B*15:672 Genomic Plasmid Vector	PHLAG82511657	Plasmid vector containing HLA-B*15:672 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:672 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:672 protein under different cellular conditions.	Inquiry
HLA-B*15:673 Genomic Plasmid Vector	PHLAG82511658	Plasmid vector containing HLA-B*15:673 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:673 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:673 protein under different cellular conditions.	Inquiry
HLA-B*15:674 Genomic Plasmid Vector	PHLAG82511659	Plasmid vector containing HLA-B*15:674 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:674 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:674 protein under different cellular conditions.	Inquiry
HLA-B*15:675 Genomic Plasmid Vector	PHLAG82511660	Plasmid vector containing HLA-B*15:675 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:675 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:675 protein under different cellular conditions.	Inquiry
HLA-B*15:676 Genomic Plasmid Vector	PHLAG82511661	Plasmid vector containing HLA-B*15:676 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:676 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:676 protein under different cellular conditions.	Inquiry
HLA-B*15:677 Genomic Plasmid Vector	PHLAG82511662	Plasmid vector containing HLA-B*15:677 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:677 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:677 protein under different cellular conditions.	Inquiry
HLA-B*15:678 Genomic Plasmid Vector	PHLAG82511663	Plasmid vector containing HLA-B*15:678 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:678 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:678 protein under different cellular conditions.	Inquiry

HLA-B*15:679 Genomic Plasmid Vector	PHLAG82511664	Plasmid vector containing HLA-B*15:679 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:679 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:679 protein under different cellular conditions.	Inquiry
HLA-B*15:68 Genomic Plasmid Vector	PHLAG82511665	Plasmid vector containing HLA-B*15:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:68 protein under different cellular conditions.	Inquiry
HLA-B*15:680 Genomic Plasmid Vector	PHLAG82511666	Plasmid vector containing HLA-B*15:680 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:680 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:680 protein under different cellular conditions.	Inquiry
HLA-B*15:681 Genomic Plasmid Vector	PHLAG82511667	Plasmid vector containing HLA-B*15:681 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:681 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:681 protein under different cellular conditions.	Inquiry
HLA-B*15:682 Genomic Plasmid Vector	PHLAG82511668	Plasmid vector containing HLA-B*15:682 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:682 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:682 protein under different cellular conditions.	Inquiry
HLA-B*15:683 Genomic Plasmid Vector	PHLAG82511669	Plasmid vector containing HLA-B*15:683 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:683 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:683 protein under different cellular conditions.	Inquiry
HLA-B*15:684 Genomic Plasmid Vector	PHLAG82511670	Plasmid vector containing HLA-B*15:684 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:684 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:684 protein under different cellular conditions.	Inquiry
HLA-B*15:685 Genomic Plasmid Vector	PHLAG82511671	Plasmid vector containing HLA-B*15:685 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:685 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:685 protein under different cellular conditions.	Inquiry
HLA-B*15:686 Genomic Plasmid Vector	PHLAG82511672	Plasmid vector containing HLA-B*15:686 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:686 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:686 protein under different cellular conditions.	Inquiry

HLA-B*15:687 Genomic Plasmid Vector	PHLAG82511673	Plasmid vector containing HLA-B*15:687 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:687 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:687 protein under different cellular conditions.	Inquiry
HLA-B*15:688 Genomic Plasmid Vector	PHLAG82511674	Plasmid vector containing HLA-B*15:688 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:688 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:688 protein under different cellular conditions.	Inquiry
HLA-B*15:689 Genomic Plasmid Vector	PHLAG82511675	Plasmid vector containing HLA-B*15:689 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:689 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:689 protein under different cellular conditions.	Inquiry
HLA-B*15:69 Genomic Plasmid Vector	PHLAG82511676	Plasmid vector containing HLA-B*15:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:69 protein under different cellular conditions.	Inquiry
HLA-B*15:690 Genomic Plasmid Vector	PHLAG82511677	Plasmid vector containing HLA-B*15:690 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:690 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:690 protein under different cellular conditions.	Inquiry
HLA-B*15:691 Genomic Plasmid Vector	PHLAG82511678	Plasmid vector containing HLA-B*15:691 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:691 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:691 protein under different cellular conditions.	Inquiry
HLA-B*15:692 Genomic Plasmid Vector	PHLAG82511679	Plasmid vector containing HLA-B*15:692 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:692 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:692 protein under different cellular conditions.	Inquiry
HLA-B*15:693 Genomic Plasmid Vector	PHLAG82511680	Plasmid vector containing HLA-B*15:693 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:693 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:693 protein under different cellular conditions.	Inquiry
HLA-B*15:694 Genomic Plasmid Vector	PHLAG82511681	Plasmid vector containing HLA-B*15:694 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:694 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:694 protein under different cellular conditions.	Inquiry

HLA-B*15:695 Genomic Plasmid Vector	PHLAG825116812	Plasmid vector containing HLA-B*15:695 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:695 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:695 protein under different cellular conditions.	Inquiry
HLA-B*15:696 Genomic Plasmid Vector	PHLAG825116813	Plasmid vector containing HLA-B*15:696 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:696 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:696 protein under different cellular conditions.	Inquiry
HLA-B*15:697 Genomic Plasmid Vector	PHLAG825116814	Plasmid vector containing HLA-B*15:697 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:697 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:697 protein under different cellular conditions.	Inquiry
HLA-B*15:698 Genomic Plasmid Vector	PHLAG825116815	Plasmid vector containing HLA-B*15:698 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:698 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:698 protein under different cellular conditions.	Inquiry
HLA-B*15:699 Genomic Plasmid Vector	PHLAG825116816	Plasmid vector containing HLA-B*15:699 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:699 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:699 protein under different cellular conditions.	Inquiry
HLA-B*15:70 Genomic Plasmid Vector	PHLAG825116817	Plasmid vector containing HLA-B*15:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:70 protein under different cellular conditions.	Inquiry
HLA-B*15:700 Genomic Plasmid Vector	PHLAG825116818	Plasmid vector containing HLA-B*15:700 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:700 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:700 protein under different cellular conditions.	Inquiry
HLA-B*15:701 Genomic Plasmid Vector	PHLAG825116819	Plasmid vector containing HLA-B*15:701 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:701 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:701 protein under different cellular conditions.	Inquiry
HLA-B*15:702 Genomic Plasmid Vector	PHLAG8251169 0	Plasmid vector containing HLA-B*15:702 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:702 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:702 protein under different cellular conditions.	Inquiry

HLA-B*15:703 Genomic Plasmid Vector	PHLAG82511691	Plasmid vector containing HLA-B*15:703 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:703 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:703 protein under different cellular conditions.	Inquiry
HLA-B*15:704 Genomic Plasmid Vector	PHLAG82511692	Plasmid vector containing HLA-B*15:704 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:704 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:704 protein under different cellular conditions.	Inquiry
HLA-B*15:705 Genomic Plasmid Vector	PHLAG82511693	Plasmid vector containing HLA-B*15:705 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:705 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:705 protein under different cellular conditions.	Inquiry
HLA-B*15:706 Genomic Plasmid Vector	PHLAG82511694	Plasmid vector containing HLA-B*15:706 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:706 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:706 protein under different cellular conditions.	Inquiry
HLA-B*15:707 Genomic Plasmid Vector	PHLAG82511695	Plasmid vector containing HLA-B*15:707 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:707 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:707 protein under different cellular conditions.	Inquiry
HLA-B*15:708 Genomic Plasmid Vector	PHLAG82511696	Plasmid vector containing HLA-B*15:708 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:708 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:708 protein under different cellular conditions.	Inquiry
HLA-B*15:709 Genomic Plasmid Vector	PHLAG82511697	Plasmid vector containing HLA-B*15:709 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:709 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:709 protein under different cellular conditions.	Inquiry
HLA-B*15:71 Genomic Plasmid Vector	PHLAG82511698	Plasmid vector containing HLA-B*15:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:71 protein under different cellular conditions.	Inquiry
HLA-B*15:710 Genomic Plasmid Vector	PHLAG82511699	Plasmid vector containing HLA-B*15:710 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:710 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:710 protein under different cellular conditions.	Inquiry

HLA-B*15:711 Genomic Plasmid Vector	PHLAG82511700	Plasmid vector containing HLA-B*15:711 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:711 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:711 protein under different cellular conditions.	Inquiry
HLA-B*15:712 Genomic Plasmid Vector	PHLAG82511701	Plasmid vector containing HLA-B*15:712 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:712 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:712 protein under different cellular conditions.	Inquiry
HLA-B*15:713 Genomic Plasmid Vector	PHLAG82511702	Plasmid vector containing HLA-B*15:713 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:713 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:713 protein under different cellular conditions.	Inquiry
HLA-B*15:714 Genomic Plasmid Vector	PHLAG82511703	Plasmid vector containing HLA-B*15:714 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:714 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:714 protein under different cellular conditions.	Inquiry
HLA-B*15:715 Genomic Plasmid Vector	PHLAG82511704	Plasmid vector containing HLA-B*15:715 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:715 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:715 protein under different cellular conditions.	Inquiry
HLA-B*15:716 Genomic Plasmid Vector	PHLAG82511705	Plasmid vector containing HLA-B*15:716 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:716 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:716 protein under different cellular conditions.	Inquiry
HLA-B*15:717 Genomic Plasmid Vector	PHLAG82511706	Plasmid vector containing HLA-B*15:717 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:717 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:717 protein under different cellular conditions.	Inquiry
HLA-B*15:718 Genomic Plasmid Vector	PHLAG82511707	Plasmid vector containing HLA-B*15:718 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:718 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:718 protein under different cellular conditions.	Inquiry
HLA-B*15:719 Genomic Plasmid Vector	PHLAG82511708	Plasmid vector containing HLA-B*15:719 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:719 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:719 protein under different cellular conditions.	Inquiry

HLA-B*15:72 Genomic Plasmid Vector	PHLAG82511709	Plasmid vector containing HLA-B*15:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:72 protein under different cellular conditions.	Inquiry
HLA-B*15:720 Genomic Plasmid Vector	PHLAG825117110	Plasmid vector containing HLA-B*15:720 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:720 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:720 protein under different cellular conditions.	Inquiry
HLA-B*15:721 Genomic Plasmid Vector	PHLAG825117111	Plasmid vector containing HLA-B*15:721 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:721 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:721 protein under different cellular conditions.	Inquiry
HLA-B*15:722 Genomic Plasmid Vector	PHLAG825117112	Plasmid vector containing HLA-B*15:722 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:722 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:722 protein under different cellular conditions.	Inquiry
HLA-B*15:723 Genomic Plasmid Vector	PHLAG825117113	Plasmid vector containing HLA-B*15:723 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:723 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:723 protein under different cellular conditions.	Inquiry
HLA-B*15:724 Genomic Plasmid Vector	PHLAG825117114	Plasmid vector containing HLA-B*15:724 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:724 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:724 protein under different cellular conditions.	Inquiry
HLA-B*15:725 Genomic Plasmid Vector	PHLAG825117115	Plasmid vector containing HLA-B*15:725 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:725 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:725 protein under different cellular conditions.	Inquiry
HLA-B*15:726 Genomic Plasmid Vector	PHLAG825117116	Plasmid vector containing HLA-B*15:726 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:726 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:726 protein under different cellular conditions.	Inquiry
HLA-B*15:727 Genomic Plasmid Vector	PHLAG825117117	Plasmid vector containing HLA-B*15:727 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:727 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:727 protein under different cellular conditions.	Inquiry

HLA-B*15:728 Genomic Plasmid Vector	PHLAG82511718	Plasmid vector containing HLA-B*15:728 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:728 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:728 protein under different cellular conditions.	Inquiry
HLA-B*15:729 Genomic Plasmid Vector	PHLAG82511719	Plasmid vector containing HLA-B*15:729 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:729 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:729 protein under different cellular conditions.	Inquiry
HLA-B*15:73:01:01 Genomic Plasmid Vector	PHLAG825117220	Plasmid vector containing HLA-B*15:73:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:73:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:73:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:73:01:02 Genomic Plasmid Vector	PHLAG825117221	Plasmid vector containing HLA-B*15:73:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:73:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:73:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:730 Genomic Plasmid Vector	PHLAG825117222	Plasmid vector containing HLA-B*15:730 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:730 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:730 protein under different cellular conditions.	Inquiry
HLA-B*15:731 Genomic Plasmid Vector	PHLAG825117223	Plasmid vector containing HLA-B*15:731 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:731 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:731 protein under different cellular conditions.	Inquiry
HLA-B*15:732 Genomic Plasmid Vector	PHLAG825117224	Plasmid vector containing HLA-B*15:732 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:732 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:732 protein under different cellular conditions.	Inquiry
HLA-B*15:733 Genomic Plasmid Vector	PHLAG825117225	Plasmid vector containing HLA-B*15:733 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:733 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:733 protein under different cellular conditions.	Inquiry
HLA-B*15:734 Genomic Plasmid Vector	PHLAG825117226	Plasmid vector containing HLA-B*15:734 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:734 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:734 protein under different cellular conditions.	Inquiry

HLA-B*15:735 Genomic Plasmid Vector	PHLAG82511727	Plasmid vector containing HLA-B*15:735 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:735 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:735 protein under different cellular conditions.	Inquiry
HLA-B*15:736 Genomic Plasmid Vector	PHLAG82511728	Plasmid vector containing HLA-B*15:736 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:736 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:736 protein under different cellular conditions.	Inquiry
HLA-B*15:737N Genomic Plasmid Vector	PHLAG82511729	Plasmid vector containing HLA-B*15:737N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:737N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:737N protein under different cellular conditions.	Inquiry
HLA-B*15:738 Genomic Plasmid Vector	PHLAG82511730	Plasmid vector containing HLA-B*15:738 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:738 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:738 protein under different cellular conditions.	Inquiry
HLA-B*15:739N Genomic Plasmid Vector	PHLAG82511731	Plasmid vector containing HLA-B*15:739N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:739N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:739N protein under different cellular conditions.	Inquiry
HLA-B*15:74 Genomic Plasmid Vector	PHLAG82511732	Plasmid vector containing HLA-B*15:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:74 protein under different cellular conditions.	Inquiry
HLA-B*15:740 Genomic Plasmid Vector	PHLAG82511733	Plasmid vector containing HLA-B*15:740 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:740 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:740 protein under different cellular conditions.	Inquiry
HLA-B*15:741 Genomic Plasmid Vector	PHLAG82511734	Plasmid vector containing HLA-B*15:741 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:741 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:741 protein under different cellular conditions.	Inquiry
HLA-B*15:742 Genomic Plasmid Vector	PHLAG82511735	Plasmid vector containing HLA-B*15:742 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:742 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:742 protein under different cellular conditions.	Inquiry

HLA-B*15:75 Genomic Plasmid Vector	PHLAG82511736	Plasmid vector containing HLA-B*15:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:75 protein under different cellular conditions.	Inquiry
HLA-B*15:76 Genomic Plasmid Vector	PHLAG82511737	Plasmid vector containing HLA-B*15:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:76 protein under different cellular conditions.	Inquiry
HLA-B*15:77 Genomic Plasmid Vector	PHLAG82511738	Plasmid vector containing HLA-B*15:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:77 protein under different cellular conditions.	Inquiry
HLA-B*15:78:01:01 Genomic Plasmid Vector	PHLAG82511739	Plasmid vector containing HLA-B*15:78:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:78:01:02 Genomic Plasmid Vector	PHLAG82511740	Plasmid vector containing HLA-B*15:78:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:78:02 Genomic Plasmid Vector	PHLAG82511741	Plasmid vector containing HLA-B*15:78:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:02 protein under different cellular conditions.	Inquiry
HLA-B*15:78:03 Genomic Plasmid Vector	PHLAG82511742	Plasmid vector containing HLA-B*15:78:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:03 protein under different cellular conditions.	Inquiry
HLA-B*15:78:04 Genomic Plasmid Vector	PHLAG82511743	Plasmid vector containing HLA-B*15:78:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:04 protein under different cellular conditions.	Inquiry
HLA-B*15:78:05 Genomic Plasmid Vector	PHLAG82511744	Plasmid vector containing HLA-B*15:78:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:78:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:78:05 protein under different cellular conditions.	Inquiry

HLA-B*15:79N Genomic Plasmid Vector	PHLAG82511745	Plasmid vector containing HLA-B*15:79N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:79N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:79N protein under different cellular conditions.	Inquiry
HLA-B*15:80 Genomic Plasmid Vector	PHLAG82511746	Plasmid vector containing HLA-B*15:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:80 protein under different cellular conditions.	Inquiry
HLA-B*15:81 Genomic Plasmid Vector	PHLAG82511747	Plasmid vector containing HLA-B*15:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:81 protein under different cellular conditions.	Inquiry
HLA-B*15:82 Genomic Plasmid Vector	PHLAG82511748	Plasmid vector containing HLA-B*15:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:82 protein under different cellular conditions.	Inquiry
HLA-B*15:83:01:01 Genomic Plasmid Vector	PHLAG82511749	Plasmid vector containing HLA-B*15:83:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:83:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:83:01:01 protein under different cellular conditions.	Inquiry
HLA-B*15:83:01:02 Genomic Plasmid Vector	PHLAG82511750	Plasmid vector containing HLA-B*15:83:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:83:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:83:01:02 protein under different cellular conditions.	Inquiry
HLA-B*15:84 Genomic Plasmid Vector	PHLAG82511751	Plasmid vector containing HLA-B*15:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:84 protein under different cellular conditions.	Inquiry
HLA-B*15:85 Genomic Plasmid Vector	PHLAG82511752	Plasmid vector containing HLA-B*15:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:85 protein under different cellular conditions.	Inquiry
HLA-B*15:86 Genomic Plasmid Vector	PHLAG82511753	Plasmid vector containing HLA-B*15:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:86 protein under different cellular conditions.	Inquiry

HLA-B*15:87 Genomic Plasmid Vector	PHLAG82511754	Plasmid vector containing HLA-B*15:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:87 protein under different cellular conditions.	Inquiry
HLA-B*15:88 Genomic Plasmid Vector	PHLAG82511755	Plasmid vector containing HLA-B*15:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:88 protein under different cellular conditions.	Inquiry
HLA-B*15:89:01 Genomic Plasmid Vector	PHLAG82511756	Plasmid vector containing HLA-B*15:89:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:89:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:89:01 protein under different cellular conditions.	Inquiry
HLA-B*15:89:02 Genomic Plasmid Vector	PHLAG82511757	Plasmid vector containing HLA-B*15:89:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:89:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:89:02 protein under different cellular conditions.	Inquiry
HLA-B*15:90 Genomic Plasmid Vector	PHLAG82511758	Plasmid vector containing HLA-B*15:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:90 protein under different cellular conditions.	Inquiry
HLA-B*15:91 Genomic Plasmid Vector	PHLAG82511759	Plasmid vector containing HLA-B*15:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:91 protein under different cellular conditions.	Inquiry
HLA-B*15:92 Genomic Plasmid Vector	PHLAG82511760	Plasmid vector containing HLA-B*15:92 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:92 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:92 protein under different cellular conditions.	Inquiry
HLA-B*15:93 Genomic Plasmid Vector	PHLAG82511761	Plasmid vector containing HLA-B*15:93 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:93 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:93 protein under different cellular conditions.	Inquiry
HLA-B*15:94N Genomic Plasmid Vector	PHLAG82511762	Plasmid vector containing HLA-B*15:94N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:94N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:94N protein under different cellular conditions.	Inquiry

HLA-B*15:95 Genomic Plasmid Vector	PHLAG82511763	Plasmid vector containing HLA-B*15:95 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:95 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:95 protein under different cellular conditions.	Inquiry
HLA-B*15:96 Genomic Plasmid Vector	PHLAG82511764	Plasmid vector containing HLA-B*15:96 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:96 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:96 protein under different cellular conditions.	Inquiry
HLA-B*15:97 Genomic Plasmid Vector	PHLAG82511765	Plasmid vector containing HLA-B*15:97 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:97 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:97 protein under different cellular conditions.	Inquiry
HLA-B*15:98 Genomic Plasmid Vector	PHLAG82511766	Plasmid vector containing HLA-B*15:98 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:98 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:98 protein under different cellular conditions.	Inquiry
HLA-B*15:99 Genomic Plasmid Vector	PHLAG82511767	Plasmid vector containing HLA-B*15:99 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*15:99 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*15:99 protein under different cellular conditions.	Inquiry
HLA-B*150105 Genomic Plasmid Vector	PHLAG82511768	Plasmid vector containing HLA-B*150105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*150105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*150105 protein under different cellular conditions.	Inquiry
HLA-B*1522 Genomic Plasmid Vector	PHLAG82511769	Plasmid vector containing HLA-B*1522 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*1522 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*1522 protein under different cellular conditions.	Inquiry
HLA-B*1541 Genomic Plasmid Vector	PHLAG82511770	Plasmid vector containing HLA-B*1541 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*1541 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*1541 protein under different cellular conditions.	Inquiry
HLA-B*1559 Genomic Plasmid Vector	PHLAG82511771	Plasmid vector containing HLA-B*1559 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*1559 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*1559 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:01 Genomic Plasmid Vector	PHLAG8251177 2	Plasmid vector containing HLA-B*18:01:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:02 Genomic Plasmid Vector	PHLAG8251177 3	Plasmid vector containing HLA-B*18:01:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:03 Genomic Plasmid Vector	PHLAG8251177 4	Plasmid vector containing HLA-B*18:01:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:03 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:04 Genomic Plasmid Vector	PHLAG8251177 5	Plasmid vector containing HLA-B*18:01:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:04 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:05 Genomic Plasmid Vector	PHLAG8251177 6	Plasmid vector containing HLA-B*18:01:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:05 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:06 Genomic Plasmid Vector	PHLAG8251177 7	Plasmid vector containing HLA-B*18:01:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:06 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:07 Genomic Plasmid Vector	PHLAG8251177 8	Plasmid vector containing HLA-B*18:01:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:07 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:08 Genomic Plasmid Vector	PHLAG8251177 9	Plasmid vector containing HLA-B*18:01:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:08 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:09 Genomic Plasmid Vector	PHLAG8251178 0	Plasmid vector containing HLA-B*18:01:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:09 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:10 Genomic Plasmid Vector	PHLAG82511781	Plasmid vector containing HLA-B*18:01:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:10 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:11 Genomic Plasmid Vector	PHLAG82511782	Plasmid vector containing HLA-B*18:01:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:11 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:12Q Genomic Plasmid Vector	PHLAG82511783	Plasmid vector containing HLA-B*18:01:01:12Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:12Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:12Q protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:13 Genomic Plasmid Vector	PHLAG82511784	Plasmid vector containing HLA-B*18:01:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:13 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:14 Genomic Plasmid Vector	PHLAG82511785	Plasmid vector containing HLA-B*18:01:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:14 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:15 Genomic Plasmid Vector	PHLAG82511786	Plasmid vector containing HLA-B*18:01:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:15 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:16 Genomic Plasmid Vector	PHLAG82511787	Plasmid vector containing HLA-B*18:01:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:16 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:17 Genomic Plasmid Vector	PHLAG82511788	Plasmid vector containing HLA-B*18:01:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:17 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:18 Genomic Plasmid Vector	PHLAG82511789	Plasmid vector containing HLA-B*18:01:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:18 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:19 Genomic Plasmid Vector	PHLAG82511790	Plasmid vector containing HLA-B*18:01:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:19 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:20 Genomic Plasmid Vector	PHLAG82511791	Plasmid vector containing HLA-B*18:01:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:20 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:21 Genomic Plasmid Vector	PHLAG82511792	Plasmid vector containing HLA-B*18:01:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:21 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:22 Genomic Plasmid Vector	PHLAG82511793	Plasmid vector containing HLA-B*18:01:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:22 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:23 Genomic Plasmid Vector	PHLAG82511794	Plasmid vector containing HLA-B*18:01:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:23 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:24 Genomic Plasmid Vector	PHLAG82511795	Plasmid vector containing HLA-B*18:01:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:24 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:25 Genomic Plasmid Vector	PHLAG82511796	Plasmid vector containing HLA-B*18:01:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:25 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:26 Genomic Plasmid Vector	PHLAG82511797	Plasmid vector containing HLA-B*18:01:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:26 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:27 Genomic Plasmid Vector	PHLAG82511798	Plasmid vector containing HLA-B*18:01:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:27 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:28 Genomic Plasmid Vector	PHLAG82511799	Plasmid vector containing HLA-B*18:01:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:28 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:29 Genomic Plasmid Vector	PHLAG825118000	Plasmid vector containing HLA-B*18:01:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:29 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:30 Genomic Plasmid Vector	PHLAG825118001	Plasmid vector containing HLA-B*18:01:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:30 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:31 Genomic Plasmid Vector	PHLAG825118002	Plasmid vector containing HLA-B*18:01:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:31 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:32 Genomic Plasmid Vector	PHLAG825118003	Plasmid vector containing HLA-B*18:01:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:32 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:33 Genomic Plasmid Vector	PHLAG825118004	Plasmid vector containing HLA-B*18:01:01:33 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:33 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:33 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:34 Genomic Plasmid Vector	PHLAG825118005	Plasmid vector containing HLA-B*18:01:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:34 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:35 Genomic Plasmid Vector	PHLAG825118006	Plasmid vector containing HLA-B*18:01:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:35 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:36 Genomic Plasmid Vector	PHLAG825118007	Plasmid vector containing HLA-B*18:01:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:36 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:37 Genomic Plasmid Vector	PHLAG82511808	Plasmid vector containing HLA-B*18:01:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:37 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:38 Genomic Plasmid Vector	PHLAG82511809	Plasmid vector containing HLA-B*18:01:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:38 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:39 Genomic Plasmid Vector	PHLAG825118110	Plasmid vector containing HLA-B*18:01:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:39 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:40 Genomic Plasmid Vector	PHLAG825118111	Plasmid vector containing HLA-B*18:01:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:40 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:41 Genomic Plasmid Vector	PHLAG825118112	Plasmid vector containing HLA-B*18:01:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:41 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:42Q Genomic Plasmid Vector	PHLAG825118113	Plasmid vector containing HLA-B*18:01:01:42Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:42Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:42Q protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:43 Genomic Plasmid Vector	PHLAG825118114	Plasmid vector containing HLA-B*18:01:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:43 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:44 Genomic Plasmid Vector	PHLAG825118115	Plasmid vector containing HLA-B*18:01:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:44 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:45 Genomic Plasmid Vector	PHLAG825118116	Plasmid vector containing HLA-B*18:01:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:45 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:46 Genomic Plasmid Vector	PHLAG82511817	Plasmid vector containing HLA-B*18:01:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:46 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:47 Genomic Plasmid Vector	PHLAG82511818	Plasmid vector containing HLA-B*18:01:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:47 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:48 Genomic Plasmid Vector	PHLAG82511819	Plasmid vector containing HLA-B*18:01:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:48 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:49 Genomic Plasmid Vector	PHLAG82511820	Plasmid vector containing HLA-B*18:01:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:49 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:50 Genomic Plasmid Vector	PHLAG82511821	Plasmid vector containing HLA-B*18:01:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:50 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:51 Genomic Plasmid Vector	PHLAG82511822	Plasmid vector containing HLA-B*18:01:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:51 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:52 Genomic Plasmid Vector	PHLAG82511823	Plasmid vector containing HLA-B*18:01:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:52 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:53 Genomic Plasmid Vector	PHLAG82511824	Plasmid vector containing HLA-B*18:01:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:53 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:54 Genomic Plasmid Vector	PHLAG82511825	Plasmid vector containing HLA-B*18:01:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:54 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:55 Genomic Plasmid Vector	PHLAG82511826	Plasmid vector containing HLA-B*18:01:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:55 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:56 Genomic Plasmid Vector	PHLAG82511827	Plasmid vector containing HLA-B*18:01:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:56 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:57 Genomic Plasmid Vector	PHLAG82511828	Plasmid vector containing HLA-B*18:01:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:57 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:58 Genomic Plasmid Vector	PHLAG82511829	Plasmid vector containing HLA-B*18:01:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:58 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:59 Genomic Plasmid Vector	PHLAG825118330	Plasmid vector containing HLA-B*18:01:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:59 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:60 Genomic Plasmid Vector	PHLAG825118331	Plasmid vector containing HLA-B*18:01:01:60 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:60 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:60 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:61 Genomic Plasmid Vector	PHLAG825118332	Plasmid vector containing HLA-B*18:01:01:61 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:61 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:61 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:62 Genomic Plasmid Vector	PHLAG825118333	Plasmid vector containing HLA-B*18:01:01:62 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:62 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:62 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:63 Genomic Plasmid Vector	PHLAG825118334	Plasmid vector containing HLA-B*18:01:01:63 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:63 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:63 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:64 Genomic Plasmid Vector	PHLAG82511835	Plasmid vector containing HLA-B*18:01:01:64 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:64 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:64 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:65 Genomic Plasmid Vector	PHLAG82511836	Plasmid vector containing HLA-B*18:01:01:65 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:65 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:65 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:66 Genomic Plasmid Vector	PHLAG82511837	Plasmid vector containing HLA-B*18:01:01:66 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:66 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:66 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:67 Genomic Plasmid Vector	PHLAG82511838	Plasmid vector containing HLA-B*18:01:01:67 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:67 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:67 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:68 Genomic Plasmid Vector	PHLAG82511839	Plasmid vector containing HLA-B*18:01:01:68 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:68 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:68 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:69 Genomic Plasmid Vector	PHLAG82511840	Plasmid vector containing HLA-B*18:01:01:69 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:69 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:69 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:70 Genomic Plasmid Vector	PHLAG82511841	Plasmid vector containing HLA-B*18:01:01:70 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:70 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:70 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:71 Genomic Plasmid Vector	PHLAG82511842	Plasmid vector containing HLA-B*18:01:01:71 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:71 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:71 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:72 Genomic Plasmid Vector	PHLAG82511843	Plasmid vector containing HLA-B*18:01:01:72 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:72 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:72 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:73 Genomic Plasmid Vector	PHLAG82511844	Plasmid vector containing HLA-B*18:01:01:73 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:73 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:73 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:74 Genomic Plasmid Vector	PHLAG82511845	Plasmid vector containing HLA-B*18:01:01:74 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:74 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:74 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:75 Genomic Plasmid Vector	PHLAG82511846	Plasmid vector containing HLA-B*18:01:01:75 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:75 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:75 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:76 Genomic Plasmid Vector	PHLAG82511847	Plasmid vector containing HLA-B*18:01:01:76 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:76 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:76 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:77 Genomic Plasmid Vector	PHLAG82511848	Plasmid vector containing HLA-B*18:01:01:77 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:77 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:77 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:78 Genomic Plasmid Vector	PHLAG82511849	Plasmid vector containing HLA-B*18:01:01:78 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:78 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:78 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:79 Genomic Plasmid Vector	PHLAG825118500	Plasmid vector containing HLA-B*18:01:01:79 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:79 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:79 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:80 Genomic Plasmid Vector	PHLAG825118501	Plasmid vector containing HLA-B*18:01:01:80 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:80 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:80 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:81 Genomic Plasmid Vector	PHLAG825118502	Plasmid vector containing HLA-B*18:01:01:81 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:81 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:81 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:82 Genomic Plasmid Vector	PHLAG82511853	Plasmid vector containing HLA-B*18:01:01:82 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:82 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:82 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:83 Genomic Plasmid Vector	PHLAG82511854	Plasmid vector containing HLA-B*18:01:01:83 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:83 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:83 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:84 Genomic Plasmid Vector	PHLAG82511855	Plasmid vector containing HLA-B*18:01:01:84 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:84 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:84 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:85 Genomic Plasmid Vector	PHLAG82511856	Plasmid vector containing HLA-B*18:01:01:85 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:85 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:85 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:86 Genomic Plasmid Vector	PHLAG82511857	Plasmid vector containing HLA-B*18:01:01:86 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:86 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:86 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:87 Genomic Plasmid Vector	PHLAG82511858	Plasmid vector containing HLA-B*18:01:01:87 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:87 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:87 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:88 Genomic Plasmid Vector	PHLAG82511859	Plasmid vector containing HLA-B*18:01:01:88 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:88 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:88 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:89 Genomic Plasmid Vector	PHLAG825118600	Plasmid vector containing HLA-B*18:01:01:89 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:89 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:89 protein under different cellular conditions.	Inquiry
HLA-B*18:01:01:90 Genomic Plasmid Vector	PHLAG825118601	Plasmid vector containing HLA-B*18:01:01:90 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:90 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:90 protein under different cellular conditions.	Inquiry

HLA-B*18:01:01:91 Genomic Plasmid Vector	PHLAG82511862	Plasmid vector containing HLA-B*18:01:01:91 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:01:91 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:01:91 protein under different cellular conditions.	Inquiry
HLA-B*18:01:02 Genomic Plasmid Vector	PHLAG82511863	Plasmid vector containing HLA-B*18:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:01:03 Genomic Plasmid Vector	PHLAG82511864	Plasmid vector containing HLA-B*18:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:03 protein under different cellular conditions.	Inquiry
HLA-B*18:01:04 Genomic Plasmid Vector	PHLAG82511865	Plasmid vector containing HLA-B*18:01:04 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:04 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:04 protein under different cellular conditions.	Inquiry
HLA-B*18:01:05 Genomic Plasmid Vector	PHLAG82511866	Plasmid vector containing HLA-B*18:01:05 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:05 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:05 protein under different cellular conditions.	Inquiry
HLA-B*18:01:06 Genomic Plasmid Vector	PHLAG82511867	Plasmid vector containing HLA-B*18:01:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:06 protein under different cellular conditions.	Inquiry
HLA-B*18:01:07 Genomic Plasmid Vector	PHLAG82511868	Plasmid vector containing HLA-B*18:01:07 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:07 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:07 protein under different cellular conditions.	Inquiry
HLA-B*18:01:08 Genomic Plasmid Vector	PHLAG82511869	Plasmid vector containing HLA-B*18:01:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:08 protein under different cellular conditions.	Inquiry
HLA-B*18:01:09 Genomic Plasmid Vector	PHLAG82511870	Plasmid vector containing HLA-B*18:01:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:09 protein under different cellular conditions.	Inquiry

HLA-B*18:01:10 Genomic Plasmid Vector	PHLAG82511871	Plasmid vector containing HLA-B*18:01:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:10 protein under different cellular conditions.	Inquiry
HLA-B*18:01:11 Genomic Plasmid Vector	PHLAG82511872	Plasmid vector containing HLA-B*18:01:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:11 protein under different cellular conditions.	Inquiry
HLA-B*18:01:12 Genomic Plasmid Vector	PHLAG82511873	Plasmid vector containing HLA-B*18:01:12 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:12 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:12 protein under different cellular conditions.	Inquiry
HLA-B*18:01:13 Genomic Plasmid Vector	PHLAG82511874	Plasmid vector containing HLA-B*18:01:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:13 protein under different cellular conditions.	Inquiry
HLA-B*18:01:14 Genomic Plasmid Vector	PHLAG82511875	Plasmid vector containing HLA-B*18:01:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:14 protein under different cellular conditions.	Inquiry
HLA-B*18:01:15 Genomic Plasmid Vector	PHLAG82511876	Plasmid vector containing HLA-B*18:01:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:15 protein under different cellular conditions.	Inquiry
HLA-B*18:01:16 Genomic Plasmid Vector	PHLAG82511877	Plasmid vector containing HLA-B*18:01:16 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:16 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:16 protein under different cellular conditions.	Inquiry
HLA-B*18:01:17 Genomic Plasmid Vector	PHLAG82511878	Plasmid vector containing HLA-B*18:01:17 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:17 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:17 protein under different cellular conditions.	Inquiry
HLA-B*18:01:18 Genomic Plasmid Vector	PHLAG82511879	Plasmid vector containing HLA-B*18:01:18 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:18 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:18 protein under different cellular conditions.	Inquiry

HLA-B*18:01:19 Genomic Plasmid Vector	PHLAG82511880	Plasmid vector containing HLA-B*18:01:19 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:19 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:19 protein under different cellular conditions.	Inquiry
HLA-B*18:01:20 Genomic Plasmid Vector	PHLAG82511881	Plasmid vector containing HLA-B*18:01:20 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:20 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:20 protein under different cellular conditions.	Inquiry
HLA-B*18:01:21 Genomic Plasmid Vector	PHLAG82511882	Plasmid vector containing HLA-B*18:01:21 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:21 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:21 protein under different cellular conditions.	Inquiry
HLA-B*18:01:22 Genomic Plasmid Vector	PHLAG82511883	Plasmid vector containing HLA-B*18:01:22 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:22 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:22 protein under different cellular conditions.	Inquiry
HLA-B*18:01:23 Genomic Plasmid Vector	PHLAG82511884	Plasmid vector containing HLA-B*18:01:23 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:23 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:23 protein under different cellular conditions.	Inquiry
HLA-B*18:01:24 Genomic Plasmid Vector	PHLAG82511885	Plasmid vector containing HLA-B*18:01:24 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:24 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:24 protein under different cellular conditions.	Inquiry
HLA-B*18:01:25 Genomic Plasmid Vector	PHLAG82511886	Plasmid vector containing HLA-B*18:01:25 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:25 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:25 protein under different cellular conditions.	Inquiry
HLA-B*18:01:26 Genomic Plasmid Vector	PHLAG82511887	Plasmid vector containing HLA-B*18:01:26 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:26 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:26 protein under different cellular conditions.	Inquiry
HLA-B*18:01:27 Genomic Plasmid Vector	PHLAG82511888	Plasmid vector containing HLA-B*18:01:27 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:27 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:27 protein under different cellular conditions.	Inquiry

HLA-B*18:01:28 Genomic Plasmid Vector	PHLAG82511889	Plasmid vector containing HLA-B*18:01:28 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:28 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:28 protein under different cellular conditions.	Inquiry
HLA-B*18:01:29 Genomic Plasmid Vector	PHLAG8251189 0	Plasmid vector containing HLA-B*18:01:29 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:29 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:29 protein under different cellular conditions.	Inquiry
HLA-B*18:01:30 Genomic Plasmid Vector	PHLAG8251189 1	Plasmid vector containing HLA-B*18:01:30 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:30 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:30 protein under different cellular conditions.	Inquiry
HLA-B*18:01:31 Genomic Plasmid Vector	PHLAG8251189 2	Plasmid vector containing HLA-B*18:01:31 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:31 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:31 protein under different cellular conditions.	Inquiry
HLA-B*18:01:32 Genomic Plasmid Vector	PHLAG8251189 3	Plasmid vector containing HLA-B*18:01:32 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:32 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:32 protein under different cellular conditions.	Inquiry
HLA-B*18:01:33:01 Genomic Plasmid Vector	PHLAG8251189 4	Plasmid vector containing HLA-B*18:01:33:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:33:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:33:01 protein under different cellular conditions.	Inquiry
HLA-B*18:01:33:02 Genomic Plasmid Vector	PHLAG8251189 5	Plasmid vector containing HLA-B*18:01:33:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:33:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:33:02 protein under different cellular conditions.	Inquiry
HLA-B*18:01:33:03 Genomic Plasmid Vector	PHLAG8251189 6	Plasmid vector containing HLA-B*18:01:33:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:33:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:33:03 protein under different cellular conditions.	Inquiry
HLA-B*18:01:34 Genomic Plasmid Vector	PHLAG8251189 7	Plasmid vector containing HLA-B*18:01:34 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:34 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:34 protein under different cellular conditions.	Inquiry

HLA-B*18:01:35 Genomic Plasmid Vector	PHLAG82511898	Plasmid vector containing HLA-B*18:01:35 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:35 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:35 protein under different cellular conditions.	Inquiry
HLA-B*18:01:36 Genomic Plasmid Vector	PHLAG82511899	Plasmid vector containing HLA-B*18:01:36 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:36 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:36 protein under different cellular conditions.	Inquiry
HLA-B*18:01:37 Genomic Plasmid Vector	PHLAG825119100	Plasmid vector containing HLA-B*18:01:37 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:37 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:37 protein under different cellular conditions.	Inquiry
HLA-B*18:01:38 Genomic Plasmid Vector	PHLAG825119101	Plasmid vector containing HLA-B*18:01:38 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:38 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:38 protein under different cellular conditions.	Inquiry
HLA-B*18:01:39 Genomic Plasmid Vector	PHLAG825119102	Plasmid vector containing HLA-B*18:01:39 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:39 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:39 protein under different cellular conditions.	Inquiry
HLA-B*18:01:40 Genomic Plasmid Vector	PHLAG825119103	Plasmid vector containing HLA-B*18:01:40 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:40 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:40 protein under different cellular conditions.	Inquiry
HLA-B*18:01:41 Genomic Plasmid Vector	PHLAG825119104	Plasmid vector containing HLA-B*18:01:41 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:41 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:41 protein under different cellular conditions.	Inquiry
HLA-B*18:01:42 Genomic Plasmid Vector	PHLAG825119105	Plasmid vector containing HLA-B*18:01:42 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:42 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:42 protein under different cellular conditions.	Inquiry
HLA-B*18:01:43 Genomic Plasmid Vector	PHLAG825119106	Plasmid vector containing HLA-B*18:01:43 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:43 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:43 protein under different cellular conditions.	Inquiry

HLA-B*18:01:44 Genomic Plasmid Vector	PHLAG82511907	Plasmid vector containing HLA-B*18:01:44 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:44 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:44 protein under different cellular conditions.	Inquiry
HLA-B*18:01:45 Genomic Plasmid Vector	PHLAG82511908	Plasmid vector containing HLA-B*18:01:45 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:45 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:45 protein under different cellular conditions.	Inquiry
HLA-B*18:01:46 Genomic Plasmid Vector	PHLAG82511909	Plasmid vector containing HLA-B*18:01:46 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:46 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:46 protein under different cellular conditions.	Inquiry
HLA-B*18:01:47 Genomic Plasmid Vector	PHLAG825119110	Plasmid vector containing HLA-B*18:01:47 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:47 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:47 protein under different cellular conditions.	Inquiry
HLA-B*18:01:48 Genomic Plasmid Vector	PHLAG825119111	Plasmid vector containing HLA-B*18:01:48 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:48 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:48 protein under different cellular conditions.	Inquiry
HLA-B*18:01:49 Genomic Plasmid Vector	PHLAG825119112	Plasmid vector containing HLA-B*18:01:49 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:49 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:49 protein under different cellular conditions.	Inquiry
HLA-B*18:01:50 Genomic Plasmid Vector	PHLAG825119113	Plasmid vector containing HLA-B*18:01:50 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:50 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:50 protein under different cellular conditions.	Inquiry
HLA-B*18:01:51 Genomic Plasmid Vector	PHLAG825119114	Plasmid vector containing HLA-B*18:01:51 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:51 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:51 protein under different cellular conditions.	Inquiry
HLA-B*18:01:52 Genomic Plasmid Vector	PHLAG825119115	Plasmid vector containing HLA-B*18:01:52 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:52 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:52 protein under different cellular conditions.	Inquiry

HLA-B*18:01:53 Genomic Plasmid Vector	PHLAG82511916	Plasmid vector containing HLA-B*18:01:53 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:53 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:53 protein under different cellular conditions.	Inquiry
HLA-B*18:01:54 Genomic Plasmid Vector	PHLAG82511917	Plasmid vector containing HLA-B*18:01:54 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:54 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:54 protein under different cellular conditions.	Inquiry
HLA-B*18:01:55 Genomic Plasmid Vector	PHLAG82511918	Plasmid vector containing HLA-B*18:01:55 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:55 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:55 protein under different cellular conditions.	Inquiry
HLA-B*18:01:56 Genomic Plasmid Vector	PHLAG82511919	Plasmid vector containing HLA-B*18:01:56 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:56 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:56 protein under different cellular conditions.	Inquiry
HLA-B*18:01:57 Genomic Plasmid Vector	PHLAG82511920	Plasmid vector containing HLA-B*18:01:57 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:57 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:57 protein under different cellular conditions.	Inquiry
HLA-B*18:01:58 Genomic Plasmid Vector	PHLAG82511921	Plasmid vector containing HLA-B*18:01:58 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:58 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:58 protein under different cellular conditions.	Inquiry
HLA-B*18:01:59 Genomic Plasmid Vector	PHLAG82511922	Plasmid vector containing HLA-B*18:01:59 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:01:59 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:01:59 protein under different cellular conditions.	Inquiry
HLA-B*18:02:01 Genomic Plasmid Vector	PHLAG82511923	Plasmid vector containing HLA-B*18:02:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:02:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:02:01 protein under different cellular conditions.	Inquiry
HLA-B*18:02:02 Genomic Plasmid Vector	PHLAG82511924	Plasmid vector containing HLA-B*18:02:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:02:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:02:02 protein under different cellular conditions.	Inquiry

HLA-B*18:02:03 Genomic Plasmid Vector	PHLAG82511925	Plasmid vector containing HLA-B*18:02:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:02:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:02:03 protein under different cellular conditions.	Inquiry
HLA-B*18:03:01:01 Genomic Plasmid Vector	PHLAG82511926	Plasmid vector containing HLA-B*18:03:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:03:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:03:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:03:01:02 Genomic Plasmid Vector	PHLAG82511927	Plasmid vector containing HLA-B*18:03:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:03:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:03:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:03:01:03 Genomic Plasmid Vector	PHLAG82511928	Plasmid vector containing HLA-B*18:03:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:03:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:03:01:03 protein under different cellular conditions.	Inquiry
HLA-B*18:03:02 Genomic Plasmid Vector	PHLAG82511929	Plasmid vector containing HLA-B*18:03:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:03:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:03:02 protein under different cellular conditions.	Inquiry
HLA-B*18:04:01 Genomic Plasmid Vector	PHLAG82511930	Plasmid vector containing HLA-B*18:04:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:04:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:04:01 protein under different cellular conditions.	Inquiry
HLA-B*18:04:02 Genomic Plasmid Vector	PHLAG82511931	Plasmid vector containing HLA-B*18:04:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:04:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:04:02 protein under different cellular conditions.	Inquiry
HLA-B*18:05:01:01 Genomic Plasmid Vector	PHLAG82511932	Plasmid vector containing HLA-B*18:05:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:05:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:05:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:05:01:02 Genomic Plasmid Vector	PHLAG82511933	Plasmid vector containing HLA-B*18:05:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:05:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:05:01:02 protein under different cellular conditions.	Inquiry

HLA-B*18:05:01:03 Genomic Plasmid Vector	PHLAG82511934	Plasmid vector containing HLA-B*18:05:01:03 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:05:01:03 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:05:01:03 protein under different cellular conditions.	Inquiry
HLA-B*18:06 Genomic Plasmid Vector	PHLAG82511935	Plasmid vector containing HLA-B*18:06 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:06 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:06 protein under different cellular conditions.	Inquiry
HLA-B*18:07:01 Genomic Plasmid Vector	PHLAG82511936	Plasmid vector containing HLA-B*18:07:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:07:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:07:01 protein under different cellular conditions.	Inquiry
HLA-B*18:07:02 Genomic Plasmid Vector	PHLAG82511937	Plasmid vector containing HLA-B*18:07:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:07:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:07:02 protein under different cellular conditions.	Inquiry
HLA-B*18:07:03:01 Genomic Plasmid Vector	PHLAG82511938	Plasmid vector containing HLA-B*18:07:03:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:07:03:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:07:03:01 protein under different cellular conditions.	Inquiry
HLA-B*18:07:03:02 Genomic Plasmid Vector	PHLAG82511939	Plasmid vector containing HLA-B*18:07:03:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:07:03:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:07:03:02 protein under different cellular conditions.	Inquiry
HLA-B*18:08 Genomic Plasmid Vector	PHLAG82511940	Plasmid vector containing HLA-B*18:08 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:08 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:08 protein under different cellular conditions.	Inquiry
HLA-B*18:09 Genomic Plasmid Vector	PHLAG82511941	Plasmid vector containing HLA-B*18:09 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:09 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:09 protein under different cellular conditions.	Inquiry
HLA-B*18:10 Genomic Plasmid Vector	PHLAG82511942	Plasmid vector containing HLA-B*18:10 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:10 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:10 protein under different cellular conditions.	Inquiry

HLA-B*18:100 Genomic Plasmid Vector	PHLAG82511943	Plasmid vector containing HLA-B*18:100 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:100 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:100 protein under different cellular conditions.	Inquiry
HLA-B*18:101 Genomic Plasmid Vector	PHLAG82511944	Plasmid vector containing HLA-B*18:101 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:101 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:101 protein under different cellular conditions.	Inquiry
HLA-B*18:102 Genomic Plasmid Vector	PHLAG82511945	Plasmid vector containing HLA-B*18:102 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:102 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:102 protein under different cellular conditions.	Inquiry
HLA-B*18:103 Genomic Plasmid Vector	PHLAG82511946	Plasmid vector containing HLA-B*18:103 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:103 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:103 protein under different cellular conditions.	Inquiry
HLA-B*18:104 Genomic Plasmid Vector	PHLAG82511947	Plasmid vector containing HLA-B*18:104 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:104 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:104 protein under different cellular conditions.	Inquiry
HLA-B*18:105 Genomic Plasmid Vector	PHLAG82511948	Plasmid vector containing HLA-B*18:105 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:105 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:105 protein under different cellular conditions.	Inquiry
HLA-B*18:106Q Genomic Plasmid Vector	PHLAG82511949	Plasmid vector containing HLA-B*18:106Q genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:106Q allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:106Q protein under different cellular conditions.	Inquiry
HLA-B*18:107 Genomic Plasmid Vector	PHLAG82511950	Plasmid vector containing HLA-B*18:107 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:107 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:107 protein under different cellular conditions.	Inquiry
HLA-B*18:108 Genomic Plasmid Vector	PHLAG82511951	Plasmid vector containing HLA-B*18:108 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:108 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:108 protein under different cellular conditions.	Inquiry

HLA-B*18:109 Genomic Plasmid Vector	PHLAG82511952	Plasmid vector containing HLA-B*18:109 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:109 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:109 protein under different cellular conditions.	Inquiry
HLA-B*18:11 Genomic Plasmid Vector	PHLAG82511953	Plasmid vector containing HLA-B*18:11 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:11 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:11 protein under different cellular conditions.	Inquiry
HLA-B*18:110 Genomic Plasmid Vector	PHLAG82511954	Plasmid vector containing HLA-B*18:110 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:110 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:110 protein under different cellular conditions.	Inquiry
HLA-B*18:111 Genomic Plasmid Vector	PHLAG82511955	Plasmid vector containing HLA-B*18:111 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:111 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:111 protein under different cellular conditions.	Inquiry
HLA-B*18:112 Genomic Plasmid Vector	PHLAG82511956	Plasmid vector containing HLA-B*18:112 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:112 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:112 protein under different cellular conditions.	Inquiry
HLA-B*18:113 Genomic Plasmid Vector	PHLAG82511957	Plasmid vector containing HLA-B*18:113 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:113 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:113 protein under different cellular conditions.	Inquiry
HLA-B*18:114 Genomic Plasmid Vector	PHLAG82511958	Plasmid vector containing HLA-B*18:114 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:114 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:114 protein under different cellular conditions.	Inquiry
HLA-B*18:115 Genomic Plasmid Vector	PHLAG82511959	Plasmid vector containing HLA-B*18:115 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:115 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:115 protein under different cellular conditions.	Inquiry
HLA-B*18:116 Genomic Plasmid Vector	PHLAG82511960	Plasmid vector containing HLA-B*18:116 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:116 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:116 protein under different cellular conditions.	Inquiry

HLA-B*18:117 Genomic Plasmid Vector	PHLAG82511961	Plasmid vector containing HLA-B*18:117 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:117 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:117 protein under different cellular conditions.	Inquiry
HLA-B*18:118 Genomic Plasmid Vector	PHLAG82511962	Plasmid vector containing HLA-B*18:118 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:118 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:118 protein under different cellular conditions.	Inquiry
HLA-B*18:119 Genomic Plasmid Vector	PHLAG82511963	Plasmid vector containing HLA-B*18:119 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:119 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:119 protein under different cellular conditions.	Inquiry
HLA-B*18:12:01 Genomic Plasmid Vector	PHLAG82511964	Plasmid vector containing HLA-B*18:12:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:12:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:12:01 protein under different cellular conditions.	Inquiry
HLA-B*18:12:02 Genomic Plasmid Vector	PHLAG82511965	Plasmid vector containing HLA-B*18:12:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:12:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:12:02 protein under different cellular conditions.	Inquiry
HLA-B*18:120 Genomic Plasmid Vector	PHLAG82511966	Plasmid vector containing HLA-B*18:120 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:120 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:120 protein under different cellular conditions.	Inquiry
HLA-B*18:121 Genomic Plasmid Vector	PHLAG82511967	Plasmid vector containing HLA-B*18:121 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:121 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:121 protein under different cellular conditions.	Inquiry
HLA-B*18:122 Genomic Plasmid Vector	PHLAG82511968	Plasmid vector containing HLA-B*18:122 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:122 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:122 protein under different cellular conditions.	Inquiry
HLA-B*18:123 Genomic Plasmid Vector	PHLAG82511969	Plasmid vector containing HLA-B*18:123 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:123 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:123 protein under different cellular conditions.	Inquiry

HLA-B*18:124 Genomic Plasmid Vector	PHLAG82511970	Plasmid vector containing HLA-B*18:124 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:124 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:124 protein under different cellular conditions.	Inquiry
HLA-B*18:125 Genomic Plasmid Vector	PHLAG82511971	Plasmid vector containing HLA-B*18:125 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:125 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:125 protein under different cellular conditions.	Inquiry
HLA-B*18:126 Genomic Plasmid Vector	PHLAG82511972	Plasmid vector containing HLA-B*18:126 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:126 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:126 protein under different cellular conditions.	Inquiry
HLA-B*18:127 Genomic Plasmid Vector	PHLAG82511973	Plasmid vector containing HLA-B*18:127 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:127 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:127 protein under different cellular conditions.	Inquiry
HLA-B*18:128 Genomic Plasmid Vector	PHLAG82511974	Plasmid vector containing HLA-B*18:128 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:128 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:128 protein under different cellular conditions.	Inquiry
HLA-B*18:129 Genomic Plasmid Vector	PHLAG82511975	Plasmid vector containing HLA-B*18:129 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:129 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:129 protein under different cellular conditions.	Inquiry
HLA-B*18:13 Genomic Plasmid Vector	PHLAG82511976	Plasmid vector containing HLA-B*18:13 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:13 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:13 protein under different cellular conditions.	Inquiry
HLA-B*18:130 Genomic Plasmid Vector	PHLAG82511977	Plasmid vector containing HLA-B*18:130 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:130 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:130 protein under different cellular conditions.	Inquiry
HLA-B*18:131:01:01 Genomic Plasmid Vector	PHLAG82511978	Plasmid vector containing HLA-B*18:131:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:131:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:131:01:01 protein under different cellular conditions.	Inquiry

HLA-B*18:131:01:02 Genomic Plasmid Vector	PHLAG82511979	Plasmid vector containing HLA-B*18:131:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:131:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:131:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:132 Genomic Plasmid Vector	PHLAG825119810	Plasmid vector containing HLA-B*18:132 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:132 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:132 protein under different cellular conditions.	Inquiry
HLA-B*18:133 Genomic Plasmid Vector	PHLAG825119811	Plasmid vector containing HLA-B*18:133 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:133 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:133 protein under different cellular conditions.	Inquiry
HLA-B*18:134 Genomic Plasmid Vector	PHLAG825119812	Plasmid vector containing HLA-B*18:134 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:134 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:134 protein under different cellular conditions.	Inquiry
HLA-B*18:135:01:01 Genomic Plasmid Vector	PHLAG825119813	Plasmid vector containing HLA-B*18:135:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:135:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:135:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:135:01:02 Genomic Plasmid Vector	PHLAG825119814	Plasmid vector containing HLA-B*18:135:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:135:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:135:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:136 Genomic Plasmid Vector	PHLAG825119815	Plasmid vector containing HLA-B*18:136 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:136 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:136 protein under different cellular conditions.	Inquiry
HLA-B*18:137 Genomic Plasmid Vector	PHLAG825119816	Plasmid vector containing HLA-B*18:137 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:137 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:137 protein under different cellular conditions.	Inquiry
HLA-B*18:138N Genomic Plasmid Vector	PHLAG825119817	Plasmid vector containing HLA-B*18:138N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:138N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:138N protein under different cellular conditions.	Inquiry

HLA-B*18:139 Genomic Plasmid Vector	PHLAG82511988	Plasmid vector containing HLA-B*18:139 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:139 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:139 protein under different cellular conditions.	Inquiry
HLA-B*18:14 Genomic Plasmid Vector	PHLAG82511989	Plasmid vector containing HLA-B*18:14 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:14 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:14 protein under different cellular conditions.	Inquiry
HLA-B*18:140 Genomic Plasmid Vector	PHLAG82511990	Plasmid vector containing HLA-B*18:140 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:140 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:140 protein under different cellular conditions.	Inquiry
HLA-B*18:141 Genomic Plasmid Vector	PHLAG82511991	Plasmid vector containing HLA-B*18:141 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:141 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:141 protein under different cellular conditions.	Inquiry
HLA-B*18:142 Genomic Plasmid Vector	PHLAG82511992	Plasmid vector containing HLA-B*18:142 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:142 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:142 protein under different cellular conditions.	Inquiry
HLA-B*18:143 Genomic Plasmid Vector	PHLAG82511993	Plasmid vector containing HLA-B*18:143 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:143 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:143 protein under different cellular conditions.	Inquiry
HLA-B*18:144 Genomic Plasmid Vector	PHLAG82511994	Plasmid vector containing HLA-B*18:144 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:144 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:144 protein under different cellular conditions.	Inquiry
HLA-B*18:145 Genomic Plasmid Vector	PHLAG82511995	Plasmid vector containing HLA-B*18:145 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:145 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:145 protein under different cellular conditions.	Inquiry
HLA-B*18:146 Genomic Plasmid Vector	PHLAG82511996	Plasmid vector containing HLA-B*18:146 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:146 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:146 protein under different cellular conditions.	Inquiry

HLA-B*18:147 Genomic Plasmid Vector	PHLAG82511997	Plasmid vector containing HLA-B*18:147 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:147 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:147 protein under different cellular conditions.	Inquiry
HLA-B*18:148 Genomic Plasmid Vector	PHLAG82511998	Plasmid vector containing HLA-B*18:148 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:148 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:148 protein under different cellular conditions.	Inquiry
HLA-B*18:149 Genomic Plasmid Vector	PHLAG82511999	Plasmid vector containing HLA-B*18:149 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:149 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:149 protein under different cellular conditions.	Inquiry
HLA-B*18:15 Genomic Plasmid Vector	PHLAG825120000	Plasmid vector containing HLA-B*18:15 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:15 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:15 protein under different cellular conditions.	Inquiry
HLA-B*18:150 Genomic Plasmid Vector	PHLAG825120001	Plasmid vector containing HLA-B*18:150 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:150 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:150 protein under different cellular conditions.	Inquiry
HLA-B*18:151 Genomic Plasmid Vector	PHLAG825120002	Plasmid vector containing HLA-B*18:151 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:151 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:151 protein under different cellular conditions.	Inquiry
HLA-B*18:152 Genomic Plasmid Vector	PHLAG825120003	Plasmid vector containing HLA-B*18:152 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:152 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:152 protein under different cellular conditions.	Inquiry
HLA-B*18:153 Genomic Plasmid Vector	PHLAG825120004	Plasmid vector containing HLA-B*18:153 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:153 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:153 protein under different cellular conditions.	Inquiry
HLA-B*18:154N Genomic Plasmid Vector	PHLAG825120005	Plasmid vector containing HLA-B*18:154N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:154N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:154N protein under different cellular conditions.	Inquiry

HLA-B*18:155 Genomic Plasmid Vector	PHLAG82512006	Plasmid vector containing HLA-B*18:155 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:155 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:155 protein under different cellular conditions.	Inquiry
HLA-B*18:156:01:01 Genomic Plasmid Vector	PHLAG82512007	Plasmid vector containing HLA-B*18:156:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:156:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:156:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:156:01:02 Genomic Plasmid Vector	PHLAG82512008	Plasmid vector containing HLA-B*18:156:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:156:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:156:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:157:01:01 Genomic Plasmid Vector	PHLAG82512009	Plasmid vector containing HLA-B*18:157:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:157:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:157:01:01 protein under different cellular conditions.	Inquiry
HLA-B*18:157:01:02 Genomic Plasmid Vector	PHLAG82512010	Plasmid vector containing HLA-B*18:157:01:02 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:157:01:02 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:157:01:02 protein under different cellular conditions.	Inquiry
HLA-B*18:158 Genomic Plasmid Vector	PHLAG82512011	Plasmid vector containing HLA-B*18:158 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:158 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:158 protein under different cellular conditions.	Inquiry
HLA-B*18:159 Genomic Plasmid Vector	PHLAG82512012	Plasmid vector containing HLA-B*18:159 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:159 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:159 protein under different cellular conditions.	Inquiry
HLA-B*18:160 Genomic Plasmid Vector	PHLAG82512013	Plasmid vector containing HLA-B*18:160 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:160 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:160 protein under different cellular conditions.	Inquiry
HLA-B*18:161 Genomic Plasmid Vector	PHLAG82512014	Plasmid vector containing HLA-B*18:161 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:161 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:161 protein under different cellular conditions.	Inquiry

HLA-B*18:162 Genomic Plasmid Vector	PHLAG82512015	Plasmid vector containing HLA-B*18:162 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:162 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:162 protein under different cellular conditions.	Inquiry
HLA-B*18:163 Genomic Plasmid Vector	PHLAG82512016	Plasmid vector containing HLA-B*18:163 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:163 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:163 protein under different cellular conditions.	Inquiry
HLA-B*18:164 Genomic Plasmid Vector	PHLAG82512017	Plasmid vector containing HLA-B*18:164 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:164 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:164 protein under different cellular conditions.	Inquiry
HLA-B*18:165 Genomic Plasmid Vector	PHLAG82512018	Plasmid vector containing HLA-B*18:165 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:165 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:165 protein under different cellular conditions.	Inquiry
HLA-B*18:166 Genomic Plasmid Vector	PHLAG82512019	Plasmid vector containing HLA-B*18:166 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:166 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:166 protein under different cellular conditions.	Inquiry
HLA-B*18:167 Genomic Plasmid Vector	PHLAG82512020	Plasmid vector containing HLA-B*18:167 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:167 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:167 protein under different cellular conditions.	Inquiry
HLA-B*18:168 Genomic Plasmid Vector	PHLAG82512021	Plasmid vector containing HLA-B*18:168 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:168 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:168 protein under different cellular conditions.	Inquiry
HLA-B*18:169 Genomic Plasmid Vector	PHLAG82512022	Plasmid vector containing HLA-B*18:169 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:169 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:169 protein under different cellular conditions.	Inquiry
HLA-B*18:170 Genomic Plasmid Vector	PHLAG82512023	Plasmid vector containing HLA-B*18:170 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:170 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:170 protein under different cellular conditions.	Inquiry

HLA-B*18:171 Genomic Plasmid Vector	PHLAG82512024	Plasmid vector containing HLA-B*18:171 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:171 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:171 protein under different cellular conditions.	Inquiry
HLA-B*18:172 Genomic Plasmid Vector	PHLAG82512025	Plasmid vector containing HLA-B*18:172 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:172 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:172 protein under different cellular conditions.	Inquiry
HLA-B*18:173 Genomic Plasmid Vector	PHLAG82512026	Plasmid vector containing HLA-B*18:173 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:173 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:173 protein under different cellular conditions.	Inquiry
HLA-B*18:174 Genomic Plasmid Vector	PHLAG82512027	Plasmid vector containing HLA-B*18:174 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:174 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:174 protein under different cellular conditions.	Inquiry
HLA-B*18:175 Genomic Plasmid Vector	PHLAG82512028	Plasmid vector containing HLA-B*18:175 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:175 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:175 protein under different cellular conditions.	Inquiry
HLA-B*18:176 Genomic Plasmid Vector	PHLAG82512029	Plasmid vector containing HLA-B*18:176 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:176 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:176 protein under different cellular conditions.	Inquiry
HLA-B*18:177 Genomic Plasmid Vector	PHLAG82512030	Plasmid vector containing HLA-B*18:177 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:177 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:177 protein under different cellular conditions.	Inquiry
HLA-B*18:178 Genomic Plasmid Vector	PHLAG82512031	Plasmid vector containing HLA-B*18:178 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:178 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:178 protein under different cellular conditions.	Inquiry
HLA-B*18:179 Genomic Plasmid Vector	PHLAG82512032	Plasmid vector containing HLA-B*18:179 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:179 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:179 protein under different cellular conditions.	Inquiry

HLA-B*18:17N Genomic Plasmid Vector	PHLAG82512033	Plasmid vector containing HLA-B*18:17N genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:17N allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:17N protein under different cellular conditions.	Inquiry
HLA-B*18:18:01:01 Genomic Plasmid Vector	PHLAG82512034	Plasmid vector containing HLA-B*18:18:01:01 genomic sequence including 5'-UTR, exons, introns and 3'-UTR. This plasmid can be used as a reference standard in HLA typing assays to validate the accuracy of genotyping methods for HLA-B*18:18:01:01 allele. The plasmid vector can also be used for in vitro studies investigating the expression kinetics and post-translational modifications of HLA-B*18:18:01:01 protein under different cellular conditions.	Inquiry
